**Children Cry for Pitcher's Castoria**

It is now said that cholera is not contagious. It cannot withstand clean sheets pure air and good water.

The course of those Southern farmers who have ridden into the Republican ranks on the backs of the Third party passes comprehension. The two things that the farmers of this section have most cause to deprecate are Force bills and high tariff, because the first will paralyze the South, keep out settlers, and make our lands absolute unseizable, while the latter taxes every farm implement and every article of comfortable woollen wear which the farmer has to buy for himself and family. By abandoning the Democratic party, therefore our farmers are voting directly against their own interests and for perpetuating the very grievances of which they now so bitterly complain. And yet some of them refuse to listen to reason and seem to have gone stark mad.

We constantly see notices of factories of various kinds being started and run successfully in North Carolina cities. We wish that we could do more in chronicling such items for New Berne. A large and well equipped furniture factory would be an immense benefit to the place. We notice that one is being worked up at Charlotte. The News of that place says of it: "A party of keen-sighted business men, seeing this opening for a lucrative business, are getting up a joint stock company for the manufacture of chairs. The machinery will cost \$5,000, and their plan is to have a capital stock of \$10,000. Mr. Elliott says that their factory, properly conducted, will pay 25 per cent. on the stock per annum."

## Drinking Water and Disease.

From the Wilmington Messenger we take the following pungent remarks on the supply of drinking water. The statements and arguments apply as forcibly to our city as to the one they were written for.

The Messenger has been for years pleading for good, pure, drinking water for Wilmington. No town does its duty to humanity until it provides for the welfare of its people. This means prominently pure drinking water, and pure air. There will be no pure air without a perfect sewerage system. True every

Hamburg has had 15,000 cholera cases. All reports agree that the main sources of the full disease was the wretched, foul water the people had to drink—poisoned water.

Where good, pure water cannot be obtained in any other way than artesian wells should be dug. Dr. Shakespeare, of Philadelphia, the highest American authority upon cholera, dwells upon the importance of pure water—holding all water before it is drunk. In the New York Medical Record, reporting the cholera in Europe and India, Dr. Shakespearo makes the very significant statement that the cholera epidemics in Madras avoid Pondicherry, although it lies directly in their course. The explanation is to be found in the purity of the water supply, which is derived from artesian wells.

As there is in that something for Wilmington people to think about. There is never cholera in Pondicherry because of the pure water there.

Note this from our excellent Savannah contemporary, the News: "If the cholera were to reach this city, of which there does not appear to be much probability at present, there would be an immediate protest against taking any of the water supply from the river. The supply of artesian water at the old wells is not sufficient for the city."

**A Correct Statement.**  
ED. JOURNAL.—In the proceedings of the county commissioners of Sept. 5th, 1892, and published in the JOURNAL, Sept. 13th, 1892, occur the following preamble and order:

Whereas, L. H. Cutler, president of the Farmers and Merchants Bank of New Berne, has under oath filed with the tax list of No. 9 township, Craven county, an abstract setting forth that the capital stock of said Farmers and Merchants Bank is worth but 75 cents in the dollar, and whereas the said L. H. Cutler has made complaint before this Board that the valuation of said capital stock appears upon the tax list at 100 cents in the dollar, and whereas the valuation of said stock was by reason of a misunderstanding upon the part of the list maker above referred to entered at 100 cents instead of 75 cents as listed by said Cutler. It is

Ordered, That the valuation of said capital stock be reduced from 100 to 75 cents on the dollar and so entered upon the tax list.

It is further ordered that a copy of this order be served upon the sheriff.

This action apparently by the board of commissioners I consider a direct reflection upon my own integrity and is well calculated to be hurtful to the Farmers and Merchants Bank and its interests, by producing the impression that its stock has depreciated in the market to seventy-five cents on the dollar, and its business, therefore in an unhealthy condition.

Nothing is, or can be farther from the truth and none of its stock can be bought upon the market as low as one hundred and five, notwithstanding the fact that it has been in existence less than eighteen months, and has recently paid a dividend of five per cent upon its entire capital stock.

The Revenue Law of 1891 provides substantially, that Bank stock when listed for taxation, shall not be assessed at its market value, but that the taxable value shall be ascertained by deducting from the market value the assessed valuation of all property, real and personal which the law requires to be separately listed. The charter of the Farmers and Merchants Bank permits the further exemption of "all non-taxable bonds," and had I not been warranted by these exemptions in listing its stock at seventy-five cents on the dollar equalization of taxes, at which the law aims, would have justified my course from a moral standpoint.

For illustration.—On the 17th day of May last, (the nearest date to June 1st.) according to the official statements published by the two Banks, if the Farmers and Merchants Bank had distributed its assets, each share would have received in round numbers about one hundred and three dollars. This would have included all real and personal property which the law requires the Bank to list specifically for taxation—the stockholders of this Bank therefore pay taxes upon over seventy per cent of the actual value of its stock when the stock is listed for taxation at seventy-five cents.

One share of stock in the National Bank of New Berne, of which Mr. J. A. Bryan the Chairman of the board of commissioners, is President, had its assets distributed on the same date, would have received in round numbers about two hundred dollars. This stock is listed for taxation at one hundred dollars per share—so that the stockholders of this Bank (of which I believe Mr. Bryan is the largest) pays taxes on only about fifty per cent of the actual value of the stock.

A fair understanding therefore of the premises discloses the truth, that the affairs of the Farmers and Merchants Bank are in as prosperous and healthy condition as those of any other—considering my course and lifts the cloak of official authority, under which the within preamble was written and published.

Very Respectfully,  
L. H. CUTLER.

## In Memoriam.

On the 13th day of September, A. D., 1892, an all-wise providence saw fit to remove from among our craft a faithful workman, one who was ever ready and willing to do his part, even to the last. Therefore St. John's Lodge, No. 3, A. F. & A. M., has cause to mourn the death of Bro. J. E. Arthur, who was born near Vanceboro, N. C., in the year A. D., 1857, and was 35 years of age. Therefore

Resolved, That we, the members of his lodge, bow with humble submission to the will of Him who doeth all well, and pray that as we can never meet again here, we may all prepare to meet around our Father's throne in the lodge above.

Resolved, That copies of these resolutions be sent to his family and friends, a copy to the JOURNAL for publication, and that these resolutions be spread on the record book of our lodge.

Respectfully submitted,  
T. A. GREEN,

Letter From Grover Cleveland.

WILL S. HAYS.

Dear Sir—I received a copy of the song you have written to be used as you say, for an "encourager" during the approaching campaign. I believe, with you, that the influence of songs and music of the right sort ought not to be overlooked as important adjuncts to a political campaign; and so far as I am able to judge, this latest production of yours must serve a good purpose in that direction. One thing I am certain, the composition of this song by you is a sure demonstration that the composer is actuated by the sort of spirit and enthusiasm which wins elections.

Very truly yours,  
GROVER CLEVELAND.

The following song is the only by our coming president recognized CAMPAIGN SONG.

**CLEVELAND IS THE MAN.**  
Come rally round the good old flag and give them loud hurrahs,  
Let every man do what he can, to help our noble cause;

For Cleveland and for Stevenson we'll battle every storm,  
And pass the cry along the line for Revenue Reform.

Shout! boys! shout! our cause is bound to win!  
We vote for Cleve and stick to Steve and see that they get in.

For honest Government we'll fight, for all that's true and fair,  
As Democrats let's put him back, to run it once again.

Shout! boys! shout! etc., etc., etc.

Let Democrats throughout the land, for gallant Cleveland show to us,  
From every throat and cast his vote, and man for man turn out,

Let's win our cause, the world's applause, and do all that we can,  
Work day and night with all our might for Cleveland is the man.

Shout! boys! shout! etc.

Reduced Price 25 cents, regular price in Washington, D. C., 40 cents.

I have 1,000 copies on hand and must sell them.
