**75,000** CIGARS at very low figures to wholesale and retail trade for sale by JAS. REDMOND.

**G**ABRETT'S COGNAC BRANDY used very much in the sick room. For sale by JAS. REDMOND.

**T**he Sullivan-Corbett prize fight takes place in New Orleans today.

**G**ENERAL ADLAI E. STEVENSON addressed thirty thousand people at his old home, Herndon, Ky., on Friday. His subject was the tariff and the force bill.

**T**HE canvass of the State is most encouraging to the Democrats. The Republican State convention is now in session at Raleigh. With the nomination of the Republican State ticket the campaign will be fully inaugurated.

**T**he Durham Globe says: Adlai Grover's second will be here on the 10th. Five hundred and eighty mounted Democrats will receive him, a thousand tar torches will shed their radiance, and the Third party will be captured.

**T**he Wilmington Messenger thus greets the True Issue: "The True Issue is out. It is a campaign paper published at New Bern with Gen. Cullen A. Battle as editor. It lays healthy reading of the true Democratic kind before its readers. Gen. Battle wields a strong and practiced pen."

**I**n the judgment of the Columbus (Ohio) Press "the political horizon now looks like that of 1852, forty years ago, when the Democratic party swept all but four states of the union, and the defeat of its whig enemy was so overwhelming that in the following year the latter gave up the ghost."

**W**HEN Mr. Peck, the so-called Democratic labor commissioner of New York, was preparing his recently published Republican campaign document, he failed to observe that the McKinley bill which reduced the tariff tax on woolen wares 33 per cent. and made diamonds free, put a tax of 100 per cent. on flannel shirts, 111 per cent. on common window goods, 132 per cent. on common window glass, and 120 per cent. on woolen stockings. Nobody, remarks the Alexandria Gazette, except Mr. Peck and his Republican constituents can see how the McKinley bill has been

**A** WASHINGTON correspondent says: Plenty of hard work will win the day. Too much brass band and regalia kind of campaigning is not needed so much as a practical systematic, quiet, house-to-house canvass, and Chairman Simmons is the man to do it. Trained as he was in a school of politics ever confronted with a negro Republican majority, he is more familiar with the proper tactics to employ in this campaign than any man in the State who has lived amid Democratic majorities. His course while in Washington as a Congressman was noted for its adherence to method, and by means of unobtrusive system he accomplished more practical results for his constituents than many members fond of vainglorious display.

## LOCAL NEWS.

**NEW ADVERTISEMENTS.**  
Baxter—Scientific optician.  
Steamer Howard—Schedule.  
J. A. Meadows—Marine railways.  
H. Winfield & Son—Horse shoeing.  
Hackburn & Willett—The mystery of ages.

Fair weather to-day, except showers on the coast. Cooler.

The Ladies' Missionary Society of the Baptist church will meet today at 4 o'clock at the parsonage. A full attendance is requested.

Remember the formal opening of the wigwam, the Cleveland and Carr Campaign Club's headquarters to-night. Home speakers will address the meeting.

Italy, Democrats, rally. The Cleveland and Carr club meets tonight in their wigwam at the corner of Broad and Hancock streets. Everybody invited.

To-morrow is the time for the excursion from Durham to Morehead to pass through the city. It will leave Durham at 9 a. m. arrive at Morehead late that afternoon and start on the return trip Saturday afternoon.

Some "varmint" is making nightly raids on poultry near the depot. At first the depredations were laid to rats but as grown fowls are attacked and their throats cut it is presumed that a mink or weasel is about.

Mr. Abernethy arrived at Riverdale Sunday and hurried up his appointment to Monday night instead of Wednesday as first announced. His speech was delivered in the Alliance building to a good audience, and we are informed by some who heard it that it was simply an Alliance lecture.

The Richmond and Danville Railway will sell round trip tickets from Goldsboro to the meeting of Democratic clubs at Raleigh on the 16th inst. for \$2.75. This is the occasion when Hon. Adlai Stevenson is to speak in Raleigh. Tickets will be for sale on the 14th, 15th and 16th insts. and will be good returning until and including the 20th inst.

Mr. J. W. Wood, the new tinner, is pushing forward in his business and doing good and satisfactory work in the various branches of the trade. The shop work he was turning out yesterday was somewhat of a novelty—tin patterns for men's clothes. They were for the use of Big Ike in cutting out the garments made in the city for his clothing trade.

The last five of Mr. J. F. Taylor's fish buildings at the market are getting pretty well under way. Every one who goes down to that locality, especially those who have not visited it for a few months, remarks on the great improvement. Eight new, commodious and pretty fish buildings and nearly a dozen new stores in a continuous line and a good portion portion of them on recently made ground, reclaimed from the river.

We hear Mr. J. F. Heath, a deputy of our excellent Sheriff, Mr. W. B. Lane, complimented for his diligence in collecting taxes. Collecting the taxes from those who do not pay readily is an unpleasant duty, but it is one that has to be performed with due regard to the requirements of the law and in fairness to those who promptly and cheerfully pay the taxes when first due. The sheriff who collects close early is the one most to be commended for the performance of duty and for looking out for the best interests of all citizens.

**The Mission Sunday-School.**  
Mr. S. R. Ball, Superintendent of Mount Calvary Sunday-school, which was organized Sabbath before last, has sent on an order for a good supply of literature for the school in the way of text books and interesting papers for gratuitous distribution every Sabbath to the scholars.

There were 25 scholars in the school last Sunday—double the number with which it was organized, and teachers enough for them, but it is desired to increase the number of both scholars and teachers, and further as it is a mission school, using undenominational lessons, contributions for further supplies of books or to help forward the school in any way will be gladly received from those disposed to assist.

The Sabbath afternoon services in the Baptist church will be largely attended.

## New Bernians at Black Mountain.

New Bern is pretty well represented at Blowing Rock—the following is the list of our citizens who are now there:

Judge Seymour, Mrs. Seymour, John B. Seymour, Wm. B. Ellis, Mrs. E. B. Ellis, Miss Lizzie Ellis, Miss Emma K. Jones, Mr. C. E. Slover, Mrs. C. E. Slover, Miss Mary Slover, Mrs. Wm. Hollister, Miss Sadie Hollister, Miss Mary Guion, Mrs. P. H. Pelletier, Dan Stinson, Pelletier, P. H. Pelletier, Jr., Mrs. Geo. N. Ives, Miss Lula Ives, Miss Fannie Smallwood, Mr. Claude Taskins

## Coming and Going.

Mr. C. Reizenstein and family are back from Beaufort, where they have been spending the summer.

Mr. J. E. Duke, of Raleigh, is in the city a few days in the interest of the Redal Gold Cure Company, an institution which Mr. Duke says is similar to the Keeley at Greensboro, which is known to have been going a grand work indeed.

Mrs. J. S. Manix returned last night from Wilson, where she had been visiting relatives.

Miss Nita Whaley left to visit friends at La Grange, and her mother, Mrs. B. Whaley, accompanied by her son, James, left on the steamer Allamere, of the N. N. & W. Direct line for Northern markets after a fall stock of millinery. Mrs. R. B. Lane left on the same steamer for the same purpose.

## Harrison's Letter of Acceptance.

President Harrison's letter of acceptance has at last been given to the public. He argues in favor of the National banking system and against State banks, and devotes considerable space to the question of the revival of American shipping. He endorses the reciprocity policy, and tells of what he considers some of the benefits it has brought about. He heartily approves the declaration of the platform in favor of the American doctrine of protection.

He is convinced that the free coinage of silver at such rates to gold as will maintain the equality in their commercial uses of the two coined metals would conduce to prosperity. He considers it essential that these dollars shall have and retain equal acceptability and value in all commercial transactions.

He favors the appointment of a "non-partisan commission" to secure "free and honest elections," and he uses the Alabama election in the argument for it.

He expresses supreme interest in free public schools open to all children of suitable age, and he invites the attention of the whole country to the work done through the State and Agricultural Departments in the interests of agriculture, and to "the wise legislation of the Fifty-first Congress" which led to opening "all the markets of Europe to our pork products."

He extols "the tariff bill of 1890" as being more helpful to farmers than any law of the kind they have had before.

The President concludes his letter with a reference to the foreign policy of his administration, touching upon the Nicaragua canal and the recent difficulty with Chili. In regard to the latter he says that the stand he took has increased the friendship between the two countries and that recent events have shown that he was right in not withdrawing Minister Egan from Chili at the time there was such a demand for his retirement.

## The Starch Factory Question Again.

We publish today a gratifying letter from Mr. P. A. Koonce, expressing an interest in the starch factory articles. We are glad to perceive interest on such a line but we cannot publish the article asked for entire on account of its length and because the details of manufacture would not be of sufficient interest to the generality of readers but only to those considering embarking in the business.

Our idea is to search for promising industrial schemes and point out their practicality and advantages. Then the minutiae of the business can be obtained by those contemplating engaging in it from manufacturers of the needful machinery, or other interested parties. We judge that our State Department of Agriculture, if it could not furnish all information sought, could put one in the way of obtaining it.

It is stated that the process of manufacturing farina or potato starch is simple, the machinery not complicated, and consequently unskilled labor can be used, the work carried on on farms, and culls used up in this way and by their being out of their way the price of the market-ed potatoes enhanced. We hope some one will press the matter to a consummation and by next digging season be ready for work.

## Interested in the Starch Factory Articles.

EDITOR JOURNAL:—I respectfully request the JOURNAL to publish the article you refer to by A. S. McRae, Toronto, Canada, on the manufacture of farina from Irish potatoes. The article will undoubtedly be appreciated by your many readers.

The Third party is growing beautifully less every day is apparent to all. Voters will talk a great deal in off years, but when they begin to look matters square in the face they see the Third party will not do for us.

Please publish the article referred to above.

Yours, &c., P. A. KOONCE, Stills, N. C., Sept. 4, 1892.

## OSLOW DEMOCRACY.

County Ticket Nominated and the Democratic Nominees From President Down Endorsed—The County All Right.

The following is the ticket put out by the Democrats of Onslow county in the convention which met August 21:

House of Representatives: S. W. Venters  
Sheriff: Fred W. Hergel  
Treasurer: John P. Cox  
Register of Deeds: Caleb C. Burton  
Coroner: Lewis A. Ayer  
Surveyor: S. J. Barber  
Thomas E. Gilman was unanimously endorsed as the choice of the Democrats of this county as one of the candidates for the Senate in this district.

The National, State and Congressional nominations of the Democratic party were endorsed unanimously.

The utmost harmony prevailed, with great enthusiasm for the success of the Democracy. More than 700 of the Democrats of Onslow participated in the primaries.

The Hon. Frank Thompson was permanent chairman, with the able and efficient Messrs. L. A. Merryman, John G. Pettaway and R. L. Brock as secretaries.

The Democracy of Onslow is wide awake—not dead or sleeping. Even the old and middle-aged are active and enthusiastic in the support of Democracy and good government. Onslow is safe for Democracy.

## The Pest Ships and Island Hospital.

New York, Sept. 5.—Fresh cases and more deaths was a bad report from the lower quarantine on the return of Health Officer Jenkins this afternoon. Not only had deaths occurred among the sick on Swinburn Island, but new cases and new deaths had taken place on board the fumigated and supposed to be disinfectated steamer, Normana. All the immigrants had been removed yesterday, and the crew and cabin passengers were looked on as absolutely safe. New cases, however, have broken out, and one death occurred before fresh victims could be removed to the hospital on Swinburn Island.

In consequence of this fresh outbreak of the cholera all the stocks of the Normana, seventy in number, were at once transferred to Holloman Island for observation, where they joined the steamer passenger that had made the voyage with them. Their quarters were cleaned and disinfected, and now there are only passengers, officers, deck hands, and steward on board the ill fated steamer.

## Cleveland and Carr Club.

The regular meeting of the Cleveland and Carr Club will be held tonight at the Wigwam, corner of Broad and Hancock streets, at eight o'clock. Let everybody turn out.

## 1,000 GOOD DEMOCRATS WANTED.

Letter from Grover Cleveland.  
GENY GARDNER, 10 ZAVARIS BAY, MASS.  
July 13, 1892.

Dear Sir:—I received a copy of the song you have written to be used as you say for an "encourager" during the approaching campaign. I believe, with you, that the influence of songs and music of the right sort ought not to be overlooked as an important adjunct to a political campaign, and so far as I am able to judge, this latest production of yours must serve a good purpose in that direction. One thing I am certain, the composition of this song by you is a very good demonstration that the composer is actuated by the sort of spirit and enthusiasm which wins elections.

Very truly yours,  
GROVER CLEVELAND.

## THE MYSTERY OF ACES

is the Splenz. How? Why? When? No one has been able to solve it. His tening ears have never solved it. It's a good representation of the mystery our competitors cannot solve.

Respectfully,
