OLD papers for sale at the JOURNAL office by the dozen, hundred or thousand.

ALL the Brazilian ports are declared to be infested with yellow fever.

THE South had 153 votes in the last Presidential election. It now has 159.

POSTMASTER-GENERAL WANAMAKER carries the heaviest life insurance in America.

SENATOR QUAY has entered suit against the Pittsburg Post for \$100,000 on a charge of libel.

Two masked men held up the messenger of a North Pacific express car, in the wilds of Montana, and secured \$2,000.

A SAVANNAH telegram says the small pox epidemic at Harris' Neck is being rapidly stamped out; Harris' Neck is 80 miles south of Savannah.

STATE SENATOR GILBERT A. DRANE, of New York, is dead; leaving the Senate with 16 Republicans, 14 Democrats, and 1 Independent.

FLORENCE, the actor, is dead. His private benefactions were numerous. In religion he was a true Catholic, and a member of the Knights of St. Patrick.

A STATE Temperance Association has been permanently organized at Raleigh, a constitution adopted and principles declared. Mr. N. B. Bronghton is president.

A NUMBER of cars have just been built for the purpose of transporting British troops across Canada. It is proposed to open an expeditionary route for troops to British Columbia and India.

THE Behring sea troubles are to be submitted to arbitration. It is reported that the Emperor of Germany or President of the Swiss Republic will be asked by the British Government to represent Great Britain in the commission, but it is not known by whom the United States will be represented.

GLADSTONE is admitted to be, in private life as well as in public, the greatest talker of the century. One of his admirers says of him, "In a drawing-room he is surrounded by a bevy of ladies and a crowd of gentlemen. One starts a question. It may be on Emerson's best poem, or it may be upon the origin of racing in England or the morality of card-playing. And upon them all Gladstone is good for a couple of columns at least."

AT one time it seemed probably that state legislation would destroy Trusts, but it now appears that the day of deliverance from them is away off in the distant future. The Chicago Evening Post says: "The National Orange Company, or Hinding Trine Trust has purchased the entire binding twine

plant of Wm. Dering & Co., of that city, for \$250,000. This purchase gives the Trust entire control of the binding twine industry of America.

M. DE GEIR, Russian Foreign Minister, is now on a visit to Paris. It is believed that his object is to conclude a treaty of alliance between his government and that of France. The Galois apperls to all Frenchmen to silence their discord during M. De Geir's stay in Paris. It says: "We are all agreed as to the advantage derived from an alliance with Russia, and some day, perhaps, such an alliance will restore to us the integrity of our territory and power."

NOVEMBER 18th, three children were devoured by wolves at the Iron rolling mills, near New Brighton, ten miles north of St. Paul, Minn. During the great fires in Pine county in September great droves were driven South. A drove of 125 wolves were seen together in that vicinity. Twenty five men with hounds started out after the wolves, and surrounded them in a swamp and killed eleven of them. An effort will be made to exterminate the brutes.

FRIDAY, Nov. 20th, near Langdon, N. C., Walter French, a well grown lad sixteen years of age, while walking along the road near the river, was savagely attacked by three large otters. The battle ensued and the lad hoped, with a good club, to conquer these animals; but they soon had him on the run and yelling at the top of his voice. His cries soon brought the neighbors to the rescue, and with dogs and guns one of the otters was killed and the others put to flight.

LOCAL NEWS.

NEW ADVERTISEMENTS.
J. F. Taylor—Dressed turkeys.
Howard—Fine feathers, etc.
Great excitement at La Grange.
C. E. SLOVER—Coconut macaroons.
Barrington & Co.—Come promptly.

COTTON—New Berne Market—Sales yesterday 26 bales at 61 1/2 to 67 1/8.

Lawyers are not as plentiful in the city as usual. A sign, "Gone to Pamlico court," on a number of their office doors tells the story.

A special train left here yesterday afternoon taking some of our citizens to attend the Frederick Ward performance at Goldsboro last night.

Joe Congdon, son of Mr. J. F. Congdon, met with the painful accident of falling and fracturing his collar bone yesterday afternoon while playing football.

Remember that the trains on the A. & N. C. R. R. and the Seaford Neck road will make close connection at Kinston to accommodate those attending Conference.

Pamlico Court is in session at Bayboro this week. THE JOURNAL will be represented by Capt. J. S. Lane, who will take pleasure in waiting on all our subscribers. Also new subscriptions will be solicited.

We are pleased to learn that our esteemed Governor, Thos. M. Holt, will open the New Berne Fair. Mr. C. Reizenstein, Secretary and Treasurer of the Fair, received a letter from him last night accepting the invitation to do so.

Messrs. Fred. Hardison and Wm. Cook, who have been boring a well at the Colored Insane Asylum at Goldsboro, returned home last night, having completed their work, furnishing a good supply of water. The well is 310 feet deep, over 250 feet of the distance being through hard slate rock.

A gentleman writing to the Southport Leader from Lookwood's Folly, says a sawfish seventeen feet long was hauled up there in a seine at Captain James H. Howitt's fishery. The saw was three feet ten inches in length. It took eleven men to haul him out of the net. His liver made seven gallons of oil.

This is the last week of the Exposition, and the management are striving to make it the best and most successful one. Each day has been set apart for a special purpose. Yesterday was children's day, and many amusements were especially designed for them. Today is Knights of Erythia day. Tomorrow there will be championship bicycle races, and Thursday is Firemen's and Mechanics' day.

Come Promptly.
Do not miss seeing the wonderful art exhibition at The New Home office. Only one more day before the beautiful display of embroidery will be packed and shipped from Newbern. If you have not seen it call at Barrington & Co.'s office at once.

Its Excellent Qualities
Command to public remedy the California liquid fruit remedy Syrup of Fig. It is pleasing to the eye, and to the taste and by gently acting on the kidneys, liver and bowels, it cleanses the system effectually, thereby promoting the health and comfort of all who use it.

At one time it seemed probably that state legislation would destroy Trusts, but it now appears that the day of deliverance from them is away off in the distant future. The Chicago Evening Post says: "The National Orange Company, or Hinding Trine Trust has purchased the entire binding twine

SPECIFICATIONS FOR WATER WORKS.

Valves—Hydrants—Pumps—Boilers—House and Pressure Required.

The city council have taken the most favorable bids for water works which were sent in and compiled from them a plain and excellent set of specifications which they will submit to the several companies for their final bid. All propositions are required to be sealed and sent to the city clerk on or before December 4th.

There will be a total of 43,032 feet—nearly eight miles—of pipe, of which 19,104 feet is to be 13 inch, 9,135 feet 8 inch and 20,810 feet 6 inch.

There will be 71 double nozzle, 2 1/2 inch, 4 quadruple hydrants of best quality and style. The tower is required to be 140 feet high, 16 feet diameter, homogeneous steel, 54,000 pounds of tensile strength of a good quality of boiler shell iron. There shall be 30 rings and each ring shall lay 56 vertical inches.

There is to be one compound duplex pump of one million gallons capacity in 24 hours, and one high pressure duplex pump of one half million gallons capacity every 24 hours.

There are to be two return tubular 60 horse power boilers, arranged to work together or separately as required, capable of 150 cold water hydrostatic pressure to square inch.

The boiler and pump-house is to be built of brick covered with tin or iron, and stock to be of brick.

The contractor is to furnish for use 55 spring faucets not less than 1 inch pipe, 4 drinking faucets for man and boat and 2 ornamental fountains; also water free to public schools and city buildings and water for flushing all sewers when deemed necessary by the mayor, not exceeding 2 hours twice a week through 1 inch nozzle and water for 3 sprinkling wagons with crane attachment for filling same.

The pressure for domestic purposes is to be not less than 40 pounds and for fires not less than 75 pounds to be had fifteen minutes after an alarm. The test pressure is to be 150 pounds to the square inch.

Should the water company at any time after completion fail to furnish the stipulated amount of water for fire, they shall pay whatever damages may arise therefrom, to be assessed by arbitration, and failure at any time for a period of three months to give sufficient quantity of water for all purposes shall furnish adequate grounds for annulling contract. If any hydrant remains out of repair for 5 days the rental thereof shall be discontinued until repaired.

The city reserves the right to designate and select the streets along which the main pipes are to be laid and to purchase at expiration of 5 years upon 6 months notice and to reject any and all propositions.

All requirements as to details usual in water works contracts will be exacted and no proposition will be entertained unless accompanied by a \$3,000 certified check, and the party to whom the franchise shall be awarded, will be required to file with the city a bond of \$5,000 conditioned upon the faithful performance of contract, when the \$3,000 check will be returned.

The Board of council have moved deliberately and cautiously in all their efforts after water works and we doubt not that it will result in the speedy establishment of excellent works that will be a source of gratification to all parties concerned.

Iron in a Cotton Bale.
Mr. Matt. Manly has had a bale of cotton returned to him in which was packed pieces of broken press iron. The false packing was discovered when it was put in the compress at Norfolk and it caused considerable excitement among the employees there as it came near resulting in a serious accident, endangering their lives. It is hard to see how the iron could have got in the bale accidentally, and if it was placed in it knowingly with fraudulent intent it is to be hoped that the act will be brought home to the guilty party and as severe punishment as the law will allow meted out for it.

We are informed that a bale once received at Norfolk from another city with a small nail in it caused a loss of \$18,000, it breaking a \$50,000 compress so badly that it took that sum to repair it. A big loss from a piece of petty rascality.

The Noted Murder Trial.
The evidence in the McDougald Connelly murder case is very damaging to the prisoner, McDougald. It is the effect that he was within a quarter of a mile of Connelly's house late in the afternoon of the night of the murder; that he was fourteen miles from the scene of the murder the next morning, washing his face; that he was at Maxton early that morning with dirt under his eyes and in the creases of his neck, and with mud on his shoes, and that he said he had been on his feet all night; that he had purchased lampblack shortly previous to the murder, and also that he had borrowed a wig and side whiskers a few days before it, and they had been identified as the same worn by the strange man seen on the road.

The evidence is crushing and public opinion against the prisoner, who has made conflicting statements, but influential friends stand by him. The trial will probably commence all of this week.

Children Cry for Pitcher's Castoria.

"SHE STOOPS TO CONQUER."

By the Ford English Comedy Company.

The Pittsburg Chronicle Telegraph, thus refers to this excellent company's opening of the Grand Opera House in that city:

"The attraction secured for the opening was the English Comedy Company in 'She Stoops to Conquer.' Mr. Wilfred Clark, a son of the distinguished John S. Clark, was the bright particular star of the performance. Those old English comedies are always enjoyed when a company of artists are gathered together to play them—Such was the case last night, and a more thoroughly pleased audience seldom sat in a theater."

Mr. Wilfred Clark made an ideal Tony Lumpkin. He gave all the attention to detail, and there was nothing to mar his acting throughout the entire evening. Mr. Walter Hale, a Young Marlow, did all that was expected of him.

Miss Martha Ford, as Miss Hardcastle, was a little disappointing at first, but as the play went on, and she got fairly to work, her acting was appreciated, and she was well received. In the last act she showed what she could do, and although only a young woman she has an excellent future before her. She is pretty, graceful and pains-taking. She is a daughter of Manager Ford. In 'Poor Philicoddy,' the farce, after the comedy, Mr. Clark was excruciatingly funny as 'Philicoddy.'

This is the company which the management of the New Berne theatre have secured as their Thanksgiving attraction. They will appear here Wednesday and Thursday nights and at a special Thanksgiving day matinee.

Coming and Going.
Rev. I. L. Chestnut left yesterday for Hookerton on a trip combining business and a visit to relatives and friends.

Messrs. F. G. Simmons, O. Marks, Jas. Redmond and Ben. Hahn left for Winston to attend the auction sale of lots by the Winston-Salem Land & Investment company which takes place today. Mr. Hahn will also secure a new lot of horses before returning.

Mr. Wm. Cohen, of New York, arrived to visit relatives in the city, his daughter, Mrs. W. H. Cohen, and child who have been visiting him coming back with him.

Mr. B. C. Harrison came in on the steamer Neuse of the E. C. D. line from a visit to relatives in Norfolk, and Mr. B. R. Gorato left for Norfolk on the steamer Neuse after a partner.

Judge Geo. Green and wife returned last night from a visit to their son, Mr. Geo. Green, jr., at Jasper.

Mrs. Dillingham returned from a visit to friends in Jones county.

False Rumors.
The Kinston Free Press says it hears much complaint about the condition of the A. & N. C. R. R. bridge over Neuse river near Kinston and that the timbers are said to be rotten.

The authorities of the road affirm the falseness of the statements. The truth in such matters is to be gained not from idle, flying rumors, but from the testimonies of competent, reliable men after proper inspection and the Board of Directors and State Proxy for the road who recently passed over it from one end to the other made a very satisfactory report as to the condition of the road throughout and one that was very creditable to the present management.

The bridges, as well as other parts of the road are looked after at frequent intervals and the bridge force in the prosecution of their duties were at the bridge spoken of examining it and doing whatever was necessary during the past week—they were there immediately preceding the issuance of the paper containing the unfavorable criticism.

The condition of the road will compare favorably with that of others.

In connection with the matter we will mention the fact that never in the history of the road, from the first day it was built to the present time has an accident happened to any passenger on it. Employees, have met with accidents but no passenger has ever received a scratch from any cause. Is there another road that has been running 34 years that can present such a record?

Has Not Moved.
Mr. Hugh Lancaster, editor of the Grifton Star, writes us as follows: "Please correct the mistake in yesterday's paper about my moving to Greenville. I have not moved to Greenville but am publishing it at Grifton."

We cheerfully make the correction asked for. A published statement which appeared in the salutatory of the Grifton Lamp-Light was the foundation of the item. We did not think that by following "Lamp-Lights" we were in any danger of being led into darkness. The following is an extract from the Lamp-Light article.

Only two weeks since the Star rose in our town and we hope will not set; but continue to spread its brilliant rays of light in our midst. But its young and enterprising Editor felt it best to enlarge, and thereby make its light more brilliant, and not being able to carry out his progressive plans with his small outfit which he printed Star of last week on he has sold the outfit to us, and the Star will be printed at Greenville, and will be enlarged and greatly improved, and we bespeak for it a liberal patronage. Because of this improvement in the Star is why we are before the public today.

\$5.00 Reward.
For information that will lead to the arrest and conviction of anyone guilty of tearing down or injuring any advertising sign of the New Home or Wheeler Printing and Sewing Machine Co. nov21 1/2 BARRINGTON & CO.

Game in North Carolina Sounds.

Haps and Mishaps, a New York periodical, publishes the following allusion to Northern hunters in this region:

"At this season of the year many of our business men turn their attention to outdoor sport, and many find the greatest sport with their fowling pieces as their companions. A famous retreat for sportsmen is found on the islands, bays and sounds of North Carolina. These bays and sounds at this season of the year abound with wild game. This is undoubtedly due to the large quantities of wild waterfowl that grow on the marshes along the shores of the Currituck and Croatan sounds, making grand feeding grounds for: wild fowl of every kind."

"The large number of gun clubs, composed of prominent Northern business men, that are seen in the cabins of the Old Dominion Steamship Company at this season of the year, show conclusively the strong hold this section has upon those in search of rest and recreation; a recent trip South, through the bays and sounds of North Carolina, satisfied the writers that growth on the marshes along the shores of the Currituck and Croatan sounds, making grand feeding grounds for: wild fowl of every kind."

Roll of Honor.
VANCE COLLEGIATE INSTITUTE SEVEN PHRASES, N. C.

Children Cry for Pitcher's Castoria.

"Fine feathers make fine birds."

And good clothes will add more to your appearance than anything else, therefore get the best your purse will allow, and when you get ready for them don't forget Loward. Remember we are the only exclusive men's furnisher and clothier in the city. Our clothes are not shoddy stock but the best we can give you for your hard earned dollars. New lot of Red scarf and four in hands just in.

At J. M. HOWARD'S.

GREAT EXCITEMENT IN LA GRANGE.

Causing merchants and citizens to wonder when it was announced that A. W. Kennedy had assigned to N. J. Rouse, throwing his entire stock on the market, and that New York stock, it is wonderful how the people desert their usual places of trading when such large bankrupt stockpiles are thrown on the market. Only a few days had elapsed when, on Thursday, Nov. 19th, 1891, the mighty iron horse of the old Atlantic, as it is called, was heard to be in the city, and the citizens of the streets in La Grange remained in their homes, and the merchants so many merchants out at 67 1/2 cents on the dollar. Very soon the city was packed up the entire stock of dry goods, clothing, hats and shoes. As well as the people of New Berne and surrounding country when they hear of the wonderful returns on the sale of dry goods, clothing, hats and shoes at Big Ike's Clothing Store. The signs of the times are around to cry for help unless they avail themselves of this wonderful opportunity, and secure some of the bargains while Big Ike is slaughtering out better-seller for the next few days.
