GARRETT'S Cognac Brandy used very much in the sick room. For sale by JAS. REDMOND.

It is settled that the bill goes to Congress. This settles Williams.

SHARP earthquake shocks were felt on the morning of Dec. 2nd, at Nashville, Chattanooga and other places in Tennessee.

An inmate of an American Convict has recently died after being there ninety-eight years without once going outside the convict walls. Her recorded age was 115 years.

SURGEON-GENERAL WYMAN in his annual report will favor the suspension of immigration during next year as a means of preventing the introduction of cholera into this country.

THE Duchess of Cleveland lately enjoyed the exceptional distinction for an English lady, of being entertained by the Sultan at a state dinner in Constantinople. The Cleverlands are getting everything these days.

MAX MULLER strikes a compromise between those who are contending for the abolition of the Post Laureateship and those who desire the post filled. His advice is don't abolish it, but just hang it up till another poet like Tennyson appears.

THERE is a bill before the Alabama Legislature providing for the appointment by the Governor of a Commissioner of Insurance, whose business it will be to examine into the soundness of life and fire insurance companies doing business in that State, the object being to protect the people from unsound or fraudulent concerns.

ENGLAND does not grow wheat to any extent, as her farmers find it more profitable to sell milk, butter, and other meats, as well as fruits and vegetables, the farmers paying high rents for the use of the farms. It will pay farmers in this country to do the same. Small areas that are highly fertilized, and well cultivated, are always profitable compared with large farms.

SUBSCRIBE for the New Berne JOURNAL. Never was there a better time to subscribe than now. Congress has met and the session will be of unusual interest. True the Democratic party will not be in full possession of the Government until after the 4th of March, but the forward movement will begin at once. Subscribe for the JOURNAL and keep up with the times.

THE Rural World observes: Thorough cultivation has another demonstration in its favor in the Kansas corn crop this year. Fields that will yield forty bushels per acre alongside of others that will yield nothing but noobsins tells the tale.

THERE is little for real Democrats to regret in the fact that the Republicans have captured the Kansas Legislature from the Democratic-Populist combine, by the turn of a card, as it were. The combination was wholly disreputable and deserves to have lost. The record made this year by Democrats in Republican States by fusion with a class of people who are infinitely worse enemies of good and stable government than the Republicans themselves, is one which will hereafter return to plague them.—Charlotte Observer.

LOCAL NEWS.

NEW ADVERTISEMENTS.

HOWARD.
C. E. Slover—Vermont maple syrup.
H. L. Banks—First-class barber shop.
Nunn & McSorley—Concord grapes and Florida oranges.

City council meets tonight.

Now is the best time to advertise for holiday specialties before the season gets fully at hand.

Don't forget the "Butterfly Tea" Thursday night over Mr. J. M. Howard's store. Admission 10 cts.

The Baptists have commenced re-fencing their church property. The front portion will be of ornamental iron.

The "Butterfly Tea" is to be given by the young ladies of the St. Cecilia Society promises to be an interesting entertainment. It will take place Thursday from 5 until 10 o'clock—for young and old.

The bond of Mr. W. M. Watson, as Clerk Superior Court, was accepted yesterday by the county commissioners. Also bonds of some township constables. Bonds of other county officers are under consideration.

The Goldsboro Argus says: "Our good friend Mr. Harvey Williams, of La Grange, has had the misfortune to lose his residence and household furniture by fire, the origin of which is unknown to him and bears the ear-marks of incendiarism."

The May Belle, the new river steamer that is to run in connection with the E. C. D. line, is getting pretty well underway. She will run regularly between New Berne and Grifton and intermediate points, and when the water admits will run to Hookerton and Snow Hill.

Rev. Edward Bull gave the first of the series of lectures announced in Sunday's JOURNAL at the Disciples' church that afternoon. He used a map of the world, gave quite a number of statistics relative to the various races of men in the world, and laid a good foundation for the lectures that are to follow.

We saw Messrs. J. T. Hall & Bro. working on a curious old pistol yesterday. One peculiarity was the hammer fastened to the inside of the lock instead of the outside. It was of such an old pattern that the gentlemen never saw one like it before. They think it is the style that was first used after the discovery of percussion caps. The pistol came from South Carolina.

A petition signed by eighty bona fide voters of the second ward to appoint Mr. Edward Gerock councilman from that ward in the place of Mr. Basil Manly, deceased, will be presented to the board tonight. This signature exceeds in number the votes usually cast in the ward at a municipal election, which practically assures the selection of Mr. Gerock.

Mr. W. H. Bray has just expressed a pair of his choice Berkshire pigs to New York city. The customer was Judge Henry E. Knox of that place. The continued sales of Mr. Bray in every part of the United States is a strikingly convincing proof of the fact that we can raise whatever we wish in the live stock line as fine as can be found anywhere. Besides Mr. Bray, as usual has several yards of high class poultry of leading varieties. Elegant specimens of them will be shown at the New Berne Fair.

A robbery and an attempt at arson was committed at Mr. L. R. Stanly's residence, Saturday or Sunday night. Mr. Stanly's wife has been visiting in the country several days, and Saturday night he went off. When he returned Monday morning he found a large portion of his household furniture gone—a leather bed, three trunks, some pictures from the wall, the matting from the floor, the cook stove, cooking utensils, etc., all were missing. In addition to this the floor and walls were liberally soaked in kerosene and fire had been applied in the front room of the house, but fortunately it went out, otherwise there might have been a serious conflagration, as houses are thick on either side. It is a great pity that the thieving and other villainy going on in this and other cities cannot be fastened to the guilty parties, and the mischief-doing broken up. There ought to be some special efforts made in this direction.

For perfect digestion use TUTT'S PILLS. Children Cry for Pitcher's Castoria.

Superior Court.

The following were the court proceedings yesterday:

James Toler, defaulting juror called and failed, ordered by the court that he be fined \$40.00.

The Board of Commissioners of Craven county vs. Jabe Jasper and Frank Jasper. Affidavit of defendants filed.

State vs. Abner Willis et al. Judgment suspended upon payment of cost each one-ninth.

State vs. J. B. Hooker, col. Fraud. Defendant J. B. Hooker, called and failed. Judgment; nisi ra facias instant.

State vs. J. B. Waters, cot for defendant.

State vs. J. B. Bryan, false pretense. Guilty. Judgment. Four years in the penitentiary. Several other cases are pending against Bryan.

State and Jos. Kinsey vs. Eliza Lovett. Nol pros.

State vs. Mary A. Davis. Malicious mischief. Motion to release the defendant of half the cost.

Commissioners of Craven county vs. Randolph. Issue: Was the defendant 21 years of age at the time of the sale alleged in the complaint. Answer: No.

Fire Company Officers Elected.

At a meeting of the Atlantic Steam Fire Engine Company, held last night, the following officers were elected for the ensuing year: Engineer, J. K. Willis; Foreman, W. D. Barrington; Assistant Foreman, C. J. McSorley; Capt. Hose, J. S. Hartfield; Treasurer, Jas. E. Carraway; Secretary, G. C. Jones; Representatives, J. E. Gaskill and H. W. Simpson; Practical Engineer, J. C. Green.

The officers of the New Berne Steam Fire Engine Company elected last night are: Engineer, E. W. Smallwood; Foreman, Jas. W. Moore; Assistant Foreman, M. H. Sultan; Practical Engineer, Jas. Manwell; Secretary, F. M. Chadwick; Treasurer, E. W. Smallwood; Representatives, J. M. Hargrett and F. B. Lant.

The Presbyterians are preparing for a Christmas tree for the Sunday school children.

Brant and wild duck are now offered in the New Berne market. However they are not very plentiful as yet.

Craven county furnished the State penitentiary with five laborers, yesterday morning, all colored men. One of the convicts was John Green, sentenced to 15 years for assault with intent to commit rape. The other four went up for larceny. Their terms were as follows: John Henry Allen, 18 months; John Evans, 18 months; Caesar Dudley, 1 year; Alfred Wiggins, 3 years.

An exchange says: "It is wonderful how much is judged of a town by the newspaper it sends out. It is a pretty fair way to judge one, in many ways. If the business men, of all classes, give their unstated patronage, people abroad say at once that the town people are appreciative, and those seeking a home will not be afraid to locate in such a town; as they will feel satisfied that its citizens will be appreciative in other directions."

The editor of the Morehead City News says: "We are collecting some elegant poems by native and naturalized Carolinians. Carteret county has its bard, Mrs. N. E. Davis has written splendid verses. The Oaksmith family, three miles west of here, has furnished some of the choicest bits of poetry we ever read. About a dozen volumes have been published by our poets. "Angel in the Cloud" by Fuller and "Whispering Pines" by Bonner are the best."

The charming entertainment by the New Berne Collegiate Institute pupils will, by repeated requests, be rendered again tomorrow night with some variations. These entertainments are worthy of the warmest encouragement by the friends of the school. They show the patrons the progress being made and are incentives to increased effort on the part of the pupils. If you have their interests at heart encourage them by your presence. You both do good and get good by it.

A telegram to Mr. C. E. Slover yesterday morning announced that Mrs. Simmons, wife of Capt. W. S. Simmons, of the revenue cutter Winona, died at her home in Moore's, Pa., Sunday night. Mrs. Simmons spent last winter in New Berne and also spent some time in the city when Mr. Simmons was stationed there twenty years ago. She has numerous friends among our people who will regret her death. Capt. Simmons himself is not well. He was at home at the time of Mrs. Simmons' death on a sick leave of absence.

The road question now being agitated throughout the country is a subject of both local and national importance. That a movement for the betterment of the public highways ought to meet with universal support goes without argument. People generally are getting more aroused on the subject than ever before. They are beginning to realize how they are the losers by making out with the average bad condition of the country roads. Their improvement is a desired end that should meet with the hearty approval of all good citizens.

For perfect digestion use TUTT'S PILLS. Children Cry for Pitcher's Castoria.

Coming and Going.

Judge H. R. Bryan left yesterday morning for Atlanta on business.

Mr. L. J. Taylor left on the steamer Neuse after his wife, who has been in Baltimore a short time.

Mr. W. B. Blades left on the Neuse on a business trip to Elizabeth City.

Mrs. T. A. Henry arrived last night from a visit to relatives in Brooklyn.

Y. M. C. A. Notes.

The membership committee of the Young Men's Christian Association will hold their first meeting at the hall this evening at 7.30 o'clock.

The first meeting of the newly elected board of directors will meet Wednesday evening at 8.15 o'clock.

It is expected that in a very short time a new gas heater will be placed in the bath room.

The croquet table, which afforded so much pleasure to the members in the past, will probably be ready for use in a short time.

The bath room and croquet table will be for the exclusive use of members.

Thirteen young men were present last night at the Bible class. This class meets every Monday night from 7.30 to 8.30 o'clock.

Posting for the Fair.

The day after Christmas Rev. Edw. Bull will commence his journey to advertise the Fair. He will travel over the entire line of railroads in the State, visiting and getting posters up in every place of importance.

On last year's trip Mr. Bull put in 26 days of actual work. He travelled in the time over 8,000 miles. He visited also a few places in South Carolina and Virginia. This year he will work the State just as thoroughly and penetrate other states a little more than ever before. The work is expected to take a little longer this time than previously. One-third more circulars have been provided for the purpose and they are of finer quality than ever before. The largest ones are the finest and costliest that have been made.

As grand as the Fair has been in the past, there is every indication that it will be still better next year, and that it will be more largely attended. All through the country the people are talking and planning for the coming event.

Is Such a Man Honest?

This is what one of our Exchanges asks, and it goes on to tell why the question was put. It is pretty plain talk and cannot fail to be understood by even the illiterate. The argument sustains what we have previously said, that a man is not honest who takes a paper so long and has it discontinued without showing some disposition toward the settlement of the same. We copy:

A few days ago we received notice from a post-master, not many miles from Webster, stating that M-'s paper was not taken from the post office with the request that we discontinue the same. There is one important feature in this connection, that M—has not observed and that is to clear him self from our books. The Herald has been sent to his address since the spring of 1886, and the books are written that he has not paid the value of a bunged tin copper on the same. Now, M—is in very comfortable circumstances, and is looked upon as one of the solid men of the county.

He should remember that he has no right to order his paper discontinued until he has paid up all arrearages for the same, then he can tell us to discontinue it with a clear conscience. Here we would raise the question, can a man be a good citizen who will do as M—has done? Is he an honorable man and honest? He undoubtedly considers himself free from blame, (as he is a member in good standing, we understand,—of one of our orthodox churches,) and would resent a contrary imputation.

We do not question his right to stop his subscription whenever he sees fit, but we do question the manner of his doing it, and would request him as a man and a citizen to do it in an honorable way; to pay his arrearages and have a receipt to show that he has done so.

The Institute Musicales.

The programme at the Institute musical entertainment on Friday evening was one of merit and exhibited the efficient and careful training given by the popular teacher of the music department.

If any latent talent exists Prof. Morton evidently possesses the tact and subtlety of observation to develop and improve it. There was a fine spirit of interest in music education manifest.

Several of the selections rendered earned hearty encores. Among those who took part in the programme we mention:

Misses Rosa Dail, Pearl Powell, Lulie Iyva, Addie Cutler, Bessie Tucker, Virginia Dickinson, Katie Matthews and Messrs. B. S. Guion, S. L. Dill, Jr., Prof. F. E. Morton.

Mr. Shepard Bryan in his forcible and brilliant way gave expression to some explanatory thoughts relative to the life and character of Chapin and especially his ideals in musical composition.

TEACHERS' WORLD'S FAIR TRIP

Remarkably Low Cost—Magnitude of Preparations for the Exposition.

From the North Carolina Teacher we take the following:

It was the privilege and pleasure of the editor, as a member of Governor Holt's military staff, to spend a week in Chicago during the Dedication Ceremonies of the World's Fair, and the celebration of the quarto-centennial of the Discovery of America by Columbus. No person can conceive of the magnitude of the coming Exposition who has not stood on the grounds, and gazed with wonder and admiration upon that vast collection of immense buildings, lovely lakes, towering statues, playing fountains, and glittering domes, which are to be a part of that great exposition.

We visited the imposing Hotel Harvey, which is to be the home of our teachers' party during the visit to the Exposition next year, and we were extremely satisfied with all the arrangements for our convenience and comfort. It is our intention to take a party of five hundred persons to Chicago on August 14th, 1893, so that we may be present on "North Carolina Day," August 18th. The trip will occupy twelve days, which will give a full week in Chicago, and the total actual necessary expense will not be over \$35. This amount will pay for railroad fare, board and lodging in Chicago, and four admissions to the Exposition, but it does not include meals along the route, nor the luxuries of sleeping-car berths.

It is expected that those who desire to see the greatest Exposition of this century for the least expense, will provide sufficient lunch for the railroad trip each way. The \$35 will pay the same expenses for which the various "Exposition agencies" charge from \$65 to \$75. We have no financial interest whatever in the trip, only desiring that we may help our North Carolina teachers to visit the World's Fair in comfort for the least possible expense. Our first select party of five hundred is nearly made up in full and the second party will leave about August 26th.

The Teachers' parties are not in any sense excursions, for only a limited number of persons are admitted, and a person must be well known, properly vouched for, and well recommended, and preference is always given to actual teachers. Our parties will be, as usual, well chaperoned, and no young ladies need hesitate for even a moment to join any party under the auspices of the North Carolina Teacher.

Western N. C. Conference.

Winston, Dec. 3.—Most of Sunday's session of the Conference of the M. E. Church South was with educational business. President Crowl read the report of Trinity College, setting forth the plans for more efficient organization, and recommending therefor changes in the State charter of the college. The report was adopted, including its recommendation that the proposition of B. M. Duke, of Durham, be accepted.

Mr. Duke proposed to insure the lives of fifty men between the ages of 40 and 50, for ten thousand dollars each, for the benefit of the Trinity endowment fund, on condition that the two State conferences guarantee the running expenses of the college until this plan of endowment be realized upon sufficiently by deaths among the members of further obligation.

Costs Six Times More Than the State Government.

If the burden of extravagant protection or of extravagant pensions could be so laid as to be defrayed by a direct tax, there would instantly be such an outcry against the drain upon the pockets of the tax-payers as to bring about needed readjustment. No one stops to think that it costs Pennsylvania nearly six times as much to pay her share of the protective duties and pensions as it costs to carry on the State Government.—Phil. Record.

SHOT THROUGH THE HEART.

And Yet He Lived—A Remarkable Fact Revealed by a Post Mortem Examination.

A post mortem examination held yesterday over Wm. Tillman, colored, who was shot and mortally wounded last Friday night by Ben Huskins, revealed the remarkable fact that the bullet (a 32 caliber) had passed through the negro's heart, notwithstanding which he lived from Friday night until Tuesday afternoon. The bullet, Dr. Wilder says, passed through the right ventricle of the heart. From the point of entrance to the exit was two inches. The bullet did not pass directly through the centre of the ventricle, but rather in an oblique direction. The track of the ball from the entrance of the ventricle to its exit was three-quarters of an inch. The post mortem was held by Dr. H. M. Wilder, assisted by Drs. Faison and Montgomery. The astonishing fact revealed by it was an interesting theme of discussion yesterday amongst the medical fraternity. Such an occurrence has never been known in medical science but rarely—never before in this country. The negro was up and walking about the morning after he was shot.—Charlotte Observer.

A FEW DON'TS.

"Don't let your heels get 'slanty' if you wish to keep your trousers in good shape."

"Don't stop your vest in tight if you want it to be smooth-looking in front."

"Don't be eccentric in the matter of dress."

"Don't pin the end of your scarf to your shirt bosom, use a regular retainer, it is cheap and convenient."

"Don't wear load buttons, and above all Don't forget to try Howard for Clothing, Hats and Shoes. J. M. HOWARD.
