"ALL this talk as to what disposition shall be made of the Itata is premature. First catch your hare."
 An exchange says that since the 1st of January 153 men in positions of trust have stolen \$4,000,000 and been caught at it.
 It now looks as if the Florida Legislature will adjourn without having elected a successor to U. S. Senator Call. In that event Governor Fleming will appoint the Senator.

The Washington Post says: "A careful survey of the field shows that the Republicans favor third parties in Democratic States, while the Democrats take kindly to the idea in Republican States."
 EASTERN men, at Cincinnati, want this plank adopted on the Silver question—that the conference favors "the restoration of silver to the position it occupied before 1873, viz, on an equality with gold as a monetary standard of value."
 THE unanimous voice of the American press is in favor of restricting foreign immigration to a very narrow limit, if not to entirely cut it off. In the language of the Norfolk Landmark, "there is no longer any demand here for the importation of men and women."
 MAXIM is very sanguine of success with his airship. In a late conversation he said, "If I can rise from the coast of France, sail through the air across the channel, and drop half a ton of nitro glycerine upon an English city, I can revolutionize the world. I believe I can do it."

The Kansas delegation to the Cincinnati convention numbers 800 persons, representing seven organizations, viz, the Farmers' Alliance, the Citizens' Alliance, the Peoples' Party, the Knights of Labor, the National Industrial Alliance, the Anti-monopoly Party, and the Single Tax men.
 REPORTS from the convention now in session at Cincinnati indicate the formation of a third party. The convention will not nominate a national ticket for 1892, but an effort will be made to get things into such shape that it will be an easy matter to take action in that regard next year.

MAXIM, the famous gunmaker, has invented a real flying machine. A large airship is now being built of silk and steel which will carry passengers and rush through the upper atmosphere at ninety miles an hour. Maxim says, "I have spent \$45,000 already upon it, and I did not enter upon the work until I was convinced that the idea was practical."

The Minneapolis Journal says: "It has been definitely decided that the announcement, editorially, in the New York Herald of its championship of Mr. Blaine was simply the costly advertising dodge of a couple of soap men, whose names are inwrought in the paragraph. The Herald's new departure in the "ad" line has fooled a good many able editors. Bennett got \$100 a line for that matter."

HOUDON'S "Washington," at Richmond is universally admired. Indeed it is regarded as the masterpiece of the most illustrious French artist. At a meeting in Washington, of a committee of American women, at the house of Mrs. Justice Field, the ladies voted unanimously that a copy of Houdon's statue, in Richmond, Va., should be made as the gift to the French republic. It will be bronze and will be put up in some public place in Paris.

 We have been shown the gold medal given by Prof. F. E. Morton to be awarded to the scholar of the musical department of the New Berne Collegiate Institute who makes the greatest progress. It is a handsome lyre with a wreath and a place for the name of the successful contestant to be engraved. The decision will be rendered and medal awarded at the concert of the musical department to be held June 5th.
 Posters are out announcing that "Hon. John H. Williamson, secretary of the North Carolina Colored Industrial Association will address the people of New Berne" tonight. He is to speak in behalf of the colored department of the Exposition to be held at Raleigh next fall. It is intended also to effect a county organization tonight. Our colored people took much interest in their Fair here last year and we judge they will turn out largely tonight. It is encouraging to see them making such efforts. White people are also invited to attend the meeting.

DIOCESE OF EAST CAROLINA.
 Eighth Annual Council.
 FIRST DAY.
 The Council was called to prayers by the Rt. Rev. Bishop of the Diocese, after which the roll of clergymen and delegates was called by Rev. N. Harding, secretary of the Council. Twenty-two clergymen and lay delegates from twenty-one parishes and missions were found to be present.

 It was also agreed that Rev. Theo. I. Halcomb, financial secretary of the Clergyman's Retiring Fund Society address the Council in the interest of that society this afternoon at half past five o'clock.
 On motion of Dr. W. H. Green all visiting clergymen were invited to seats in the A. J. DeRossett this resolution was so amended as to invite Rev. T. N. Skinner to take part in the deliberations of the Council, but not to vote, as his connections with the Diocese being of a shorter time than the canons require.
 On motion of Rev. Mr. George the daily sessions of the Council were set as follows: Morning session ten to one o'clock. Afternoon, four to seven, and evening at half past eight. Recess was then taken for Divine service.
 The opening sermon was delivered by Rev. Robert Strange from a part of the thirty-eighth verse of the eighteenth chapter of the Gospel by St. John, "Pilate saith unto him, what is Truth?" together with the fourteenth and fifteenth verses of the third chapter of the First Epistle to Timothy.

JIM THE SCRATCHER.
 Glorifies the New Berne Fire Department.

Our fire department has a grand reputation for quickness and efficiency, and it deserves it. If none but New Bernians had expressed this opinion it might leave ground for a suspicion that self interest had something to do with forming it—that to some extent "the wish was father to the thought," but when such commendation comes from a distance such cannot be alleged, and the department has received very favorable mention in other North Carolina cities and now we can show our readers what is said of them in another State.
 A Virginia gentleman, "Jim the Scratcher," is an able, widely known and well informed newspaper correspondent, and was here last week. He is an old, experience fireman—was one way back in the '40s, and he holds the oldest exempt certificate in his State. He speaks thus of our department:
 NEW BERNE, N. C., May 15, 1891.
 I am satisfied that New Berne, N. C., all other things being equal, has the champion fire department of the world and I know whereof I affirm, and hold the firemen's documents to prove it, exempt in 1856.
 She has two steam engines—Atlantic No. 1 and New Berne No. 1; the former a Sibley, the latter a Button. The Atlantic holds the record of the world, can heat and take water and throw through fifty feet of hose in two minutes and fifty-two seconds. The New Berne can do the same thing in 3:10. Every contrivance and application for celerity on the Atlantic are inventions of the engineer and officers of the company, from super-heater to injection; a secret of their own, and which thousands can't buy, and which Sibley, the patentee of the engine, has tried hard to get by trying to play Tom Cox's traverse—"wing it." The New Berne department is the pride and glory of the old volunteer fire department; most all of it works for glory and the protection of its fellow citizens. E. M. Pavie, of New York, who had for his Gamaleis such men as Decker, Bonner, Baucht and other "fire kings," is the chief of the department, and it is a department—perfect in every detail for fighting fire as a science. I'll recommend a visit of our fire commissioners to gain information and knowledge to New Berne, for in celerity and practical fact it stands the superior even of New York, on time, for the first five minutes at a fire is death to a devouring element. Our department has flies on it, in comparison, and will have until the Councils realize the necessity of an efficient department in all its elements, which it cannot have without "aid and encouragement" in order to make it effective and efficient. JIM THE SCRATCHER.

IN MEMORIAM.
 Frank and Walter Duffy—the short lives of these two little boys deserve more than a passing notice.
 A little over a year ago Frank died; and on last Saturday 16th of May 1891, Walter's spirit passed into the company of his brother to be "forever with the Lord."
 Frank was attacked by diphtheria, and in a very few days yielded to death. Walter was afflicted with a spinal trouble which lasted most of his little life, and resulted at last in meningitis. In the events of every day life we are often reminded of some old adage. In the death of these two children, one about four and the other three years old, we are reminded of that old saying, "Death loves a shining mark." These two children were beautiful in face and (especially Frank), and bright in mind. If what Milton says be true: "The childhood shows the man As morning shows the day," then what these two boys might have become had they lived to manhood we can better imagine than describe.
 But they have not lived in vain. Theirs was not a wasted life. They accomplished some good by their short stay on earth. And who can doubt but they can better serve the purpose of an All Wise God where they are? Their earthly life is ended, but not their earthly mission. In her dark night of sorrow, the bereaved mother (the Lord comfort her) may feel that "Angel faces watch my pillow, angel voices haunt my sleep, And upon the winds of midnight shining pinions round me sweep; Floating downward on the starlight two bright infant forms I see They are mine, my own bright darlings come from heaven to visit me. One earthly child still smiles upon me, but these little ones above Were the first to stir the fountains of a mother's deathless love, And I cannot feel forsaken, tho' left of earthly love, Angel children call me 'mother,' and my soul will look above.

DUFFY'S CROUP SYRUP.
 Recipe of the late Dr. Walter Duffy.
 DIRECTIONS:—Dose for a child two or three years old, one teaspoonful for a child three months old, ten drops; for a child six months old, twenty drops; for one twelve months old, nearly half a teaspoonful—repeating these doses frequently if necessary until relief is procured.
 This is to certify that I have used DUFFY'S CROUP SYRUP in my family for over six months and I believe it to be the most excellent remedy for croup with children, especially as a preventive. Our youngest child had a severe attack of croup about a year ago, inasmuch that we felt anxious about its recovery, but was successfully treated by our physician, but thinking it probable that other children might follow we frequently used DUFFY'S CROUP SYRUP and the child had no marked symptoms of croup at all, and I believe it is due to the use of the Croup Syrup, and we now keep a bottle of it at home of all times, and I cheerfully recommend it to all. R. H. BARNUM.
 Also very effectual in relieving coughs and colds. PREPARED AND SOLD BY
