THE destruction of crops in Mississippi by the recent floods is fearful. Thousands of acres of corn and cotton have been completely destroyed and the people are in a starving condition.

W. H. BROWER, of Caldwell, has been nominated in the 8th district to succeed Congressman Cowles, who was not a candidate for re-nomination. Mr. Bower is believed by many to be the best stump-speaker in the State. He will be opposed Dr. Wilcox, of Ashe, or Dr. Tyre York, of Wilks.

The final action of the Omaha convention will not inspire serious apprehensions that the new party will revolutionize the politics of the country. The nomination of a hack candidate on a wild and fantastic platform does much to dissipate any possible illusion on the subject. Judge Gresham as the nominee would have meant mischief.—Phil. Press. Rep.

We are gratified to notice that on many Northern papers see the meaning of a successful Republican campaign as it affects the destiny of the Force bill. Leading New England and New York State papers are pointing out the dangers that threaten. It is a very important question for the South, and not without importance to Northern States.—Messenger.

THREE AGAINST ONE. In personal conflicts three against one is not fair. A stand up square fight of man against man is the thing with the boys in the rural districts.

Now, we do not complain that in politics it is different. If the opponents of Democracy prefer to divide their forces into three columns, it is all right. The Napoleon method of attacking them in detail would soon wipe them out; but there are evidences that they are converging to a common center where they will offer battle, under one leader, to the Democratic party.

The Republican, Peoples' and Prohibition parties are as wide apart on political questions, as the poles, but they will unite to defeat the Democracy. They will pool their issues, hold conscience in abeyance, and persevere the course best calculated to embarrass the Democratic party.

Prohibitionists, as a general rule, are born Democrats. Very few of them could be induced to vote for a Republican; Republicans however will vote for anybody—the Devil himself—in order to take a single State from the Democratic column. Republicans know very well that the national race is between the Democratic and Republican parties, and if, by any combination, a State is taken from the Democratic party the probability

of Republican success is thereby increased.

Republicans are counting very largely upon the People's party. They know very well that the farmers of the country cannot be induced to vote for R-publican candidates, but if they vote for their own candidates, and thus take thousands of votes from the Democratic ticket, the object of Republican management will be accomplished.

The danger in North Carolina is largely on account of the rapidity of Republican organization. Ten days are ample for them to wheel their forces into any column. If they are in doubt of their ability to carry the State for their own party, they can throw their vote to the People's or the Prohibition party and thus defeat the Democratic party.

There is but one safe course for any man to pursue who is opposed to Republican ascendancy in the Nation and in the State, and that is to stand up squarely to the Democratic party. Twenty votes for Prohibition, and ten for the People's party, may mean a return to the dark days of reconstruction in North Carolina.

Does any patriot desire such a condition of affairs? We do not, we cannot believe it.

THE Louisiana Legislature has issued an appeal in behalf of the flood sufferers of that State which should result in bringing help in generous streams from all quarters of the Union. To the 12,000 people whose crops have been laid waste the disaster means not merely a single harvest gone, but also a devastation so complete that even the implements of tillage have been swept away in the general ruin; and the peril of starvation becomes imminent. Prompt organization of relief measures in the commercial and financial centres is the dictate of the situation. With that first step accomplished the needed relief should follow in ample volume to at least insure the sufferers against the pangs of hunger.

THE miners at Wadner, Idaho, are in complete possession of all the mills and have filled them with dynamite and can blow them up in a minute. They have also sent dynamite down the railroad on which the Federal troops are expected. They have also sent out a body of men to intercept the cavalry. They will resist both the State and Federal troops. Gen. Schofield has ordered ten more companies of infantry and a troop of cavalry to the Coeur d' Alene mining district in Idaho.

Self Praise. Self praise is no recommendation, but there are times when one must permit a person to tell the truth about himself. When what he says is supported by the testimony of others, no reasonable man will doubt his word. Now, to say that ALLOCK'S POROUS PLASTER is the only genuine and reliable porous plaster made is not self praise in the slightest degree. They have stood the test for over thirty years, and in proof of their merits it is only necessary to call attention to the cures they have effected and to the voluntary testimonials of those who have used them.

Beware of imitations, and do not be deceived by misrepresentation. Ask for ALLOCK'S, and let no solicitation or explanation induce you to accept a substitute.

The man who knows he is wrong is the biggest coward on earth.

**Electro-Poise.** SIMPLE IN CONSTRUCTION. PERMANENT IN DURATION. EASILY APPLIED. ITS SKILLFUL USE QUICKLY LEARNED. The Electro-Poise is an instrument for THE CURE OF DISEASE WITHOUT MEDICINE.
