“REPUBLICANS, the skies are bright. Vote solidly for your ticket this year. The Third party claims 50,000 votes; but if they get only 25,000 votes in the State it means Republican success in November.”—Judge Furches, at Morganton, Oct. 4th, 1892. White men, who have an inclination to waste a vote on the Third party mark well the above language.

THE issue of lastest legislation, of which the protective tariff is the most conspicuous example. It is the parent of intimidation and bribery, of plenaryism and pauperism. The force bill is the only means to an end, and the end is the establishment and maintenance of an aristocracy of wealth.

A SPECIMEN OF OLD STATE PAPER-writing has lately been discovered by Dr. V. Thom which indicates that the germ theory of disease was known to the ancient Mexicans. The inscription says that if you boil the yellow root of the kobobsh-plant and drink the infusion, it will kill all the evil-individuals who live in the body produces within itself.

Register.
A larger number of signatures in the city than usual.
It is the smallest city that ever existed in a locality where the population and labor has little experience.
The time for holding a grand meeting in Hancock street Methodist church has been changed from Wed. 10 p. to Thurs. 10 p. night. Everybody invited to come.
The statement that Hon. C. G. Clark was an attorney for the plaintiff in the case of the United States vs. Capt. A. F. Bunting for obstructing the United States mail, does not appear in the case at all.
Mr. W. B. Biddle has moved into one half of the large new double house that he and his partner, Mr. J. R. Clark have just finished building on East Front street in front of their mill. Mr. Clark occupies the other portion.
A great many of the colored people in this section are in a quandary about who to vote for. Of course a good many of them are ready to whom for any man they are told to by their white leaders, but a good many of the more intelligent have gotten tired of being led around and are going to act on their own judgment.
Wilmington has a committee hard at work getting subscription, outlining a programme, etc., for another grand welcome week on a large scale. A prize of \$50 has been offered for the handsomest decorated house in the city at that time. It is proposed to have fire works from a balloon while it is at an altitude of several thousand feet in the air.
The action against Mr. J. J. Royal of Morehead brought by the negro postmaster at that place was dismissed yesterday without its even going to the grand jury, the district attorney having stated that the court had no jurisdiction. The case, it will be remembered grew from a trouble in which the negro spoke insultingly to Mr. Royal, (for whom he had drayed before becoming postmaster) for requesting the accommodation of the money order after the regular hours. There is no Third party foolishness around Morehead. Having to contend with such indignities as this drives all thought of it far from the minds of the people.
Judge Gresham's declaration that he will vote for Cleveland has affected the Republican organs with an attack of profound silence. They do not even try to explain why that eminent jurist has deserted his party. Meanwhile the explanation given by Judge Lambert Tree, of Chicago, who is an intimate friend of Judge Gresham, may be accepted as authoritative. Judge Tree says that Gresham supports Mr. Cleveland because for a long time his convictions have led him to be a firm believer in the correctness of the principle of tariff reform, and because he is opposed to the doctrine of protection as now maintained by the Republican party.

THE world generally gives its admiration, not to the man who does what nobody else ever attempts to do but to the man who does best what multitudes do well.

THE farmer is learning that the prices of his products are fixed in foreign markets, where he suffers from a competition invited and built up by the protective system he is asked to support.—Grover Cleveland's Letter of Acceptance.

A. M. HOBBS, of Shepherd, Mich., some seasons ago planted West India coffee berries, and has used the same each year in his family instead of store coffee. This year he harvest seven bushels and is furnishing seed to his neighbors.

ELECTRIC welding has now become almost universal in large establishments. The use of a flux is unnecessary. Electricity is used for making forging, augers, railroad spikes, ball bearings, and other articles hitherto made by hand.

THE mints of the United States are at the following places: Boise City, Idaho; Carson City, Nev.; Charlotte, N. C.; Denver, Colo.; Helena, Mont.; New Orleans, New York, Philadelphia and San Francisco. Most of the coining is done in Philadelphia.

“If the Democrats would just hire that fellow to go through the country delivering that speech there wouldn't be a Third party man left,” was the comment of a farmer while listening to Mr. Moody, candidate for Lieut. Governor Tuesday night.

ONE sentence tells the tale. In 1878, thirteen years after the war, the pension appropriation amounted to \$57,000,000—now, twenty-seven years after the war, it approximates \$150,000,000. The Republican party wants to increase this, and the People's party even further than the Republicans in their plan. Democrats propose to stop the whole miserable business.—Wilson Advance.

THE Philadelphia Ledger is one of the few Republican papers of prominence which oppose the force bill. In commenting on Senator Bill's Brooklyn speech the Ledger says, “Senator Hill's denunciation of the force bill and of the controlling principles of it will be generally regarded favorably by public spirited Republicans as well as by Democrats.”

DO YOU OWE THE JOURNAL?
If You do This Notice is Written for Your Express Benefit.
Not long since we gave notice for all delinquents to settle up their subscription and statements were sent giving the amount due. Of course a good many needed only to be thus reminded and they remitted us, but some others have either neglected to give it their attention or treated the notice with contempt.
To wait on them through the dull season we thought would be a trust that should be appreciated, and we hope that the delay has been through negligence instead of the latter charge. If it is an attempt to dead-beat and avoid paying an honest debt, we hope these closing words may catch their eyes.
There are two kinds of thieves. One will steal from his fellow-man on a pretension to pay and the other will steal when nobody is watching, as the chicken thief who practices his devilry under the cover of night. Between the two the former is much the meaner and more degraded. He deserves the contempt and scorn of every man of honor who pays his just obligations and lives on his own resources. In other words to make the story short, this first gentleman is too cowardly to steal any other way.
We would not like to be misunderstood in this matter. There are honest men who can not pay their debts, but they are not those who act indifferent and careless and never show any disposition to satisfy their creditors. Neither are they those who will waste half their doing the collector.
Again, in the majority of cases this man who is quick to say that he would pay his debts if he were able, is falsifying, and he knows it. You can see him through his dishonesty away foolishly, often in luxuries, and never planning to make a payment on what he owes. He can smoke his cigar, dress fine, and play the gentleman socially, but some how is too poor to make an annuity to some one who has loaned to him. To get down to real work and live honorably and economically is beneath his dignity. The work house or penitentiary is sally in need of such characters and the sooner they get there the better for them as well as the country at large. Some of the dirty rascals will actually go for years without paying even five cents or showing any disposition whatever of desiring to meet their obligations, and yet intimate that they are not gentlemen and their eyes will almost flash fire.

THE whiskey and tobacco curse are laid upon you, but if the curse of dishonesty does not need looking after, we are at a great loss to know why not. If the country was thoroughly purged of these there would be a great enlarging of the jails and penitentiaries.
If there is anything detestable in the sight of our eyes, it is that of an able bodied man going about incurring debts without considering how they are to be paid.

Coming and Going.
Mrs. W. F. Yost and children, of Baltimore, Md., are in the city on a visit to Mrs. Yost's father, Dr. John S. Long.
Mr. W. B. Jordan, representative of the Wilmington Star is in the city in the interest of that paper.
Mrs. John Hughes, Miss Jennie Hughes and Mrs. M. K. Nash, returned on the steamer Neuse from a Northern pleasure trip.
Rev. C. G. and Mrs. Vardell returned home last night. Presbyterian prayer meeting tonight.
Rev. D. H. Petree and wife of German town arrived. Mr. Petree will take charge as pastor of the Church of Christ in this city. Mr. Petree is quite a young man and comes highly recommended. On behalf of our citizens we extend them a cordial welcome.
The family of Mr. J. H. Smith returned from Goldsboro last night, accompanied by Mrs. Smith's mother, Mrs. I. A. Whitaker, who on account of the death of her husband, comes to make her home at Mr. Smith's. Mr. Whitaker was well known to the people along the line of the A. & N. C. R. R. from his long service as mail agent on it.

Glories In his Shame.
Unless we are greatly mistaken, votes for the Democracy will be made by the communication headed “X Road office-holders, etc., vs. Hayseeders,” from Mr. Chas. Sutton, chairman of the Third party in Craven county, which we published for him in our last issue. Notice in it how Mr. Sutton exults at having secured the appointment of a negro for Justice of the Peace instead a white man. As for the language responsibly attributed to Mr. Jackson, we have yet to learn that he, himself has ever attempted any kind of denial or apology for it though it has been several weeks since he was charged with it.
Lastly, so far as we know, there has never before been any allusion in public print to the hoos burning charge against Mr. Sutton. His own reference to it being the first, it is a remarkable wording of his attempt to combat such a report which he says is afloat, that in it he does not make a square denial but contents himself with asserting that one man says he did not say it, was so, and consequently he considers that a certain other man is responsible for the report.

THE TASCARORA SPEAKING.
Mr. Jas. W. Biddle went up to Tascorora to meet Dr. Cy. Thompson in joint debate yesterday afternoon—it being the appointment of the latter. Dr. Thompson divided time perfectly fairly making no stipulation except that he should have the closing speech. Mr. Biddle spoke first for one hour, Mr. Thompson replied in a speech of the same length, then Mr. Biddle had a half hour, and the next half hour's speech by Mr. Thompson closed the debate. Their crowd numbered forty or fifty people.
Dr. Thompson is reported to have made a pretty good speech considering the cause he was espousing, but it is not thought that there was any gain by the Third Party from the debate, but Mr. Biddle's speech told. It is known that there were some accessions to the Democratic ranks from the Third Party.

What is the Difference?
District Attorney C. A. Cook in his speech at the Republican meeting Tuesday night instructed his hearers plainly that the Third parties and Republicans were friends. He said the Third party people had agreed to help the Republicans. He wishes Republicans to vote for the Third party whenever they have not got a straight-out ticket of their own. He predicted that the Third party would hold the balance of power in the next legislature, and he laid stress on their avowed intentions (identical with Republican plans) to repeal the present election law and the county Government system.
White men of Eastern Carolina, the past incompetency and misrule in your county Governments is of too recent occurrence for you to have forgotten and it was too vile for you to be willing to return to it. Do you not see your danger? If this Third party could win would it not be as bad for us as straight-out Republican success. Vote accordingly.

Dr. Thompson's Speech.
Dr. Cy. Thompson spoke at the court house last night according to appointment. He had quite a large audience, the majority being colored.
Dr. Thompson is a sharp, rapid and “cathechy” speaker, and yet there is very little “bottom” to the most of what he says. If you are in the audience when Thompson is speaking, you will listen to him. The colored people caught on to many of his statements and gave approving ejaculations.
Dr. Thompson put his strongest efforts on the currency question, making as much as possible out of the depressed condition through the country, attributing it to the small amount of money in circulation, which he claimed caused low prices of products and made it almost impossible to pay debts. The remedy he argued was to put more money in circulation and thus raise prices. It was a Third party speaking but Republican cheering.

SOCIAL EQUALITY AT THE SOUTH.
The National Republican, Organ of the Republican Party, Advocating This Measure.
NEW YORK, Oct. 24.—The following was issued to-day from Democratic National Committee headquarters:
NEW YORK, Oct. 24th. The Democratic committee has just successfully closed one of the most interesting controversies of the campaign. General Jos. Wheeler, Representative from Alabama, having quoted in speeches, delivered in Congress in 1860 and 1862, shocking utterances in the National Republican, published Thursday, July 31, 1890, the Republicans adopted the desperate expedient of denying the existence of such a paper at the date in question, and declaring Wheeler's speeches to include a forgery. The Congressional committee produces a facsimile of the National Republican containing the articles quoted by Gen. Wheeler, and also certificates of leading citizens of Washington, verifying the reproduction. The letter of Lawrence Gardner, secretary of the Congressional committee, is as follows:
Hon. Jos. Wheeler, Alabama.
DEAR MR. WHEELER—In reply to your esteemed favor in relation to the editorial of the National Republican, quoted in your speech delivered in Congress on September 25th, 1860 and July 16th, 1862, I would say that we have positive proof that your statements are correct. The National Republican was started here as a Republican paper November 26th, 1860, shortly after Lincoln's election and has always been looked upon as the organ of the Republican administration. The paper existed here as a daily up to the spring of 1890, when it became a weekly and has been published regularly until a few weeks ago. The proofs herewith enclosed, I think should be sufficient to prove your statements. Yours truly,
D. GARDNER, Secy.

United States Court.
Court convened Wednesday at the usual hour.
The case of the United States vs. Capt. A. F. Bunting, for obstructing the United States mail, continued from yesterday, was taken up and after being strongly argued by Messrs. L. J. Moore and O. H. Guion for the defence and District Attorney Cook for the prosecution, was given to the jury. The verdict was, not guilty.
Capt. Bunting was acquitted on the ground of the collision of the steamer with the drawbridge, having been an accident—not that the draw was improperly closed.
U. S. vs. Kinsy Whaley, illicit distilling, guilty; judgment not pronounced.
U. S. vs. W. J. Noble buying from illicit distillery; not guilty.
U. S. vs. A. B. Hawkins buying from illicit distillery; not guilty.
H. T. White buying from illicit distillery; guilty; sentence not pronounced.
F. W. White buying from illicit distillery; guilty; sentence not pronounced.

The Groom and Bride.
EDMONTON JOURNAL.—Mr. Geo. P. Dudley, son of Hon. E. R. Dudley, returned yesterday from Wilmington with his bride.
The reception tendered the bride and groom and their friends by Mrs. Bishop Petty last evening was indeed a grand affair.
It suffices to say that the bride is one of Wilmington's most brilliant stars.
