G. & W. Drugist and Apothecary, Middle St., four doors from Pollock, Jan 27, 1892.

**DUFFY'S MALT WHISKY** for medicinal use, for sale by JAS. REDMOND.

**MORE** earthquake shocks felt in California towns.

**THE** Baltimore factory has begun the manufacture of tin plates.

**OVER** 16,000 immigrants were landed at the port of New York last week.

**M. S. JAFFRAY**, head of the New York dry goods house of E. S. Jaffray & Co., is dead.

**MORE** cotton factories have been closed in Lancashire, England, where 19,000,000 spindles were all ready idle.

**A** violent epidemic of cholera is raging in Benares, India. There were 180 new cases and 125 deaths in one day.

**THE** betrothal of Prince George, Son of the Prince of Wales, and Princess Mary of Teck, will soon be announced.

**GOV. RUSSELL**, of Massachusetts, has been warned by physicians that if he does not quit smoking he will surely lose the use of his voice.

**SENATOR MILLS** has written a book entitled "Protection and Plutocracy," divided into ten chapters, which will shortly be printed.

**OVER** 200 Anarchists have been arrested in France and 30,000 copies of their May day proclamation, most violent in its terms, have been secured.

**DEMOCRATIC** primary elections for the gubernatorial nomination were held in Cleveland country Saturday. The latest returns show that Holt led the ticket.

**MR. CLEVELAND'S** new residence in New York is directly opposite Andrew Carnegie's house. Mr. Cleveland and Mr. Carnegie have always been on opposite sides.

**THE** vineyards of Alsace, Lorraine, came near being destroyed by the recent cold. Their owners saved them by burning tar near by, which raised the temperature sufficiently to prevent damage from cold.

**ROSA BONHEUR** is nearing the completion of her great picture, "The Threshing Floor," and though she has already refused \$16,000 for it, it is not unlikely that she will send it to the World's Fair.

**It** is a bale of cotton worth \$35 is worth \$70 when made into goods, what would the cotton crop of the South be worth to our people if converted into goods instead of being sold as raw cotton? We would be at least worth \$400,000,000 annually more than we are.—W. L. Star.

**WHILE** Republican conventions are quite lavish in their praise of Harrison's administration they are exceedingly chary about instructing their delegates to vote for Harrison's nomination. This means simply that they will take Harrison if they must, but that they could get him. They are resolved, therefore, to keep the question open till the last available moment.—Phil. Record.

**ELIZABETH** Oakes Smith, who now lies on what is believed to be her death bed at Hollywood, N. C., was once a notable figure in the literary circles which included Bryant, Willis, Poe, Irving, Ripley, Mrs. Sigourney and the Cary sisters. She is now 86 years old. Half a century ago she was writing novels that excited attention; and it is claimed that she was the first American woman to appear in public as a lecturer.

## LOCAL NEWS.

**NEW ADVERTISEMENTS.**  
P. LaMontagne—Truck barrels.  
S. C. Bragaw—Admission notice.  
Howard—A thing done, etc.  
Dr. D. S. Harmon—Ophthalmic optician.

Palmer, Rivenburg & Co's quotations are: asparagus, \$3 to \$4.50; cabbage \$1 to \$1.50; strawberries 25 cts.

The annual Council of the Episcopal Diocese of Eastern North Carolina will meet at Elizabeth City on the 18th of May.

The name of Ralph Gray was omitted yesterday from the list of delegates to the county convention from the first ward.

Dr. Hall gave another very pleasing, thoughtful and sensible lecture last night at the Church of Christ on "Our Boy John." It will be followed by one tonight on "Our Girl Susie."

United States Court convened at ten o'clock yesterday morning, and in the morning arranged the juries and transacted other business usual at the beginning of court. In the afternoon several cases were tried of a trivial character, not of interest to the general public.

We were shown yesterday a curiously formed double ear of corn that was discovered in shucking some raised by Noah Powell, col. One ear was only about 8 inches in length but was very large around and was hollow from the top nearly to the bottom, and from the cavity grew a smaller ear the lower portion enclosed by the large one, the upper part extending beyond it.

The time has arrived for hearing the application for an injunction against the sewerage company to prevent their emptying the sewerage without going below the city. It will be argued before Judge Connor at Raleigh. Messrs. M. DeW. Stevenson and W. W. Clark were up yesterday morning to represent the plaintiffs and Hon. F. M. Simmons to represent the defendants.

We see it stated that the fishermen of San Diego, Cal., have utilized electricity in their war upon the fish. Incandescent lights are lowered into the water at night, and a large net is lowered below them. The fish are attracted by the light and are plainly visible. When sufficiently numerous the nets are hauled up. The catches are enormous. Perhaps our own fishermen would be as well rewarded if they tried the like expedient.

The Yacht Club is aiming to furnish abundance of amusement at their picnic at Fowler's Ferry opposite the city on Wednesday, May 4th. Arrangements will be provided for boat racing, dancing, swimming, rowing, fishing, and athletic sports. The steamer Trent, Capt. Dave Roberts, has been engaged to take the pioneers backward and forward at 25 cents each for adults, children 15 cents or 3 for a quarter. The refreshments will be served at the fort.

A few Sundays ago Dr. Felix, a Baptist minister of high standing in Lynchburg said in his sermon, that he had changed his mind in one respect about newspapers. "At one time," he said, "I was of the opinion that only papers which did not publish matters of a certain character ought to circulate. Newspapers are the best police force in the land, and many a man has been prevented from doing some act of villainy by the fear that it would be published by the papers; and the newspapers are right when they show up all kinds of rascality."

**Increased Interest Last Night.**  
Evangelist Lee will preach his last sermon here tonight. The series of meetings now closing has been a very profitable one to all who have attended them, and that number has been very large.

The meeting last night was one of intense interest, manifesting a stronger spiritual development than any yet held. A dozen or more young ladies and many of whom had not previously been forward toward their Saviour, went forward and expressed an anxious desire for the new life.

A service will be held this afternoon at four o'clock, of special interest, and it is earnestly requested that everybody who possibly can will attend.

**Fine Potatoes.**  
A sample potato vine was brought up on the steamer Trent from Adams' creek Monday. It is about a foot in height and has potatoes an inch in diameter. It was grown on the farm of Nelson & Hooker. They have 15 acres of them. Mr. S. W. Willis tells us that he has a field of them equally as fine. These are on the south side of the river and escaped with very little damage from the cold snap.

**A Truck Basket.**  
A half barrel truck basket is being introduced here which is claimed to be strong and attractive and in favor around Charleston where it is said that it has been found that beans, peas, etc., shipped in them bring about 25 cents more on the package than when shipped in crates, while the cost of the basket is only a few cents more than the crate.

The matter is probably worth investigating as every thinking person concedes the importance to shippers of truck of their sending their products to market in the most attractive style, consequently substantial and attractive packages are much to be desired.

## At the Cemetery.

The married walks in the cemetery are being edged and trimmed and other work performed so that the cemetery may be in good order for the approaching Memorial day.

Three hundred and fifty young water oaks have been set out in the cemetery this spring. All dead ones being replaced by a portion of them.

The new pond fountain in the north-west part of the cemetery is finished with the exception of turning the mound and this is expected to be finished by Saturday. The circular pool measures 21 feet across and stands in the centre of a square 30x30 feet, neatly bricked around.

## He Had Been There.

That was an editor of varied experience—versed in all the "rubs" and vicissitudes of the profession—who wrote the following with a "heart that knew its own bitterness."

Most editors are well acquainted with the man who takes more papers than he reads, and consequently has no use for his local paper. He takes a paper published in Portland, Maine. It contains all the news about the "Smuggler's Last Cruise," "The Adventures of Moose, the Bandit King," etc., and while he is storing his mind with such information his wife reads back-number almanacs.

But let him get into trouble, he rushes to the local paper to help him out, and wants it bad. If his baby or wife dies he wants a column obituary, yet he cannot help his local paper by subscribing. This is also the man who wants a fifteen-line local puff in your paper just to fill up, you know.

## Taxidermy for the World's Fair.

We see in the Raleigh Chronicle that a taxidermist, Herbert Brimley, is busily engaged in preparing birds, animals, etc., for the North Carolina exhibit at the World's Fair, but that only a few specimens have so far been mounted, these being of the common lynx, muskrat, mink, gar-fish, and various kinds of birds, among them fine specimens of the bittern and night heron, which are stated to be well mounted and to present a very handsome appearance.

We do not know under what arrangement this exhibit is being prepared but we do know that right here in New Berne a similar exhibit could be prepared that for variety, beauty and excellence would be hard to surpass. Miss Alice Duffy and Mrs. G. W. Moulton have such skill and taste in preparing and arranging specimens of the taxidermist's art in every conceivable natural position that the State would have just cause for pride in any exhibit they might prepare.

This has been abundantly proved by the excellence of their annual displays at the New Berne Fair. We would like to see such an exhibit go from this city to Chicago.

## Registration Notice.

The registration books of the first ward will be open at the city hall, Thursday, Friday and Saturday, April 28, 29 and 30.

**JOS. NELSON, Registrar.**

**Second ward at court house.**  
**JONATHAN HAVENS, Registrar.**

**E. K. HOOKER, Registrar.**

**Fifth ward at Collins' old stand, corner Pollock and Spring streets.**  
**S. F. HUNTER, Registrar.**

## Coming and Going.

**Mr. A. Cohn** left yesterday morning for Plymouth on a business trip.  
**Mr. Rudolph Ulrich** and **Mrs. J. L. Cooper** returned last night from a visit to relatives at Wilmington.

**Mr. John H. Small** of Washington is attending court and will appear in a case this morning.

**Dr. G. W. Bucknall**, of Raleigh, is in the city, stopping at Hotel Albert.

## Ice Tickets.

For the convenience of the people the New Berne Ice Company will keep ice tickets continually on sale at John Dunn's, O. O. Green's and Churchill & Parker's, at regular rates.

## DR. HALL ON INGERSOLL.

A Citizen's View of the Magnetic and Masterly Address.

**EDITOR JOURNAL.**—We heard Sunday last, the lecture of the Rev. Doctor Hall on "The Mistakes of Ingersoll."

It was the grandest expression of thought we ever listened to; a panorama of beauty seldom equaled, and never surpassed.

The conversation with the rain drop, while gliding swiftly through one of Colorado's wild canyons, was a most sublime description of the Great Creator's power. The child of tender years, and men and women of mature years heard with bated breath and were entranced with the wonderful delineation of God's majesty, power, and loving kindness.

He careth for the rain drops, the microscopic forms, as well as the great universe and all that is contained therein. We never before fully realized the greatness and force of the expression of Israel's Great Singer: "If I take the wings of the morning and dwell in the uttermost parts of the sea, even there shall thy hand lead me and thy right hand uphold me."

The speaker's powers of language are wonderful; he carries his audience along with irresistible force; he can excite their risibility, bring tears to their eyes, and "melt their hearts with tenderness." We have heard many wonderful lecturers, but he is far the greatest one we ever listened to.

## Difficulties in Eye-Sight Overcome.

The Charlotte Democrat says: For several years our eyesight has been very defective, so much so we could not discern objects at a short distance. Dr. D. S. Harmon examined our eyes and found a difference of four hundred and fifty lens. Yet, with this remarkable vision, Dr. Harmon has fitted us with glasses that enable us to recognize objects at a distance. The Doctor is a skilled optician, and those requiring glasses should consult him, as he will give entire satisfaction.

## DUFFY'S CROUP SYRUP AND COUGH MIXTURE.

Certificates as to its Sure and Rapid Benefits.

Brooklyn, April 12th, 1892.

**MR. R. N. DUFFY,**  
Dear Sir:—This is to certify that I have used your Cough Mixture with very beneficial results and would gladly recommend it to any one in need of a good cough cure.

**Yours truly,**  
**JOHN R. DUFFY,**  
463 Lexington Ave., Brooklyn, N. Y., formerly of Portsmouth, Va.

Brooklyn, April 8, 1892.

**R. N. DUFFY,** New Berne, N. C.  
Dear Sir:—It affords me much pleasure to add my testimony to that of so many others as to the value of your Cough Syrup. I have used it with almost instantaneous success.

**Yours truly,**  
**H. HECKER.**

## Hot Springs.

Have you ever visited Hot Springs? Alas! You meet while there so many instances of terrible blood poison, evidenced by disfigurement of face and form. Either, rash, eruptions from scrofula, syphilis, eczema, skin rheumatism, blenorrhoea, twisted and aching joints, limbs made crooked by rheumatism, etc., etc. Some find relief, some do not, and some away poor in purse and grievously disappointed. It costs money to visit and sojourn at Hot Springs. The experiment of going there cannot be indulged in without considerable expense. How thankful then should everyone be to know there is a remedy even more beneficial in cases of blood poison than Hot Springs. We refer to Botic Blood Balm (B. B. B.) as to its merits thousands will testify.

**Z. T. Hallerton, Macon, Ga., writes:**  
"I contracted blood poison. I first tried physicians, and then went to Hot Springs. I returned home a ruined man physically. Nothing seemed to do me any good. My mother persuaded me to try B. B. B. To my utter astonishment every ulcer quickly healed."

**Jas. L. Bosworth, Atlanta, Ga., says:**  
"Some years ago I contracted blood poison. I had no appetite, my digestion was ruined, rheumatism drew up my limbs, and I could hardly walk. My throat was ulcerated five times. Hot Springs gave me no benefit and my life was one of torture until I gave B. B. B. a trial, and surprising as it may seem, the use of five bottles cured me."

"A thing done when thought of is never forgotten."

Now just as soon as you think of something you need in our line, call and get it—then you will be certain not to forget it. We have lots of little things a man is always forgetting—such as, Collar and Cuff buttons, Shoe strings, (We have some Porpoise hide ones that out last all other kinds.) Scarf retainers, Cuff holders, Boston Blacking, and a sample lot of Hair brushes, Pocket books and Purses.
