Every train and boat going towards Washington is filled to its utmost capacity.

VARIOUS literary jobs are offered President Harrison when he goes out of office. He has vetoed most of the up to date.

No; We are not going to the inauguration. Fifteen dollars a night for a cat, and other things in proportion, is rather more than most editors can stand.

MR. THURBER'S acceptance of the president-elect's private secretaryship is not to be accounted for by a desire for its salary since he enjoys a private fortune and a professional income of \$10,000 or \$15,000.

Tax proposition to pension the ex-Queen is not an irresistible corollary to the proposition to annex Hawaii. This country can manage to stagger along without going 2,000 miles out on the ocean to annex pensions.—Louisville Courier Journal.

"But free coinage is not the main thing the silver extremists want. What they really desire is that the government shall coin every sixty cents worth of silver that can be holed to the mint, stamp it as a dollar, and make it a legal tender for that amount. That is just what the government cannot do."

It is a somewhat remarkable fact that on the 29th of February, 1893, the snap convention met in New York and did all it could to rule out Grover Cleveland as a Presidential possibility, and that on the 29th of February, 1893, Grover Cleveland, President-elect, completed and announced his prospective cabinet.

AT the closing meeting of the Daughters of the Revolution, Mrs. Stevenson, the wife of the vice-president elect, was elected president general, and Mrs. H. V. Boynton, the present incumbent, was re-elected vice-president in charge of organization.

THE matter to be arbitrated at Paris, which Secretary of State Foster resigned to advocate as counsel for the United States, may be summarized in the following propositions: That Russia when she owned Alaska exercised exclusive jurisdiction over Behring sea and had exclusive ownership in the seal fisheries there. That Behring sea is a closed sea and is not a part of the Pacific ocean, and was not embraced in "the Pacific ocean" when that term was used in the treaty of 1825. That when we bought Alaska and Russia's rights and title, we succeeded to her exclusive rights in Behring sea.

THE JOURNAL REPORT, Mr. J. M. Hines will be at Pollockville and Trenton Friday and Saturday in the interest of the JOURNAL.

Those wishing to secure the greatest portion of the daily accounts of the Fair as it progressed can do so by purchasing a copy of this week's WEEKLY JOURNAL, now ready.

The next entertainment of the Y. M. C. A. will be held Friday, the 10th inst. A delightful musical program with recitations and a few athletic specialties is being arranged.

Box 54 called out the department last night at about eleven o'clock. The fire was a mere slaver on Newwood street and was entirely consumed. The occupants, two colored women, were absent and all their effects were lost.

Messrs. Hackburn & Willett will get off a shipment of cabbages by rail this morning—the first of the season. They made a shipment of spinach on the steamer Neuse Monday and will send off about 400 barrels more tomorrow.

Additions to the gas works for the purpose of supplying in abundance cheap gas for heating and cooking purposes is being considered. The use of gas for these purposes is very convenient and the improvement is a desired one.

All who have bills against the Fair Association are respectfully requested to present them without delay to the secretary and treasurer at his office near the cotton exchange between the hours of 10 a. m. and 1 p. m. and between 2 and 5 p. m.

An altercation occurred at Vanceboro Tuesday night between two colored men in regard to a trade. It resulted in John Jennkins shooting Slade Moring in the lower part of the abdomen. Dr. Primrose cut the ball out Wednesday morning. Jennkins will be arrested.

Henry Hardesty, col., who lives at Hancock creek was drowned near his home Tuesday by being knocked overboard by the boom of Wm. Culley's wood boat on the way to the city. The man could not swim and the wind was so severe and boat going so fast that assistance could not be given him in time. The body had not been recovered at last accounts.

Messrs. Nunn & McSorley have presented the JOURNAL with a specimen of walnut taffy of their own manufacture. It is of excellent quality and finds a ready sale. They make it up in lots every morning and evening thus keeping it fresh all the time. They manufacture other varieties of taffy and expect soon to include various kinds of candies.

The bill to incorporate the New Berne Steam Ferry Company passed its third reading in the Senate Tuesday night, which establishes the charter. The incorporators are: Jas. Redmond, J. C. Whitty, J. W. Stewart, M. Hahn, J. S. Basnight, J. H. Crafter, E. S. Street, C. E. Foy, F. Ulrich and Hill Humphrey. It is to be hoped that others will be added to these charter members and the matter worked up as speedily as possible.

The crowd that will be in Washington Saturday to witness the inaugural of President Cleveland will be something enormous. Six special guards are on duty at the White House, largely for the purpose of protecting the President from dangerous visitors. They are all men of great muscular strength and experience in detective work. So well are they trained in this art of judging people that for any crank or crook to get by them is almost impossible. Capt. Denmore, who has been such a prominent figure at this White House for many years, can generally tell a crank as soon as he enters the White House grounds. A body guard was extended at New York to escort him and party to the Capitol, but Mr. Cleveland courteously declined their offer, saying that he had nothing to fear.

An Important Meeting.

Sometime during the spring the State Press Association will meet in New Berne and of course it is only necessary to merely remind our citizens of the fact for them to take hold of the Association in a business like way and show to the editors of North Carolina that this section, though to a great extent cut off and side-tracked from other portions of the State and through lines connecting the North with the South, in many respects it stands unsurpassed.

Its trucking and fish industries are the most prominent and for this reason the Association has been invited to meet this early. Previously its sessions have been held in July.

The Association was never in better order than during the last few years. The meetings have been well attended and given to business of important discussions looking to the elevation of the Press of North Carolina and the development of the good old North State. These editors are a fine body of gentlemen and have always been met with a cordial welcome. They are thoroughly devoted to the State and are ever ready to speak in its praise or stand in its defense.

The meeting will be an important one and worth a great deal to us indirectly and especially just at this period when our future looks so promising. Some time during the present month we desire to meet the business men of the city and present the matter to them more fully, and we make special request that the occasion of their coming here be given due consideration and made as pleasant as possible.

Coming and Going.

Mrs. Louis Ulrich, of Henderson, who has been visiting relatives and attending the Fair left for his home yesterday morning.

Miss Mary Sweeney, of Wilmington, who has been visiting at Dr. J. H. Beaton left, returning home.

Mr. J. B. Clark left on the steamer Neuse for Norfolk, Va., on a business trip.

The steamer Neuse of the E. C. D. line took out a good crowd of gentlemen to attend Cleveland's inauguration. There were Messrs. F. Ulrich, Jas. F. Taylor, Jas. W. Moore, M. H. Sultman, H. B. Duffy, N. Tisdale, F. Myer, W. B. Blade, E. Dunningburg and Mr. L. J. Taylor and wife. Messrs. Sultan and Dunningburg also intend to visit Norfolk on business.

Mrs. S. H. Lane left on the steamer Neuse to attend the inauguration also other northern points to purchase spring millinery.

Mr. Hill Humphrey returned from Raleigh, where he has been in the interest of the New Berne Steam Ferry charter which has just been granted.

North Carolina Aides in the Inaugural.

The list of North Carolina gentlemen invited to act as aides on the staff of Gen. P. M. B. Young, commander of the Sixth Division (civil organization), for the inaugural parade are: W. C. Lindsay, Salisbury, John M. Scott, Charlotte; Willie Williamson, Robt. L. Holt, Jim Holt, Ed. Holt, Burlington; Morton Wharton, Graham; Jim Williams, Fayetteville; Percy Gray, David Schenck, Weldon Schenck, Greensboro; W. H. Turtie, Charlotte; George C. Heck, Raleigh; T. C. Hairston, Fork Church. They are expected to report to Gen. Young at 9 a. m., March 4th, mounted and dressed in black.

A Strict Assignment Law.

The bill which passed the Legislature to prevent fraudulent assignments is said to have been downed by the best lawyers in the House. It provides strong safeguards against trickery. Under its terms preferred debts must, in five days after the assignment is made, be recorded in the clerk's office, and concise in the history of the origin and existence of said debt, and all this must be sworn to, and assignees are to give bond and render accounts just as administrators do and the execution of assignments is to precipitate all indebtedness, whether due or not. There have for years been complaints of fraudulent assignments, and this fact makes the bill one of great importance.

Railroads Chartered.

Ten railway charters have thus far been granted by this Legislature. Among the new ones are the Elizabeth City and Pasquotank, the Blowing Rock and Lenoir, the Durham and Charlotte, the Carthage and Western, the Catawba, the Moore county, the Charlotte, Troy and Sanford, the Rutherford and Polk county, the Western North Carolina and Atlanta, the Harriman, Franklin and South Atlantic. Others are taking the regular course. Among them is the Neuse river and Swansboro road.

The new and great battle ship Indiana was successfully launched at the shipyard of William Cranch Monday in the presence of 10,000 people. The President of the United States and members of his cabinet were present.

There will be a photograph party given by Mr. Wm. J. Smith at the College Institute Friday night for the benefit of the school library. Exhibition will be given from photograph with brass trumpet. Admission 15c. commencing at 8 o'clock.

Legislative Action on Taxes.

The taxes as finally settled are: General tax, 22 cents; school tax, 16 cents; pension tax, 4 cents; total, 42 against 43 in 1891-92. The general tax on building and loan associations is not imposed as proposed, but these are to pay a graduated license tax.

For the first time a tax on incomes is imposed. This rises gradually by a scale, starting at one-fifth of 1 per cent on incomes between \$1,000 and \$2,000. The chairman of the Finance Committee was asked if he thought such an income tax was constitutional, and said he did not. The chairman of the Judiciary Committee said he believed it was constitutional to tax incomes derived from a combination of capital and intellect.—Ex.

Almost a Month to the Mile.

A postal card post marked plainly and mailed in Goldsboro on April 29, 1892, and directed to Aycock & Co., at Fremont, 12 miles distant on the W. & W. R. R., was only received by them on the 24th of this month—ten months in traveling 19 miles and yet this is called an age of progress. It is a joy to think that "Cleveland and Reform" come in, hand in hand next Saturday.—Goldsboro Argus.

Dress Making.

Miss Rowens, a first class dress-maker, will be ready on MONDAY, FEB. 27th, to receive orders for work. She is in office on Craven Street, formerly occupied by P. H. Peilletter and respectfully solicits a share of your patronage. 1261w.

GENERAL ASSEMBLY.

FORTY-SEVENTH DAY.

SENATE.

To punish persons with fine and imprisonment who engage in lynching, etc., made special order for tomorrow at 11 o'clock.

The bill to protect the fish interests in New River in Onslow county passed third reading.

Bill for the establishment of a system of State banks for North Carolina, which is to take effect 90 days after the repeal of the 10 per cent tax on State bank issues by Congress. This bill passed its second reading by a decided majority. Quite a number of local bills were disposed of.

Bill to pay a debt due by the State to the estate of David Hinton, deceased, also being a special order, was next taken up and after a short debate, passed second reading, ages 19, noon 17.

HOUSE OF REPRESENTATIVES.

A bill was introduced by Mr. Harper, to create a stock law territory in certain portions of Pauline county.

The machinery act was taken up as a special order. Two matters embraced in it were particularly discussed, one being in regard to the taxation of shares of stock in incorporated companies, and the other the matter of time for redemption of lands sold for taxes. Both provisions stand as prepared by the committee, but the bill is so drawn as to tax all property belonging to any corporation just as private property is taxed. The time allowed for land redemption is one year. An amendment to make the time two years was tabled.

As another special order, the public health bill came up. It was tabled on motion of Mr. Williams of Craven, but later, on motion of Mr. Jones of Caldwell, was taken from the table and passed second and third readings.

The Indian appropriation bill was finally passed.

Mr. Gilmer, of Haywood, by unanimous consent, introduced a bill to provide for the speedy trial of certain felons.

A bill to require timber getters to pay damages, passed second and third readings.

A bill to amend section 670 of the Code in regard to recording articles of agreement to which corporations are parties, passed second and third readings.

Senate amendments to house bill providing for the support of the insane Asylums of the State concurred in.

A bill to amend section 670 of the Code in relation to the formation of corporations. Mr. Watson moved to make the fee for incorporation by the legislature \$50 instead of \$100 as provided in the bill. The bill as amended passed second and third readings.

A bill to incorporate the Neuse river and Swansboro Railroad Co., passed third reading.

A bill to allow the commissioners of Hyde county to levy a special tax, passed second and third readings.

A bill authorizing the mayor and commissioners of Merchants City to hold an election on the question of issuing bonds for city improvements, passed second reading.

A bill to allow married persons whose wives or husbands are non-compositious to execute deeds, passed second and third readings.

A bill to amend the insurance laws of North Carolina. This bill is new legislation, but changes no statute of the State in relation to insurance. It confirms the law in relation to that of New York and West Virginia, and is an exceedingly important measure. The bill passed second and third readings.

A bill to protect fish in Contoocum creek, passed second reading.

SIX PER CENT BILL.

The six per cent interest bill which passed the Senate several weeks ago was taken up. This bill provides that no greater rate than six per cent shall be charged in this State after Congress shall have repealed the ten per cent tax on State banks of issue.

After much discussion the bill was laid upon the table, but the vote was recorded by a vote of 47 to 43. Amendments were then adopted excepting the counties of Macon and Caldwell from the provisions of the bill. Without taking final action on the passage of the bill the House adjourned shortly before midnight.

Convict Labor on Roads.

A bill to provide for the use of convicts on public roads came up as a second special order in the House. It provided that from and after the first day of June next all able bodied convicts sentenced to the penitentiary, or now in or belonging to the penitentiary, may be worked upon the public roads, that whenever any county shall levy a tax for the purpose of working the public roads it shall be the duty of the board of directors of the penitentiary to assign such county one able bodied convict for each twenty dollars, provided that not less than twenty nor more than fifty convicts shall be assigned to any county; that seventy dollars for each convict be paid by the State and the other expenses by the county to which he may be assigned, so long as he may be at work within the said county.

A number of amendments were offered and during the debate which ensued the whole question of the maintenance and employment of convicts was gone over. While the debate was in progress Gov. Carr sent to the House a message on the public road question which showed that the present system of working the highways is a failure and that a new one is demanded. The bill was finally tabled, on motion of Mr. Moore.

After the reading of the message from the governor, Mr. Hyde, of Carteret, made a strong speech against the bill. The chief point made against the bill was that no county which could not raise \$1,000 a year could secure any convict labor at all.

The Oyster Bill.

The new oyster law gives \$70 a month pay to the chief shellfish commissioner, imposes a tax of 2 cents per bushel on shell oysters, defines the meaning of public an private oyster grounds, makes the possession of dredges prima facie evidence of violation of the act forbidding dredging. The law is said to be an excellent one.—Raleigh Correspondent, Norfolk Virginian.
