

PUBLISHERS' ANNOUNCEMENT

THE DAILY JOURNAL is published daily, except Monday at \$2.00 per year; \$2.50 for six months. Delivered to city subscribers at 50 cents per month.

THE WEEKLY JOURNAL is published every Thursday at \$1.50 per annum.

Notices of Marriages or Deaths not to exceed ten lines will be inserted free. All additional matter will be charged 50 cents per line.

Payments for transient advertisements must be made in advance. Regular advertisements will be collected promptly at the end of each month.

Communications containing news of sufficient public interest are solicited. No communication must be expected to be published that contains objectionable personalities, or withholds the name of the author. Articles longer than half column must be paid for.

Any person feeling aggrieved, at any anonymous communication can obtain the name of the author by application at this office and showing wherein the grievance exists.

THE JOURNAL.

E. E. HARPER, - Proprietor.
C. T. HANCOCK, - Local Reporter.

Entered at the Postoffice at New Berne, N. C., as second-class matter.

The Troy (N. Y.) Press says that execution by electricity is a failure.

The number of admissions to the Paris Exposition of 1889 was 28,142,353, and the receipts \$8,300,000. The managers of the Chicago Columbian World's Fair expect to beat this record.

It is estimated that there are fully 8000 families who live in shanty boats along the Ohio river, floating along from town to town, and feeling as happy as though they owned the earth.

Senator Hawley of Connecticut estimates the value of destructible property in New York city, which might be imperiled by a foreign war fleet, at \$1,855,000,000, and in the eight chief seaport cities of the Atlantic coast at \$4,500,000,000.

Some idea of the immense strides made in all sporting lines may be gained, observes the New York Recorder, when it is noticed that a recent estimate on the cycling property in the United States places the total valuation at over \$15,000,000.

The regular army having entered upon its second century is old enough, thinks the Boston Transcript, to have regiment histories written. The fourth Infantry has the unique honor of having had among its officers two presidents—General Grant and General Taylor.

Kansas is already pretty well supplied with railroads. Illinois has something more than 10,000 miles—Kansas comes next with nearly 9000 miles, then Texas, Iowa and Pennsylvania, with approximately 8500 miles each. In proportion to population and business, declares the Chicago Herald, Kansas has in fact more mileage than any other State in the Union.

Fourteen women, who have been studying law in a special class under the University of the City of New York, passed their examination recently, and received their certificates. They do not expect to practice law, states the New York Independent, but are studying the science, as women are studying everything new, just for the fun of it—an admirable reason, but one which only indicates that what they do simply for the love of knowledge, others will do more and more in view of earning a livelihood. Women lawyers are now no novelty; and considering that the veteran David Dudley Field gave a parting address to this class, we may see that the opposition to their invasion of the field is no longer to be feared.

Men and acres are the raw materials of cities. And New York, says the Times of that city, has so many more men and so many fewer acres than her rivals that the comparison is startling if viewed with a prophetic eye.

	Population.	Acres.	Persons per Acre.
London, (Police District).....	4,764,312	441,587	11
Philadelphia.....	1,046,064	83,200	12
Chicago.....	1,068,576	96,000	11
New York.....	1,515,301	25,780	59

It thus appears that on one-third the territory of Philadelphia, New York now accommodates a half million more population. Making comparison with London, it appears that while London has seventeen times larger territory it has only about three times greater population. In other words, New York is approximately on the average throughout its entire area now six times more crowded than London. If the entire area of New York were settled with the average density of London its population would be under 300,000. The point which is sought to be made is that New York is full today, with no allowance for the demands of tomorrow.

SCIENTIFIC SCRAPS.

It has been found that an electric current will sour milk.

Modern humanity has larger heads and shorter legs than the ancients.

The velocity of electricity has been found by the revolving-mirror method to be nearly one-half that of light.

In France hard water has been successfully made soft by means of electrolysis, the method used being comparatively inexpensive.

Mr. Berthelot has proved by experiments that there is no foundation for the belief that the earth absorbs and retains more carbonic oxide than other gases.

The dust collected by a small patch of snow between November 27 and December 27 last indicates that 1000 tons of soot settle monthly on the 110 square miles of London.

The result of the efforts made to preserve piling by a process of creosoting is very satisfactory, and shows that the wood is kept in as good a state as when first put in the water.

An Italian scientist, who is studying the hygienic influences of bacteria in the streets of large cities, has discovered that a drop of Naples' mud contains from five millions to five thousand millions of microbes.

Further experience with the schæphone have proved that it is not reliable for the detection of flaws in castings and forgings, the purpose for which it was designed, and for which so much was claimed a few months ago.

At Mont Del, in Brittany, the remains of about 100 elephants have been discovered, gathered on a small surface of about 1900 square meters. All the bones are broken, and it is thought that the animals must have been eaten by prehistoric men.

It has been concluded that with a balloon 300 feet long, with a maximum diameter of 55 feet, a speed of 25 to 30 miles can be attained. At the same time it is thought that the problem of flight is more likely to be solved by means of an aeroplane than with the balloon.

The increased use of incandescent burners has greatly augmented of late the production of several rare minerals. Thus in a recent report upon the mineral resources of this country it was stated that in one year there was sold 25 tons of zircon, four tons of monazite, one ton of allonite, 690 pounds of samarskite and \$500 worth of vitrium compounds.

A French physician has discovered that the cause of articular rheumatism is to be found in a specific micro-organism. This microbe Dr. Bordas has isolated and cultivated, and has injected it into the carotid artery of rabbits. The effect of such injection is observed in inflammation of the lining of the heart, accompanied by vegetations upon the valves.

The expedition sent out by the Vienna Academy of Science to explore the Mediterranean found its greatest depth to be something over two and a quarter miles, between Molla and Cerigo. On the African coast, where the water is clearer, white metal plates could be seen at a depth of 144 feet. Sensitive plates were acted upon by the light at a depth of over 1600 feet.

A search light for railway purposes was tested recently by the electrician of the New Jersey Central Railroad. One Huntington light of 3200 candlepower was mounted on the switch signal bridge, twenty feet above the track. As a result the bricks could be counted in a station building one-third of a mile away; when turned on the track the ties could be counted to the same station. Colors were plainly distinguished at a half-mile distance. At 1500 feet it would enable an engineer to tell the position of switches. The reflector was shaped like those of locomotive headlights, silver-plated and highly burnished.

A Bible With 168 Pins in it.
It was a Bible, a family Bible, a well-worn family Bible—the Bible of an old lady who read it, and walked by it, and fed on it, and prayed over it for a long life-time. As she grew older and older, her sight began to fail, and she found it hard to find her favorite verses. But she could not live without them, so what did she do? She stuck a pin in them, one by one, and after her death they counted 168.

When people went to see her she would open her Bible, and, feeling over the page after her pin, would say: "Read there," or "read here," and she knew pretty well what verse was struck by that pin. She could indeed say of her precious Bible: "I love thy commandments above gold, yea, above fine gold; they are sweeter to me than honey and the honey-comb."—[Detroit Free Press.

A GREAT BARGAIN!

327 ACRES

WILL BE SOLD AT A

GREAT SACRIFICE!

A VALUABLE PLANTATION situated on the South side of the Neuse river, three and-a-half miles from the City of New Berne, N. C. One hundred and twenty-five acres cleared.

Good Land, suitable for Trucking, Tobacco Raising, or any kind of farming.

The balance, two hundred and two acres, heavily timbered with pine, oak, cypress, and other kinds of timber.

It is also fine Grazing Land.

Good dwelling, outbuildings, and a fine orchard. It has a fine FISHERY fronting half mile on the beach, where there are high banks of marl that can never be exhausted, from which vessels can load with ease.

It is a very beautiful and healthy location, presenting a near view to the passing vessels and the A. & N. C. Railroad. For terms apply to

AVERILL PAINT
OUTWEARS ALL OTHERS

Then isn't it the best and most economical? If Mr. Show buys an untested article and has to paint four times in a life-time, and you buy the "Averill" and paint but once, do you not save 75%? Averill Paint has a beautiful history. It improves the appearance and increases the value of your buildings. It has been tested by time, for it's been in use 25 years. Sample card of fashionable tints and positive proof of the durability of Averill Paint to any address. SEND FOR THEM, 22 Bowling Slip, New York.

L. H. CUTLER,
New-Berne, N. C.

The Champton Hotel Boat.

The fellow had no baggage when he registered first at the Markham House last week, but had a very glib tongue and told such a plausible story that he was permitted to register and given a room, says the Chattanooga Times. He was well dressed and a very pleasant spoken fellow, and his bar bill soon assumed startling proportions. The hotel people became alarmed, and after he had been there several days a party stopping there told them he was a beat. The clerk fixed up a scheme, and that evening he got into the fellow's room on some pretext after he had retired and, calmly gathering up the fellow's coat, vest and pants, told him they could be redeemed at the office for the amount of his bill.

The fellow's nerve did not desert him even in this extremity. He borrowed a mackintosh coat from the clerk, which reached to his heels, which he put on over his under-clothing, in order to go after some money, and walked to the Kimball House, where he boldly registered and was shown to a room, leaving word that when his baggage arrived it was to be kept until he got up in the morning.

At about 8 o'clock in the morning he came jumping down-stairs, making a great noise, with a tale of robbery, in which he had lost his clothes and \$85 in cash. The hotel management, without stopping to investigate the fellow, got him a new suit of clothes and paid him \$85, rather than have such notoriety attached to the house. The fellow then walked back to the Markham House, paid his bill, obtained his clothes, and jumped out of town.

Unappreciated.

Mrs. Quilty (who has presented Quilty with a pair of earmuffs)—How yez thim on yez, John?
Mr. Quilty—O! hov, Kathie; but th' felly that would yez thim specs chated yez. Sorra th' ting Oi kin see!—*Judae.*

THE DURHAM CONSOLIDATED Land and Improvement Co. DURHAM, N. C.

J. S. CARR, A. B. ANDREWS, R. H. WRIGHT, President, Vice-President, Sec'y and Treasurer.

A MOST LIBERAL and REMARKABLE ANNOUNCEMENT.

The "Consolidated" Contois **285 ACRES**

of Land immediately adjoining The Campus of Trinity College, which has been surveyed into

LOTS 50 BY 140 FEET.

The Lots are well located and are situated upon

Streets 60 Feet Wide with a Rear Alley of 20 Feet.

The location is admirable for Stores, Restaurants and Dwellings. Persons desiring to "buy or build" in order to educate their boys can do no better than buy one or more of these lots.

IT IS THE PURPOSE OF THE CONSOLIDATED TO OFFER, for the present only,

800 OF THESE LOTS,

and to guarantee that when the 800 Lots are sold, to erect upon some suitable portion of the property, sufficiently far removed from the residential portion, one modernly-built, well-equipped Cotton Factory, to cost \$100,000, and to supply the Cotton Factory with a CASH WORKING CAPITAL of \$35,000, making total outlay for

COTTON FACTORY, \$125,000

One Knitting Mill for the manufacture of Hosiery, Underwear, &c. to cost \$50,000, and to supply the Knitting Mill with a CASH WORKING CAPITAL of \$25,000, making total outlay for

KNITTING MILL, \$75,000

A GRAND TOTAL OF

\$200,000 IN IMPROVEMENTS

in the line of Industrial Enterprises upon the property.

TO EVERY PURCHASER

of \$400 of this magnificent property, the "CONSOLIDATED" will

Present } FIVE SHARES, PAR VALUE \$25 PER SHARE, - - - \$125

full paid and non-assessable in the Cotton Factory, and

THREE SHARES, PAR VALUE \$25 PER SHARE, - - - \$75

full paid and non-assessable in the Knitting Mill, - - - \$200

Making a return to each Purchaser of \$400 of the Property, of \$200, well invested in Good Industrial Enterprises.

For every dollar invested in West End Town Lots, adjoining the Trinity College property, the purchaser realizes 60 per cent. in First-Class Industrial Enterprises, which will enhance the value of his investment.

The "CONSOLIDATED" confidently believes that the above is the most liberal and at the same time the most legitimate offer that has come before the public. In fact the offer is so liberal that we do not hesitate to say that in our opinion, the opportunity will be promptly taken advantage of by those who have been waiting for the BEST, or persons desiring to secure first-class educational advantages for their boys, on the most advantageous terms.

Maps showing the property and Price List of the lots cheerfully furnished on application to

REMEMBER

that every purchase of \$400 carries eight shares of Stock in two well Equipped Industrial Enterprises par value of \$200.

A POINTNER.

In buying a lot you are also making an Investment, the Dividends upon which will most likely aid materially to educate your boys.

A HINT.

The building of two large Industries upon the Property, and the completion of Trinity College ought largely to enhance the value of the lots.

A SUGGESTION.

Now is the time to purchase. The lots may all be gone if you wait, and you will miss the opportunity of buying from first hands.

WE RECOMMEND SEZAND HERBIE as THE BEST LIVER MEDICINE

CHILL CURE.

CHEAPEST MEDICINE KNOWN CONSIDERING QUALITY AND SIZE OF DOSE. IT WILL ALSO CURE BILIOUSNESS, DYSPEPSIA, AND CHRONIC CONSTIPATION.

R. BERRY,
