**THE** General Convention of the Episcopal Church meets in October in Baltimore.

**CHILL** pays an indemnity of \$75,000 in gold, and restores cordial relations with the United States.

**CONGRESS**, by a majority of twelve in the House refuses further aid to the Chicago World's Fair.

**THE** Force bill plank in the Republican platform is causing some Republicans a good deal of annoyance.

**HARRISON** is positively pining, to put his pen to a force bill and write "Approved." Harrison so hates the South he would like to employ it upon bayonets with bullets just under. Harrison is a "General."

**A FEW** days ago Republicans boasted that they would carry West Virginia with Elkins as their candidate for Governor. But Mr. Elkins declines to run. He would like to be Governor but don't see how he can.

**NOT** many bets are reported. A New York message of July 17, says: David Johnson wants to put up \$10,000 on Cleveland, and Henry Lawry who won \$10,000 on Harrison last time wants to bet it all on Cleveland this time.

**WAR** speculations in Europe are again being indulged in, and the European edition of the Herald contains the following: "If war was to break out the forces of France and of Russia would crush the German forces like moving walls; the German army would be shot in like the prisoner in Poe's story, who is inclosed in a prison, the walls of which come together upon him."

**THE** finest fight ever made in North Carolina was in 1876, when the work was largely done by means of Democratic Clubs. This year we must also look to the clubs for the most effective campaign work. These local organizations are merely the organized Democracy. At their head in North Carolina are Col. J. S. Carr, the President, and Mr. B. C. Boehwith, the Secretary, and we run no risk in saying that these gentlemen will do what they can to aid the clubs all over the State. Mr. Beckwith will continue in harness and Col. Carr, we predict, will do a grand work in North Carolina this year. News and Observer.

## SAYS the Atlanta Constitution

speaking of the defeat of the silver bill: "After all, it was Raed and his Republican contingent that enabled the Eastern Democrats to kill free coinage. Even a Wall-street Democrat cannot do anything without the active aid of the Republicans. Let Georgia farmers remember this fact."

## SENATOR VANCE, we are glad

to be able to say continuous to improve, so much so that the improvement is apparent at once to every one who saw him when he came to the Hammocks and has seen him since. He suffers but little pain, sleeps pretty well without opiates, and on the whole is doing splendidly.—Wil. Star.

## LOCAL NEWS.

Mr. J. B. Taylor has tomatoes in his garden of the Mikado variety that average the finest he has ever seen. Twelve picked from the vines at one time weighed twelve pounds.

The clerk of the Superior Court has appointed Alexander M. Williams, of Vanceboro, a Justice of the Peace of the first township, to fill a vacancy caused by the death of the late Wm. H. Ellison. Mr. Williams qualified before the clerk yesterday.

Mr. T. F. McCarthy has begun the work of making improvements on his store and residence. An entire new floor will be put in the store. The shelving will also be re-modelled, and both store and residence thoroughly repainted inside and out. While the work is going on Mr. McCarthy is carrying on his business in the store diagonally across the street.

Hon. B. F. Grady was renominated at Clinton. There was a good delegation present, and the meeting was an interesting one. J. A. Shaw, of Cumberland county, was elected the Presidential elector. At the close of the convention a number of third party delegates withdrew and held a meeting of their own. The Craven county delegates stood firm for Cleveland and Democracy.

Tonight is the time for the King's Daughters to hold another ice-cream supper in the building opposite the post-office. Every Tuesday and Friday it is repeated. The delightful, cool refreshments served are quite gratifying during this hot weather, and all the money raised is applied to objects of general benevolence. They will have some new and nice ice tonight.

Possess your souls in patience, ye who are in yards of city remote from the fire department's headquarters. The electric fire alarm system is to be in operation by October 1st—probably sooner—and then you can get an alarm to the station as quickly as any one. Mr. Ellis forwarded the diagram required to the company that is to construct the system yesterday urged its completion with all despatch. It is hoped that the water works so greatly needed will soon follow and then all parts of the city will be protected satisfactorily to every one.

The record of rain falls kept at the dept by Mr. W. C. G. Boyd shows that during the hard rain of Wednesday afternoon 1.85 inches of rain fell in forty-five minutes—more than had fallen in twenty-four hours at an previous time during the year except once and then it was only 1.86. It was the hardest rain while it lasted ever known here. At the rate of nearly two inches in 45 minutes it would not have taken long to have made serious trouble. It did not rain yesterday. We guess the bottom dropped out the day before and gave us all the water left at once.

Mr. Barum once gave some good advice to business men concerning advertising, as follows: "You do not, any of you, advertise enough. You ought to use printer's ink every day. You are asleep and want your business to run itself. A standing advertisement in a paper commands confidence. The man who for a year lives in a community and leads a reputable life, even though he be of moderate ability, will grow in the esteem and confidence of his fellows. On the same principle a newspaper advertisement becomes familiar in the eyes of the reader. It makes the name and business of the man familiar and its presence in the columns of a newspaper inspires confidence in the ability of its enterprise."

**The A. & N. C. R. R.**  
The News and Observer has the following remarks of our railroad:  
A recent trip over the Atlantic and North Carolina Railroad showed a vast improvement in the condition of that line since the days when Joe Turner dubbed it "the mullet road." The quantity of garden vegetables it hauls is enormous. The passenger business is also good. The roadbed is in fine order and the steel rails are a great improvement.  
The rolling stock is likewise in better condition than we have ever seen it. The passenger coaches are nice in themselves and are nicely kept, while a parlor car has been added to the enjoyment of those who indulge in such luxurious traveling. Of the officers, it is only necessary to say that they are kindly, courteous, North Carolina gentlemen.

## The Fire at the Points.

Shortly before two o'clock yesterday morning the store on the corner of Queen street and Forbes alley, belonging to R. G. Moseley, col., and occupied by Richardson & Snelling, grocers, was discovered to be on fire. In about a quarter of an hour parties running down the street succeeded in getting the alarm to the station and the bell commenced ringing. The engine of the Atlantic company was not in the city, having failed to get back from Asheville as early as expected, and the horses of the New Berne company got a fit of contrariness on them and balked so that it was near half an hour from the time the fire was discovered until the engine got to work.

The Atlantic company's hose carriage reached the scene of the conflagration first and laid their hose all in readiness, and were quickly followed by the New Berne's, and in about two minutes from the time the engine was in position two streams of water were turned on the burning property and the flames checked in their progress almost where they were when the throwing of water commenced.

But, in the meantime, the store in which the fire originated was virtually destroyed, the flames had a good hold on the next one, B. H. Scott's grocery store, and the third building had caught. But so efficiently did the active firemen work that the flames were stopped in their progress at the point they had reached when the throwing of water commenced.

Richardson & Snelling's stock, valued at \$900, together with their books, was totally destroyed. Their insurance was \$650. The insurance on the building was \$500.

It was a \$700 one. The adjoining building, also belonging to R. G. Moseley, was damaged to the extent of \$200. \$200 was the amount of insurance carried on it.

Mr. Scott's stock was saved, with the exception of the damage by hasty removal. He carried \$500 insurance on stock and furniture.

The next building, belonging to Rev. E. M. Forbes, of Beaufort, was only slightly injured.

Mr. Richardson also lost a valuable gold watch in addition to what he suffered from his interest in the business. He hung it against the wall the previous afternoon for safety while taking a nap, and neglecting to take it down it went with the store.

## Shocked by Electric Light Wires.

Mr. R. P. Williams received a severe shock from the electric light wire in the fire, Wednesday night. He started to cut loose a portion of the wire that had fallen with pliers having handles encased with rubbers for the purpose, but as soon as the blades touched the copper he experienced the shock from the electricity, which held him fast. So severe was it that though he tried to cry out he was speechless, and he was not released until those at the works, noticing the disturbance, concluded something was going wrong and turned off the current. When it stopped Mr. Williams was thrown several feet. But for the timely stoppage at the works he would probably have been killed.

Mr. Williams supposes that in working, a small, unprotected portion of the pliers at the end must have touched his hand, as the deep burn left corresponds in shape to that part of the instrument. Several other parties were knocked over by shocks received from stepping on the wires while the fire was in progress, but no one was seriously hurt. Look out for this source of danger another time.

## Coming and Going.

The following parties came up from Morehead yesterday morning en route to their home: Gen. M. L. Bondam, Columbia, S. C., Mr. J. R. Linsay, Greensboro, N. C., W. F. Roddey, Rock Hill, S. C., J. R. Nelson, Meridian, Miss., and Mr. T. H. Dieh, Jr., Taylor, N. C.

The following party came up from Morehead en route to Hot Springs, N. C., Mrs. Dillard and daughters Miss Ame and Adele and Miss Blanche speed of Memphis, Tenn., and Miss Mitchell, of Louisville, Ky.

Mr. and Mrs. N. S. Richardson left to spend some time at Seven Springs.

Miss Mary Hendron left to visit relatives at Rock Mount and Barboro.

Mr. C. H. Foy, of Kinston, is visiting his brother, Mr. C. E. Foy.

Our former townsman, Mr. E. H. Henderson, arrived, to spend a few days in the city and is stopping at Mrs. Jos. Nelson.

Lieut. Williams, wife and child, Wilson, N. C.; Messrs. W. M. Marten, New York; A. W. Miller, Paris, France; D. W. Laws of Baltimore and C. H. Chase of New York, are stopping at Hotel Albert.

Mr. Homer T. Wilson, of Louisville, Ky., inventor of the Wilson Burglar and Fire Alarm Electric System and Dr. W. R. Price, of Tennessee, the owner of the right for the State of North Carolina who have already spent a short time in the city in the work of introducing the system here, returned last night to continue the work.

Mr. L. E. Duffy, of Dover, came down on a business trip.

Miss Bryan, accompanied by her cousin, Miss Grimes, left to spend the summer at Morehead. They will sojourn at the Atlantic.

Rev. W. T. Wilson, of Kinston, arrived and preached in the Disciples' church last night.

## Look to the Smaller Industries.

The value of small industries can not be overestimated and they must be established if we wish to see the great number of people who are out of work lessened. Of course there are gentlemen of leisure and the common street loafer who are satisfied to drift along and live on their neighbor, but it is not so in all cases.

If one will study the difference between the progress and development North and South, it will not take him long to find out the cause. In the North they make almost everything, and in the South we make comparatively nothing. In the North everything worth a penny is carefully utilized, in the South very few of the small things are utilized. Indeed, it is the result of disregarding small things that has caused such a difference in the condition of the two sections.

Small things are not to be disregarded. Small enterprises of a safe and solid kind are really more conducive to the development of a town and community than larger ones. Where vast amounts are expended in one particular thing it comes to be that only experts in that particular branch of industry can find employment there, but where there are numerous smaller enterprises almost every one who wishes can find employment.

These small beginnings may not satisfy the over ambitious, but it is the surest and safest step even if it does fall short of some life's fascinations.

There is just one road to success, and that is the road of hard work. All sorts of short cuts have been devised and tried by people but they have all been short-cuts to failure. The long road of hard work is the only highway that leads to success; all by-paths end in the swamp. Activity is the necessity of every strong nature; a lazy boy is a sick boy or a defective boy. There is no fear about the success of the boy who works hard. Life is full of hard work, but the boy who is willing to work, who is honest and true is the boy who will stand the best chance of becoming prosperous and influential.

Citizens of New Berne we need these industries to employ all classes that are out of work.

## A Delightful Time.

Rev. John F. Butt and wife were invited to Smith's Creek to visit the families of Aldriches and Molyettes, and were several days there this week in recreation. They spent the time with those social, kind-hearted people, very pleasantly and agreeably. They returned well delighted with their trip.

On Thursday morning starting out at six and returning at nine from a fishing excursion, Mr. Jim Timberlake, who accompanied Mr. Butt and Mr. Aldrich, caught 133 fine croakers and trout, many of them very large. Some of the trout measured 22 inches in length. They report it a very enjoyable trip, and were strongly pressed to repeat it.

## A Start in Housekeeping.

The Greenville Reflector announces September 1st as the date for the grand opening of the new mammoth warehouse belonging to Joyner & Heilbronner—the Eastern. They declare their intention of showing to the world that this section raises the finest tobacco on the continent, and they want the 1st to be a gala day and want every farmer to bring a load of his best tobacco to the opening break. They assure the highest prices. "One attraction that it is desired to secure to help draw the crowd is to have a marriage take place in the warehouse on that day, and as an inducement they have secured \$100 worth of presents to be given to the bride and groom of the occasion. The first couple who informs them that they will accept the proposition will be chosen, and upon the fulfillment of the agreement they will take the presents home with them."

## Minutes of State S. S. Convention.

We have received the minutes of the eleventh annual convention of the N. C. State Sunday School Association, which was held in Centenary M. E. Church, this city, on March 27th, 28th and 29th. It makes a valuable reference book for workers in the Association, as it gives all officers of both the State and county organizations, plans and purposes of the Association, constitution, form of constitution recommended, for county and township associations, reports of committees, statistics of work, financial statement, records of meeting of last session, including a synopsis of the addresses made by Evangelist Fife, Prof. H. M. Hamill, Prof. Blair and others.

"Is not the clothes which make the man, but they help."

Hate, Clothes and Shoes civilized men cannot do without. We've got to have 'em. Now we want your trade on them. When you need anything in this line see us. We don't expect to suit everybody and we don't get mad if you don't buy, but we think we can come as near suiting the majority as any one in New Berne. We are constantly receiving new goods. New Collars, Cuff and ties, Patent leather pumps. Belts and Sashes. J. M. HOWARD.

Children Cry for Pitcher's Castoria

## Colored State S. S. Convention.

The third annual meeting of the North Carolina International S. S. Convention met at St. Peter's Church, New Berne, N. C., July 21st, 1892, at ten o'clock, a. m. Rev. J. J. Worries, of Raleigh, N. C., in the chair.

The convention was opened by singing No. 126 by the choir.

The president read the sixth chapter of Deuteronomy. Prayers were offered by Rev. A. R. Snyder, Second hymn, No. 352.

Committee of those appointed on credentials: Prof. I. H. Smith, J. P. Holly, Mr. — Taylor.

Committee's report received and accepted.

On motion of L. H. Smith, the delegates at large from the county of Craven were elected.

A committee of three was appointed on rules: Revs. Henry Phillips, A. R. Snyder and Miss Georgia F. Davis.

The committee on rules reported the convention met at ten o'clock, a. m., and adjourned at two o'clock, p. m., on the eighth of July.

Prof. I. H. Smith addressed the convention on "The best way to conduct the S. S. work in the State."

Talks by delegates: A. L. Tappan, "How to run the school in your county," Sunday School Association of the State, Pety.

Program of the convention: Allow the work of the State S. S. Convention to be established in your county. J. J. Worries, of Raleigh, N. C., of the committee of Statesville. Talks by the presidents of the Conference: "How to run the school in your county," Sunday School Association of the State, Pety.

Prof. I. H. Smith, of Statesville, N. C., presided.

For July makes a beautiful picture of the sculpture on the Boston Building, which is to be the largest in the world. There are six great pictures of this work, the crowning triumph of sculptor MacMonnies' art.

Ex-President Hayes writes the leading article, and James H. McVicker, the celebrated theatrical manager, contributes an essay on the drama, with his photograph. Dr. W. T. Meloy, a charming sketch writer, gives his masterpiece in "A Courier's Self Portrait." Charles Carter Davis offers medical advice to traveling visitors. Major Ben C. Truman, general secretary on Virginia, writes about Slavery Wine. Mr. Louise A. McVicker publishes a page poem, "Columbus," which has been in preparation for many weeks. C. Frank Dewey furnishes an article on Bessemer, with a striking picture of the Iron Chancellor at home. Pictures of the buildings, poems, quips, rhymes, the Durbarrow bill and Exposition news complete a beautiful and valuable number. Next month, Franklin E. Denton's great poem, "J. N. HULLOAS, McVicker's Building, Chicago, \$2.50 a year, 25 cents a copy."

## Card of Thanks.

I extend my thanks to the friends and others who so bravely assisted in saving my property from the night before last. R. G. MOSELEY.
