"There is not a shadow of doubt on my mind that the South will be more prosperous under the coming administration than it ever was before.

eyes behold what has been wrought out on this continent by patient endeavor and lofty statesmanship during the first century of the life of our republic, and now, while entering upon the second century of its history, to our hands is committed the sacred trust of preserving and perpetuating the precious heritage of free government—of liberty regulated by law—bequeathed as by our forefathers.

"How shall we meet these solemn obligations? We must not forget that along the pathway which stretches out before us are problems as difficult of solution as many whose determination tested the patriotism and wisdom of our fathers. We turn our eyes hopefully to the future. Who can doubt that, nerved by the memory of heroic deeds, inspired by the sublime lessons of the past, the Americans of this generation will faithfully guard and transmit all that has been committed to their keeping?
