In his sermon at the Y. M. C. A, hall, Sunday afternoon, on "Besetting Sins," Evangelist Lee reached rock bottom in his denunciation of sine of the times.

Though Mr. Lee was unsparing in showing up the wickedness of the conduct be talked about, there was no abuse in the sermon. We never heard one that was stronger against ein and to agree with what was being said, and to approve of it, and less calculated to arouse feelings of antagonism.

May God for-bid! Is the grand old Methodist church that has always utilized every available agency, and has taken advantage of the gifts and graces of its early pioneers for the conversion of men; the church that has adopted itself to the condition and circumstances of the community in which it was placed; the church of the people—is this church going to proscribe and stigmatize any and all who will not enter the regular pastorate, but yet dare preach the gospel as evangelists to dying men? From such a retrograde movement may our church be delivered! This innovation or restriction sayors too much of

popery and Romish disposition.

The office of evangelist is as much a divine institution as that of the pastor-ate, and is becoming every year more and more an absolute necessity.
