

THE SOUTHERN EXPOSITION.

This exposition opens in Raleigh tomorrow. It is reported that the exhibits will exceed the expectation of the managers...

As was expected North Carolina will have the largest exhibit, closely followed by Florida and one or two other States.

We cannot speak advisedly of Craven county. We hope that she will make a creditable display of her wonderful resources.

It is very generally regretted that the grounds will not be opened at night. The management will be held responsible for this omission.

There will be enough to entitle the exposition to a very large attendance. The sources of enjoyment will be many and varied.

Every North Carolinian who can ought to be present and lend his influence to the success of the enterprise.

SELF CONVICTED.

President Polk, of the National Alliance, who arrived yesterday, spends most of his time at the office of his paper, the Progressive Farmer. The interviewers have not struck him this time.

Col. Polk made a general denial of the truth of press dispatches from Kansas in regard to him, and the JOURNAL has given his denial to the public and expressed the hope that it will be supported by the testimony of disinterested witnesses.

Covering his reliance to the Confederacy with the mantle of charity, how is he to meet the charge of disloyalty to the Democratic party?

Does anybody doubt the object of Weaver and Simpson in coming to North Carolina? They proclaim the purpose of their mission to be the disruption of the Democratic party and the breaking up of the Solid South.

It is true that the accomplished Raleigh correspondent of the Wilmington Messenger, in the paragraph at the head of this article, says: "He will probably go to the western part of the State next week, where Weaver and Sockless Jerry Simpson speak."

but, the probability approaches certainly when it is remembered that Col. Polk accompanied Simpson in the canvass in North Carolina that he has already made.

By again becoming his companion, endorser and surty Col. Polk will stand self-convicted of treason to the Democratic party and to the State of North Carolina.

Certain men reaped a harvest of infamy by conducting Sherman through Georgia, and he who conducts Weaver and Simpson through North Carolina may expect like condemnation.

It is a sad spectacle when a christian gentleman leaves the high paths of honorable usefulness to consort with mountebanks and charlatans.

We do not believe that the North Carolina Alliance will follow such leaders. The National Alliance, with its preponderating influence in the northwest, may lend its sanction to such a course, but the North Carolina Alliance never.

It is fair to conclude that the Alliance has nothing to do with the coming of Weaver and Simpson into North Carolina. We believe it to be a Third party movement, pure and simple. It may attempt to lean its flank and hungry body on the Alliance, but the farmers of North Carolina will thrust it from them with scorn and indignation.

A PARIS dispatch says that although the belief prevails that war will soon break out nobody anticipates that it will be a war between France and Germany.

Last night's advices from Constantinople state that the foreign residents are more aroused than they have been for years and that no doubt is entertained that Russia will attack the Turks. So pronounced is this belief that some foreign residents are preparing to leave Stambul for Italy and thus escape being crushed between the combatants.

FIFTEEN YEARS.

It is about fifteen years now since this writer began work in Wilmington. For twelve years and eight months we did the entire editorial writing on the Morning Star (not local) with exception of perhaps a half dozen columns. On May 24th, 1889, we became the chief editorial writer, news editor and proof reader in part for the Messenger, which place we still hold. Fifteen years is a big slice in a man's life—nearly one fourth of our own long life.

We cannot hope to drive our Faber for many more years if so long. It matters not so we are ready for the final auditing.—Wilmington Messenger.

Dr. Kingsbury is filling the measure of his days with honorable usefulness, and we trust that it will be many years before his sun goes down.

For fifteen years he has been an editor and who shall calculate the value of those years to country, virtue, truth!

There are few who do not admit the value of his journalistic work, none who deny his moral worth and personal merit.

We congratulate Dr. Kingsbury on his honorable career and useful life, and North Carolina on having such a son.

THERE was once a very rigid mother who actually flogged her daughter for kissing the boys. When the poor girl declared that she would never do it again her mother called her a story-teller and added that after a person once got a taste of it such a person never would quit. How fabula doct, says the Galveston News; that free sugar is so sweet that the people are going to want more free trade all the time.—Norfolk Virginian.

Business—Cotton New Church—Judge Faircloth. As the season advances, business upon our streets becomes more apparent.

Cotton is coming in rapidly; the prices is on the rise and the farmers are gleeful.

He who puts bad construction upon a good act, reveals his own wickedness at heart.

The Presbyterian church is nearing completion. When finished it will be decidedly the handsomest church in town.

Judge W. T. Faircloth, of Goldsboro, came down on the afternoon train Saturday and is stopping with his brother in law, Mr. Shade Wooten near town.

It is generally conceded that our town can boast of more pretty girls than any town of its size in the State. But the handsome boys—where, oh where, are they!

September is drawing to a close and if the eyes of Summer are "kissed to sleep" the song of the festive mequito is not—neither its sting. He is still abroad making himself heard and felt.

A Wonder Worker. Mr. Frank Huffman, a young man of Burlington, Ohio, states that he had been under the care of two prominent physicians, and used their treatment until he was not able to get around. They pronounced his case to be Consumption and incurable. He was persuaded to try Dr. King's New Discovery for Consumption, Cough and Colds, and at that time was not able to walk across the street without resting. He found, before he had used half of a dollar bottle, that he was much better; he continued to use it and is today enjoying good health. If you have any throat, lung or chest trouble try it. We guarantee satisfaction. Trial bottle free at F. S. Duffy's drug store.

QUEEN MARY'S ESCAPE.

Put off, put off and row with speed. For now is the time and the hour of need. To oars, to oars, and trim the bars. Nor Scotland's queen be a wanderer's mark. You light that plays round the castle moat.

Is only the warder's random shot. Put off, put off, and row with speed. For now is the time and the hour of need.

Those pond, row keys shall the helmsmen keep. And lodge in that caverns so dark and deep. Nor shall Lochleven's tower or hall hold these our lovely lady in thrall!

Or be the banners of traitors sold. While Scotland has hands and hearts so bold. Then onward, steersman row with speed For now is the time and the hour of need.

Hark! the alarm bell has rung: The warder's voice has treason sung; The echoes to the falconet's roar Chime sweetly to the dashing oar; Let lower hall and battlement gleam; We enter by the light of the taper's beam.

For Scotland and Mary on with speed! Now, now is the time and the hour of need. —Philadelphia North American

1885 N. Y. Ave. WASHINGTON, D. C. DR. GEORGE YORK ELECTROPOLE, YORKVILLE, S. C., Aug. 14, '91.

ATLANTIC ELECTROPOLE—Gentlemen:—For the past five years my wife has been a sufferer from dyspepsia. So completely did the disease make a wreck of her former self that she was unable to eat or sleep. Her nervous system was almost entirely destroyed and the slightest noise would throw her into a nervous spasm, which would last for hours. Medical skill failed to bring any relief.

Through the recommendation of an eminent divine we were induced to try the Electropole. After persistent use of the instrument, the effect has been wonderful. Her nervous system has been restored to its almost normal condition; her digestion is wonderfully improved; she is rapidly gaining in flesh; and, upon the whole, is making a rapid recovery, which speaks volumes for the wonderful curative powers of the Electropole. If you are skeptical on the subject, let the Electropole, and its wonderful powers will quickly dispel all doubt.

This is the way with the Ball corset: if you want ease and shapeliness, you buy it—but you don't keep it unless you like it. After two or three weeks' wear, you can return it and have your money. Comfort isn't all of it though. Soft Eyelets, and "bones" that can't break or kink—Ball's corsets have both of these. U. MARKS & SON.
