Proceedings County Commissioners - Ine Virtue of Our Women Must Be Protected.

> "The assaults upon unprotected white women and girls by brutal negross were alarmingly frequent within the past ten days. As many as half dozen have been reported from sections of the South. Two of these in North Carolina, one of which occurred in Mecklenburg county recently. These rascals ar always dispatched as soon as caught, but they ought to be killed by the severest torture." For an infuriated mob to take the law in thesr own hands is a dangerous precedent, to be sure; but for the burley and lusty brute who outrages or attempts to outrage a lady, no questions should be asked, once his guilt is catablised; but like the people of Sampson, press into service the virtnes of a plow-line and make sure of the job with a few buck-shot, and there will be a perceptible abatement of such depredation.

amount sheriffs tax deeds to Thomas Storm Destruction in Minnesota. GRAND RAPIDS, Minn., Sept. 28.-It is learned that a most destructive storm has passed over the northern portion of this and Beltrami counties, felling an immense amount of pine timber and causing one loss of life. Particulars are impossible to get owing to the remoteness of the section, which is unsettled and unoccupied except claimholders. Whole townships known to have been swept over, the timber being leveled as grain before the reaper. The loss will aggregate hun dreds of thousands.

Vapor Poison and Its Antidote. The morning and evening mists that pervade the atmosphere of malarious localities cannot be breathed with impunity. A safeguard is needed to render harmless the dangerous missmata with which they are impregnated. The surest, safest defense is Hostetter's Stomach Bitters. It is an antidote to the poison which has already been inhaled and borne fruit, an adequate preventive of its harmful effects. No preparative for breathers of miasma tainted air or drinkers of malaria poisoned water like the Bitters. It completely neutralizes the otherwise irresistible onset of the arial foe. Set-tlers on newly cleared land, excavators of canal routes (notably that on the Isthmus of Pavama), western pioneers and emigrants—in short, all subjected to malarial influences in air or water find in it a benign remedy, an effectual safeguard. Disorders of the stomach, liver and bowels, "la grippe," rheuma-tism and kidney complaints are

emedied by the Bitters. The Whipping Post Revived. WILMINGTON, Del., Stptember 29.— This morning Sheriff Simmons whipped several oriminals in the jall yard at Newcastle. There was but little interest shown in the affair.
