75,000 CIGARS at very low figures for wholesale and retail trade for sale by JAS. REDMOND.

ARRETT'S Cognac Brandy used very much in the sick room. For sale by JAS. REDMOND.

DISTRESS from the cold weather is reported from every quarter of the globe.

EVERY State in Mexico will be represented at the World's Fair, and every State in this country ought to be.

GOVERNOR-ELECT Turney of Tennessee, not being well enough to go to Nashville, was inaugurated at his home in Winchester last Monday.

THERE is waiting among the speculators in whiskey at Peoria, Ky. The slump of Saturday cost the city over \$1,000,000.

THE meaning of Mr. Powderly's hostility to Cleveland in the recent campaign is now explained by his confession that he is a socialist.

MESSRS CLARKSON and Carter are trying to raise funds to pay the debt incurred by the National Republican Committee during the last campaign.

WHILE we here have had a touch of cold weather up North, out East, and even over in England, they have winter after the arctic style. All England is in the embrace of sleet and ice, and the mercury is out of sight up North.

BOYS one having asked Mr. Gladstone the secret of his remarkable activity, he replied with a story: "There was once a road leading out of London on which more horses died than any other, and inquiry revealed the fact that it was perfectly level. Consequently the animals in travelling over it used only one set of muscles."

THOSE Congressmen who do nothing for their \$5,000 per annum but insist that their constituents must have more money could meet some of the demand by dividing their salaries with some of the needy about them. This method of dispensing unearned cash might be the best, and would save the country a vast amount of money.

A LINE of Steamships has been established between Port Royal, Ga., and London and Antwerp. The Port Royal company has received a letter from Ernest Beaman, at London, stating that he has given orders for two steamers to be delivered to the corporation early in July and August, and that the first will sail from Port Royal in September for London and Antwerp.

COMMENTING on a remark by the Richmond Times that "the Republican party has been buried so deep that it will never be able to do any more mischief," the Ohioan Inter-Ocean, Rep., replies that "the Times and papers like it will never forgive the Republican party for shooting with loaded guns and making things hot down in that country." Pahaw. If the shooting had been left to the Republicans to do, the war wouldn't have lasted twelve months, and Richmond might now be the Capital of the triumphant Confederacy. After the war got well started the main business of Republicans was getting others to do the fighting for them.—Wil. Star.

LOCAL NEWS.

NEW ADVERTISEMENTS.

Howard.

C. E. Slover—Buckwheat, etc.

J. A. Jones—Horses and mules

Nunn & McSorley—Great big apples.

One benevolent society alone distributed nine cords of wood Wednesday.

Of the eight car loads of wood that came in by yesterday's freight only a part of one car load—about 3 cords arched.

The winter of 1892-3 will be one for "the oldest inhabitant" of a future generation to talk about to his grand-children.

The banks of this city will be closed today. This being a legal holiday made by our State Legislature. Birthday of Gen. Robt. E. Lee.

The forecast of the weather that came yesterday afternoon read: "Rain or snow Thursday. Warmer Thursday morning. Slightly cold in evening."

The board of agriculture urges the legislature to appoint an "arbor day," to encourage the planting of trees, particularly the nut-bearing and fruit trees.

Ex-President Rutherford B. Hayes is no more. He died at 11 o'clock Tuesday night of neuralgia of the heart. He was sick only from the preceding Saturday.

It keeps freezing and the ice keeps getting thicker all the time. Tuesday night the thermometer was down to 9 degrees. The highest point reached Wednesday was 29.

A case of a colored man resisting officers in the discharge of their duty will be tried this morning. It occurred at the depot where the distribution of wood was going on.

The third snow of this winter began falling last night at six o'clock. This is remarkable when it is remembered, that it has been five or six years since enough has fallen in the city to make it deserve the name of a snow.

A number of fishermen were caught down the river and prevented by the bad weather from returning. Alt Bragg who was among the number, with companion managed after a pretty tough time to get back to the city yesterday by walking a good portion of the way.

Capt. Smith, of the steamer "Laura," arrived yesterday by land from Grifton. The Laura went up Tuesday to Suow Hill, by breaking through the ice for 30 miles. She managed to reach Grifton, but could not come no further. The Str. May Bell is in the ice at Jolly Old Field.

Some who had to work their way through the ice as it was forming on the river had a very trying time, the ice being so thick that it was almost impossible to break it and get it out of the boat's way and yet not thick enough for them to feel safe in leaving their boats and walking on the ice to the shore.

The remains of Mrs. Carolina Pulley arrived last night for interment in this city, her native home. She was about 45 years of age and was the daughter of Mr. Starkey Gardner. She died Tuesday in Wilmington after a two weeks illness of heart disease. The remains were accompanied to the city by her brother-in-law Mr. J. W. Booker.

The investigation in connection with the work of relieving those in want revealed the fact that there was more urgent need among the colored people than the white. This is largely attributable to the stoppage of the saw mills, in which many of them were employed, on account of the intensely cold weather; the cessation of stevedore work which furnished employment to a considerable number of them and from lack of work in other ways brought about by the bad weather which rendered it so that a very large number, some of whom have comfortable homes, find themselves in want of food, clothing and shelter.

From Congressmen who do nothing for their \$5,000 per annum but insist that their constituents must have more money could meet some of the demand by dividing their salaries with some of the needy about them. This method of dispensing unearned cash might be the best, and would save the country a vast amount of money.

The Relief Work.

The Poor Relief Committee met at the city hall yesterday morning pursuant to the call of Mr. E. H. Meadows, chairman.

On motion a committee of colored men selected by the colored ministry from the several churches was appointed to see the various societies of the city and get them to help the poor from their means.

It was reported that there was a large lot of old cross ties along the line of the railroad, of no use to anyone, and a committee was appointed to see the railroad officials and ask them to bring the ties to the city and give them to the poor provided a gang of men could be procured to go along and load and unload the train. There ought to be no trouble in finding volunteers for the work considering how the wood is to be used and considering how many are idle by reason of the cold weather's coming the places at which they usually work to cease operating.

It was also moved and carried that a committee of three be appointed to wait on the county commissioners and board of common council and ask them to do what they could to relieve suffering. The committee consists of E. H. Meadows, T. A. Green and W. M. Watson.

The chair appointed the following committee to wait on the citizens and solicit aid in this crisis.

1st ward, M. H. Sultan and James Redmond.

2d ward, W. M. Watson and W. E. Clarke.

3d ward, M. Manly and W. G. Brinson.

4th ward, V. A. Crawford, col., Geo. H. White, col., and J. B. Lane.

5th ward, S. R. Ball and I. W. Eubank, col.

It was also stated that J. L. Rhem had made the following offer: That he would give away wood to any one who wanted it off his land if they would cut it.

The committee passed a vote of thanks to Mr. Rhem for his kind and generous offer.

The tickets for \$50 worth of provisions at Hackburn & Willet's store which those gentlemen donated, were then distributed for the white people in the hands of the five white ministers and those for the colored people in the hands of Geo. H. White, col., and I. W. Eubank, col.

Sixty-four cords of wood came up on the freight train. It arrived none too soon for the wood supply was nearly exhausted. Twenty-four cords of what came was purchased from the general relief fund and distributed among both white and colored—by the three benevolent societies among the white people each sending out an equal portion of it, and by the colored committee among the colored people.

To make it go as far as possible in relieving the crisis, it was distributed in small quantities, generally only a half-load to each one upon whom it was bestowed.

Last week Messrs. Thomas Daniels and L. H. Cutler, ordered 16 cords of wood which they meant to give to the poor. A portion of it arrived, and was similarly distributed.

The railroad is acting in a very liberal and public spirited way by not charging for hauling the wood to be used in relieving the needy.

The Kingston Free Press says: "The new Christian church here will be dedicated with imposing ceremonies on the 25th day of January, Mr. J. R. Chaves of New York, will preach the dedicatory sermon, and if the weather is favorable, the trees will be planted."

Health Conference.

Dr. R. H. Lewis, Secretary of the North Carolina Board of health is sending out a circular letter stating that the Board has been called by President Bahnon to meet in special session in Raleigh on Tuesday, January 24, hour and place to be given in that morning's papers.

It will consider particularly:

1. Our present health laws, with a view to amendment by the General Assembly.

2. The threatened invasion of Asiatic Cholera, which is regarded as more than probable next Spring or Summer; and the best means of keeping it out of our State.

3. The salaries of County Superintendents of Health.

And, generally, any subject relating to the public health that may be introduced.

All interested in health matters are cordially invited to join in with and give the benefit of their co-operation and advice.

Papers on sanitary subject would be more than acceptable.

This meeting of the State Board of Health, in connection with all others interest sufficiently in Health matters to join in the meeting is a very important move especially in view of the danger that cholera will reappear on the eastern continent and threaten this country next summer. Much interest should be felt in the gathering.

Coming and Going.

Mr. Geo. Allen who has been spending a few days in the city, left, returning to South Carolina.

Mr. J. J. Wolfenden, a member of the Executive Committee of the State Business Men's Association went up to attend a meeting of the Association.

Mr. Wm. Dunn, delegate-at-large to the Road Congress went up to Raleigh to attend its meeting.

Mr. Shepard Bryan left yesterday morning to engage in his profession (the law) in Atlanta, Ga., with the prominent firm of Mess. S. Erwin & Colby.

Miss Mary Oliver left to visit Mrs. Susan Best, of Snow Hill, and to attend the dedication of the Episcopal church at that place which is to take place Sunday.

Hon. C. C. Clark returned from Raleigh where he has been attending a meeting of the Board of Penitentiary Directors.

Messrs. M. D. W. Stevenson, W. W. Clark and O. H. Guion, returned from Raleigh last night, where they have been to argue the sewerage case before Judge Brown in chambers. The decision has not yet been rendered.

Miss Nannie Street who has been spending a few months North visiting, returned home.

Mrs. Thos. Walter, who with her children has been visiting her father Hon. C. C. Clark, left yesterday morning for her home in Wilmington, N. C.

Mr. Hill Humphrey returned from Raleigh where he has been in the interest of the steam ferry to be established, the charter for which will be obtained at this session of the legislature.

Messrs. L. H. Cutler and Thos. Daniels returned from Raleigh.

Skating Across the Rivers.

All previous records on the foundation of ice around New Berne are broken. Four men skated across Neuse river yesterday at its junction with Trent river—a feat never performed before. They were Messrs. Geo. and Ed Clark, John Sullivan and Chas. Hall. In 1857 the Neuse was crossed on the ice but it was a little higher up and men who did it went slowly and tested the ice ahead of them with long poles.

The ice appeared yesterday as thick in the centre of the river as near the shore. The opinion was expressed that today the river could be crossed anywhere and that skating could be carried on down it for many miles—possibly clear to its mouth. If the ice increases in firmness as expected there will doubtless be many others who will cross over. Quite a number crossed Trent river and several skated well up it. A number also crossed Neuse a river little above the city and Messrs. W. D. McIver and J. E. Borden skated well out in the stream from Jack-Smith creek to Justice wharf.

It gratifies us to be able to announce that Capt. Kelly, Rev. and Mrs. L. N. Seabolt and other passengers who were leaved to have been lost on a sloop are all safe. We hear that Mr. and Mrs. Seabolt entered Washington by land. Capt. Robert L. Agent, who has arrived in the city, reports that the sloop sloop in Pamlico sound is not the one on which the party spoken of were passengers. He has seen the other sloop since the accident was supposed to have occurred.

Notwithstanding that the ground was covered with a white mantle and "the beautiful snow" was still falling, a good number, composed of as many ladies as gentlemen, assembled at Hancock street Methodist church last night to hear Professor Skinner lecture on "Music Made Easy." After the lecture was delivered some half dozen or more gave their names for joining Prof. Skinner's vocal music class which now numbers about two dozen. It is desired to increase the membership to about 40.

From the Old World.

The fame of New Berne's fancy poultry has reached Europe, and brought a letter of inquiry to our experienced breeders, Wood, Bros., from Alfred W. Thomson, importer and exporter of high class fancy live stock, at New-Castle-on-Tyne, England.

Sales of New Berne pure-bred poultry have been made from one extreme of the United States to the other, even in the territories, but so far as we know there have been no shipments beyond this country yet. In this case, though there has been no sale effected thus far, there is no telling what it may lead to. Even as the matter now stands, it shows how remarkably the reputation of New Berne poultry is spreading. The New Berne Fair has helped materially in bringing this result about, but in this instance the far-away application was the direct result of advertising. The mediums which Messrs. Wood Bros. used were the New Berne Journal and the Southern Poultry Fancier of Atlanta, Ga. It goes to show that one can never tell where the use of printer's ink may bring forth its legitimate results.

The delight in purchasing New Berne poultry over the beauty and excellence of the fowls when they receive them, causes the poultry to keep growing in favor. Though we have careful and experienced fowls raised in the United States, we fully commend that the superior quality of New Berne poultry is not only a great advantage, but also a great business proposition, that can be made a specialty for the future.

In the year 1892, the New Berne Journal and the Southern Poultry Fancier of Atlanta, Ga. It goes to show that one can never tell where the use of printer's ink may bring forth its legitimate results.
