Free Coinage of Silver.

NEW YORK, July 1, 1892. EDITOR OF THE JOURNAL OF COMMERCE: Please inform me what is the meaning f "free coinage of silver."

REPLY-The proposition for free coin age of silver is to permit every one who chooses to take to the Mint his silver bullion and receive in return a legal-ten-der silver dollar for each 371 1-4 grains of it. The Mint will add sufficient alloy to make it nine-tenths fine and strike off the silver dollars, each weighing 412 1-2

At the current price of silver the con tents of the dollar are worth 68 cents. Free coinage, therefore, would permit owners of silver to obtain 1,000 legal-tendr silver dollars for 1880 worth of the metal. Silver has been lower and may be higher, but this would be the effect of free coinage today.
