T. HANCOCK, - Leoni Reporter. red at the Postoffee at New Borne tend-class matter,

In the opinion of ex-Senator Powell Clayton, of Arkansas, the negroes of the South are rapidly renouncing allegience to the Republican party. The recent vote of the colored citizens of the Red River country in Louisiana goes to confirm this opinion.

A MISSIONARY lecturing on the Christian education now being carried on among the women of India, convinced of this, that there is used this touching reference to no rust of superstition with Jesus Christ's life on earth: "There are indications already that the homes of India are opening their doors to him who was so welcome in a hundred of the people of in the home at Betheny; there are England would not prefer to indications that many a medita- impiety. tive Hindoo woman may love to sit at his feet. The zenana missionaries of India are doing a glorious work.

THE conference of yearly meetings, to be held in October, is looked forward to by Friends in all parts of the country with much interest. The absence of delegates from London and Dublin, and perhaps from the Eastern States as well as Canada, will make it practically a conference of Western Friends. It is probable in the opinion of some that there will be an earnest effort to call a halt in changes that many believe have been going on in certain places too fastland too far, and which are tending towards merging the society into mass of other denominations.

### MISSIONS.

While the development of religi ous sentiment in our land most intimately concerns us, the relation it sustains to missions is so intimate that one is measurably involved in the other.

The Protestant Churches of for other lands by 9,000 mission- in the Father's will? aries, and more than 50,000 native workers, and have expended during the past year about \$12,500,-000. But this is not all. During the past half century a considerable portion of the annual expenditure of these societies has been in schools and colleges, dwelling houses, printing presses, binderies, manufactured volumes of scripbooks. The total of this investments can never be known, but could it be, it would open our eyes as never before to the tremendous force that the churches have put and are are putting into the work of Foreign Missions.

What is the meaning of this? Surely, that the kingdoms of this physicians. world shall become the Kingdom of our Lord. Never before was envangelization so active. The Church is emphatically a living

If progress is not commensurate with results to be accomplished, it after the bronze effigy shall is nevertheless assuring and should stimulate to ever increasing activiles and enlarged expectations. With the exception of a few sections of Central Asia and Africa the missionaries occupy every inhabitable land on the Globe, are sching to every people, the one lospel of Christ; are battling althe that have held so many mil. very good in maxime and in seras in thrall. THERE IS a curious custom of the Esquimanx that when a baby dies the next child born in the village shall receive its name and take its place; and it is always thought by the parents that the new baby is in some measure their cdild. They have a share in the care of it, and advise with its own parents about the best way of bringing it ap. Sometimes the father and the

mother of the new baby are too poor to feed and clothe it, and then the other father and mother take it to their on "igloe," or snow hut, and give it a home there. No doubt they are very glad when this bappens, and the place of their own little one thus filled; but, of course, the parents to whom the baby really belongs are not always willing to give it up so entirely. In that case the foster parents contribute something every year to its support; and it Itves at home, coming, perhaps, now and then to make a long visit at the "igloe" that is its other home.

The First Step. The First Step.

Perhaps you are run down, can't eat, can't sleep, can't think, can't do anything to your satisfaction, and you wonder what ails you. You should heed the warning you are taking the first step into Nervous Prostration. You need a nerve tonic and in Electric Bitters you will find the exact remedy for restoring your nervous system to its normal, healthy condition. Surprising results follow the use of this great Nerve Tonic and Alterative. Your appe-Nerve Tonic and Alterative. The Electropoise is an Instrument for THE CURE OF DISEASE WITHOUT MEDICINE.

BASED on new theories of the cause and cure of disease, it deals with the electrical and magnetic conditions of the body and the gases surrounding it in the atmosphere, controlling these conditions at will. It is not electricity. DISEASE is simply impaired vitality. The Electropoise constant iy adds to the vitality and only assists Nature, in Nature's way, to throw off the trouble.
