GOV. MCKINNEY, says the Democratic party in Virginia is in a first rate condition, and the outlook was never better.

LARGE crops and little borrowing are reported as giving the Southern farmer the best year he has had since the war.

EVERY cultivator of the soil should own his own home. Every acre of his farm should be made to pay a handsome dividend.

THE Republicans of New York have nominated J. Stoot Fassel for Governor. He is the present Collector of Customs of New York City.

THE editorials in yesterday's JOURNAL were badly telescoped. One article ran into another and smashed things. No lives lost but both columns badly damaged.

JUDGE COOLEY, chairman of the Inter State Commerce Commission, has tendered his resignation because of ill health. This makes two vacancies in the Board, to be filled by the President.

A CHARLESTON special of Sept. 9, says that the negro cotton pickers' strike has actually been ordered in that State and will be put into effect. The planters are determined to resist it to the bitter end.

SIR WM. WHITE, the British Ambassador at Constantinople, a few days ago, sent a strong note to the Porte demanding an apology for the indignities offered the British merchant vessels in the Dardanelles.

IT is now claimed that Peffer and Simpson, the Alliance leaders, are of Pennsylvania descent, and the Philadelphia Times comes in with the declaration that the State should not be blamed for this. It couldn't help it.

A SPECIAL to the News and Observer gives the particulars of a sad tragedy in Georgia. Three young men became involved in a personal difficulty over a very small matter. Pistols were used and all were mortally wounded. They had been life-long friends.

A NEW YORK contemporary says: "We believe that in nearly every State of the South there is to be a State industrial exhibition this Autumn; and we are led to believe that all of these exhibitions will be the largest, finest, and most attractive things of the kind ever got up by our Southern fellow-citizens. The managers of the various exhibitions are making special efforts at this time to raise an interest in them among the Northern people; and we have no doubt that the shrewd business men of the North will take advantage of the invitations that are extended to them."

LOCAL NEWS.

NEW ADVERTISEMENTS.

Goldboro Lumber Co.—Estimates C. E. Slover—Prunes, etc.

Still another manufacturing industry is on the tapis, of which we will speak more particularly in to-morrow's issue.

The steamer Neuse of E. C. D. line brought in the 55 horse power boiler and engine for the New Berne Improved Cotton Ginning Company yesterday.

Statistics have it that there are three hundred and twenty five electric roads in the United States. We hope you will soon have opportunity of recording us Mr. Statistician. Don't over look us.

The Washington Gazette says: We are informed that while Capt. Styrton was down the river last week he found a snake's nest which contained 37 eggs and in each egg was found a snake averaging from eight to ten inches. Can any body beat this in the snake line?

The flags on the steamer Neuse yesterday were at half mast, in consequence of the death of Mr. Chas. Warner of Wilmington Del., one of the company that own the Neuse, and whose funeral took place at his home yesterday.

The Goldboro and Elizabeth City Fairs both hold next week. To the former the A. & N. C. R. have made the very low rate of \$1.70 for round trip including admission to the grounds. The steamer Neuse will take passengers to Elizabeth City over a delightful water route for \$3.00.

F. T. Chapman and Joe Johnson, two colored men who were helping to move the engine for the New Berne Improved Cotton Ginning Company off the steamer Neuse which had just brought it in yesterday morning got their feet caught under it. Chapman was only slightly hurt but the injury to Johnson's foot was quite severe and painful.

At a special meeting of the City Council Thursday night the franchise for an electric street railway was granted to Messrs. Moffatt, Hodgkins, and Clark, of New York for 30 years. The cars are to be running from the foot of Middle street to the Fair grounds by the opening day of the next Fair and they are intended to run through the principal streets to the extreme of the city and also to the National cemetery.

The Goldboro Agus says: There are already twenty fine race horses in the stables of the Eastern Carolina Fair & Stock Association, in waiting for the races to open next week. Tuesday next is the opening day, and everything points to a most enjoyable exposition. Reduced rates and a special schedule for Fair week have been published by the A. & N. C. R. R. All the railroads are doing their full part to make our Fair a grand success—and that is what it is going to be.

Coming and Going.
Mrs. M. M. Ippock returned yesterday morning from a visit to relatives at Newport.
Mr. H. B. Thomas left to attend the State University.
Mr. E. Dannenberg left on a business trip to Goldboro and the Western part of the State.
Capt. N. W. Jones and wife returned on the steamer Neuse of the E. C. D. line from a pleasure trip to Elizabeth City.

The steamer Newberne of the O. D. line took out the following passengers: Miss Harriette and Mrs. B. L. Lane going North after fall stocks of millinery; Mrs. R. P. Williams and children going to New York to visit friends, and Misses Lizzie Southgate and Mary Turner and Mr. Ernest Turner of Norfolk returning home from a pleasure trip to the city.

The Steamer Neuse of the E. C. D. line took out the following passengers: Mr. P. M. Draney accompanied by his son Herbert going to Baltimore on a business trip; Mr. Numa Nunn going to Baltimore to take a six-month's course in Sailer, Bryant and Stratton's Business College; Mr. T. H. Page, State agent for the New Home sewing machine leaving from a business trip to New Berne to continue his work in Elizabeth City and Hyde county, and Miss Carrie White of Elizabeth City returning home from a visit to relatives at Adam creek.

Rev. C. G. Vardell returned home last night from spending a week or two at Blowing Rock.

Shakers of All Creeds and Kinds are to be found in every locality visited by chills and fever. The very animals exhibit in such plague fostered regions symptoms of the dire infection. If experience has proved, in the domain of medicine, anything conclusively, it is that Hostetter's Stomach Bitters will not only radiate from the system every vestige of the miasma-born complaint, but effectually defend residents and temporary sojourners in malarial encircled localities against it. There is a general consensus of opinion among medical men, no less than in the minds of the public, on this point. Not only on this continent, but in the tropics where malarial complaints assume their most virulent type, this incomparable medicinal safeguard is universally used and esteemed. Sufferers from biliousness, constipation, debility and kidney trouble are all thoroughly remedied by the Bitters.

Mall Notice.
During Fair week at Goldboro—Sept. 15, 16 and 17 the mall will close at 7:30 a. m. for the A. & N. C. Railroad going west. W. E. Clark, P. M.

IT Means Something.

The importance and notoriety to which New Berne is being elevated is spreading farther and wider every day. There has been scarcely a day within the last few months that we have not received letters or cards requesting sample copies of the JOURNAL.

It means something. It means that the efforts of the business men of New Berne recorded and sent abroad through the columns of the JOURNAL and various other ways are not going unheeded and the result, though not being proclaimed by any great hubbalooboo, is fast developing into proportions that are soon to dawn upon this section as a new era. The time has come when our advantages that have so long been lying dormant are to be utilized.

The ball has been started and now let the onward motion be increased and new force added by every man saying, "Let's be helping hand!"

Colored A. and N. College.
At the meeting Thursday night at St. Peter's church in the interest of the Colored Agricultural and Mechanical College, a permanent organization was effected. Geo. H. White was elected President, C. E. Palmer, Secretary, and a set of resolutions were offered and adopted setting forth the natural and other advantages of this section as being the proper place for the college.

There was an executive committee appointed to go among the citizens and solicit subscriptions in land and money to be used as a fund to induce the college to locate here.

The committee appointed were C. E. Palmer, chairman; E. R. Dudley, R. G. Mosley, Rev. A. J. Marshall, I. H. Smith, Jesse Brooks and W. W. Lawrence.

There were also a number of vice-presidents appointed.

The meeting adjourned to meet at the court house next Thursday night to which meeting all citizens are invited.

Books were opened at the meeting held and about \$500 were subscribed.

For the Exposition.
Rev. Edward Bull, who has been getting specimens of the varieties of wood and all the useful and ornamental grasses of Craven county obtainable at this season of the year for the Inter-State Exposition, turned his collection over to Mr. Wm. Dunn, the chairman of the committee in charge of the Craven county exhibit yesterday and it is all in readiness to be forwarded to Raleigh.

The collection of woods is a very superior one. Samples of most of the more valuable timber varieties are of large size—about five feet in length and from six to nine inches in diameter. Mr. Dunn's carpenter took them in hand and fixed them up nicely, so they show up handsomely, and display the grain and fibre to good advantage. The less important and ornamental varieties are much smaller. All bear a nice printed label: "North Carolina Woods—Craven County" with the name of the variety plainly written in. There are about a hundred and twenty samples—not quite so many varieties.

The collection of grasses is not as full as that of the wood. To make a complete collection the work must be begun early and continued through the season. Many kinds have ripened and passed away. A few beautiful varieties of the finest ornamental grasses have not yet matured. But the more important ones and those most valuable for market and forage have been secured and the collection is an excellent one.

A man is in Raleigh looking after and arranging the Craven county exhibits and Mr. Dunn himself intends to go up next week and he is anxious to secure without further delay all the exhibits that are now in readiness. Send them right in to him at New Berne and he will attend to the rest, but do not stop gathering for the Exposition. Get all you can and send it in as fast as convenient. Craven county appropriated \$300 to be expended on the exhibit and there ought to be enough sent in to cause the expenditure of every cent in arranging and displaying Craven's exhibit. It is an opportunity to bring the county's resources before the world that ought to be fully used.

Mrs. Leland Stanford's Donation.
ALBANY, N. Y., Sept. 9.—Mrs. Leland Stanford has donated property valued at \$100,000, to the benefit of the Society for the Relief of Orphan and Destitute Children in this city.

SKINNED ALIVE.
A Field in Louisiana Pays the Penalty of His Atrocious Deed.
NEW ORLEANS, Sept. 9.—A young man received here today a most interesting outrage committed in Louisiana by a young lady school teacher near Arcadia. The school teacher from the young lady's home, a few days after her return from a place she was set upon by a negro who dragged her into a thicket and tied her to a tree where she was kept for two days. A woman nearby found her there on the second day, when she was rescued. The negro would soon have been hanged, but he was shot by a man who made his appearance at the scene. He was fearfully hurt, but he was shinned alive and liberally treated. His body was left in a thicket to be devoured by the buzzards.

The Million Balmaceda Show.
LONDON, Sept. 9.—The coroner on behalf of the Chilean Junta has applied to the high court for an order restraining the owners and officers of the steamer Lanekob from putting to sea the Chilean steamer, which she is reported to arrive at Southampton next week, except by depositing the same in the Bank of England. The Junta also applies for an order restraining the steamer from sailing until the coroner has allowed notice to be served for next Wednesday. In the meantime temporary restraining orders were granted.

Neither Kolb nor Lane Can Hold It.
MONTGOMERY, Ala., Sept. 9.—The opinion of Judge Randall to lay in the LaneKolb content over the office of State commissioner of agriculture was the effect that the act of the last legislature making the office elective became operative immediately, and that the governor had no right to appoint a successor to Kolb, who is term by limitation expired September 1. This decides nothing as to Kolb's right to hold over. The case has been appealed to the supreme court.

The Cholera Spreading.
PARIS, Sept. 9.—M. Trousseau announced at the Academy of Medicine last evening that the cholera epidemic, which arose in the east of Europe, has been in the West. He believes that the immigration of a Russian Jew, seven hundred of whom have gone to Algeria, will increase the violence of the epidemic.

Spinal Meningitis in Frederick County.
FREDERICK, Md., Sept. 9.—Dr. S. J. Sprulur, one of Frederick county's ablest veterinary surgeons, says the disease known as spinal meningitis is raging in the southern section of the county. The farmers are becoming much alarmed and fear an epidemic.

The Record Broken Again.
LONDON, Sept. 8.—The steamer City of New York of the Inman line arrived at Queenstown at two o'clock this afternoon, having crossed the Atlantic in five days 23 hours and 50 minutes, beating the best previous record. Her daily run was 413, 420, 361, 461, 192 and 452 miles.
