WASHINGTON, July 8.—The decision of Judge Ross in the United States Distriot court at San Diego yesterday dis-missing the libel against the schooner Robert and Minnie, which vessel sup-plied arms to the Itata, was a great surprise to the officials in Washington. It was generally believed that the case against her was much stronger than that which could be made out againt the Itata, and notwithstanding the reservation made by Judge Ross in his decision, it is felt that his action will cause a failure of the original libel lodged against the Chilian vessei. although she may still be held on some technical charge connected with her escape while under legal detention. The expenditure, direct and indirect, in the chase of the Itata, is estimated to run up closely in the neighborhood of \$100,000.
