It is asserted that Mr. Blaine is stronger than he has been in ten years.

PREPARATIONS are being made for the laying of cable from Jupiter inlet on the Florida coast to Nassau.

The Boston Journal thinks that Gorman will and ought to win the Democratic Presidential nomination.

The Richmond and Danville has offered a reward of \$10,000 for the arrest of the mercant who removed the rail that caused the wreck.

SECRETARY RUSK, has had a diplomatic triumph. The restriction against the admission of American pork into Germany has been removed.

THE Pope is a very sick man. The question of a successor is being agitated. It is said that he prefers an American, but the cardinals wish an Italian to be the head of the church.

THE sooner the Democrats who are members of the Alliance shall repudiate the demagogues who are seeking to lead them into the ditch the better it will be for them and the country.

GOVERNOR CAMPBELL is in New York. He speaks confidently of the result of the election in Ohio. The Governor has been sick for several weeks but hopes to open the canvass on the 17th, inst.

SKELTONS of British soldiers killed in the battle of Lundy's Lane have just been unearthed. With them were red coats, knives, tobacco pouches and other articles in good preservation.

THE British consulate at Yehang, China, has been destroyed by a mob which attacked the Europeans on the first of September. The French gunboat Aspic has left Kin Kiang for the scene of disorders.

ALL of our readers remember the disturbance in Tennessee caused by sending convicts to the mines. An arrangement was made including an agreement of the Governor to call the legislature together. He did so, and now the legislature decides that it is powerless to abrogate the penitentiary leases.

A SPECIAL from White Pigeon Mich., Sept. 4, says: The dynamite factory of F. A. Reynolds and Company near this place exploded last evening. It is estimated that there were about twenty tons of dynamite in the building, which was a three story brick. Scarcely a vestige of it remains. Sixteen workmen were completely annihilated.

THE Boston Herald says: They had a regular theatrical performance in one of the New York theatres Sunday night, but as the proceeds of the entertainment went to the families of the victims of the collapsed building it was all right. Charity covers a multitude of sins including Sunday theatrical performances.

That which is easy to do, though it may be worth doing, is not so important as that which is hard and disagreeable, and which therefore

### NEW ADVERTISEMENTS.

C. E. Slover, cream cheese.  
C. B. Hill, Timothy hay, etc.  
A. F. Moore, Notice.  
JOURNAL Office, old papers.

The steamer Newberne will sail from Old Dominion wharf at 2 p. m. on regular schedule.

Mr. J. A. Simpson began the erection of Mr. J. J. Diaoaway's residence adjoining Dr. Duffy's residence yesterday.

Mr. R. C. Kehoe has been appointed by United States Marshal J. B. Hill a deputy United States Marshal for this district.

Mayor Ellis has been appointed by Gov. Holt as delegate to the annual National Prison Association which assembles at Pittsburg, Pa., Oct. 10-15.

Rev. Robert Stille, of the Free Will Baptist denomination, will preach to-night, and also Tuesday, Wednesday, Thursday and Friday nights in Mr. Brice Anderson's workshop at the Long Wharf. The public are cordially invited.

The Raleigh correspondent of the Wilmington Messenger says that at least half a dozen Governors will attend the Southern Inter-State Exposition and any number of other distinguished gentlemen and of course the entire number of visitors will be the largest that Raleigh ever had. Many preparations for the event are being made in a social way.

John Simpson, who, through the parservation of Mayor Ellis and the detective sagacity of the Baltimore police force was caught there was brought back to the city by Policeman Gaskill. It was intended to try him before Mr. S. R. Street yesterday afternoon for the theft of Mr. E. Whitman's gold watch but at his own request to give him time for getting counsel the trial was postponed to this morning at 9 o'clock.

The snash, etc., are being taken out of the building in which Richardson & Son's job printing office was formerly located preparatory to moving it up to Judge Seymour's lot on Metcalf street adjoining Msj. A. R. Dennison's residence where it will be fitted up as a dwelling. Judge Seymour having purchased it at the auction sale to clear the lot for the erection of the public building.

**The Schools.**  
The New Berne Collegiate Institute, Graded School, Academy of the Sisters of Mercy and Miss Mollie Heats's school opened yesterday with good attendance for the first day. The Institute had over a hundred. A number of the parents of the pupils also were present at the opening. Rev. Rufus Ford conducted the opening religious exercises. The Graded School had 125 in attendance—a fine showing for it. Rev. A. A. Willis conducted the opening religious exercises.

**On the Warpath.**  
It is reported that trouble is brewing at the Pamlico oyster grounds. Gen'l Gaston Lewis has been surveying entries in Hyde county and has just left there and gone to Pamlico to continue his work there of locating the plots that had been taken up for the purpose of engaging in the oyster culture. Those who are opposed to such measures made threats that they would shoot him, so it is said at the first stake he struck to mark a boundary. Dr. F. P. Gates of Bayboro and Hon. W. T. Cahoon of this city, who have taken up grounds there are also included in the threats. Needing certain plots and documents from Bayboro, General Lewis went over after them, leaving his boat at Vandemere, and while he was gone thirteen rifle balls were fired through the sloop he was using. The sloop is Capt. Frisbie's. It is intended to arrest some who made threats.

**Weather Signals—Frost Warnings.**  
C. F. Von Hermann, Observer U. S. Weather Bureau Raleigh, N. C., has sent out a letter addressed to the tobacco growers of North Carolina in which he says the chief of the U. S. Weather Bureau is about to perfect a system of frost warnings for the benefit of the tobacco growers in this State. Bulletining the information, utilizing the press, railroad wires, telephones, etc., will form part of the general plan of giving these warnings to the people. Persons who wish to receive the frost warnings, are requested to correspond with Mr. Hermann.

Display stations will be established wherever a displayman can be secured who will purchase or make his own flag and display it from a tall staff for the benefit of the community or section. The cold wave flag (white flag, square with black centre) will be the frost warning symbol.

All the weather signals were formerly received in New Berne at the office of the A. & N. C. R. R., but for some unknown cause the bureau quit sending them. We are authorized by Mr. S. L. Dill, Superintendent of the railroad to say that the frost signals will be promptly displayed there whenever they are sent and not the frost signals only but the other weather signals also if the bureau chooses to resume the sending of them. We hope they will all be furnished.

### Coming and Going.

Prof. F. E. Morton returned yesterday morning from spending the summer in Morehead and Beaufort, and resumed his duties in having charge of the music department of the New Berne Collegiate Institute.

Miss Mary L. Allen of the Institute has returned from a visit to her parents in Salem, Va.

The following non-resident pupils entered the Collegiate Institute yesterday in addition to those we spoke of Sunday: Misses Carolina Tingle, of Reelsboro; Parthenia Hunter, of Standardville, Va.; Laura Switzer and Anna Rumley, of Beaufort, and Emma Hunter of Huntersville, and Messrs. Willie Mace, of Beaufort; Wm. A. Weeks, of Harlowe; H. N. Roper, of Hyde county, and Bradford McCotter, of Vandemere, Pamlico county.

Elder E. S. Hanes of the Adventist Church who has been preaching in the city, left to hold meetings in Kingston.

Mrs. Thos. Hall and her daughter, Miss Studie left to visit relatives in Kingston.

### AN OLD BILL.

Printed in New Berne Over One Hundred Years Ago.  
A special from Thomaston, Ga., to the Augusta Chronicle tells of a very old bill in that country. The Printer James Davis had his office on lot No. 1 now the residence of Mr. John C. Green of this city. Compound interest on this note would make it valuable.

The Chronicle says:  
"We were shown by Mr. W. T. Raoves a piece of paper money, which we doubt not is the oldest in this country. It belonged to his wife's grandmother, who was a North Carolinian."

It is a twenty-five-dollar bill, made in 1780, and therefore 111 years old. It bears this printing on its face: "North Carolina currency, No. 1454. This entitles the bearer to Twenty-Five Spanish Milled Dollars, or the value thereof in Gold or Silver. Agreeable to an act of the Assembly passed at Newbern the 10th day of May, 1780." It is signed by James Cook and J. W. Cason. In the left-hand side, reading sideways, are the words "Cash on demand," and opposite this is "XXV Dollars." On the bill are the words "Twenty-Five Dollars," and "Printed by James Davis, 1780."

This is all on it except the border, and the bill is in a good state of preservation. It is two and one half by four inches in size. Mr. Raoves prizes it highly and takes good care of it.

### Evangelist Fife at Chatham.

Evangelist Fife is meeting with great success at Chatham, Va. His meetings there have been going on over a week. Yesterday, the Chatham bank, and all the stores in the town were closed and there was a complete suspension of business. Some few went fishing, but four-fifths of the population of the town attended the meetings. It is said.—Twin City Daily Sentinel.

### The Wrecked Train.

It is said here today that there is a clue to the man who took up the rail at Third Creek and wrecked the train. The story runs that the man had a grudge against Brodie, the New York drummer, and that several years ago he made an attempt to wreck a train on which Brodie was traveling. Surely so great a reward as \$10,000 will secure the detection of the man. That is by far the greatest reward ever offered in North Carolina and it affords to the amateur detectives a golden opportunity.

State Auditor Sanderlin returned today at 1:30 p. m. from Statesville, having been kept there just a week and a day by the injuries, or rather the bruises, he received in the accident. He will keep very quiet for a while, until he fully recovers.—Raleigh Cor. Will Messenger.

### Shakers of All Creeds and Kinds

Are to be found in every locality visited by chills and fever. The very animals exhibit in such plague festered regions symptoms of the dire infection. If experience has proved, in the domain of medicine, anything conclusively, it is that Hostetter's Stomach Bitters will not only eradicate from the system every vestige of the miasma-born complaint, but effectually defend residents and temporary sojourners in malarial scourged localities against it. There is a general consensus of opinion among medical men, no less than in the minds of the public, on this point. Not only on this continent, but in the tropics where malarial complaints assume their most virulent type, this indispensable medicinal preparation is universally used and esteemed. Dyspepsia, biliousness, constipation, debility and kidney trouble are all thoroughly remediable by the Bitters.

### AN AGE OF ELECTRICITY.

Its Wonderful and Undreamed-of Developments.

Since New Berne has the telephone, the telegraph, and electric lights, and is now consulting electric cars, the following useful and interesting information might be worth remembering:

How many telephones are in use in the United States?  
About three hundred thousand.

What is the average cost, per mile, of a trans-Atlantic submarine cable?  
About one thousand dollars.

What war vessel has the most complete electric plant?  
The United States man-of-war Chicago.

How strong a current is used to send a message over an Atlantic cable?  
Thirty cells of battery only. Equal thirty volts.

What is the longest distance over which conversation by telephone is daily maintained?  
About seven hundred and fifty miles from Portland, Me., to Hartford, N. Y.

What is the fastest time made by an electric railway?  
A mile a minute, by a small experimental car. Twenty miles an hour on street railway systems.

How many miles of submarine cable are there in operation?  
Over one hundred thousand miles, or enough to girdle the earth four times.

What is the maximum power generated by an electric motor?  
Seventy five horse power. Experiments indicate that one hundred horse power will soon be reached.

How is a break in a submarine cable located?  
By measuring the electricity needed to charge the remaining unbroken part.

How many miles of telegraph wire are in operation in the United States?  
Over a million, or enough to encircle the globe forty times.

How many messages can be transmitted over a wire at one time?  
Four by the quadruple system in daily use.

How is telegraphing from a moving train accomplished?  
Through a circuit from the car roof introducing a current in the wire on poles along the track.

What are the most widely separated points between which it is possible to send a telegram?  
British Columbia and New Zealand, via America and Europe.

How many miles of telephone wire are in operation in the United States?  
More than one hundred and seventy thousand, over which one million fifty five thousand messages are sent daily.

What is the greatest candle power of an arc light used in a lighthouse?  
Two million in the lighthouse at Housholm, Denmark.

How many persons in the United States are engaged in business depending solely on electricity?  
Estimated at two hundred and fifty thousand.

How long does it take to transmit a message from San Francisco to Hong Kong?  
About fifteen minutes, via New York, Canso, Penzance, Aden, Bombay, Madras, Penang, and Singapore.

What time is made by an operator sending messages by Morse system?  
About forty two words per minute.

**\$100,000 Yacht Wrecked With a Pleasure Party.**

BOSTON, Sept. 4.—The steam yacht Albatross, owned by J. Eggleston, has been wrecked on the rocks on Cull Island, near the Newfoundland coast, and is a total loss. She was valued at \$100,000. There was a large party of guests on board and all were landed safely except Dr. J. B. Eggleston, the only son of the owner, who is believed to have been drowned. After a host of guests had put off for the land, young Eggleston, thinking the boat was about to founder, jumped into the sea with the intention of swimming ashore. He has not been seen since. He had just graduated from the medical college at Albany, N. Y.

### A Remarkable Fire.

The most destructive and irresistible force often spring from causes which an infant might repress in the beginning. On Monday one thousand square miles of the most magnificent wheat in Dakota were reduced to ashes by a spark which had issued from the pipe of a threshing-machine and fallen in the adjacent stubble. The fire swept over this wide area with inconceivable rapidity, destroying houses and cattle as well as hay and wheat. The misfortunes of Western farmers are as remarkable for their variety as for their thoroughness. What with cyclones, grasshoppers, blizzards and forest fires, it is difficult to comprehend how the Western farmer manages to keep alive.—Richmond Times.
