#### SONG: THE CAROLINA GIRLS.

GEO. H. THROOP.

Where Albemarle's blue waters  
Play in the summer breeze;  
And Pamlico bears on its wave  
The waves of the sea;

Where, from a thousand happy roofs,  
The smoke of light wood curls;  
The houses are all haunted there,  
By Carolina Girls!

CHORUS:  
There's music in their voice and step,  
There's merriment in their curls;  
Their eyes are death to single men—  
The Carolina Girls!

This broad, fair land of plenty  
Slopes gently to the sea;  
A land of open harbors and home;  
The country of the free,  
But he who lands upon its shores,  
O'er which the sea foam whirs,  
Finds wishes there in every house—  
The Carolina Girls!

To him who "pops the question"  
They're sure to answer, "No!"  
He pays his debts, and makes his will—  
Gets all prepared to go.  
They'll drive him mad with freezing words.  
Shaks scornfully his curls;  
But as he dies, perhaps, say "Yes!"  
The Carolina Girls!

Let sickness, care, or sorrow  
Beset the aching brow;  
The maiden, once so coy and cold,  
Is like a sister, now.  
In noisy glee, or laughing scorn,  
The lip no longer curls;  
They're friends in need, and friends  
indeed,  
The Carolina Girls.

#### NORFOLK, NEWBERNE & WASHINGTON DIRECT LINE.

Four Trips Each Week.

In order to make more convenient and economical use of the vessels now employed in the North Carolina service, and thus to better serve the interests of shippers, the Clyde Line and Old Dominion Steamship Company have concluded to merge their respective lines between Newbern, N. C., and Norfolk, Va., into one line, thus giving passengers and truck shippers four trips each week between Newbern and Norfolk direct.

NO ADVANCE IN RATES.

On and after MONDAY, MAY 20th, 1902, until further notice, the  
**STEAMER NEWBERNE**, Capt. Southgate,  
AND  
**STEAMER ENOLA**, Capt. Boyd,

will sail from Norfolk, Va., for New Bern direct, every Monday, Tuesday, Thursday and Friday, A. M., and on Saturdays at 7 P. M., making connection at Norfolk with the Old Bay Line, for Baltimore. The Clyde Line, for Philadelphia, The Old Dominion Steamship Co., for New York. The Merchants' and Miners' Line for Providence and Boston, and the Water Lines for Washington, D. C., and Richmond, Va., thus giving all water routes for truck to all Northern and Eastern ports.

Also connection made with the C. & O., N. & W., and the P. & M. for the West.

The Steamer **STOUT**, Captain Short,  
will sail from Norfolk, Va., every Thursday A. M., for Roanoke Island, Washington and Newbern.

Passengers will find a good table, comfortable rooms, and every courtesy and attention will be paid them by the crew.

Order all goods care of N. N. & W. Direct Line, Norfolk, Va.

It is said that Russia is most anxious to encourage immigration into Siberia, especially South Siberia, and that this is the principle end for which she is opening up that country by the extensive railroads that she is now constructing.

Generally, it may be said, Siberia, by the hand of nature has been endowed not less than other countries. It produces almost every kind of European grain and fruits, even grapes, and has an abundance of all metals, iron, gold, silver, copper lead, zinc, etc., coal graphite and precious and is or has some of the most of all kinds of mammalian animals. The rivers and lakes are crowded with all kinds of fish, and the Arctic Sea abounds with whale and seal.

The area of Siberia is about 12,000,000 kilometres but the northern and greater part of it is almost waste, inhabited only by a few thousands of Samojedes and Esquimaux. Snow and ice cover the earth in the north almost all the year round, only melting in two or three months in the summer, when the sun never sets. This country is then visited by large herds of wild reindeer, coming from the south and returning there as soon as winter sets in. The polar bear and the black fox live here constantly, and hunting these and the seals and fish are the only occupation of the northern people.

South Siberia, from 59 to 49 degrees latitude, however, produces European crops of all kinds. It has a greater area than European Russia but is not settled for great distances. The railway, however, is expected to open the country to settlers as in America, and city by city, it is believed, will grow up along the tracks.

All building materials are found in more than sufficient quantity and of excellent quality. Horses and cattle are cheap and of fairly good breeds. The country needs only an intelligent, industrious population to become prosperous.

The Cold-Air Cure.

A good many people are afraid of cold air, especially at night, shutting themselves in close bedrooms, where their systems are poisoned and their constitutions gradually undermined by breathing the bad air. And even hot or warm air that is pure, air in a room that has ventilation as well as heat, is debilitating when breathed all night.

Pulmonary complaints are inevitably and exclusively caused by foul indoor air, and cured by pure, especially by cold pure outdoor air.

The remedial influence of fresh air is so much increased by a low temperature that "cold" air, in fact, is far more curable in midwinter than in midsummer. I was shot through the lungs in Mexico, and have ever since been susceptible to the contagion of a "catarrh factory," as a friend of mine calls the unventilated school rooms and meeting-houses of our country towns.

I avoid such man-traps, as I would the pit of a gas well, but in winter I risk their infection in the assurance that its influence can be counteracted by an extra dose of ice air.

Cold is an antiseptic and a powerful digestive stimulant. Dyspepsia, catarrh and fevers of all kinds can be frozen out of the system, not by letting the patient shiver in a snowbank, but by giving extra allowance of warm bedclothing, with the additional luxury of breathing cold air, which under such circumstances, becomes as preferable to hot miasma as cold

#### A Complicated Instrument.

The beak of the mosquito is simply a tool box, wherein the mosquito keeps six miniature surgical instruments in perfect working order. Two of these instruments are exact counterparts of the surgeon's lance, one is a spear with a double-barbed head, the fourth is a needle of exquisite fineness, a saw and a pump going to make up the complement.

The spear is the largest of the six tools, and is used for making the initial puncture, next the lances or knives are brought into play to cause the blood to flow more freely. In case this last operation fails of having the desired effect, the saw and the needle are carefully and feelingly inserted in a lateral direction in the victim's flesh. The pump the most delicate of all six of the instruments, is used in transferring the blood to the insect's stomach. "Discovery."

Safe, Quick and Effective.

The valuable curative properties of ALCOCK'S POROUS PLASTERS are due to the employment of the highest medical and chemical skill. They are purely vegetable, and in ingredients and method have never been equalled; they do not burn or blister, but soothe and relieve while curing, and can be worn without causing pain or inconvenience.

Do not be deceived by misrepresentation. All other so-called Porous Plasters are imitations, made to sell on the reputation of ALCOCK'S.

Ask for ALCOCK'S and let no solicitation or explanation induce you to accept a substitute.
