Peculiarly Addressed Letters. It is not seldom-that posteffices receive letters and packages so peculiarly addressed as to appear quite odd and sometimes ridiculous.

On Monday, the 22d Feb., which was Washington's birthday, there was received at the New Berne office letters addressed to Geo. Washington and Moses and a book addressed to Mrs. Nosh.

Still another letter was received addressed to the Post-master, which we

The Vice-Presidents of the Association consist of the Presidents of the districts into which the State is divided. They are 32 in number. We are in the 6th district, which consists of Craven, Jones and Carteret. The President of the district is Rev. W. Q. A. Graham, of Marshallburg, Carteret county.

Our Sunday-school people generally ought to attend the County Convention Sam'l Jackson..... today. There is no restriction in it as to number, and the importance of having all things in proper shape for the State Convention, now so close at hand, should be an incentive to extra effort and special arrangement if necessary. The Correct Time, Without Doubt.

We cannot boast of a town clock as ret, though we think New Berne ought to have had one long ago, but nevertheless all our citizens who pass down Middle street can be sure that they have got absolutely correct Washington City time by glancing at the clock which faces the north in the store of Mr. S. K. Eaton, jeweler, as it is confirst purchased for use in their lecture nected by the telegraph wires with the stantial in appearance, beautiful in and moving at once to 12 o'clock, if not which there can be no question what-

Outside of its connection with Washington City the clock is a marvel in itself, being a self-winder. It winds itself up at a fixed time each hour throughout the day and night. The power that causes the winding is two electric batteries on the top of it. They have to be re-charged once in six months, which is done at a very trifling cost, and after that the clock requires no further attention until another six nonths runs out.

Other Awards.

Mr. E. Walnau was awarded a diploma for the best collection of musical instruments at the Fair and Mr. A. Cohn diplomas on the Newby & Evans piano, the Mehlin piano and the Crown parlor organ.

For best Crayon \$1 00, Miss Eya Kinsey. Premium on best oil painting should have been awarded to Miss Ins Kinsey instead of Miss. Rogers. Premium on pastelle painting should have been awarded to Miss English instead of Miss Etlis.

Big Eggs.

John Lancaster, of No. 18 township, has an ordinary hen which lays extraordinary eggs. One of them measured in circumference 6f inches one way and 8 8-8 the other it weighed just four ounces. When it is remembered that the average hen egg does not average two in weight, the performance of the Lancaster fowl will be better appreciated.—Tarboro Southerner.
