THE weather is extremely cold in the Northwest; thermometer 38 degrees below zero.

THE Democratic State Executive Committee is called to meet in Raleigh on March 24.

THE excitement about the Navy Department has quieted down a great deal. Secretary Tracy says the crisis is over.

NEW YORK and Chicago parties are in New Orleans for the purpose of buying up the rice mills and forming a rice trust.

THE House Committee on Currency has decided to vote upon the question of introducing a free silver coinage bill within three weeks.

JANUARY 20th a sleighing party of twenty-two persons was run into by a train in St. Louis and nine of them were killed and eleven injured.

A GOOD many naval officers put no faith in Cull's pacific overtures. They think she is trying to gain time, while she is strengthening her supply stations.

MRS. MILLER, of Cold Springs, N. Y., is the mother of fourteen children, two sets of triplets, three pairs of twins, and two single births, all within eight years.

THE Philadelphia Times no doubt expresses the sense of the country when it says that "the people of the United States will accept war with Chili if peace can't be maintained with honor."

MR. MILLS, who is back in Washington, says that he has 86 pledged votes and is certain of election to the Senate. We hope this is true, for Texas has no son who can so ably represent her in the Senate as Mr. Mills.

OHIO furnishes an object lesson for Gov. Hill and other Democrats anxious to push the silver question to the front as an issue between parties. As a result of this sort of tactics Mr. McKinley is Governor of Ohio, a Republican Senator was elected to serve six years, and the State will be gerrymandered so as largely to disfranchise Democratic voters. This was a big price to pay for the gratification of the whims of a few cranks who desire to use the Democratic party as an agency of financial demoralization. —Phil. Record.

MR. CLEVELAND was in New Orleans a few hours and in reply to certain enquiries said: "As to my candidacy," he said, "I am only a private citizen, and there is no need for me either to announce or decline an honor which has not been tendered me. I do not care to discuss local politics. The national issue, I take it, will be the tariff, but as a good Democrat, I shall stand by the action of my party in the coming contest. McKinley's success in Ohio means that had Ohio gone against him the Republican party would have become disintegrated. His victory will not effect Democratic success in '92. I did not come down here to talk, I simply came to vote."

WITH less cotton, more grain, and pasture and meadow lands on every Southern plantation and farm, with cattle, hogs and sheep to utilize the grass that is grown, the Southern farmer will have taken the new departure in diversified farming which will bring him the prosperity and independence that he never could hope for under the one-crop delusion.—Wilmington Star.

A NASHVILLE, Tenn., dispatch of January 20th, says: Early this morning nearly two thousand miners gathered on the hillsides about the Coal Creek stockade and kept up a constant firing of small arms and held a semi-civilized ghost dance about the two small blockhouses which contain two hundred State troops. The miners came so close to the military pickets that an exchange of shots was indulged in. None of the soldiers were hit, and it is thought that the miners escaped without injury. About two weeks ago a soldier accidentally shot and killed a convict, and since then the miners have become more arrogant and aggressive. Further trouble is expected. They swear that when they get ready they will exterminate the civil guard, the State troops and the convicts and forever end convict labor in the mountains of East Tennessee. The officer in charge has asked for reinforcements and one company of infantry has been sent out from Knoxville. The miners say that no more soldiers nor convicts shall enter the valley. A fight is expected at any minute. The soldiers are well fortified, yet the miners can outnumber them one hundred to one. The Kentucky miners and those about Jellico are ready to join their Tennessee friend at a moment's notice.
