MR. CLEVELAND received more votes than Mr. Harrison in 1888.

THE Congressional exodus from Washington to Chicago has begun.

THE Democrats of Minnesota will make no fusion with the Farmers' Alliance. They expect to carry the State for their own ticket.

No doubt the Democrats secured a good supply of campaign material last week, but next week it will be the turn of the Republicans.

DR. DEWEY smiles a broad diplomatic smile every time his name is mentioned in connection with a Cabinet vacancy.

THE World says: "Individual disappointments have not controlled the Republican Convention. But, they may have considerable to do with the election."

THE Missouri river is booming at Kansas City, Mo., and reports from up the river say that a big flood is now coming down from the upper country, caused by heavy rains and cloud bursts in the last few days.

INDIANA is a doubtful State with Democratic leanings. Under the new election law Dudley can no more work his blocks-of-five game. With an acceptable ticket the Democrats would pretty certainly carry the State.

THE function of a Republican candidate for the Vice-Presidency is to furnish money for the campaign. Mr. Boyd was nominated by acclamation to do this, because there was nobody else who could be depended upon to pay nearly so much for the distinction of being beaten by triumphant Democracy.

THE Republican imprudence that talks of the verdict of 1888—a verdict rendered in November in favor of Cleveland and tariff reform by 100,000 majority, which was set aside by the Electoral College of December for Harrison—is only equalled by its gall in claiming every black vote in the South and every white vote in the North as belonging to it.—N. Y. World.

THE Golden Mutual Insurance Association has been organized at Pittsburg, Pa., by persons who claim to have been cured of the appetite for liquor. They claim that they are discriminated against by the old line life insurance companies and that the new organization is necessary for their protection.

WHEN Chairman, Dent of the Alabama Democratic Convention remarked that the "mission of the solid South was to preserve the supremacy of the white race" he hit the nail right plump on the head with a large-sized sledgehammer, and until that fact at least is assured the South can't be anything but solid.—Star.

The Raleigh correspondent of the Goldsboro Messenger says: "This morning the directors of the Insane Asylum here completed an inspection of the buildings and grounds, and pronounced all to be in better condition than ever before. The new fireproof stairways were formally accepted and are very satisfactory. They are disconnected from the building and afford a perfectly safe mode of exit. The building can now be emptied in a few moments."

Dr. Hall, who so much delighted our citizens with a series of lectures, has been at Washington. The Gazette says: The lectures last week of that distinguished New York divine, Rev. Wm. Edwin Hall, editor of the International, were well received here. His subjects were: The Resurrection, Happy Homes, Mistakes of Ingersoll; How to Marry and Stay so, and our Boy John. He has learning, and eloquence, is a profound thinker, and has keen sense of humor. He makes you laugh, but there is a nugget of gold in every thought. Judge Brown pronounced him a genius.

Off for Chicago.

Hon. L. J. Moore delegate to the National Democratic Convention which meets next Tuesday in Chicago left yesterday for Chicago. The plan was for him and the other delegates of the 1st and 2nd district to get together at Goldsboro and proceed in a body to Chicago via Washington.

In a conference as he was leaving, Mr. Moore expressed to us his preference and intentions which he has not done to any one before. His choice is Mr. Cleveland if the indications are that he can be elected, but if, after consulting with the other delegates, it should seem that he is not an available candidate then he will be, for the man who can hold the entire strength of the party and be elected. Mr. Moore's second choice is Whitney of New York.

ASSEMBLY NOTES.

On this Session Taken from the North Carolina Teacher.

The interest in the Assembly is far greater this year than ever before. From every section of North Carolina comes the glad news, "We are all going to the Assembly this summer." We think the teachers will enjoy the great meeting such as they have enjoyed no other meeting in the State.

This session of the Assembly is going to be the grandest representative body of North Carolina teachers ever seen in the State. There will be present more college presidents and faculties, more principals of high schools and academies, more superintendents and teachers of public and private schools in the country, and more "friends of education" than ever before.

We believe that this is going to be the most successful and enjoyable session of the Assembly ever held. The outlook is unusually bright for a very large attendance. Teachers are realizing more each that they cannot afford to be absent from this great gathering of the brotherhood at Morehead City, and "the people" also know that the most enjoyable outing of all the year is a visit to the Teachers' Assembly.

You will meet at the Assembly this summer the faculties of all the colleges, the superintendents and teachers of all principal graded graded schools, and the teachers of all the regular high schools and academies, and many other private and public schools in North Carolina. It will be the grandest meeting of representative educators ever held in our State. If you want to find a North Carolina teacher between June 21 and July 4, you will have only to run down to Morehead City.

Yacht Club Meeting.
Every member of the Club is earnestly requested to be present at the meeting tonight, at 9:30 o'clock.

Business meeting of importance and the report of the committee on revision of our constitution and by-laws.

Physical Culture Entertainment.
A good audience assembled in the Y. M. C. A. Hall last night and were charmed for two hours by the beauty and skill of the exercises rendered.

It opened with a fine exercise drill, then came an Indian club drill and a dumb bell drill all by children, about a dozen and a half in each drill and all doing very well.

A bar bell drill and a free exercise drill by young ladies were much admired, as was also the Indian club drill by Misses Mabel Hughes; Clem Whitford and Mr. C. J. McSorley, and the boys did very well in a free exercise drill. The men's Indian club drill was also well performed.

Miss Kate Snow gave some remarkable Indian club swinging. The exercises were out of the usual line and every one was difficult. Miss Kate is the most skillful of any of those in the classes in handling the Indian clubs and all the exercises she gave were fine.

The combination Indian club and dumb bell exercises that was given at the New Berne Collegiate Institute commencement was repeated and a new dumb bell drill introduced in it.

There were some astonishing feats performed by the men's classes in horizontal and parallel bar exercises, in trapeze and ring performances, in tumbling, barrel jumping, etc.

There were specialties in these exercises given by Messrs. T. C. Daniels, C. J. and Jos. McSorley, W. J. Whitaker, Guy Styrton, Joseph Snelling, Thos. Carraway, Ed. Adams, Rom Nunn, Samuel Eaton, Sam'l Dill, and Clarence Smith. All did exceedingly well and their performances elicited much applause.

A negro sermon delivered by Mr. Jas. W. Dawson in costume was mirth provoking and was greatly enjoyed. Messrs. Will Parsons and Clifton Waters as clowns were also highly amusing.

The entertainment closed with the Roberts dumb bell drill which is one of the best and which is pronounced by medical men to be one of the finest for physical development. It was a good closing piece and was admirably executed by the large number who took part.

The difficulty of some of the feats performed was astonishing.

The entertainment throughout was one of the most intensely enjoyable the Association has ever held, and we are satisfied that there is not one who attended who would not be delighted to see it again, and we doubt not that many who were not there last night would be glad of the chance of attending if another opportunity should be offered.

The physical culture training school has been in practice ten weeks, and last night's entertainment gave the citizens a good opportunity to see the ease and grace imparted by a knowledge of the practical movements requiring so much skill. It was an entertainment of a novel character and was all the more pleasing on that account.

DEBT DUE BY PAMLICO COUNTY.
The amount due the county of Craven by the county of Pamlico, on account of matter of uncertainty and other, has as last been determined and fixed at \$11,000 to be paid in five installments of \$2,200 each, one the first Monday of May 1892—93, 94, 95 and 96 respectively.

Judgment by consent, for this amt., to be paid on the above dates has been entered against the county of Pamlico and the first installment of \$2,200 has been paid.

This debt has been for years a source of great trouble, and only after the most patient and laborious examination and research on the part of the referee, Mr. W. R. Allen of Goldsboro, and compromise on the part of the commissioners of the two counties, was the above result effected.

All prior calculations of the amt., due Craven were based upon what was generally considered a judgment final for \$25,014.97 obtained against Pamlico as of the 24 day of May, 1878—being 15 of the debt of Craven at that date, to wit: \$265,644.97. It was ascertained however, and decided that instead of a judgment final for a fixed sum, the decision of the court was but a decree compelling Pamlico to pay 3-15 of whatever sum Craven might pay, or 3-15 of the ascertained debt of Craven at the time of the decree, unless that ascertained debt should be paid in full. It further appearing that a large amount of Craven's ascertained debt of \$265,644.97 had not been funded and had not during twenty years been presented for payment, it was taken for granted that it was lost or destroyed, and in addition to being barred by statutes would never be demanded—and therefore that Pamlico should not be held to pay any portion of that part of the debt which Craven had not paid, and would not be called upon to pay.

The referee decided that the indebtedness of Pamlico, was only about \$6,000.00 but the commissioners of Craven being satisfied that he was in error, declined to accept the result of his investigation and finally compromised the matter with the commissioners of Pamlico for eleven thousand dollars as above stated.

This brings to an end a long disputed and litigated question, and settles all points at issue between the two counties, upon what is thought, by these familiar with the merits of the controversy, a fair and equitable basis.

The bridges of the county have been under the care of Mr. Cameron near Meadows and are in a generally good condition, but requires constant looking after and occasional repairs.

Chermon Bridge across the Great, has been a most costly structure to keep in order, but with the new draw put in since our last meeting, is in good condition and will be kept so at a materially less cost than heretofore.

POOR HOUSE.
The poor of the county have been under the control of Mr. Commissioner Smallwood, who has given them no little of his time and attention. They have been well fed, well clothed and well cared for, and the poor house property has been kept in good order.

The sanitary condition of the place under the supervision of Dr. Leinster Duffy, is and has been good.

COURT HOUSE AND JAIL.
The court house and jail have been under the care of the chairman of the board and are in good condition and repair.

The janitor of the court house, Mr. Quaidly has been attentive and faithful in the performance of his duties.

The jailor, David E. Barham, a colored man, fills his position well, and gives general satisfaction to the commissioners as well as to the sheriff.

TREASURER.
The accounts of the Treasurer, Mr. Thomas Daniels, have been thoroughly examined, and found correct, and his books well and systematically kept.

SHERIFF.
Mr. W. B. Lane, the sheriff of the county and his deputies have performed their duties well, and as far as the commissioners are advised, with general satisfaction to the courts and the public.
