THE effort of Benjamin Harrison to evade the Force bill seems to be fruitless. Of all men he is the most identified with its fortunes.

THE Philadelphia Record says: Ex Postmaster General James is in favor of Harrison for President because he is in favor of the Force bill.

PARIS University is the largest in the world. It has 9,215 students. Vienna University, with 6,220 students is second, and Berlin third.

THE campaign in Georgia goes bravely on. In the Augusta district Mr. Black is a sure winner. Every day when Mr. Black concludes his speech Tom Watson looks around and wonders, "where am I at?"

VIRGINIA is all right. The coalition between the People's party and the Republicans led on by Mahone has disgusted old line Democrats, and there is such a knocking at the doors of Democrats in clubs as was never heard before. The Aid Society is a regular receiving office for the Democracy.

THE hot gubernatorial contest in South Carolina has led some good people to suppose that the success of the Democratic national ticket in that State is doubtful. Such is not the fact. Both factions in South Carolina are in favor of Cleveland and Stevenson, and the electoral vote will certainly be cast for them.

JONES as we expected. Ten days ago Major Fields, candidate for Vice President on the Peoples party ticket, claimed Arkansas as a territory to vote with the People's party. The man has changed. That was his only chance that Fishback could make a candidate for Governor.

will not receive less than \$10,000 majority. All that they now hope for is the defeat of Breckinridge for Congress with the aid of Republicans.

STRENUOUS efforts are being made by the Federal Government to prevent the introduction of cholera into this country. Cholera is officially announced to be epidemic at Antwerp. London and Berlin are enforcing strict sanitary regulations to keep out the dread disease. The authorities of New York city are making every effort to prevent cholera entering that port. There are vessels due there this week from cholera infected Hamburg, bringing 2,000 immigrants.

The approaching campaign is to be a most important one and in order to place the JOURNAL in every section where the people can keep up with the movements in this great political struggle we shall offer reduced rates to all new subscribers now until after election. These special rates are to be paid in advance and apply to both the Daily and Weekly.

The Washington Gazette understands that arrangements are in progress to run a special train to Goldsboro on the occasion of Vice President Adlai Stevenson's visit to that place. It is expected that this train containing the Democracy of Beaufort county will be gorgeously decorated with bunting, and that the old county will whoop up the occasion in great shape.

The Tarboro Southerner says that a Weaver flag was raised at Knight, a station on the N. & C. railroad in Edgecombe county but it blew down. To show the scarcity of the third parties in the neighborhood notwithstanding the raising of the pole it adds that if all in township were stood one upon another, the top of the pole would still have been out of reach.

We see in the Goldsboro Argus that Miss Cattie Fulghum of that city who has several times visited friends in New Berne and is consequently pretty well known here, is the painter of the portraits on the Cleveland and Carr banner that is to be unfurled there today. The interest in them is heightened by fact that they are handwork of a native young lady. They are oil paintings and are pronounced masterpieces of art and speaking likenesses of these two Democratic leaders.

There is to be an excursion run from Durham to Morehead on Thursday, Sept. 8th, to arrive in Morehead at 4 or 5 o'clock that afternoon and to remain until 7 p. m., on Saturday the 10th, thus giving the excursionists two whole days and nights to sail and to catch blue fish, the season for which it is said will then be at its height and afford fine sport. The Durham Sun says the fare on the excursion is only \$2.50 and the hotels and boarding houses have agreed to charge only \$1.00 per day, making it one of the cheapest excursions that ever went to Morehead from such a distance.

How Butler and Exum Opened the Campaign.

The Progressive Farmer takes it upon itself to assert that Mr. Butler and Dr. Exum were interrupted and insulted by Democrats at the speaking near Auburn last Thursday, and playfully intimates that if that thing continues there will be funerals.

Thus much for mere statements, now for facts.

The meeting was a farmer's picnic and Mr. Butler availed himself of such a social occasion to make a third party speech. In the course of this, "feeling his oats," as they say, he called on his hearers to ask him any questions, "from one to one hundred," professing his anxiety to answer any and all. The questions came and Mr. Butler did not keep his promise, thus boastingly made. In the language of the courts, he was "called and failed." As a result of his day's work there, chief marshal Wayland Dowd says 27 third party men gave in their names to the Democratic club. And that was the opening of Dr. Exum's campaign.

Coke at Vanceboro.
From Capt. N. B. Ispock and several others others we hear glowing words of praise for the speech of Hon. Octavius Coke at Vanceboro and of the effect that it produced upon the many hearers who assembled at Vanceboro that day from all the neighboring country.

The speaking commenced at noon and for two hours the crowd, composed of members of all the parties drank in eagerly every word that fell from the lips of the well-informed and gifted orator.

He explained the leading characteristics of the all the parties—Democratic, Republican, Prohibition and People's, so plainly that no one could fail to understand. He touched on both National and State affairs, showed the deplorable condition the Republicans got the State in when they had control, and the prosperity that has come under the progressive and yet economical administration of the Democrats.

He pointed out some of the evils that are cursing the people of the entire country through the harmful and corrupt legislation of the same party whose rule was so pernicious in the State, and warned of the delays in correcting existing abuses imposed by the Republican party, and of difficulties liable to be produced by following either the Third or the Republican party. He reasoned mildly, logically and convincingly about the Third Party, explaining the difference between that and the Alliance, and showing how all-innocent would sooner attain relief they were seeking by standing square up to the Democratic party and getting it in full control of the General Government, which it had secured in the State Government.

We have been told by more than one that the Third Party following is not one-fourth as strong around Vanceboro as there has been an effort to create the impression that it was, and this speech did some thinning of their ranks and was quite disconcerting to those who, in spite of the sound arguments, still wished to remain in it.

Mr. Coke seems to have enjoyed himself also as well as his auditors. He was very pleasantly entertained by Messrs. Cleve and he left with appreciation of his large and attentive audience, and of the commendatory remarks in reference to his speech, and of the numerous expressions of firm adherence to Democracy that followed it.

Coming and Going.

Mrs. Bettie Mason returned yesterday morning from a visit to relatives at Beaufort.

Miss Mabel Chadwick, of Beaufort and her friends, Misses Annie and Bessie Jones, of Oxford, who have been visiting her, passed through en route to enter Greensboro Female College.

Mrs. J. C. B. Morton, of Durham, who has been visiting her father, Mr. W. J. S. Bell, of Newport, passed through returning home.

Mr. and Mrs. S. J. Hudson left to visit relatives in Kingston.

Mr. E. K. Bishop, who has been on a pleasure trip in Canada, returned home yesterday on the steamer Neuse.

Mr. O. H. Guion left yesterday morning on a Northern business trip and Mrs. Guion left to visit relatives in Washington.

The steamer Neuse took out the following passengers: Mr. and Mrs. Geo. R. Howard, returning to their home in Baltimore from a visit to relatives in the city, and Mr. J. H. Sheridan and family, who have been spending a few weeks in the city, returning to their home in Norfolk.

Sugar Hill Mission.

Mr. Editor—I would not trouble you with this second communication, but that my first was misapprehended.

I have been interested in this mission work ever since its commencement—have sometimes attended its meetings, and been sorry at other times, because I could not. I have made no criticisms upon it, but have always wished it success, and bid it God speed.

But the name—that is an entirely different thing—the name proposed for the building, "Mount Calvary Temple," seems to many as well as myself to be in utterly bad taste, some say it is "unsuitable," "improper," "high sounding," &c. and one person said to me that he "thought it bordered on the sacrilegious." I mentioned this privately to the brother in charge, the day before I wrote my article. And as I had been publicly asked to come next Sunday morning and help give the work an organized form, and designed to be present and do with my might what my hand might fall to do, there was no "presumption" in writing it. Neither can there be any imputation of desiring to make fun, for I used only such words as the brother used right after me in his article, viz "a very modest structure" and "a very humble work."

I hope the mission, in its growth and expansion may be "like a grain of mustard seed," but I desire with many others, to see it relieved from such a high sounding title, and called by a simple and sensible name—only that and nothing more.

A STEAMER FROM A CHOLERA INFECTED PORT.

NEW YORK, Aug. 25.—News was received this morning at quarantine of the appearance of cholera at Antwerp simultaneously with the arrival here of the Red Star line passenger steamer Noordland from that port.

The officers thoroughly examined her and her passengers. The Noordland sailed from Antwerp eleven days prior to the discovery of the disease at Antwerp.

PREPARED FOR THE CHOLERA.

NEW YORK, Aug. 25.—Dr. Cyrus Ellison, sanitary superintendent, said today that while he did not think cholera would find its way to this country, there was always a chance that it would, and for this reason he had prepared for any emergency.

"I do not wish to alarm the public, but do not think it will do any harm, however, to tell you that we are now ready to care for cholera patients to the number of 5,000 at a moment's notice. Of course there would not be the demand made upon us, and I do not think that if cholera should make its appearance here the cases would be numerous. Still we are prepared to handle a scourge."

CHARLESTON, S. C., Aug. 25.—Extra precautions for the rigid enforcement of the quarantine laws have been taken by the health department at this port.

ANTWERP, Aug. 25.—The excitement in this city over the outbreak of cholera is increasing. There is little doubt that the disease was brought here by vessels from eastern Europe. The first victims were dock laborers.

LONDON MOVING AGAINST THE CHOLERA.

LONDON, Aug. 25.—The health committee of the municipality held a meeting today to consider propositions against the cholera. It was announced that all the steamship lines proposed to suspend their emigration traffic until the danger from cholera should be over. 1,000 GOOD DEMOCRATS WANTED!

Letter From Grover Cleveland.

GRAY GABLES, BUZZARD'S BAY, MASS. July 13, 1892.

WILL S. HAYS.

Dear Sir—I received a copy of the song you have written to be used as you say, for an "encourager" during the approaching campaign. I believe, with you, that the influence of songs and music of the right sort ought not to be overlooked as an important adjunct to a political campaign; and so far as I am able to judge, this latest production of yours must serve a good purpose in that direction. One thing I am certain, the composition of this song, by you is a sure demonstration that the composer is actuated by the sort of spirit and enthusiasm which win elections.

Very truly yours,
GROVER CLEVELAND.

The following song is the only by our coming president recognized CAMPAIGN SONG:

CLEVELAND IS THE MAN.

Come rally round the good old flag, and give them loud huzzas,

Let us know what he can do, to help our noble cause;

For Cleveland and for Stevenson we'll battle every storm,

And pass the cry along the line for Revenue Reform.

Shout! boys! shout! our cause is bound to win!

We vote for Cleve and stick to Steve and see that they get in.

For honest Government we'll fight, for all that's true and fair,

For Grandpa's hat will get mashed flat, when Grover takes his chair,

He ran this grand old country once, as president did reign,

As Democrats let's put him back, to run it once again.

Shout! boys! shout! etc.,

Let Democrats throughout the land, for gallant Cleveland shout

From every throat and cast his vote, and man for man turn out,

Let's win our cause, the world's applause, and do all that we can,

Work day and night with all our might for Cleveland is the man.

Shout! boys! shout! etc.

Reduced Price: 25 cents, regular price in Washington, D. C., 40 cents.

I have 1,000 copies on hand and must sell them.

OSTER CONVENTION AT OCAKCOKE.

Opposes Dredging and Monopolies—Calls For Repeal of Law on Entries

Endorses the Present Oyster Law and Approves the Commission.

In pursuance to a call from W. H. Lucas, Chief Commissioner of Fish and Oysters, to the oystermen and those interested in the oyster industry of North Carolina, they met in Convention at Ocracoke, N. C. Aug 17th, 1892, at 11 a. m.

Mr. John L. Goodwin, of Carteret county, was unanimously elected chairman and J. A. Harper, of Dare county, secretary.

The following resolutions were unanimously adopted, and ordered to be presented to our next Legislature:

Resolved 1st. That we are opposed to scraping or dredging in any manner, shape or form on any of the public oyster grounds of North Carolina by any and all persons in any depth of water, for we know that scraping or dredging would open the door to monopoly and combinations as it has before, and oppress and ruin the oystermen, as well as destroy the State's interest in her public oyster grounds.

2nd. That we are opposed to the entering of any of our public oyster grounds by any and all persons, for a great many of the best oyster grounds of the State, where we have caught hundreds and thousands of bushels of oysters, have been taken up by private parties, thus depriving us of the privilege of oystering on said grounds, and causing the State to lose the very valuable revenue that might be derived from said oyster lands.

3rd. That the law of 1887 allowing non residents to take up 640 acres, outside of the two mile limit be repealed.

4th. That the individual and boat tax, each be reduced to twenty-five cents, and the tax upon the oysters be increased from one cent to two cents per bushel.

5th. That we endorse the actions of the last Legislature in giving us the present oyster law, thereby protecting our interests, as well as the State's interest in her public oyster grounds.

6th. That we heartily endorse the noble and patriotic manner in which our very excellent Governor, Thomas M. Holt, has endeavored to protect the public oyster grounds of the State and reserved the oysters for the benefit of our native citizens.

We extend to him a full assurance of our appreciation and confidence in his true, noble and patriotic course our beloved Governor.

7th. That we fully and heartily approve of the true and unwavering course of W. H. Lucas, our Chief Shellfish Commissioner, in his untiring efforts to protect our interest, as well as that of the State.

8th. We also endorse the course of Capt. Adam Warner, Associate Commissioner, and captain of the Patrol Boat, in looking after carefully and zealously protecting every interest connected with the oyster industry of our State.

9th. That we extend our thanks to Mr. John L. Goodwin, our worthy chairman, and Mr. J. A. Harper, our efficient secretary, for the very able and satisfactory manner in which they have discharged their respective duties.

JOHN L. GOODWIN, chairman.

J. A. HARPER, Secy.
