**NOTHING** will be done in Congress until after the holidays.

As is always the case, the Speaker will have much trouble in arranging the committees of the House.

**GEN. MILES** rises to say he is not a candidate for the Presidential nomination. In no other way could his name have gotten before the public in any such connection.

It is always wise to count the coat. Precipitate action is always hazardous. "That Cambridge, Mass., man who set fire to his house to scare his mother-in-law, has no house now but has as much mother-in-law as ever."

**ATTORNEY GENERAL MILLER** will test the right of railroads to issue free passes. Rights are getting badly mixed. At one time it seems that the people have no rights, and then it appears that corporations have no rights.

The most important committees in the House are the committee on Rules, and the Ways and Means Committee. The Speaker is ex-officio chairman of the committee on Rules, and the leader of the party on the floor of the House is usually the chairman of the Ways and Means committee. It is probable that Mr. Mills will be at the head of the Ways and Means Committee.

**NORTH CAROLINA** has long laid claim to the possession of platinum among her many rare minerals, but Prof. F. P. Venable, of the Chemical Department of the State University in a lecture before the Scientific Society, at Chapel Hill, gave it as his opinion that the existence of platinum in this State has never been proven. Prof. Venable has exhausted all possible means to ascertain its existence, but has so far failed.

At Alton, Ill., a well-dressed stranger walked into the office of the Illinois Glass Works in that city and asked for the millionaire proprietor, William Elliot Smith. He was not in, and the man was asked what he wanted. He replied that he wanted a million dollars. Mr. Smith said he had not that much change on hand, but would give him all he had, and, seizing the stranger by the nape of the neck, he threw him out of the door. A few well-directed and judiciously administered kicks caused the stranger to change his mind as to wanting the money, and the man took his peaceful departure in an easterly direction.

**Children Cry for Pitcher's Castoria**

The Postmaster General has received a letter from Crawford, Miss., signed by W. M. Brooks, president, and H. P. Lawrence, secretary, saying: "The colored people want to emigrate to Africa. We want to know whether we could get any aid from this Government or not. We are holding meetings every month. We would be glad to hear from you soon. Ten thousand of us want to emigrate." The letter has been referred to the Superintendent of Immigration.

A COLUMBIA, S. C., dispatch says: As a result of the confession of a negro named Henry Suber, to the effect that he murdered Thornton Nance some months ago, the ten men who had been sentenced to hang October 24th last, but whose execution was stayed by an appeal to the Supreme Court, will now be released. Suber confessed that he alone committed the deed and that he makes a clean breast of it because he does not want to see the ten innocent men suffer for his crime.

"SHALL the girls propose?" is solemnly asked again, and there is a pause for answer to the foolish question which is argued in the affirmative. No—ten thousand times no—not any more than the rose proposes to him who strolls through the garden to pluck it. No more than the violet proposes, from its modest nook, to be gathered for its delicate perfume and loveliness. Nature's invitation is found in woman. She in whom there is beauty of character, perhaps supplemented by charms of person, needs to make no other proposal—and for her to seek marriage by first avowing her willingness in words to man would dissipate her charm—would degrade the noble art of courtship. Finally, man is so constituted that he prefers the prize which is most difficult to win, and he will not value the love of the woman who comes unbidden and as an eager volunteer.—Norfolk Landmark.

## LOCAL NEWS.

**NEW ADVERTISEMENTS.**  
C. B. Hill—In admiralty.  
W. P. Lawrence—Paper hanger, etc.  
D. Hassell—Greenbacks wanted.  
L. H. Cutler—For the holidays.  
C. H. Slade—Woodyard.  
At the Green Front Novelty Store.  
Howard—A thing done, etc.

It is very singular how some people regard the newspaper as a public gift. A gentleman called at our office Saturday for a copy of the JOURNAL, and appeared astounded when informed that there were charges for it.

Deputy Marshall C. B. Hill has returned from Bell Haven, having in custody the steam tug Hygie, which has been libeled for repairs by J. H. Crabtree & Co. and T. C. Howard of New Berne. The case is returnable before Judge Seymour on the 23d of December.

It is very gratifying to Rev. R. A. Willis' many friends to see that he is sufficiently recovered to be out on the street a short time yesterday. We are also pleased to note that a letter received from Trinity last night spoke more cheerfully of the condition of Mrs. Willis' parents, though her father is still very ill.

A rabbit scampering through the back streets of the city was one of the sights yesterday. "Br'er rabbit" got away. He plunged beneath the cotton exchange platform as soon as he reached it and disappeared from view. Query: Did he select that place of refuge because the abundance of the fluffy staple reminded him of the fields he'd left behind him?

**How the New Furnace Works.**  
The Presbyterians are delighted with their new Monitor wood furnace, which was received and put in position last week, and which did its first service Sunday and warmed up the church splendidly, though fire was not started in it until Sunday morning, and with the old furnace the fire had to be kept burning from the previous day to sufficiently warm the church, and even then it would sometimes be too cool. Judging from the way the new furnace worked it is believed by those who have noticed it closest that it will warm the church to perfection in any kind of weather and at much less trouble and half the expense than it has cost heretofore.

A very advantageous point in its construction is the several compartments outside of the one in which the fuel is consumed, each one catching and holding the greater portion of the warmth that escapes from the next inner one, so that almost the entire heat generated is allowed and conveyed in where the worshippers will get the benefit of it.

## COUNTY COMMISSIONERS' PROCEEDINGS.

[To be continued.]

**Another Fine Residence Completed.**  
The work of papering and otherwise beautifying the interior of Mrs. W. H. Pennell's new and handsome residence on the macadamized road was finished Saturday. All the material used and the workmanship on the building throughout is of the best; the interior is finished entirely in the finest native woods—walnut, antique oak and cherry, pleasingly embellished with rosettes and other tasteful ornaments, and from kitchen to parlor is fitted up with every necessary convenience.

The elegant paper of latest styles, which covers the walls and which was put on in a very satisfactory manner by Mr. Wm. P. Lawrence, a professional paper hanger, of Philadelphia, who came down for the purpose, is the completing touch to the beauty of the rooms.

The outside decorations consist of nice brackets, rosettes, and fancy scroll work suitably arranged for charming effect which is heightened by the well-chosen tints used in painting. The body of the house is white, and the trimmings are in light tan, mahogany and chocolate.

Whether viewed from the exterior or interior the building presents a very attractive appearance. It now stands complete—a vast improvement to the locality, an ornament to the city and a worthy reminder of the skill of its expert architect and builder, Mr. Geo. Bishop.

Commendable.  
All claims for compensation with the high character of Hygienic Pills are promptly attended to by the Cal. Fig Syrup Company. It acts gently on the kidneys, liver and bowels, cleansing the system effectually, but it is not a cure-all and makes no pretensions that every bottle will not substantiate.

## Coming and Going.

Mr. J. J. Wolfenden left for Raleigh yesterday morning on a business trip.

Mr. Elijah Taylor, of Adams Creek, came yesterday on a business trip accompanied by his mother, Mrs. C. C. Taylor, to visit her sister, Mrs. Millie Beaton.

Mr. J. S. Matheson of the steamer Neuse for Hyde county of business and to visit relatives and friends.

Mrs. C. W. Matheson returned last night from spending some time visiting relatives and friends at Baltimore and other points.

Mrs. N. F. Nunn's sister, Mrs. Martha Heath and her mother, Mrs. Koonce, arrived from their home near Kinston on a visit to her.

**Work of Enlarging the Ice Factory.**  
The New Berne Ice Company is receiving the lumber for the erection of the addition to their factory, which is to contain the 12-ton plant recently ordered, to be used in connection with their present 8-ton one. The ground will probably be broken for it today. The factory, which had been stopped a day or two to allow the boiler to be cleaned out, started up again Saturday.

When the new plant is in there will be no necessity for a complete stop, even a brief one at any time, as the two plants will be so arranged that either one separately or both together can be kept running as desired, and the machinery of each can be overhauled at different times. The company's getting a single order at this season for 80,000 pounds—forty tons—was their Friday, shows very well as to the demand for the factory's product, and is very encouraging in regard to the continued prospects of the factory on its enlarged capacity of twenty tons per day.

There is abundant opportunity for others who have money to invest to seek out other lines of manufactures not represented here at present, and establish them with equal profit to themselves and benefit to the community.

MARSHAL'S NOTICE OF RECALL.

Whereas, a libel hath been filed in the District Court of the United States of America in the District of Columbia, on the 11th day of December, 1891, by J. H. NEW BERNE, N. C., Dec. 13, 1891.  
EDITOR NEW BERNE JOURNAL:  
DEAR SIR:—I sent you a poem last week and asked you to publish it in your paper. You declined and returned it to me, with the crushing reply that I was no poet, and you could turn out better poetry out of a sausage machine. Now I won't be crushed, and I propose to show up your attempt to throttle budding genius. Publish this card and the following poetry in your advertising columns, and charge me full advertising rates. Yours,  
JOHN A. MACDONALD RILEY.

**THE POEM.**  
I stood upon the ocean's sandy beach,  
And with a reed I wrote upon the sand these words:  
"Agnes, I Love Thee!"  
But the winds came and the waves rolled mountains high  
And blotted out the fair impression.  
Cruel waves! treacherous sand! fragile reed!  
No longer will I trust to thee:  
But from the highest mountain's peak I'll pluck the tallest pine,  
And dipped in the crater of Vesuvius, with it I will write  
Upon the high and burnished heavens these tender words:  
"The Bargain Store has the biggest stock of neckwear ever seen in this city, and are now offering such exquisite silk scarfs at 25c. each, that their very cheapness would almost take your breath away.  
And I would like to see any dog's nose wash that out."

**ELECTRIC CARS FROM NEW BERNE TO POLKESVILLE AND TRENTON.**

It is now talked on the streets that the Electric Street Car Company will extend their line to Polkessville and Trenton, thereby enabling the people of Onslow and Jones counties, through the Richlands and White Oak sections, to go to these two points, board the Electric Cars, go to New Berne, transact their business and return home—a distance of forty miles—the same day. What wonderful rejoicing will be among the people of Jones and Onslow counties, who have no way of visiting New Berne, hence do not get there once in five years. The people of New Berne would be alarmed if they just knew that so large a majority of the people in these counties never visit New Berne, and have no way of transportation. Think of hundreds of thousands of dollars locked up in the town of New Berne by her business men and citizens! Does it not show that our people are not up with the times when they sit still and let capitalists from a distance come here and grasp hold of such wonderful opportunities? I am reliably informed that the New Berne Electric Power Company has already paid a dividend of 19 per cent for the first twelve months. How the writer would rejoice to see the Electric Power Company, while making such wonderful extensions, put on a line from New Berne to Aurora. How many people would rejoice to know that in the near future they will have an opportunity of visiting the invaluable, irreplaceable, never going Big Ike's Clothing Store, by paying 25 or 30c. car fare, and secure some of the wonderful bargains he is giving the people while buying so many merchants out at 49, 50 and 67 1/2 cents on the dollar. Now, will the mobilized men of New Berne continue to sit still, and not take hold of some of these wonderful opportunities to invest their money.
