

# THE DAILY JOURNAL.

VOL. X.-NO. 183.

NEW BERNE, N. C., THURSDAY, OCTOBER 29, 1891.

PRICE 5 CENTS.

## BUSINESS LOCALS

**BUCKWHEAT.** Mince Meat, Raisins, Currants, Citron, Evaporated Apples, Prunes, English Plum Pudding, Elegant Corned Beef, Small Hams, Codfish, Breakfast Bacon.

C. E. SLOVER.

**LOST.** On Saturday, a Gold Headed Cane, marked J. W. M., March 1890. The person finding will be rewarded on leaving it at JOURNAL office.

Oct 27 11

**BARGAINS** in beautiful work-baskets—fancy styles—job lot just received.

J. STRA.

**SMOKE** Genuine Cuban Tobacco.

Oct 27

**TO ONE** who can copy music in a clear style, I will give work at intervals during the winter. I prefer the services of one who understands harmony and counterpoint, although this knowledge is not necessary.

CHAS. L. GASKILL.

**NEW DRUG STORE.** Drugs, Medicines and Chemicals, C. P. Popular Dispensary Medicines, All the Latest Remedies, Trusses and Braces, New Crop Garden Seeds, Fine and Large Stock of Cigars and Tobacco, ALL NEW, Prescriptions accurately compounded (and not as a price), our motto and our success.

U. C. GARDNER, Druggist and Apothecary, Middle St., four doors from Pollock. Jan 27 11

**OLD** papers for sale at the JOURNAL office by the dozen, hundred or thousand.

**SMOKED HALIBUT,** Maple Syrup.

C. E. SLOVER.

**SENATOR HARRIS,** of Tennessee, feels confident that we will hold the ground gained last year.

**THE Louisiana National Bank** of New Orleans loses \$190,000 by the defalcation of its paying teller E. F. Gorieler.

**CONFIDENT** Democrats offer odds on Flower in New York; but Republican bluffers fail to put up or shut up.

**MAUD S.** is no longer queen of the trotting turf. Sanol, the mare owned by Robert Bonner, lowered by half a second the famous record of Maud S. on the kite-shaped track at Stockton, Cal. Bonner paid \$40,000 for Maud S. and \$41,000 for Sanol.

**ONE** judge in New York naturalized 600 new citizens the other day in five hours, or at the rate of one in every thirty seconds, and it wasn't a very good day for naturalization either. It would have been no more a farce had he naturalized the whole 600 in the half minute.

**SENATOR PASCO,** of Florida, stood up like a little man in the State Alliance convention and cast one of the five votes against the anti-trust bill.

**OF** the ninety-six counties in the State eighty-six have appointed local boards of public charities which work under the direction of the State board. A great deal is being done for the amelioration of the poor and persons confined in prison. The reports which will be collated at the end of the year will show this clearly.

**WHEN** there are short crops in Europe and long crops in America, everything is lovely on this side of the water. But when there are long crops in Europe and long crops in America at the same time, the farm mortgage steps in and takes a hand in agriculture. Nothing in the McKinley high-tariff law can alter this condition.

**THE** government is having about the same success in making rain as in making tinplate. Given clouds and favorable atmospheric conditions, the rain comes down upon the rainmakers. Given a melting pot, a sheet of imported steel and a Welsh workman, and tinplate is produced of fairish quality. But neither rain nor tinplate is ready for delivery at the demand of purchasers.—Philadelphia Record.

**THE** Atlanta Herald says: Mr. Cleveland is the greatest President that this country has had since the war, and he is the greatest living American today. Likewise he is the most distinguished Democrat in the country, and as such, the accredited leader of his party. There is not the slightest doubt about his nomination and triumphant election to the next presidency.

**ONE** of the Pope's cardinals at Rome, in an interview, says that the Pope is in the church have so changed since the Pantheon disorders of October 3 that should the Pope not yield to the desire of his faithful he would be killed or

being strikingly significant as an expression of the Vatican's views as to the grave character of an impending crisis which would mark a most important epoch in Papal history.

## LOCAL NEWS.

**COTTON.**—New Berne Market—Sales yesterday 169 bales at 6 1/2 to 7 60.

The Supreme court sustains the lower court in the case of Bryan vs. Spivey.

The department was again called out last night at about ten o'clock but there was no fire.

Rev. C. G. Yardel arrived on last evening with his bride. They will find a most cordial welcome to our city. Also Mr. J. J. Howard returned from his wedding tour north.

The Washington Progress says the cannon was mounted on the oyster patrol steamer Lillie Monday and that she has received the most of her small arms which will put her in condition for active duty.

While Dr. Gatling, the inventor of the deadly Gatling gun, is at the Exposition in Raleigh, we have on a visit to New Berne the son of the real inventor of the Colt revolver: These geniuses are both sons of North Carolina.

The Black Diamond Minstrels, col., will give a performance at the theatre tonight. Tickets have been placed on sale at the store of the New Berne Drug Co. Thirty-five cents for lower floor and twenty-five for the gallery.

Fourteen car loads of Italians passed through Goldsboro Saturday and Monday on their way to work in South Carolina phosphate beds. The Argus says "they were a hard looking aggregation of humanity."

Mr. J. D. Hensley shipped his combination menagerie by the steamer Neuse to the Elizabeth City Fair. Mr. Hensley is constantly adding to his large and varied collection. It will make a nice exhibit for the New Berne Fair.

The gin house of Jesse Brooks, col., who lives about four miles across Trent river in this county, was burned yesterday. It was a total loss, including about ten bales of cotton. The gin was in operation and is supposed to have caught in the lint room. It was insured for \$1 000 in the New Orleans Ins. Co., represented by S. R. Street, E. q.

The Atlantic and N. C. Railroad has a force of carpenters at work getting out the framing for a car shed they are preparing to build. It will be 30x223 feet and be placed above the passenger depot to the west of the fence enclosing the yard and the fence be moved so as to take in the shed also. The expectation is that the shed will be finished about the first of December.

Mr. William Ellis has the shells from one mammoth oyster which weigh over nine pounds, and a portion of each judging from appearance about one-fourth—is broken off. The shell which has lost the least will weigh near six pounds. They were picked up in a bed of shell rock in Jones county, eighteen miles from the city. They are the largest ever seen here and will be on exhibition at the next New Berne Fair.

**U. S. Court.**  
The jury in the case of the United States vs. J. H. Baeden (charged with selling liquor without license), after remaining out all night brought in a verdict of not guilty.

**U. S. vs. E. G. Wise;** same charge. Verdict not guilty. L. J. Moore represented the defendants in both these cases.

**U. S. vs. Henry Williams;** illicit distilling. Verdict guilty. Sentenced to thirty days imprisonment in Lenoir county jail. C. H. Brown of Kinston represented the defendant.

Mr. Brown was sworn in on the previous day to practice in the U. S. Court. The grand jury having finished their work, were discharged.

**First Visit in Forty Years.**  
Mr. Richard C. Gill, of Washington City, a native New Bernian, is stopping at Hotel Albert. He is accompanied by his son, Mr. Charles C. Gill, of New York.

This is the first time that Mr. Richard Gill has been here in forty years, yet during that long intermission he finds many points in the topography of the city that are familiar to him and he has met some few of our citizens that he remembers.

There is a bit of history connected with the family that has played an important roll in the production of one of the most formidable fire arms in the world. The father of Mr. Richard Gill, Mr. John Gill, was the inventor of the celebrated Colt revolver and at the time of the invention he was living and doing business on Broad street where is now the beautiful flower garden of Mrs. Susan Dudley. Like most instances this is one where brain and genius were defrauded of their rightful honors.

## THE CITY HALL.

An Ornament to the City and Well Adapted to its Requirements.

The work on the city hall is nearly completed, and even as it stands our citizens have a building to which they can point with pride. It is an attractive substantial brick building fronting 62 feet on the street, and is 43 in depth. The front is stuccoed and laid off in excellent imitation of elegant granite blocks.

The front room of the northern half of the building is the city clerk's and treasurer's office—the rear room the mayor's office. Handsome signs at the door of each room give the information as to what office is within, and a door between them furnishes ready communication from one to the other, and both are nicely ceiled and painted and well furnished.

Access to these rooms from the main entrance is given by a wide passage, and this contains a five foot stair way that leads directly to the main room of the building—the city hall—used for mayor's court, police headquarters and public meetings. This is a splendid room, 40x48, 18 feet pitch, furnished throughout in native wood—2 1/2 inch double-beaded yellow pine, hard oil finish beautifully pencilled overhead and having a cornice with scroll-work moulding below it and other trimmings in walnut. It is supplied with one hundred good chairs and has an ample rostrum for the mayor or speakers, and this is enclosed by a six-inch rail with three-inch turned bannisters—the stairs being similarly finished.

Two twelve-inch columns are to be placed at even distances between the two sides of the hall—one is already in position and the other will soon be.

The hall is now lighted by nine electric lights—one at the centre of the room and the others spreading out from it at right angles toward each side of the room, but these are to be supplemented by an elegant 12 light combination chandelier—six of the lights to be gas and six electric, and by six 3-light brackets against the walls also equally divided between gas and electricity.

Adjoining the hall on the south is the assembly room of the Atlantic Steam Fire Engine Company, finished similar to the hall, and containing overhead a four foot center piece. This room measures 50x48 feet, and has an 18-foot pitch and can be reached either through the room we have just described or by the entrance at the other end of the building.

Below the firemen's meeting-room is their engine and hose carriage house. The fire bell tower over the center of the building adds much to its appearance. The tower rests upon a thick brick partition through the center of the building, and Mr. Wm. Gaskins, the contractor, informs us that the building is sound and strong through out. In tearing away what he did to make the alterations and improvements he found the brick-work in perfect order and the timbers of best heart pine without a sign of decay.

The entire building will be warmed by a first-class heater of the latest improved make. It has already been ordered.

Our citizens can congratulate themselves on the excellent city hall they now have, and on having secured it at as small a total cost as they did. The great improvement made is quite an honor to our progressive city authorities.

**The Exposition.**  
We made our first visit last week to the Exposition at Raleigh, and were much pleased at what we saw. It is much more of a success than we had expected, and is very creditable to our State. While it is not such of an "Inter-State" Exposition (as its name denotes), yet it is a very good exhibit of this State's resources and products. The exhibits from other States are very scant and contrast very unfavorably with those from North Carolina. The natural results of this will be to impress all visitors more favorably with our State's products than they could be otherwise. He will there see every vegetable product that is grown anywhere in America, every mineral that is dug from the earth, and a greater variety of woods and timber than can be grown in any other State of the Union. This latter fact is forcibly illustrated by seeing there, side by side, a palmetto tree from the southeast and the balsam and spruce pine from the mountain.

The exhibit of the colored people is very creditable to them. It is separate, and apart from the other exhibits, is under the control and management of colored people and occupies the space on the first floor of the grand stand. In this exhibit are not only agricultural products, but also many articles of artistic handwork—which are striking proofs of the advancement made by the colored people since their emancipation.—Chatham Record.

**Provenanced Hopeless, Yet Saved.**  
From a letter written by Mrs. Ada E. Head, of Groves, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth I would trust my Saviour above. My husband was advised to get Dr. King's New Discovery for Consumption, Cough and Colds. I gave it a trial, took in all eight bottles; it has cured me and thank God I am now a well and happy woman. This bottle cost \$2.00."

## THE FIRE-SWEPT PRAIRIES.

Crops Destroyed, Stock Perishing and the People Barely Escaping with Their Lives.

GUTHRIE, O. T., October 27.—The sky was lit up in every direction last night by prairie fires. The fires have been burning three days, and done a great deal of damage. Hundreds of farms have been swept of crops, and in many cases houses and barns have been consumed, stock perishing and the people escaping only with their lives. In Iowa county the fire has gotten into the timber and will burn for weeks. It is feared a number of people have perished there. Cimarron City, a small town northeast of here, has been entirely wiped out, the people escaping by jumping into the river. M. B. Emery, stage driver to Chandler, and the Parkers, mail carrier, were caught in the fire and both terribly burned.

**Goldsboro Pottery Works Burned.**  
Sunday evening, about church time, the sky to the west of the city was discovered to be lurid with some great conflagration. At first it was thought to be the immense plant of the Neuse Lumber Mills, but on hurrying to the suburbs it was found to be the no less important enterprise—the Goldsboro Brick, Tile and Pottery Works, the property of our esteemed townsman Maj. H. L. Grant. His cotton gin, brick making machine and much of his brick drying racks, together with other valuable property on the yard were entirely destroyed, proving an absolute loss of several thousand dollars, as he had no insurance whatever. The remoteness of the fire from the city, and that, too, on a Sunday evening, and there being no supply of water on the grounds, rendered aid unobtainable, and of little avail when such as could get there arrived. Just how the fire originated is not now known.—Goldsboro Argus.

**Steamer in Collision.**  
LONDON, October 26.—The British steamer Boston for Cardiff for London, at Falmouth was in collision with the British bark Charlwood, 750 tons, Capt. Salmon, from Antwerp for Valparaiso. The Charlwood foundered almost immediately with a loss of sixteen lives. Three men were killed on board the Boston and the steamer's boats were badly stove in. Only two persons were saved from the Charlwood. The accident occurred at 4:45 this morning.

**What They Are Good For.**  
BRANDRETH'S PILLS are the best medicine known.  
First—They are purely vegetable, in fact a medicated food.  
Second—The same dose always produces the same effect—other purgatives require increased doses and finally cease acting.  
Third—They purify the blood.  
Fourth—They invigorate the digestion and cleanse the stomach and bowels.  
Fifth—They stimulate the liver and carry off vitiated bile and other depraved secretions.

The first two or three doses tell the story. The skin becomes clear, the eye bright, the mind active, digestion is restored, constiveness cured, the animal vigor is recruited and all decay arrested. BRANDRETH'S PILLS are sold in every drug and medicine store, either plain or sugar coated.

**A Survivor of the Battle of Waterloo Dead.**  
SOUTHAMPTON, England, October 27.—Lieutenant-Colonel Howlett, one of the few survivors of the British officers who fought at the battle of Waterloo, is dead.

**Gratifying to All.**  
The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy Syrup of Figs, as the most excellent laxative known, illustrates the value of the qualities on which its success is based and are abundantly gratifying to the California Fig Syrup Company.

**For Sale.**  
A PAYING Shoe and Clothing business in New Berne, including fixtures and good will, about \$3,000 required. Reasons for selling, other business. For particulars address "X" care New Berne JOURNAL, New Berne, N. C.
