THE policy of compromise and conciliation with which the Catholic Church composes the quarrels of its membership is in strong contrast with the spirit, lately manifested by the Protestant brethren upon somewhat similar occasion. It is distressing to see Christians of any sect wasting their energies in mutual recrimination.

The suit of Mrs. L. A. Crabtree, of Goldsboro, against the O. D. S. S. company took the attention of the United States Court in Raleigh on Tuesday until Saturday morning. The suit was for \$18,000 on account of injuries received by falling on the stairway of a steamer. The jury awarded her \$1,350. The accident occurred February 5th 1889.

Young men of the New Berne Collegiate Institute had a debate Friday on the question "Young Men of North Carolina Should go West." The affirmative side was taken by Hugh Barrington, John Russell, Tom Nunn and Sam Dill, the negative by H. N. Roper, Perrebe, and Chas. Bagby. It was decided in favor of the negative. Seven young ladies of the school were the judges.

The Raleigh Correspondent of the Norfolk Virginian says: "The ladies who have in charge the collection of the Virginia Dare memorial fund find that those who contributed to it for the purpose of erecting a State building at Chicago will let their contributions stand for the new purpose, namely the erection of a memorial building in this State, which is to be a training school for women. Your correspondent is informed to-day that \$5,000 are in hand and the plan to locate the memorial institution at the place in the State which makes the largest contributions. This has for several years been the plan in regard to the public buildings."

Superior Court.
Upon the assembling of court yesterday morning, Hon. L. J. Moore addressed the court in behalf of the defendant, in the divorce case of Wiley vs. Wiley, and Mr. W. Clark replied for the plaintiff. Out of the 11 issues submitted, the jury found all but one in favor of the plaintiff. The relief asked for was granted, the plaintiff being freed from her husband having control over her, and she having no claim upon him.

This was the last jury case tried, but a large number of motions, judgments continuances etc. were attended to.

A KINSTON BOY IN LUCK.

His Gun Invention Pays Him \$225,000.

Mr. Ben T. Webb, of Birmingham, Ala., son of Rev. J. B. Webb, of this place, has invented a gun to throw dynamite bombs with powder. The gun will throw the bombs six miles. A stock company has been organized with \$500,000 capitalization, and Mr. Webb has been given \$225,000 of stock in it for the sole right to manufacture the gun. We are pleased to hear of the great good fortune of a native of this place. It is a great invention. We have several men in Kinston with inventive genius. They have accomplished much already and we hope they will be stimulated to yet larger efforts and, in consequence thereof, reap a larger success than has yet been attained by them.—Kinston Free Press.

OVER TEN THOUSAND TROUT.

An Astonishingly Large Catch of Fish at One Haul.

Capt. Ben. Barker, of South Creek, was up to the City yesterday with between 10,000 and 12,000 speckled or salmon trout. They were all caught in Neuse river below the city at one single haul. This is the largest number taken at one haul of which there is any record around here. They averaged well in size also. While many of them weighed but three or four pounds, which is a good sized fish, we are informed that others would weigh nearly twice pounds.

Capt. Barker sold 6,100—about half the catch—to fish dealers of this city and shipped the remainder himself. Those he disposed of here sold for four and five cents apiece and brought him just \$269.

Messrs. Watson & Daniels, Carnine & Wadsworth, B. B. Lane and Fernie Gaskill were the purchasers.

At the same rate this would run the value of the entire lot to over \$500, but of course the probability is that having shipped them the returns will be well beyond those figures.

Capt. Barker had two boats and three crews with him, but they would not hold the fish. It took four sail boats to bring them to the city.

As we said this is the best catch at one haul known in the New Berne waters, and it is "good enough." Show us any other regular business requiring such a small amount of capital if you can at which a man can pick up \$500 or get several thousand pounds of meat with only a little effort and almost without cost.

In Memoriam.

Inasmuch as an alwise and merciful Creator, has called from amongst us, our cherished companion and associate, and desiring to place on record, and give public expression, to our grief at his loss, as well as the esteem in which we held him, the Atlantic Steam Fire Engine Company No. 1, through its committee appointed for the purpose, declare, that in the death of Basil Manly, the company has lost a loved associate, and the Fire Department, a zealous and active member.

In all the relations of life, and in every position placed, Mr. Manly was conspicuous for his devotion to duty and his earnest and intelligent performance.

In his personal relations he was affable, pleasing and generous, and his social bearing was temperate and his quiet dignity peculiar to himself.

He possessed in marked and pleasing union, the courtly bearing of the cultivated man of leisure, as well as the earnest activity, of the man of affairs, that peculiarly qualified him for the highest social duties or the control and direction of the most important industrial interests.

A son of an illustrious family, he typified and represented its best qualities.

Called in his early prime, to lay down and relinquish the most lovable of all his duties,—protector of wife and family,—in a delightful home, brightened with love's light, his death assumes an especially sorrowful phase, and involuntarily prompts the most sincere expressions and feelings of regret.

We tender to his sorrowing family and relatives, our sincerest condolences and trust they may be consoled in the belief that he has gone to reap the reward promised unto those that die in the faith.

Let the foregoing be spread upon the minutes, a copy sent to the family and the DAILY JOURNAL requested to publish.

CONFEDERATE PENSIONERS.

The Four Classes and What Each Will Get.

Dr. Sanderlin, Auditor of the State, and his assistants, have been busy for some time on the pension warrants. The total amount to be paid this year is \$97,000, an increase of \$10,000 last year.

Those of the first class, such as have received a wound which rendered them totally incompetent to perform manual labor in the ordinary avocations of life will receive \$8. Of this class there are 51.

Those of the second class, such as have lost a leg or arm, or have an arm above the elbow of which there are 236 on the roll will receive \$7 each.

Those of the third class, such as have lost a foot or leg below the knee, or hand or arm below the elbow, or have a leg or arm rendered utterly useless, or have a wound, permanent injury, of which class there are 566 on the roll, will receive \$4 each.

Those of the fourth class, such as have lost one eye, and to all who are remaining unmarried, and all other soldiers who are otherwise disabled by permanent manual labor or injury of wounds received while in the Confederate service, of which there are 1,239, will receive \$17 each.—Star Chronicle.

Rev. Thos. Dixon, Jr., of the Twenty-third Street church, still holds the "gun bay" services in Association Hall.

During the last month nearly as many have been turned away from the hall as in the month before. The hall is full of seats in it. Baptisms are frequent and the evening after-meetings are very interesting, conversations occurring at every meeting. This church is greatly in need of a larger house of worship in order to accommodate the numbers that desire to hear Pastor Dixon.—New York Examiner.
