**BOARDERS** Wanted.—Mrs. W. B. Smith will take a few boarders or let rooms after Nov. 30. Apply at residence, Oaksmith building, East Front street.

**WINE, Sacramental, Port and Scuppernon** Wines for sale by JAS. REDMOND.

**CALVIN Schaffer's Wild Cherry Rock and Rye,** put up expressly for throat and lung diseases, for sale by JAS. REDMOND.

**DUFFY'S Malt Whiskey** for medicinal use, for sale by JAS. REDMOND.

**HUNYADI Janos Mineral Water,** the best Natural aperient. For sale by JAS. REDMOND.

**PURE Corn Whiskey** for sale by JAS. REDMOND.

**DUFFY Gordon Imported Sherry,** for sale by JAS. REDMOND.

**IMPORTED Holland Gin, Burke's Bass' Ale and Burke's Guinness' Stout,** for sale by JAS. REDMOND.

**75,000 CIGARS** at very low figures for wholesale and retail trade for sale by JAS. REDMOND.

**ARRETT'S Cognac Brandy** used very much in the sick room. For sale by JAS. REDMOND.

**In the attempt to get a jury to try Wyoming "rustlers,"** 49 candidates were rejected as biased and none accepted.

**THREE Minnesota flour mills and one North Dakota mill** for sale by the North Dakota Milling Association, with \$600,000 capital.

**The entire session of the House of Representatives Saturday** was taken up with the discussion of the District of Columbia Appropriation bill.

**The son of Sarah Bernhardt** challenges a Paris editor on account of a scandalous article about his mother in the latter's paper.

**The prospects of a Democratic Senator** being elected by the Wyoming Legislature are very good. The Democrats hold the key to the situation.

**A REPORT comes from Chicago** that Robert Todd Lincoln, United States minister to London, will resign as soon as Mr. Cleveland assumes office and will resume the practice of law.

**The story about the B. & O. N. C. riots** was gotten up by a young man named Hyams, son of the clerk of Mitchell county Superior court, and who is supposed to have gotten up the matter as a news speculation.

**The Panama scandal** continues to grow in magnitude and in interest to the French. M. Charles de Lesseps, in his examination, is said to have made a full statement of all he knew. It is also said that Marcus Fontana has made a full statement.

**In some indignant pose** of North Carolinians should seize upon the inventor of that Bakerville riot and send him to the nearest convenient town pump where he would not be lacking an approving chorus from the country over of "heaved him right."

**The New York World is vigorously** advocating an extra session of Congress, and it is doing right. A leading politician in North Carolina said a few days ago: "I don't see how it could be any extra session until I read the World."

hasn't made a political blunder in four years, and it did more to elect Mr. Cleveland than any other paper. I am in favor of doing what the World says do." We never heard a higher praise of a newspaper. No praise could be too high of the World's magnificent work last year.—Carolina.

## LOCAL NEWS.

### NEW ADVERTISEMENTS.

**Howard.**

**W. T. Hill & Co.—Columbia Bicycles.**

The highest temperature yesterday was 35, the lowest 29.

Raleigh has four inches of ice and is enjoying fine skating.

There was a cargo of extraordinary fine oysters in market Tuesday—large and of splendid flavor. They were from near Morehead.

The Board of officers of the Fire Department will meet tonight at the Atlantic Engine room to elect officers for the ensuing year.

Sunday, Mr. Blaine was thought to be dying—the end was looked for momentarily, but he rallied remarkably and his demise seems to be indefinitely postponed.

The trial of the Homestead poisoning cases are to commence today. Surprises are looked for all through the case, as every one connected with it seems to be working it for a mystery.

Some of the State papers are now publishing the list of lands advertised by the sheriff, for taxes due. The one for Craven county will soon appear. If you do not want to be in it, see sheriff Lane and get square immediately.

In the street improvement work a layer of broken rock is first put down and the shell rock is then spread over that.

The two makes a thickness of more than 6 inches and is a very near approach indeed to a macadamized road.

Eight negroes are to be hanged at Chertown, Maryland, Friday for the murder of Dr. J. H. Hill. The gallows will be 30 feet long and eight feet high with four traps, on each of which will stand two persons. The traps will be operated by a lever and drop simultaneously.

The election of National Bank directors Tuesday for the ensuing year resulted in the following excellent selection: Jas. A. Bryan, Chas. S. Bryan, John Dunn, Thos. Daniels, J. H. Hackburn, L. Harvey and G. H. Roberts. All of these except Mr. Dunn were directors last year.

Capt. D. S. Lancaster writes us from Vanceboro in regard to the weather there of which he says is very cold. Swift Creek is froze over hard and boats are unable to run on account of the ice. The steamer Carolina has been froze up for 8 or 10 days but it is hoped she will get out and be able to run by the last of the week.

James Monjohn col., who has struck by John Thomas; col., with a billiard cue last week died yesterday. After Monjohn died a warrant was issued by Esq. Brinson for the arrest of Thomas, but he was not found although he was in town shortly before the warrant was issued. The coroner's inquest will be held this morning.

Monday Governor Holt commuted the death sentence of William McKloney, of Robeson county to imprisonment for life in the penitentiary. He was convicted of murder. The reasons assigned for the commutation are that there was no malice in the case. The Judge says it was technical murder and the prisoner ought not to be hanged.

Here is a paragraph from the Atlanta Constitution: "The best gold fields in America today are in North Carolina, said Dr. Tierman, an old miner, at the Kimball last night. That is a fact, replied Mr. Martin, a gold miner of Hall county. Mr. Martin is engaged in placer mining on quite a large scale and is increasing his facilities all the time."

We noticed a splendid lot of dogwood logs leaving on the steamer Deiance of the N. N. & W. Line for Northern markets. Much of this lumber is made up into hubs; some is applied to other purposes and we are informed that some of it goes to Europe. The shipment of this lumber in its crude state has been going on for years. How much better it would be if we had wood-working factories here that would change the wood into the manufactured articles before leaving. How many men would be furnished employment by it and how much more money the same amount of material would bring behind!

Fayetteville, N. C. had a very heavy assignment Monday. It was that of Mr. F. W. Thornton, a great dry goods merchant. The liabilities are estimated at \$225,000 with assets about the same. The preferences and mortgages amounted to \$70,000. The primary cause of the failure was heavy losses that Mr. Thornton sustained two years ago, though the failure of the Peoples National Bank of that city two years ago. It is said of him that he was undoubtedly the leading dry goods merchant of North Carolina, and up to the failure of the Peoples Bank was looked upon as the most successful. His northern creditors express their sympathy with him and he is expected to come to his feet again.

## WAYSIDE NOTES.

**FROM REV. EDWARD BULL ON HIS FAIR TRIP.**

**Wilmington, Hamlet and Southern Pines—The Origin of the New Berne Fair.**

We were at Raleigh in the last Saturday of the old year, and found the storm, which at New Berne had given us only two or three inches of very poor snow, had done much better there, both as to quantity and quality, distributing well nigh a foot of snow of a kind that would pack and make a good sleigh path. Those who had a taste for sleigh riding were enjoying it at prices ranging from two dollars and a half to five dollars an hour.

At the Capitol preparations were making for the session of the Legislature, soon to commence. Some of the members had already come in, looking after the chances which are said to attend the "early bird."

We paid our respects to our good Governor Holt, for whom we have always had a very high regard. Time touches him gently, and as he steps down and out, he may, like Mr. Cleveland, confront a condition if not a theory, and "come again."

**THE COAST LINE** gives excellent service—good road, good cars, good time, and also good satisfaction.

**WILMINGTON** easily maintains its place, as the metropolis of the State. It claimed twenty-five thousand population before 1890, but the census takers only found a few more than twenty thousand. It still claims to be correct. Its deep water communication by the Cape Fear river gives it great natural advantages, and the climate is delightful. Many large square rigged vessels may usually be seen at her wharves, and four cotton compresses, can prepare millions of pounds of cotton for cargoes in a brief time. It is also a principal market for naval stores. There are many fine buildings. The U. S. government building is a solid and elegant structure which cost a hundred and fifty thousand dollars. The postoffice facilities are ample and excellent, both for the offices and the public. The schools offer good advantages for education.

Wilmington like several other large towns in the State has a good school for the colored people. It is called the Gregory Institute, and is one of the schools under the care of the American Missionary Association of New York. It was established in 1865, has a corps of ten northern teachers, and more than three hundred pupils. A Congregational church was organized in 1870, and has a capable and worthy pastor and an orderly and exemplary membership. The Association has expended \$125,000 about one fifth of which has been paid in as tuition.

**HAMLET.** We went to Hamlet, and were reminded of a remark by one of our humorists, that "mackerel is not a fish but merely a suggestion of a fish." Hamlet is only the suggestion of a hamlet, or speaking in a Shakespearean way, the ghost of Hamlet. "They said" there a hundred people there but that statement, is so received with a degree of caution,—like the little Sunday school girl whose teacher asked her, "Who was Moses?" she answered, "The son of Pharaoh's daughter." "Oh, no," said her teacher, Pharaoh's daughter found him in the ark of bulrushes. "I know she said so" was the cautious reply. But they have some excellent vineyards and raise fine grapes about Hamlet, and as it is a railroad crossing, where there are good lines of travel, passengers telegraph ahead for meals, and often twenty or thirty get off and refresh the inner man.

**SOUTHERN PINES.** Everybody has heard of Southern Pines. It is a newly projected town, sixty-eight miles, a little west of south from Raleigh, on the Raleigh and Augusta road. It is a high and dry location, of equable temperature, and has acquired reputation as a health resort. It is regularly laid out and looks well on paper, and shows up finely in passing on the train. There is not an extensive and solid body of pine trees as one might expect from the name, in fact they are "conspicuous by their absence." The streets are broad and called—some of them—after the names of Northern States. There are four hotels, good ones, and a few good residences, post-offices, stores and churches. The census taker returned a population of eighteen hundred.

We met a former resident of New Berne, Mr. Geo. Allen, who had left Salem, Va., to cast in his lot with the people of Southern Pines. He is connected with parties who have under consideration the erection of a "big hotel"—say \$75,000. The site is already selected and is a beautiful location, commanding a beautiful prospect. The hotel is coming—a week or two will decide as to its immediate erection. When built it will be an attractive place for those who are seeking health or pleasure, or a retreat from the rigors of a northern climate.

**THE NEW BERNE FAIR.** It may not be amiss to make mention here of Mr. Allen in his connection with the New Berne Winter Fair as its first president. Mr. Nunn, then the Editor of the JOURNAL, desired very much the inauguration of a Fair. After considerable talk and think, a preliminary meeting was appointed. There were present, Mr. Allen, Mr. Nunn and four others. Mr. Nunn had the matter much at heart, and was greatly depressed. Mr. Allen didn't see anything to be discouraged about. He called the meeting to order, was elected president, and about a dozen committees were appointed—good men and true. The "proceedings" were published in the next morning's JOURNAL, and the committee requested to organize at once, and go to work. The result was the first fair, held on the Academy green, every way a success, as good a fair, in many respects as any which has yet appeared—with all its growth and expansion.

**Proposals Wanted.** Proposals to furnish water to the city of New Berne, will be received up to and including January 31st 1893.

**W. D. WALLACE,** City Clerk.

**Notice.** The member of St. Johns Lodge No. 8, A. F. and A. M. will be reminded that tonight is regular communication and that a full attendance would be greatly appreciated. Work in the E. A. degree expected. J. S. BARNETT, Sec'y, January 11th 1893.

We learn from the Morehead City News that a movement is on foot to soon establish a reading room and library there. About \$150 have been subscribed for this purpose. It is expected to hire a keeper, rent a room, and have it open six or eight hours a day.

## CRAYEN COUNTY ROADS.

And Needed Legislation Discussed by a Thoughtful Farmer.

ED. JOURNAL.—The Editor of the Experiment has been kind enough to inquire in regard to our road work. Now I think all who have seen the road, within the last month will agree with me that our present make is a notable failure. The first section of road west of New Berne shows that the law is not enforced or is a dead failure, either of which leaves bad roads. This section is a fair sample of all the others.

A pushing farmer has no time to give to the other matters off his farm. The hands do not want to work and there are very few overseers that can get good work done.

I think the present Legislature should devise some means to put convicts on public roads instead of having them on railroads and farms in competition with honest men—levy enough tax, mostly on the poll, to guard the convicts, and keep up the roads after the convicts have put them in order.

Let the new system take place early, for the farmers are much inconvenienced now by bad roads. Perhaps a wheel and poll tax would be best.

Let all interested put to their shoulders and roll the question through.

It is death to team and destruction of vehicles as the roads now are—and causes the farmers to pay tribute to railroads, steamboats and such companies.

JOHN HEMPHRY.

## ORDER OF UNITY,

The Leading Fraternal Beneficial Accident, Sick and Disability, Seven Year Endowment Order.

PAYS TO ITS MEMBERS:

\$20 per week in case of sickness or accident.

\$400 in case of total disability or death.

\$1,000 at the expiration of seven years.

Read the following Testimonial of one of its members:

New Berne, N. C., Nov. 4th, 1892.

Mr. HENRY J. GREEN, Order of Unity, Dear Sir and Bro.—I take this opportunity to acknowledge with thanks the receipt of Forty Dollars (\$40) in full and satisfactory settlement of my claim against your order for two weeks' sick benefit. I wish to express my high appreciation of the courteous manner in which I have been treated by you and the Supreme Officers in this matter, and I assure you that I shall not hesitate to say a good word for the Order whenever an opportunity presents itself.

Wishing you every success, I am, Yours in Fraternal Bonds, J. G. BUSTON.

Ladies and Gentlemen can join this Order on equal terms.

Organizers Wanted Everywhere, To whom Liberal Terms are offered.

SEND FOR LITERATURE.

HENRY J. GREEN,

Dep. Supreme Organizer for N. C., New Bern, N. C.
