WEAVER AND SKINNER.

The People's party has met in convention at Raleigh and nominated Col. Harry Skinner as their candidate for Governor of North Carolina. We know nothing derogatory of the personal character of Col. Skinner, or if we had volumes of defamatory literature we would not use a line of it.

So far as the JOURNAL is concerned, he shall appear before the public just as he has presented himself: a late Democrat running for office as the candidate of the People's party.

So, the Peoples' party in North Carolina will muster under the flag of Weaver and Skinner.

Clubs seem to be the order of the day. We do not know that any political association has been named "The Weaver and Skinner Club," but we do know that there is a Weaver and Skinner club that is to be used in warring against the peace and dignity of the State of North Carolina. It is not an Irish shillily, much less is it an "Old Hickory" club.

The Irish are a brave people, and it sometimes happens that their shillilies are used in personal collisions, but they are never used against old Ireland. Andrew Jackson was known as old Hickory, and a simon pure Democratic club is solid hickory, fit emblem of the grand old hero!

But, the gentleman, whose names head this article, are not armed with any such weapons as an Irish shillily and a Democratic hickory club. Neither of these implements are representative of the men. A reed shaken by the wind would better represent them.

Nevertheless they have a club with which to assault the people of North Carolina. It is a kind of mosaic—ingrained and dovetailed. It is composed of prickly ash, polk-stalk, hawthorne, nettle and worm-wood. It would be worthless to a giant, for the first effort of his strength would break the brittle thing. It is only serviceable in the hands of a limberjack, who can dexterously touch tender spots, here and there, and keep up a kind of horsefly and mosquito annoyance.

Weaver was never known to make a dangerous assault upon anything or anybody. He has been in every party that has existed since he came of age, but he has never remained with any one long enough to master its principles, or become an expert in the use of its weapons. But, as a South hater and mud slinger he is

a decided success. It is a little remarkable that his political supporters at the South are the men on whom he has practiced in billage gate, for they were Democrats when Weaver paid his respects to them in the following choice English. speaking of the Democratic party he said, "We know that its acts comprise, treason, theft, arson, fraud, perjury, and all crimes possible for an organization to connive at." It was to you, and of you, old line Democrats of the People's party, that these words were used. Then, again, with you standing in the ranks of the Democracy, he said, "But, then, what could you expect from the poor, blind, diseased, decrepit, dismal, damned old Democratic party." That he said of Democrats—but this is what he said of southerners: "No Republican can ever, under any circumstances, have any part or lot with the hungry, rebellious, man-hating, woman-selling gang."

The elegant and accomplished Colonel Skinner would have never used such language in regard to Democrats and the people of the South, but he is in the wagon with Weaver, and if the road is hard, he must jolt with him. "The gallant Harry" waited long before casting his lot with the People's party. He has exercised an unquestionable right of selection, and it will be our duty in subsequent numbers to show that his choice was most unwise and unnatural.

"A SERIOUS revolt in the Third party has taken place in Chatham." Of course: and so it will be all over the State.

Magnitude of the Dairy Products.
It is never amiss to keep before the eyes of the people the following succinct statement of the money value of the dairy interest of the United States.

Two thousand million dollars are invested in the business of this country. It requires 15,000,000 cows to supply the milk, and \$200,000,000 worth of dairy and other agricultural machinery; 750,000 men and over 1,000,000 horses are required to do the work.

To feed the cows and horses, it takes each year 30,000,000 tons of hay, almost 90,000,000 bushels of cornmeal, a large amount of oatmeal, 275,000,000 bushels of oats, 2,000,000 bushels of bran, 30,000,000 bushels of corn, besides brewery grains, spouts, cotton seed meal, etc.

The total feed is estimated to be worth \$450,000,000 and the cost of labor \$180,000,000.

The average yield is 450 gallons per cow, or 6,750,000,000, which at 12 cents per gallon would net the farmers \$81,000,000 per year if sold as milk but one-half used in making milk and cheese. It takes 27 pounds of milk to make one pound of cheese. Eight and a half pounds of butter has as much nutriment as one pound of beef, and as a fat steer has 50 per cent, of boneless beef, it would require 24,000,000 steers weighing 1,500 pounds each to give the same food value as is given in the milk product.—Rural World.

Lung Troubles, Rheumatism Etc.
Frequently a person is supposed to have consumption when it is some other disease altogether that is reducing his flesh and making him look pale and thin.

J. W. Yates, Tallahoma, Tenn., writes: "It does me good to praise Botanic Blood Balm. It cured me of an abscess on the lungs and asthma that troubled me two years and that other remedies failed to benefit."

So you see it is sometimes well to try constitutional treatment. No remedy is so good as B. B. B. (Botanic Blood Balm) for rebuilding wasted tissue, and giving health to every portion of the system reached by that great circulating stream of life, the human blood. Again, it is often supposed that colds and exposure are the only causes of sciatica, rheumatism, etc. Such is not always the case. It is frequently caused by impurities in the blood.

Wm. Price, Lottsville, Mo., writes: "I was afflicted with sciatica and had lost the use of one arm and one leg for nine years. I went to Hot Springs and also tried different doctors, but found no cure until I tried Botanic Blood Balm. It made me sound and well. I am well known in this vicinity."

Observe, even when the renowned Hot Springs failed, B. B. B. brought relief. Remember, no matter what blood remedy you have tried or intend to try, B. B. B. is the only one that will give you complete satisfaction.

It must have been a masculine power that formed woman's heart for forgiveness.

Regeneration.
To secure a normal and regular tissue change throughout the body use BRANDRETH'S PILLS. This tissue metamorphosis consists in constantly proceeding waste of tissue and its regeneration. BRANDRETH'S PILLS are the best solvent of the products of disintegration of the tissues and increases their elasticity. They are an alterative and eliminative remedy, which allay irritation and remove obstruction by aiding nature and are of great benefit in cases of temporary and habitual constipation, torpid liver, biliousness, headache, indigestion, rheumatism and diseases arising from an impure state of the blood.

BRANDRETH'S PILLS are purely vegetable, absolutely harmless, and safe to take at any time.

BIG IKE'S COLUMN.

Not Politics, but \$.

No Third Party, Republican or Democrat allowed to discuss the issues of the day in my store. Sore heads, Democrats and Republicans please take warning. It is the mighty dollar I am after.

He Will Know Where To Go Next Time!

Mr. W. I. Hargett of Pollocksville was in town this week, and wanted a pair of Shoes like those he bought from Big Ike thirteen months ago. Said he tried to get a friend of his to do likewise, but could not prevail on him to do so; he bought them up town, and they only lasted him two months and a half.

BUSY THIS WEEK.

To the public I would like to say it is impossible for me to give them all the news in my ad. this week, as I am making preparations this week to move the stock from my upper to my lower store. I feel it is to my interest and to the interest of the people for me to know what is going on and who is coming in, that if a man runs one place successfully in this county he is doing well.

I CAN DO IT!

I trust in ten days to have my two stocks into one, but will be very much crowded for some time. When I put all my goods in my lower store it will be like putting a No. 9 foot in a No. 8 shoe, but it is often done, and I propose to do something like it when I combine my two stocks. I know my lower store is too small, but Big Ike, unlike other men, has not learned to say, I can't do it.

The Colored Fair is Over.

Not less than five thousand people said: There goes Big Ike, who buys so many merchants out at 40, 50 and 67 1/2 cents on the dollar.
