in Their True Colors.

There was a rousing Democratic rally in Raleigh Thursday night. Hon. J. H. their home in Kinston. Murphy, of Iowa, had accepted an invitation to address the Cleveland-Carr made by him. Gov. Jarvis, Hon. Elias Carr, Capt. T. W. Mason and F. A. Woodard, Esq., also spoke on the occa-

Mr. Murphy made a glowing Democratic address. He said his biography had been published on one occasion in which he was referred to as a "rockrooted, #moss-covered, bourbon Democrat," and he had always gone on that platform. He predicted that in November the Republican party would be buried so deep by Grover Cleveland that it would never be resuscitated. The Democratic party would be here till the Hancock's. end of time.

The Republican party was for high protection-high tariff-the protection of the few at the expense of the many. The Democratic party favored all men alike. They were in favor of the greatest good to the greatest number, his vacation the Presbyterian and not the protection of millionaires.

Mr. Murphy, after a lucid discussion of tered letter some one sent. It cost about; that he had trembled as he stood ten cents to register it and it contained in Congress and saw ahead the possibility of such an enactment; he had seen, though a Westerner, the result of carpet bag, scalawag rule in the South, and he knew what it meant. He remembered a when the halls were disordered, the on the same day over \$600,000 being appropriated for this and for that. The picture points out but mildly the meaning of the force bill enactment.

He called upon those who were determined to vote the Third party ticket to pause and think. Self-preservation was, he declared, the first law of life. If the force bill was passed our liberties Carolina. The Republican party is pledged to it. President Harrison will.

The speaker next called attention to the infamous pension system. It now amounts to \$150,000,000 per annum. In a few years more at the present ratio of following reply increase it will reach the limit of our shame that we should have to put our lumber. Mr. H. W. Humphrey of Bogue, calls to put hands in pocket and pay to the cowardly pension thieves of the North. the Republican party by being promised a pension.

He dealt strong blows to the fraud, and declared, that what is now needed is a man like Grover Cleveland, who not only has the manhood to find the right, but the moral courage to maintain it. President Harrison has never vetoed a single pension bill-never. Compare the record with the administration of Cleveland. In reference to Cleveland, here, he said he knew him personally and had never seen a man have more prominently the three qualities for executive duties, honesty, economy, firmness, than he.

His reference to Stevenson was intense ly eulogistic, and he said that no person in office under the last Democratic administration, was more respected than was this man. About Harrison he said

londer than words.

He feferred to Gen. Weaver, his neighbor, but a political enemy, He said with be a political prostitute, a demagogue of the wildest stripe-the worst he had ever seen. He had observed his every political step for thirty years and knew him to be a member of every order or creed, if Weaver. He cited Gen. Weaver's record self, declaring it to be one of the most outrageous measures ever introduced. Beaucour, N. C., Sept. 15. To the Publics I may now thoroughly satisfied that there is no hope for relief for the people through the people's party, and that our safety is in voting for the odd democratic party. Being a the old democratic party. Being a farmers' alliancement my hopes have been that we would get relief through that aganization, but its purpose to make and for the people has been rained by he organization of the people's party and our leaders carrying it into parties and politics, and having attended the by in Beaufort, and being elected score ary of said convention, I am frank to - that I was disgusted with the e-averation, and do hereby withdraw from the peoples party and come back to the old democratic party soil and ody, and will work and yete for the suc ess of the entire tacket from constable up to Grever Cleveland.

Stevenson to Third Party, Men.

The following are the opening extends of Gen. Stevenson's speech at Asheville Fellow Citizens It would be in possible to overstate the importance of the pending political contest, especially to the people of the South. With them it is not merely a question as to who shall be elected President of the United States, or what shall be his policy of axation and expenditures the question s of deeper importance and noire farreaching in its consequences. Shall they have peace and protection to life and prosperity, which results from the stable povernment of States by their own per de, or shall they be menned by the repetition of the exils of the reconstruc-tion period. The present contest is be-tween the Republican and Democratic parties. Which shall it be? To you the practical question is, will you. have your
