New Berne and Carteret County Water Line.

Mr. D. Bell, of Morehead, has put on wo schooner rigged sharples, capable of carrying about fifteen tons each, to run regularly between New Berne and Morehead and Beaufort via the New Berne and Beaufort Canal, the plan being to have one boat leave New Berne each trip at the same time that the other starts from the other end of the line, and between them to make three round trips per week. The line ought to do a good and pros-

perous business, and we have no doubt it will. It offers a convenient and cheap way for wholesale as well as retail merchants to reach their customers along the route, and affords also a convenient arrangement for the country merchants who order their goods from the North by steamer to get them Berne. It also gives very much Improved facilities for Northern steamer shipments of fish, oysters, clams, etc., It is not the big things that from Carteret county, and we are make up life but the trifles. So it informed good quantities of them are Northern shipment via New Berne.

The trucking interest is also assuming larger dimensions through the country that will be tributary to the boats. We understand that at Harlowe there will suspenders long enough for you if be more this year than ever before, consisting principally of potatoes, peas and cabbages.
