DUFFY'S MALT WHISKEY for medicinal use, for sale by JAS. REDMOND.

SEVERE snow storms are raging in England and Scotland.

JUSTICE LAMAR, of the Federal Supreme court, is critically ill.

THE Claus Spreckels Sugar refinery is sold to the Sugar Trust for \$7,000,000.

THE Bland silver bill is dead. Killed by a threat of cloture rule in the House.

SILVER having been defeated in the House, may come to the front in the Senate.

PRESIDENT HARRISON will accept Lord Salisbury's conditions for the modus vivendi.

THERE are now 275 active lodges of Masons in the State, of which four have organized this year.

SPEAKER CRISP is charged with duplicity. He is said to have abandoned the silver men at the crisis.

MR. Bland sharply criticizes Mr. Crisp, and the Speaker replies with characteristic spirit and directness.

ON the 18th of May there will be a convention of the "Rebekah degree" lodges of the Odd Fellows at Raleigh.

MR. BLAND can not get a majority of the Democrats of the House to agree to a cloture rule for the silver bill.

THE Agricultural Department has sent out great numbers of cards for reports of its correspondents, and the reports are to be very complete this year.

THE defeat of silver is another illustration of the folly of putting a young horse on the track at the wrong time. Many a promising colt has been ruined just that way.

THE Republicans hope to make something in the South by the disintegrating process started by the third party schemers. But the disintegrators are not big enough.

SEVEN of Chicago's aldermen have been indicted for conspiracy to plunder. They were trapped by a detective who bored a hole in the floor above the room in which the hoodlums met to talk and plan, and fixed a microphone so he could hear everything said. He had a stenographer handy to take it down so that he would not be caught.

It has been suggested that Mr. Hill make a tour of the Southwest. It would be interesting to know whether the suggestion comes from the friends of Mr. Cleveland or Mr. Hill.—Washington Star.

CHAIRMAN SMITH is notified that many persons will attend Democratic primary conventions who will not support the nominees of the Democratic State and National conventions. Mr. Smith writes a letter in reply.

"GOVERNOR PECK, of Wisconsin, says that five out of every six Democrats in Wisconsin are for Cleveland, and that Hill stands no show in that State. Peck is a humorist, but he is in downright earnest in this."

LOCAL NEWS.

About fifty people left on the steamer Neuse of the E. C. D. line to be present at the launching of the cruiser Raleigh. No doubt they will have a delightful trip.

Mr. Hattie Mitchell, of Henderson, who has been visiting relatives and friends in the city, returned home yesterday accompanied by Mr. and Mrs. F. G. Mitchell on a visit.

The Young Men's Christian Association has purchased an additional hundred chairs which will give a splendid seating capacity. The gymnasium has been covered with sawdust to lessen the noise.

The convention of United Confederate Veterans meets in New Orleans April 8th. We hope a meeting of the Confederate Association of Craven County will be called at once and delegates selected to attend the convention at New Orleans.

The Fire. The fire which occurred before day yesterday morning at the junction of Broad and Queen streets burned four buildings belonging to E. G. Moely, colored, and damaged another one of his to the extent of about \$200. His total loss was \$1,800. Insurance, \$900.

The fire originated in the building occupied by Dr. E. L. Scott as a store, residence and lodging house. He saved nothing. His loss was \$500; insurance \$800.

The next building on the east was occupied by Mrs. K. E. Tillings as a residence and general merchandise store. She saved but little and what was saved was in a damaged condition. She estimates her loss at \$1,300. Insurance \$400.

The next building, the partly burned one, was a grocery store kept by Richardson & Sealing, caught but was put out with slight loss. They saved nearly all their stock but sustained some loss through damage.

The building adjoining the one occupied by Dr. Scott on the west had been vacant and a party was just moving in. The next one was an eating saloon.

By the time the fire engines got to work the store of Mr. J. H. Hackburn was about to catch but was saved by the timely streams.

There was scarcely a sign of breeze at the time. If it had been otherwise the chances are that the fire would have been several times as disastrous as it was.

Appreciates Their Sympathy and Kindness. To my friends and the public generally who so kindly came to our relief since the loss of the houses and home in which we lived, at the recent fire in Swanboro, N. C., and which has left us almost destitute, I desire in this manner to return to them my heartfelt thanks and gratitude and that of my family for their great kindness and generosity in having so liberally donated to us many of the necessary comforts of life as food, clothing, shelter and clothing, &c. Our loss is a very serious and severe one to us, as not only the dwellings more entirely destroyed, but also our furniture, household wares and chattels, and almost every article of clothing we possessed we barely escaped with our lives, the fire having occurred after midnight hours.

To the good people of Swanboro, we feel grateful and tender them our sincere thanks for their heroic efforts to save our property.

MAKER RUSSELL. A Denial. The report being circulated in 3d ward by the knowing(?) one that I am pledged to Wm. Ellis for Mayor, of this city, is utterly false, and I take this occasion to say that I have no idea of, nor will I support him for the above position. I hope this statement will be satisfactory to some of my misled friends who are "shaky."

HUGH J. LOVICK. Newbern, N. C., March 30th 1892.

Card of Thanks. I return grateful thanks to the New Bern Fire Department and other citizens who so seasonably worked to save my property from the flames yesterday morning.

R. G. MOSLEY. To Boarders. Pleasantly furnished rooms and good board at reasonable rates to permanent boarders. C. T. HANCOCK.

For Over Fifty Years. Mrs. WISBLOW'S SOOTHING SYRUP has been used for children teething, for colic, for the child, for the mother, for all pains, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. Sold by all druggists throughout the world.

SUNDAY-SCHOOL CONVENTION.

Eleventh Annual Session Held in North Carolina.

Convention re-assembled at 9:15 o'clock, President Burkhead in the chair.

After singing that good old song: "While the Days are Going By," Prof. Hamill took up a Bible reading on the subject of "Consecration," sub-divided as follows and outlined on a black board:

1st. What does it mean?
2d. How it is made.
3d. What it brings.

Quotation from the Bible were read by members of the audience and discussed by Mr. Hamill after each reading. Other remarks were dwelt upon by the speaker:

At the finish of the subject, "Consecrate Me Now" was inspiringly sung by the choir with the full audience enthusiastically joining in.

On motion the following committees were appointed:

Committee on Enrollment—A. S. Barber, Chapel Hill; S. L. Adams, Durham; J. W. Causey, Greensboro.

Committee on "Order of Business"—F. S. Blair, Guilford College; Jao. G. Staple, Reidsville; G. T. Adams, New Bern.

Committee on "Nomination"—H. N. Snow, Durham; Geo. P. McNeil, Fayetteville; Rev. W. M. Curtis, Thomasville.

Committee on Resolutions—H. C. Wall, Rookingham; Rev. W. R. Coppedge, Graham; W. B. Harker, Maxton; Auditing Committee—J. G. Staples, W. M. Curtis, H. C. Moffit.

Mr. W. M. Cummings was elected assistant Treasurer.

On motion, it was decided that papers in different portions of the State be furnished with the most important portion of the proceedings of the Convention for publication and to include all the denominational papers.

Announced that Mr. Dodd could supply literature for primary teaching.

Motion, that all Sunday school workers in attendance be constituted as delegates. Carried.

Reports from district committees called. Where not represented by delegates, verbal reports were offered by the field organizer, Mr. F. S. Blair.

After eleven districts had been heard from, Motion was made to postpone further reports till Thursday morning. Carried. Delegate from the seventeenth district asked permission to make report as he could not be with the convention at the appointed time. Request granted.

Adjourned for dinner.

AFTERNOON SESSION. Two o'clock First work, a S. S. Institute, conducted by Prof. H. M. Hamill, Supt; Illinois S. S. Normal Work. It consisted of a Normal Bible Lesson from the Old Testament. It abounded in rich and thoughtful instruction clearly illustrated through the use of the black board, maps and charts. It was a splendid lesson, and especially interesting to those with whom the method was new.

Report of executive committee was read and referred to a committee of three, consisting of Revs. O. G. Vardell, H. C. Hall and J. G. Staples. (To be published in the JOURNAL tomorrow.)

Prof. Hamill took up the subject of Training Lesson, clearly demonstrating way for successful work in Sunday Schools. It was a valuable talk from a profound and experienced instructor. Every pastor superintendent and teacher within reach ought to have heard it.

Committee on constitution reported. Read and adopted by sections. Article third was amended so as to include a Woman's Mission Aid Secretary.

Recommendations in report of executive committee were adopted.

Report of statistical secretary read and adopted. Meeting adjourned till night.

NIGHT SESSION. The church was crowded at the night session. It was an exceedingly interesting one and profitable to all present. Evangelist Eife's Bible Reading on "Search the Scriptures" was very impressive. Every one who heard Prof. Hamill must have departed with better ideas of how to teach effectively, and Mr. Reynolds' address was calculated to strengthen friends of the S. S. Association work and arouse those indifferent to the matter and attach them to it.

At the close subscriptions were taken and about \$1,250 raised for State work.

Imitators and Impostors. The unequalled success of ALLOCK'S POROUS PLASTER has induced unscrupulous parties to offer imitations, which they endeavor to sell on the reputation of ALLOCK'S. It is an absurdity to speak of them in the same category as the genuine porous plaster. Their pretensions are unfounded, their vaunted merit unsupported by facts, their alleged superiority to or equality with ALLOCK'S a false pretense.

The ablest medical practitioners and chemists and thousands of grateful patients testify in declaring ALLOCK'S POROUS PLASTER the best external remedy ever produced.

Beware of imitations, and do not be deceived by misrepresentation. Ask for ALLOCK'S, and let no solicitation for expression induce you to accept a substitute.

Children Cry for Pitcher's Castoria.

MR. REYNOLDS' ADDRESS.

Delivered Tuesday Night Before the Sunday-school Convention.

Through the courtesy of Miss Gertrude Jenkins, stenographic reporter, we were enabled to obtain the splendid address delivered by Mr. Wm. Reynolds of Illinois at the opening of the Convention, a summary of which we here publish:

"My friends: since we are assembled here and are assured of a welcome, although we had no fears of that before we came, the next question is, what are we assembled for? You have had fish down here, and the people who came, came to look after the fish. I suppose we have come here, with fair and people who come there, some of them to look at horse races, some to look at better breeds of animals, some to look at better machinery, and if they find improvements to purchase and take them home with them. And I tell you these States and counties, which we have revolutionized the whole agricultural world in the last twenty-five years. We have political conventions and conventions of various kinds; this is an age of conventions and I am glad of it.

In our Sunday School work we have an International Convention which meets once in three years, where delegates come from all parts of the United States and Canada. Next year we will have the international convention in St. Louis, and the same week will be the World's convention, and there will be hundreds of delegates from England and the British Isles, from France, Germany and Italy, and from all parts of this globe men will be assembled there for the purpose of discussing the Sabbath School work, this great arm of the Church; and the most important branch of the Church now, that we can conceive of, and that is what we are gathered here for, to decide what can be done to help the 400,000 children in this State who are now outside of all Sabbath schools, who are of course, under no religious instruction, and who are going to the Sabbath schools, will practically have no help in this life or the life to come. Can any one then deny the assertion that no more important convention can possibly be assembled to deliberate upon any subject so great as the leading of those 400,000 children and bringing them under the influence of the Gospel? How is it going to be done? Just by going from house to house and inviting them to come in, and pleading with them and leading them into our Sunday-schools. In all my thirty years' experience, I have never met a child yet that could not be got into the Sabbath school.

If we would make the cause of Jesus Christ first and business afterwards, if we would show to the world that we believe that the Bible is true, I believe God would open the windows of heaven and give us a great blessing, as he said, "Bring ye all the tithes into the store house, and I will open the windows of heaven and pour you out a blessing that there shall not be room enough to receive it."

We want to teach the religion of Jesus Christ; and we must teach the Bible; it is now excluded from the public schools, and the Bible is going to be from the South. Yes, God forbid, but the tide is turning that way. We are not come here to antagonize denominations. I am a denominationalist; but I care for my denomination as a means to an end, just as an army is good only for the accomplishment of its purpose, and when that is accomplished it is disbanded.

I stand here as the representative of the International Executive Committee, and I want to clearly emphasize just what is the position of the International association towards you. It is for the purpose of superintending and helping the whole land in every field. Why, I remember when the project of introducing national lesson papers was first introduced; some of the denominations said, "we can do it; we have our denominational publications and we are going to stand by them." Do any of the denominations say now that this international system has hurt them any? No. Today there is published more literature than ever was published before; this system has created a great demand for religious literature.

The most important Convention in the whole line is the Township or district convention. Some of the most blessed conventions I have ever seen have been these little school-house conventions.

At the very foundation of the Church is the conversion of the youth. I tell you when a person passes the age of twenty years, he has almost passed the dead line, so far as his conversion is concerned. Mr. Spurgeon said in his paper, "The Sword and Trowel" a few years ago, "Out of my entire experience in the ministry, I have never had a single person to discipline in my church, who was converted in early childhood, and then were trained uprightly in their Church."

I believe that Christ is going to be with us here, for we have come on the very mission that he came in this world with, and he has commissioned us here. I am so glad that as my brethren can work in this work with the ministers. This a work for all, ministers, laymen, men and women. Pray for more faith that his Spirit descend, and we will go from this place revived, encouraged and instructed.

The service closed with the song, "I gave my life for thee," and the congregation was dismissed with the benediction.

Campbell's Portraits. The agents of B. S. Campbell, of Norfolk, Va. will remain at the Hotel Albert for only a few days longer. Crayon portraits \$1.00. Work on exhibition in the Ladies parlor from 12 until 8 o'clock p. m.

REYNOLDS & MITCHELL, Agts.

"How much a man is like his shoes, For instance both a sole may lose." We wish to say a word about Shoes. There are all kinds of Shoes, good, bad, indifferent. What kind have you been buying? Now the Shoes made by Stacy Adams & Co. and sold by us are the good kind. The prices range from \$3.00 to \$5.00. They are all good, no bad or indifferent ones in them. If that's the kind of Shoes you are looking for, call on

J. M. HOWARD.

L. H. Cutler & Co.

FIGHTING FIRE.

Defective Arrangements That Ought to be Remedied.

Near half past two o'clock yesterday morning a building at the junction of Broad and Queen streets, occupied by Dr. E. L. Scott was discovered to be on fire.

Shouts proved unwilling to carry the alarm to the office, as there was no one on the streets to take up the cry and pass it on to the station house, over eight blocks distant, and we have no alarm system a messenger was at length dispatched, and at five minutes to three the bell started to ring.

Then came another trouble, only two or three strokes were given, before the bell rope broke at the point where it was in contact with the metal, and silence reigned supreme in the tower, from that time on.

But slight as the notice was it served its purpose and the firemen responded promptly, and in a remarkably short time, considering the distance both engines were on the scene of action—the New Bern's at the pump on Broad street fronting Mr. W. A. McIntosh's property and the Atlantic's at the one by Mr. McCarthy's store.

Then came another delay of the same nature that occurred when Dr. Lester Duffy's and Mr. McIntosh's stores were burned a short time ago, which was the last disastrous fire we have had previous to the one that has just taken place.

It will be remembered that at that fire there was no serious apprehension at the beginning, of any building being endangered except the one on fire, and yet the flames spread and destroyed property on both sides of it and that lamentable result was in a large measure due to a delay caused by some obstruction in the well that prevented the suction hose reaching the water until a man was lowered into the well to remedy the trouble.

We called pointed attention to the matter in the next issue of the JOURNAL in the belief that the barrier to free work, whatever it was would not be permitted to remain and yet on the very next occasion to use the well the same trouble is experienced and a similar delay caused which was not put an end to until another descent was made into the well.

We have a finely equipped and remarkably expert and willing fire-department and yet notwithstanding the sums spent to equip and maintain the department, and notwithstanding their devoted endeavors and their great efficiency, their efforts are sometimes seriously handicapped, as in this instance through lack of previous attention and preparation in certain details.

First, the city ought to have a good fire alarm system so that the engines rooms could be immediately communicated with from any section so that they could not only receive the alarm but know where the fire was before the engines start to it.

Again, until such a system is established there ought to be arranged without further delay one or more fire bells reasonably accessible by residents of the northern and western parts of the city.

And further, until the water works are constructed and in operation, every fire well in the city ought to be examined at short and regular intervals and kept in perfect order.

And lastly, as we have said at intervals, ever since the New Bern company was moved from Broad street, the engines ought to be more evenly placed. The southeast corner of the city now gets vastly more than its proportionate share of protection, to the neglect of other portions. At present the engine farthest removed from the southeast extremity of the city is about four times as far from the western and northern sides of the city as it is from that point, and the northwest extremity of the city is proportionately farther. The mere statement of this fact is sufficient to show the injustice done the residents in some portions of the city.
