A Blissful Anticipation!

Being very grateful to the people for their past patronage and support, and thinking they would like to know something of my former history. I have concluded to write a short sketch of my life. I do not do this with any self pride or conceit, but hoping that some good may come out of it. Many a poor boy whose circumstances are strained and surroundings are such that the future looks only dark may be en-couraged to make an effort hearing what a poor country boy has done. while this may cost me some considerable effort and loss of sleep, yet I shall spare no pains or time in giving a true history of what my life has been so far. Of course it is useless to mention my name for all know that there is not another man on earth that would attempt so much for his friends, that the same Big Ike whose purchases at 49, 50, and 87; cents on the dollar bring so much profit and causing so many emiles to the poor of our land.
