laying of the first brick in it to the date of its destruction was 21 years. A short—very short—existence for such a costly edifice—the innocent cause of the fiery strife it engendered intermixed as it was with brief somes of royal splender within its walls.

Referring to the record of the masons' we find them halding a lodge meeting in a room in the palace on the night of the configuration—27th Feb. 1798. They had previously been meeting there for their work. Rev. Thomas P. Irving, Episcopal clergyman, school teacher and the mason's chaplain, was living and teaching in the building when the fire occurred.

oords: "At a meeting of the Lodge held March 7th, 1798," it was in a room procured in Mr. Stanly's office, "The thanks of the lodge was returned to brothers McMains and Jacob Johnston for their assiduity in saving great part of the treasures belonging to the lodge from the flames on the 27th February." McMains was the paternal grandfather of Mrs. M. E. Caxtex, of Goldaboro, N. C. and Johnston was the maternal grandfather of the daughters of Samuel R. Street, Esq. of this city.

Wais on them Any Longer?

Would it not be best to take our fifty thousand dollars in bonds and give it to five manufacturing indust to who will move their plants to bat bern and employ one hundred or more branks each, daily? Ten thousand dollars o ca to five industries of some kind would be a consustrable inducement for them to move to Newbern. We have water transportation equal to any in the country. Our Railroad Commissioners give us as low rates of freight as any. We have the laboring class, both white and black, here; what fear need we have to start the ball in this direction?

Would it not be well for the city authorities to look into the matter and see if something Would it not be well for the city authorities to look into the matter and see if something can't be done? If the Railroad will be built and they intend to get our bonds, let them give us some assurance as to when it will be completed. There seems to be considerable doubt as to Big like ever visiting his native county any more if he waits to ge on the E. C. R. K. There is no doubt that Newbern is on the greatest boom during her existence Real estate has advanced from two to five hundred per cent. Not a vacant house in the city. Families have moved out of town for want of houses to live in—men, women and children. Then why should this little pitiful sum of 50,000 dollars railroad bonds step the progress of so beautiful a city as outs? Why not call an election is tonce and vote 50 thousand more and give to manufacturing industries as above stated and employ some good agent, say J. W. Waters, to iravel the manufacturing cities of our country and show them the advantages our city has over any other town in this country our Board of Trade. Cotton Exchanges and all other organizatiors have held meetings and salvised every plan imaginable and all have failed. Now put this matter before the people and let it be thoroughly discussed and voted upon and it it is not carried then Big like, who buys so many people out at 46. 50 and 67%, on the dollar, will pay the entire expense of the election. The question is now we have got Newbern on a boom, Will we continue to boom her?
