The Fish Market-The Town Improving - Great Preparations for

NEWBERN, N. C., Feb. 13.-There is quite a contrast in the appearance of everything here since my last visit a few weeks ago. Then everything was com-pletely frozen up. Skating, sleighing and relief committees consuming most of the time of these good people, but now once they have thawed out everything is n a hussle and everybody on the go Fish are coming in and it is a very interesting sight to go down on the whart and watch the boats come in from a fishing expedition and see these live, energetic fish dealers leaping into the boats almost before they get to the wharf, eager to get possession of the fresh, live. finny tribe. saw four or five fish buyers board one week and see to what extent the fish business is carried on here. The season is just about opening and by week after next (during the fair) it will be in full for Whites and Blacks—Full Text of

I learn that the truckers are very busy at this time planting peas and getting ready to plant other truck, and with avorable season from now on it is thought his will be a good truck season.

The knitting mill, which was started short time ago as an experiment, has proven to be such a success that it has een incorporated into a stock company and will be enlarged and operated on much larger scale than heretofore.

I heard some very interesting and im-portant radioad talk of which we are not a liberty to speak, that will be a great good to New Berne, Certain negotia-tions may soon expect to have some interesting railroad news from New Berne At a recent meeting of the city fathers he contract for putting in water works and to connect buildings with the sewer-age pipes, which have been layed for ne time, was given to the Lewis Mercer onstruction Co.

I coticed while walking around the own several residences being renovated, while others are in course of erection, The town is spending a good deal of money macadamizing the streets and side-walks with shell rock, of which there is a plenty here, and it makes a splendid, hard, firm road and sidewalk.

There are from twelve to fifteen lumber nills in and around New Berne getting out lumber and shipping lumber, both by rail and water. A good deal of it is shipped to northern markets.

THE APPROACHING FAIR. Never before since it was first started as such extensive and expensive efforts been put forth to make this Fair even relipse all others held here. Everybody, rom president down to the humblest citizen of the town, is working hard to do all that he or she can to have everybing in readiness for the opening day,

February 20th Sceretary Reizenstein told me today that he limit finally been successful, after much negotiating, to close the contract with Sherry's Wonderful Working World, This is a new and novel attraction that has never before been in this country, and it'is the only one of the kind in the United States. It took eight years of hard work to perfect it. Large lithingraphs are now hanging up all around showing that this wonderful piece of merhanical mechanism is the base work!

Sec. 8. That all connections all in motion, from a railroad train going over trestles and through tunnels down to the boy sawing wood. It also embraces the work shops of various kinds. farm work, domestic work, and many other things too numerous to mention It will occupy a large building on the grounds erected expressly for its exhibi-

The racing will be unusally good. There are quite a number of fine fast trotters and runners now on the track training so as to be in a good condition to greet lovers of horse racing (and those who are not) with some of the finest rac ing ever witnessed in North Carolina The Atlantic and North Carolina railroad is now in first class condition, both in regards to road, bed and rolling stock, and people coming down to the fair will be amply accommodated. A special train will leave Goldsboro at 8 a. m. four days during the week, connecting with the trains over the Scotland Neek and Greenville road at Kinston. Now reader in conclusion, let me say to you that 1 am thoroughly convinced that you will never regret the trip if you will come to the Newbern fair this time, and having come once you will want to come again. Bring the little folks and let them learn some thing. This letter may somewhat press you as an advertisement, but not so and I can just knock the man that seys it is in the middle of next year. If there is a single soul in this town or any other own in the state who knows anything about this letter being written or ever knew it was going to be written, thi writer is not aware of it. This association is a big thing for eastern North Carolina, hence the interest of. In State Chronicle.
