MAJOR THAD D. LOVE, one of Wilmington's most respected and esteemed citizens, has died from an attack of Grip.

MR. VANCE has introduced in the Senate a bill providing for the erection of a monument to the Revolutionary General Nathaniel Green, on the site of the Battleground of Guilford, N. C.

THE Salisbury Herald boasts that the Board of Education for Rowan county raised the school apportionment to \$1.60, and claims that Rowan is the banner country in the State in that respect. We congratulate the Herald on the prospect of having longer school terms, and, therefore, more efficient public schools.

SOMEWHERE we have read of an Irishman who said: "We have no need of the sun; it is light enough in the day time. The moon is all right; it shines at night." The moralist says: "We have no need of Christianity. Morality is all right; it shines in dark places," forgetting that as the moon borrows its light from the sun, so morality borrows its light from Christianity. Without the sun there would be no moon; so without Christianity there is no morality worthy of the name.

THE N. Y. World, anti Cleveland, says: Mr. Cleveland is the candidate of the anti-politician, so to speak. He represents the ideas, sentiments, aspirations, not organized purpose. Ordinarily such a candidacy for nomination would be hopeless because organization is supposed usually to count for more than ideas, sentiments and aspirations in nominating conventions. In Mr. Cleveland's case there seems to be widespread conviction that the rule will not hold good. In spite of the organized hostility to his candidacy, it has been the general expectation that he will receive the nomination. But that expectation is now somewhat less confident, perhaps, than it was a year ago, or even a month ago.

JUST look at the Democrats, Mr. Richardson, of Tenn., offers a bill to equalize taxation and impose an income tax. By Mr. Piers, of Tenn., for the free coinage of silver; also for the imposition of an income tax; also for the prevention of trusts. By Mr. Latham, of Texas-For the free coinage of silver; also a resolution directing the committee on judiciary to investigate and report whether the act of 1837 providing that gold and silver bullion brought to the mints for coinage shall be coined for the benefit of the depositors is still in force. By Mr. Stewart, of Texas, placing bagging and cotton ties on the free list; also to promote reciprocity between the United States and Mexico; also fixing the presidential term at six years; and so it goes all along the line.

NOT in years has the question of simply procuring meat and bread confronted so many people in North Carolina as today. We believe that of all the Southern States, North Carolina, and especially the section devoted to the raising of cotton, is the greatest sufferer. Not a half a crop and not more than two-thirds of the usual price are being realized. The effect is very manifest and it will require unusual self-denial, economy and meanness to live throughout the next six months. Any one who has means and will prosecute his struggling

neighbor or tenant for debt at this time is neither a good neighbor nor citizen. It is a time for the well-to-do to keep their hands off the poor, who are indebted to them and it is also a very seasonable time for those who owe debts and can pay to do so. Above all this it is a time to be honest, for only general honesty can ameliorate it.-Charlotte Chronicle.

THE chief thing the devil does in this world is to tempt people to do wrong. It is an awful thing to say, nevertheless it is the truth that there are people in this world, who, though not as bad as the devil, are very much like him, and take pleasure in doing his work for him. Who are they? Who does the devil's work for him? Every person, every boy, every girl who tempts any one to do wrong. There is nothing that makes one so like the devil as tempting people to sin. A boy wants to stay away from school, and tries to make some other boy do the same. By so doing he tempts him, and thus do the devil's work. A little girl disobeys her mother, and then asks her sister not to tell their mother. This little girl helps the devil by tempting her sister to tell a lie. Yes, every boy or girl is doing the devil's work who tries to make anyone do what that person knows to be wrong. The sin of tempting others makes one like the devil. It is in the sight of God a most damnable sin.-St. John's Record.

NEW ADVERTISEMENTS. Found-Nickel door key. J. W. Stewart-Stolen. J. S. Morton-Executor's notice

Fifteen new students entered the Collegiate Institute last week.

There will be a prayer meeting in the Presbyterian lecture room at 10:30 o'clock (a half hour before regular church service) this morning. An invitation is extended to all.

Mr. W. E. Grimsley will be tried in Snow Hill at the next term of the Greene Superior court for shooting Rev. J. T. Abernethy. The term commencing January 18th.

Ladies as well as gentlemen are invited to be present at the Y. M. C. A. exercises this afternoon. It is a welcome meeting in behalf of the new secretary, Mr. H. L. Walton, who has taken permanent charge of the Association here. Besides short talks that have been planned, a good musical program has been arranged with the piano, violin, flute, etc.

Ben. Spencer, a colored farmer who lived near Core Creek station, was found dead in the woods Friday. Mr. E. P. Williams was deputized as coroner and held an inquest yesterday. The jury, of which our townsman, Mr. W. T. Lane, was foreman, rendered a verdict that the deceased came to his death from causes unknown to them. Spencer was subject to fits, and the indication was that some sudden attack ended his life. He was home to dinner, and was found dead a short time afterwards where he was getting lightwood for a tar-kiln. He bore an excellent character.

Emmanuel Canady, the negro youth whom Mr. B. B. Davenport caught last summer stealing a cheese from one of Mr. J. F. Taylor's customers, and who got off with only three months in jail, is again in the clutches of the law. He secreted himself in the bar-room of Chas. Taylor, col., Tuesday night and robbed it of several boxes of cigars, a small amount of cash, and a pistol belonging to a clerk. He was detected by his offering the pistol for sale, and had an examination Friday before S. R. Street, Esq., and he now languishes in Craven county jail awaiting trial at the next term of Superior Court. We are told that this is Canady's fourth offense. An offense similar to the one of which we have been speaking was committed at Mr. J. B. Dixon's gun shop in the same locality about two weeks ago. When such offenders are caught the law ought to be enforced with severity enough to have a deterring effect upon evil doers.

A New Kind of Swindle. A new kind of swindle has sprung up in the State of Ohio and may reach here at any time. It is being practiced in many places. We desire our readers to be on the guard. It is as follows: A man puts in an appearance, seeks out the proprietor of the store, and informs him that he is searching for rare coins, passing him a list of specimens and their alleged value. He also asks the interested proprietor to keep an eye out and should he get hold of any to keep them for him. Soon after another party strolls around, buys a cigar or some other article and exhibits a couple of coins with the remark that they are positive pieces. On consulting his list the proprietor finds their value is marked at \$45 each. Here you will see an opportunity for speculation, and after some dickering the second party sells him the pieces. Of course number one never shows up and the coins are worth no more than their face value.-E.

Home Manufacturing. The Wilmington (N. C.) Messenger speaking of the advantage of manufacturing cotton in close proximity to the cotton fields, says:

In the years ago we had frequent occasions to set forth the advantages of the South as a cotton manufacturing section over New England. Five or six years ago this superiority was flatly denied by New England economists, manufacturers and editors. Some of them have learned better by this time. The wisdom of bringing the mills to the cotton is understood now by some. The Southern mills for the last ten years have done better upon an average than the New England mills have done.

There is a difference in the cost of cotton to New England and Southern mills sufficiently great to give the latter the advantage, without considering cheaper labor and cheaper living. A correspondent of the Boston Wool and Cotton Reporter presents some figures that will give the readers of that publication some needed information. Raw material is most important factor in the make up of profits or loss. A President of a leading Southern mill shows that it costs \$48 58 to put at the mill a bale weighing 490 pounds, at 10 cents a pound. The reselling of bagging and ties (\$1) is deducted, making the cost as above. To deliver this bale in New York costs \$56.55. The bale will make 416 yards of cloth at a cost of 18 cents per pound in Boston and 11 cents per pound in the South. This gives a difference of 11 cents per pound, or over \$8 a bale, in favor of the South. New England has some advantage in labor, experience, etc. But these are being steadily overcome in the South with time, while the difference in cost of raw material will remain for all time.

Coming and Going. Dr. G. K. Bagby returned last night from a trip to Washington City where he has been on the business of getting a patent on a cotton chopper of his own invention.

Hon. F. M. Simmons arrived for a short stay in the city last night.

Mr. T. C. Daniels has resigned his position as Professor of Physical Culture at Trinity college, and returned home last night for the purpose of assisting his father through the busy spring shipping season.

Messrs. J. J. and B. F. Tolson went down to Wildwood last night on account of the dangerous illness of their mother Mrs. Nettie Tolson, who was taken with a stroke of paralysis the night previous at her home there.

Mrs. A. R. Delamar, of Goose Creek Pamlico county, passed through en route to Newport to visit her parents Dr. E. L. Perkins and wife, both of whom are seriously ill.

Rev. Alex. Sprunt of Wilmington who is the guest of Rev. C. G. Vardell will conduct both services at the Presbyterian church today. Our citizens will also have the pleasure of hearing him at meetings in the church during the week. All seats are free and the public are cordially invited to attend.

HORRIBLE EXPLOSION.

Two Hundred Men Killed and Terribly Mutilated.

There was an appalling calamity at Krebs, four and a half miles east of McAllister, Indian Territory, Thursday evening at five o'clock. A terrible explosion occurred in a mine in which were 200 men, most of whom were waiting for the cage to take them out, and the foot of the shaft is one mass of dead bodies. Eighty-five men came out by an old entry, and forty-two have been saved by the shaft, most of whom are more or less burned and bruised and half will probably die. This leaves about 300 men yet in the mine, and in all probability over 200 of them are dead. They are so badly mutilated that nearly every body recovered is past recognition. The explosion was caused by firing a shot when gas was in the mine.

Magnificent Sport. Mr. Berry Gleaves returned Sunday night from a week's Nimrod outfit up on the Roanoke river bottoms. Flushed with success, he brings back the rosette hue of robustous health.

Mr. Gleaves had with him a couple of friends from New York, Messrs. Ed. Graffmiller and Hermann Vonlengerke, Capt. Bohenster, of the Roanoke government boat, and Mr. Kloben and the Bardens, of Scotland Neck. In five days the party "bagged" seven deer, ten wild turkeys, one hundred red quail, and ducks and squirrels innumerable, not counting smaller game. Mr. Gleaves represents game as plentiful, and the sport as enjoyable as he ever experienced.-Will Star.

The Club's Invitation.

In behalf of the members of our club it is my privilege to invite those who are truly interested in the social life of young men to visit the hall at anytime-either in the day or during the evening.

We extend a cordial invitation to the ladies of the city to offer suggestions as to our plans and enjoyments. As soon as the work of fitting up our club room is finished we purpose having reception days.

Only those pleasures and amusements which young men have an honest right to enjoy are permitted; and, only such games and methods as are permissible and moral in the best of homes in this community furnish us delight.

The substance of the laws relative to the general government of our club is as follows: All the privileges are to be the same to each member. The spirit of congeniality and social intercourse are the leading objects. Each member is under obligation to manifest and put into expression by acts and words the sentiment of brotherly kindness and social unity. Conduct on the part of a member derogatory to the standard of character the club has and will maintain is subject to censure and expulsion. We have a hall which many of the most prominent young men of the town may frequent and participate in society's pastimes amid a lawless influence. We take just pride in the success which has thus far attended our efforts.
