EX PRESIDENT HALL of the Missouri Farmers' Alliance is preparing for war on the Sub-treasury and Third party schemes.

GREAT BRITAIN and Ireland are visited by severe storms. Crops in many places are ruined and there have been many wrecks on the coasts.

MR. CLEVELAND and Mr. Blaine are to meet on the Presidential field in 1892. Every good Democrat will welcome the contest with delight.—Harrisburg Patriot.

PHILIP D. ARMOUR is said to be the largest individual commercial operator in the world. His transactions last year reached the enormous aggregate of \$63,000,000.—Baltimore Herald.

The fact is the tariff is the cause, the prime cause, the controlling cause, of all the evils from which the people and particularly the farmers are suffering. The Government puts a tariff on every article which the farmer buys. As soon as he is born the taxes begin and they stay with and stick to him till he is dead.—Charleston News & Courier.

The condition of the Republican party in New York may be inferred from the fact that the only man who will consent to take the gubernatorial nomination admits that he knows nothing about politics, and that the leading Republican organ of the West—the St. Louis Globe-Democrat—says he would be defeated by 60,000 majority.—Chicago Mail.

There are two classes of reformers in the world who appear to do more harm than good, but they should be judged leniently. Those who would do away with the Christian religion and those who would abolish the jury system. Both classes can be demolished with a brief sentence of inquiry, namely: What that is better would we have in place of these institutions? The good that these cranks do is this—their opposition serves to emphasize and illustrate the value of that which they would destroy.—Norfolk Landmark.

Who is Macune? An ex-Republican. He is a Republican today. Born in Wisconsin, he eventually floated to Texas, where he found the people half crazy, got into the Alliance Exchange at Dallas, which had about \$75,000, which soon went, and he went, too. He didn't run away. He only went to the national capital, where there was a bigger field. There he made himself chairman of the National Alliance Legislative Committee—he and Alonzo Waddell, of South Dakota. He was also appointed chairman of the National Alliance Executive Committee, so that he works the bosses, the making and and executing of laws. He was then the great I am. He issued orders and cracked his whip. Gentlemen if God Almighty ever stamped villain on the face of any man when he sent him out to warn an unsuspecting world against him, He did it when he created Macune. "He has an eye like a serpent, a countenance like a fox, with the nerve of a lion and the honesty of a penitentiary convict."—Gov. Tillman.

The grass on the New Berne Collegiate Institute campus is being mown down preparatory to the re-opening of the school Monday morning.

Yesterday the A. & N. C. R. R. commenced building the branch line to Mr. C. J. Schoelley's mill over the route which he recently graded for it.

It is a little singular that exchanges in a newspaper office should be looked upon by some people as public property and what is worse they never fail to get those who meet value.

Cotton season is nearly here. On Pam-broke road near the city there are a few acres owned by Laura Fort, a colored woman, that is opening rapidly and she says she will commence picking in a week.

Mr. Wm. Gaskins has a long and prolific pumpkin vine in his garden. It has yielded 80 pumpkins, a number of them large ones. He thinks of taking them all to the Fair to show what one vine can produce.

Messrs. Hackburn & Willett sold 60 acres of trucking land around the National Cemetery yesterday to Bishop Petty for a large increase over what they paid for it four years ago.

Kinsey Female Seminary of La Grange opened Monday with increased attendance and very bright prospects. The outlook is that the coming term will be the most flourishing the school has ever known. This is a first class school and deserves the success it is attaining.

The Goldsboro Fair opens on the 15th inst to continue three days and the one at Elizabeth City on the 16th to continue the same number of days. These are neighbor Fairs and we hope that all who can will attend. The programs promise interesting exhibits and the convenience for transportation are all that could be desired.

Cotton Mills of the State.
Mr. John Robinson, Commissioner of Agriculture, makes a fine showing for our cotton factories. There were just after the war sixty mills in the State. In 1890 they had increased to 110 and in this year there are 134 cotton mills in operation in North Carolina. This is more than an average of one factory for each county in the State and yet Craven, one of the oldest and wealthiest counties has not a single mill in it for working up its fabrics. How long will our people let this unsatisfactory condition of affairs continue?

People That Come and Go.
Mr. John Ellis, Mr. and Mrs. C. E. Slover and Mrs. E. B. and Miss Lizzie Ellis left to spend a few weeks at Black Mountain.

A Wandering Worker.
Mr. Frank Hoffman, a young man of Burlington, Ohio, states that he had been under the care of two prominent physicians, and used their treatment until he was not able to get around. They pronounced his case to be Consumption and incurable. He was persuaded to try Dr. King's New Discovery for Consumption, Coughs and Colds, and at that time was not able to walk across the street without resting. He found, however, he had used half of a dollar bottle, that he was much better; he continued to use it and is today enjoying good health. If you have any throat, lung or chest trouble try it. We guarantee satisfaction. Trial bottle free at F. S. Daily & Sons.

THE FUGITIVE PRESIDENT.

Cables to a Friend in Europe that He is Coming.

PARIS, Sept. 1.—A retired English officer has received a telegram from Balmaceda announcing that he will start for Europe at the first opportunity.

RAILROAD NEWS.
Mr. ARRY N. C., Sept. 1.—A civil engineer of the North Carolina extension of the Norfolk and Western railroad, from Iron Bridge, Va., stated here today that a cablegram had been received from President Kimball saying that he had procured a loan of \$7,000,000 of English money, which would allow him to push to completion the North Carolina extension, which has been surveyed to the State line where it was to connect with the Cape Fear and Yadkin Valley. The grading of the road has been let to contractors in sections of four miles. It is also stated on good authority, that the Norfolk and Western has purchased that part of the Cape Fear and Yadkin Valley between the State line and Mount Airy in order to make this city the junction of the two roads.

The Situation in Chile—Balmaceda May Rally.

NEW YORK, Aug. 29.—At the office of William R. Grace today, the following cablegram was received from Valparaiso: "Complete victory of the opposition. All well."

GREEN & CO.
Messrs. Flint & Co. when called upon said, through Mr. Flint, that the firm had received a cablegram confirming the defeat of Balmaceda's forces. Mr. Flint added, however, that Balmaceda's forces were still larger than those of the insurgents, and that it was not at all improbable that Balmaceda would gather together his scattered forces and give the insurgents another battle.

The Direct Tax Claims.
A Raleigh special says: Governor Holt devotes a great deal of his time to the settlement of the direct tax claims. He has thus far issued warrants for \$150,000 of the \$124,000 which the government refunded.

Cut Down the Weeds.
ED. JOURNAL.—The weeds on King and East Front are now of rank growth, many of them are five feet high, and are now a nest for mosquitoes, and one was killed very recently opposite the house of Mr. Gaskin's corner East Front and King. The reason given for not cutting down the weeds, is, that it will cause malaria. In answer we state, that we prefer the malaria to the snakes. The idea that denuding the streets of a few weeds, will cause malaria, is to us, absurd. That portion of the town needs work on the streets, the people on those streets pay taxes, and expect the authorities to dispense a portion of it in keeping the streets in better order. EAST FRONT.

Death of a Noted Colored Man.
CHARLOTTE, N. C., Sept. 1.—Old John Henderson, the "Democratic nigger," and "the sheriff Pinchot," as he was familiarly known, is dead. His death occurred yesterday afternoon. Old John was a real Democrat and voted the ticket at times when he knew that to do so he took his life in his hands. He had dozens of fights over the character of his ballots, but he always managed to survive. Six years ago John was out and stabled in half a dozen different places, and came near dying. His body shows numerous scars, all received in the cause of Democracy. The Democrats made up a purse to give him a fitting burial.

Leaves for New Berne.
Our society people regret very much that Prof. Bellezza leaves us this week. He goes to New Berne to teach the young people there the Terapichloro art. He has been with us three months on this visit and renewed the strong ties that always bound him to Washington. All delight to have him in our midst from the youngest to the professional dancers for he taught them all. We shall miss him, and the only favor we can bestow is to favorably command him to the people wherever he may go. He knows how to teach dancing and polite etiquette, and his instruction here has given general satisfaction.—Wash. Gazette.

BALMACEDA TRIES TO FLEE.

The Congressional Party in Complete Possession an Editor is Shot.

NEW YORK, Sept. 1.—A special to the World dated August 31st, says: Balmaceda is supposed to have been endeavoring to escape from San Antonio in the Amirante Condell, which was seen off that port this morning. The Esmeralda and Acosagua have gone out to intercept the Condell. It is supposed that Balmaceda's intention is to meet the Imperical at Talcahuano and escape to Montevideo.

The property of Balmaceda will be confiscated to pay the paper issues of the Dictator. The banks have been temporarily closed for the inspection of the books in order to ascertain the amount to the credit of Balmaceda and his satellites.

The city is quiet. The mercurial slaughter of rioters and incendiaries has effectively suppressed all disturbances. There is little likelihood that the peace of Valparaiso will be again broken. No foreigners were hurt or killed in the riots.

The congressionalists are determined to repress all treasonable utterances by word and in writing. They have made an example of Leon Lavie, the editor of the Balmacedian newspaper, the Journal Eco Comercio. He was shot yesterday for issuing seditious pamphlets, and his fate will be that of any persons of the lost cause who seek to inflame the popular mind against the victors.

The explanation of the riots at Santiago is that when Balmaceda delivered the capital to Baquedano, who was charged with handing it over to the congressionalists, there were not sufficient troops in it to maintain order. The populace, enraged by the severity of Balmaceda's rule under which they had been chafed, abused the liberty which came to them with the change of power. The mob looted his post up fury. It would have gone hard with Balmaceda if he had taken into the hands of the citizens. He found the city in a state of anarchy, as was the case with the rest of the country, and the railroad station was wrecked.

TRAIN IN FLAMES.
Another Serious Wreck—Five Killed, Thirty Wounded.

EVANSVILLE, Ind., Sept. 1.—A heavy railroad wreck occurred on the I. & M. St. Louis road at 101 City this morning. The train went down an embankment twenty feet high. Five persons were killed and a number were seriously injured. The train was on fire and is now a scene of flames.

St. Louis, Mo., Sept. 1.—Ex-President U. S. Hall, of the Missouri Alliance, has issued an appeal in the shape of a circular letter addressed to all the sub-treasury leaders throughout this and other States, asking them to meet and select delegates to the national meeting of the anti-sub-treasury brothers to be held in this city September 15. Ex-President Hall is making a hard fight. His stand is said to have strengthened him considerably. He declares the sub-treasury scheme is a measure to ruin the Alliance, and he will use every endeavor to avert the impending disaster.

A New Half-mile Bicycle Record.
SPRINGFIELD, Mass., Sept. 1.—P. J. Berle, of the Manhattan Athletic Club's bicycle team, broke the American record for the half mile on the pneumatic safety at Hampden Park this evening making the distance in 1:03.5.

Big Figures on Cigarettes.
The revenue stamp collections at the Durham office for the month of August run away up in the pictures. The total amount is \$52,037.02. The cigarette stamps amount to \$31,000, equal to \$1,000 a day, counting the Saturdays. The exportation of cigarettes to foreign countries this month will be quite heavy.—Durham Sun.

Charged With Designs on Mexican Liberty.
SAN FRANCISCO, Aug. 31.—A private letter from the City of Mexico says that President Diaz is regarded by many as Mexico's Balmaceda, and the success of the Chilean insurgents is likely to encourage the large party which aim at the overthrow of the dictator of Mexico.

Bold Bank Robbery in Kansas.
KANSAS CITY, Aug. 31.—A daring and successful bank robbery took place today at Cordora, a small station on the Chicago and Alton railway, near Higginville, Lafayette county. At 2:30 o'clock this morning two men rode up to the bank, dismounted, walked to the bank, shut the door and locked it, and commanded the cashier to throw up his hands. He obeyed. One of the men kept him covered with a revolver, while the other went through the bank. He secured only \$600. Officers are in pursuit of the robbers.

The Tortures of the Inquisition inflicted by the dread Torquemada have admirable prototypes in the shape of chronic rheumatism and neuralgia. Attack these agonizing complaints before they reach the chronic stage with the superb blood purifier, Hostetter's Stomach Bitters, which will assuredly expel their virus from the life stream. To procrastinate is to encourage the growth of incipient rheumatism, which rapidly lightens its grip upon the system. It is the very octopus of diseases, and painful indeed is the clasp of its dreadful tentacles. Be prompt, therefore, take time by the forelock, always remembering that both rheumatism and gout, close relatives, are dangerous as well as painful. Debility, chills and fever, bilious remittent, dyspepsia, constipation, liver complaint, nervousness and kidney disease succumb to the Bitters. Appetite and the ability to sleep well are improved by it.
