## LOCAL NEWS.

### NEW ADVERTISEMENTS.

Truck train annulled.

Miss Radcliffe—Song recital.

J. F. Taylor—They are coming, etc.

Weather forecast: Showers followed by fair. Fair Monday.

Our music loving people will have a treat the last evening of this month—a music recital by Miss Marion Radcliff, supported by the best talent of the city.

The Morehead City Enterprise says there were nineteen occasions to the Baptist church as a result of the meetings held there by Revs. O. J. Stringfield and Lee.

Passengers on the train last night informed us of a delightful rain about Goldsboro and below there. It reached this city a little later in the form of a refreshing shower.

Mr. George Womble, formerly engineer of the steamer L. H. Ostler, died Friday night at the marine hospital of consumption and was buried yesterday, Rev. Rufus Ford, officiating.

The churches which joined their services with the evangelistic meetings last Sunday will do so again today—morning, afternoon and night, consequently all their regular services will be omitted and the hour of Sunday school placed earlier—at 3 o'clock as it was last Sabbath.

Chairs were placed in the Presbyterian church yesterday to give additional seating capacity for the evangelistic meetings and a platform for the choir was erected in front of the pulpit. Notice of the hour of the services is given elsewhere. A warm invitation to everybody.

The debris of the burned market house is being cleared away and the portion of the dock over which it stood filled in. The remaining portion of the dock will probably be deepened when a suitable opportunity offers. Watch out that no drainage outlet gets stopped up while the filling in is going on.

Mr. S. L. Dill, Superintendent of the A. & N. C. R. R., gives notice of the taking off of the special truck train. It is expected to resume running in a very short time—when the bean and potato shipping begins. The mail and freight trains will take the truck until the special, No. 208, is resumed.

We notice that Dr. Wm. E. Hall, who recently entertained New Berne audiences with his lectures which contain so much of real profit as well as pleasure is again back in North Carolina and is now at Durham lecturing there for the second time. Next Friday night our people will have another and the last opportunity of hearing the talented gentleman.

Wm. Farrow, who was shot Friday night by Cicero Mason in a dangerous condition. The ball passed through the lower part of his breast bone and cannot be located. It will take several days to determine what the result will be. The preliminary examination of Mason was postponed to next Saturday and he is being held in custody until then.

The expense of the maintenance of horses and mules in America, during the periods of enforced idleness on account of impassable roads, is estimated at eight millions of dollars a year, and with hard, smooth country roads not half the present power would be required to draw loads. The eighty millions of dollars would build sixteen thousand miles of macadamized roads. These facts, and many more about "Our Common Roads" was brought out in a richly illustrated article in the April number of the Century.

Fatal casualties have followed each other in with startling rapidity in this vicinity during the last three days. Thursday morning Mr. R. D. McCotter was murdered at Pamlico; that afternoon a child was killed at Tillman's crossing on the railroad, and that night one colored man killed another with a bed slat at Bogue. Friday night a colored man was shot and dangerously wounded in the city, and the man who started for a doctor for him dropped dead, and yesterday a brakeman was killed on the railroad. This is the list as far as heard from.

Evangelistic Meetings. On account of its being Saturday only a few business houses closed, nevertheless there was a good crowd present and it proved one of the most interesting morning services yet held.

The subject, "Abie," was given about three quarters of an hour study from the Bible, showing the power of Christ to save, even unto the uttermost.

Last night was a thanksgiving service which proved a profitable meeting.

## TWO FATAL ACCIDENTS.

A Child Killed by the Truck Train, and a Brakeman by the Freight Train.

A child of Mr. Jas. Gray, who lives at Tillman's crossing a mile from Caswell station was accidentally killed by the special truck train Thursday. The house of Mr. Gray is not much farther than the width of an average street from the railroad and the little one, who was not quite two years old was playing on the public road with other children by the railroad and he crossed the track to the side away from the others as the train was approaching and stood apparently terrified close to the track until the engine reached the spot and the bumper or part to which the cow-catcher is attached that extends from the side of the engine struck him on the forehead breaking his skull. The accident happened near two p. m., and he breathed his last 10 minutes to 6.

Engineer Brinson observed the child's danger when about 25 yards distant, reversed his engine, jumped out of his cab and tried to climb along to the cow catcher to rescue him, but before he could reach a spot from which he could render the needed assistance the child was struck.

The engineer immediately uncoupled his engine and leaving the cars ran with all haste to Kinston a few miles distant, procured two doctors and brought them back, but their skill availed not.

Henry Johnson, col., a brakeman of the A. & N. C. R. R., was killed near the same place yesterday. He was on the freight train running from Goldsboro to Morehead and while out on the platform of a car a noise of some kind—they could not determine what—was heard by him and other train employees. He immediately jumped up and grasping the iron railing of the car leaned well out and looked towards the rear of the train without even glancing the way the train was running. It happened to be close to a "log-bed" or high platform erected two or three feet from the track to facilitate the labor of loading logs on flat-cars for saw mills, and as he leaned out he was struck in the back by the log-bed and knocked from the car sustaining injuries which resulted in hemorrhage and death five minutes later.

The remains were brought on to New Berne and an inquest held. The coroner's jury of which Mr. Geo. N. Ives was foreman, rendered a verdict in accord with the above facts, of accidental death through carelessness and exonerated the road from blame.

Coming and Going.

Judge H. R. Bryan left yesterday morning to hold court in Vance county.

Mr. Jas. A. Bryan left for New York on a business trip.

Miss Mary Deasley of Goldsboro, who has been visiting at Mr. J. H. Smith's, left yesterday morning returning home and Mr. Smith's family left to visit friends in Goldsboro.

Mrs. Cicero Green who has been visiting relatives in the city, left for her home at Jasper.

Miss Maggie Hagie of Richmond, who has been visiting at Mr. W. T. Lane's, left, returning home.

The family of Dr. F. W. Hughes, who has been visiting relatives in Raleigh returned home last night.

The family of Hon. F. M. Simmons arrived moving back to the city from Winston.

Miss Lillie Moye, of Falkland, N. C., arrived to visit Miss Katie Daniels.

Mr. Eugene Harrell of Raleigh, Secretary of the North Carolina Teacher's Assembly, passed through on route to Morehead in the interest of the approaching meeting of the Assembly, which is to be held from June 21st to July 4th—just two weeks.

Col. John D. Whitford returned from Raleigh where he has been on a business trip.

Evangelist Presbyterian Church, col.—Services at 11 o'clock a. m. and 8 o'clock p. m. Sabbath school at 2 o'clock instead of 3 p. m. Funeral services of Henry Johnson at 3 o'clock, and installation services of Rev. Chas. Hedges, D. D., at evening services. Public cordially invited.

A Hint for Memorial Day.

The Morehead City Enterprise mentions that their people were sadly disappointed on the 10th of May because they were not able to be present through the whole of the Memorial exercises here on account of their being held so near train time. It will be well to bear this point in mind hereafter and arrange the time accordingly and let it be well understood in advance that there will not again be any cause for such a complaint but that every one who comes will have ample opportunity to participate in the exercises from beginning to end without feeling hurried and fearful of being left by the train.

He lived 12 hours after being struck. Humphrey is in jail. The defendant having charged the other man with incendiarism was the cause of the killing.
