It is gratifying to see the great quantities of best quality, latest improved farming machinery that is now brought to New Berne. There is a greatly increased demand for it. Mr. J. C. Whitty informs us that it is now much easier to sell a high priced plow than formerly. Fine plows and harrows are sought for. There is a tendency for first class implements generally; especially is this noticeable in hay harvesting machinery.

Mrs. Clara Morris, daughter of our former townsman, Mr. Calvin Morris, now in Kinston, is in the city canvassing for an interesting and instructive book.

Our citizens desired more representation, knowing that they were entitled to it, but it has been seen fit by controlling powers to continue Craven's representation limited to the one director regardless to the expressions of our people.

We have previously stated that Craven had more stock than all the other counties combined as well as more mileage and from a business standpoint it clearly appears that she should be something like proportionately represented, but, we regret to say, that seems where the rub comes, that it is not adjudged from a business view.

As the crops mature, do not forget to pick out the finest specimens of each kind for the New Berne Fair and keep them in a secure place. It will be little trouble and it is so much easier to make the selections then than later, and besides if the separation is not made at the gathering the most desirable specimens may get used or damaged.

The past grand successes of the New Berne Fair—splendid from the very start and with each succeeding exhibition surpassing its predecessor—has brought it into high repute, not only among those who have attended but also among those to whom the countless throngs of delighted visitors have carried tidings of the delight with which they viewed its manifold attractions.

In pace with the increased merit of the Fair has come increased attendance year by year, and immense as it was last year there is every reasonable indication that next year it will be vastly greater.

Those who have been in different parts of the State inform us that the people generally in all sections are fully alive to the excellencies of this Fair and that very many—both visitors of the past and those who have not as yet attended one of its exhibitions declare their firm intention of coming to the next one whether they take other pleasure trips or not.

Coming and Going. The steamer Neuse, of the E. C. D. line, brought in the following passengers yesterday: Mr. S. C. Hamilton, returning from attending the meeting of lumbermen at Norfolk; Mr. J. W. Snellings, of Manchester, Va., brother of our townsman, Mr. W. E. Snellings, on a business trip to the city, and Mr. T. S. Mr. M. Makeley left on the steamer Neuse for a trip to his farm in Tyrrell county, and Mr. W. T. Hill left on a business trip to Baltimore, Philadelphia and New York.

Judge H. R. Bryan returned last night from holding court in Warren county.

Very Unfair. It is very unfair and unjust when the facts are known that Craven county, having the interest it has in the Atlantic Road, should have been allotted only one director on the part of the State at the annual meeting just closed.

Our citizens desired more representation, knowing that they were entitled to it, but it has been seen fit by controlling powers to continue Craven's representation limited to the one director regardless to the expressions of our people.

We have previously stated that Craven had more stock than all the other counties combined as well as more mileage and from a business standpoint it clearly appears that she should be something like proportionately represented, but, we regret to say, that seems where the rub comes, that it is not adjudged from a business view.

THE DRUMMER EVANGELIST

Conducts a Very Successful Meeting at Clinton.

The noted "Drummer Evangelist" W. P. Fife has just closed a meeting at Clinton. Mr. M. L. Lee, of this city, attended several of the services in Clinton and was present at the concluding meeting Monday night, which he says beggars description for the outpouring of God's grace unto hardened sinners and the reclaiming of souls to professions of conversion and pledges unto better lives.

Mr. Lee says that there were, as a result of the meeting, 419 conversions; 205 backsliders reclaimed, and 355 accessions to the several churches, divided as follows: Baptist, 181; Presbyterian, 79; Methodist, 71; Episcopal, 9. Old friends that have existed for more or less years between individuals and factions in the town have been swept aside and hands have been clasped in friendship that have not known one another's sympathetic touch in a life time. It is wonderful!—Goldboro Argus.

A Common Sense Remedy.

In the matter of curatives what you want is something that will do its work while you continue to do yours—a remedy that will give you no inconvenience nor interfere with your business. Such a remedy is ALLCOCK'S PAIN EXPELLER. These plasters are not an experiment; they have been in use for over thirty years, and their value has been attested by the highest medical authorities, as well as by testimonials from those who have used them. They require no change of diet and are not affected by wet or cold. Their action does not interfere with labor or business; you can toil and yet be cured while hard at work. They are so pure that the youngest, the oldest, the most delicate person of either sex can use them with great benefit.

Beware of imitations, and do not be deceived by misrepresentations. Ask for ALLCOCK'S, and let no solicitation or explanation induce you to accept a substitute.
