distance north of that which are very close to where the fire started, cal ripples of a murmuring brook. said to be as tall as the Brooklyn When the watchman saw it he began bridge towers. Planks from these throwing the water on and shouting the alarm. Not succeeding in bringing in one else to his aid by the time the barrel of water was exhausted he ran across to Mr. Basnight's residence and aroused unmarked branches, was cut on the him, by which time some one who had traveling agent of that paper. Mr. Har shore of Paget sound. Comn.on heard the shouting sent the alarm in to dy is a well known and experienced newsroad side weeds and bushes have a the station, and the few who had gather- paper man, and has always been success proportionate largeness, their ed united theer efforts with the watchleaves being twice as big and their man in brinsng water from the river to fight the flames, but the wood being hot burned rapidly, and the fire gained headway, and by the time the engines ar rived it had a strong hold.

Trouble was experienced in starting or account of water supply. A well had been prepared at the water edge by the rock wall, but not having been looked after with sufficient care, river weeds and trash had accumulated to such an extent as to make it unserviceable, and recourse was had to obtaining the water direct from the river, and it being low tide this did not work saisfactorily and the flam is rolled on m spite of the vigorous efforts of the firemen, until both the mill

outside lumber were destroyed; but the firemen by heroic work, saved the remaining property—the planing mill and boiler house for it, and the office. Though the mill was on the river, the member is requested to be present, as fire was a bad one to fight because of Hill, Captain, Mr. J. N. Whitford, Sec.

points, but in about an hour it was under control which was splendid work under the disadvantageous surroundings. Both engines worked until half-past

throw water on the smoldering remains until about nine o'clock. The loss by the burning of the mill is \$4,000 by the dry-kiln an additional \$2,000 and the value of the lumber destroyed would fall but little below an

other \$1,000. A total loss of \$7,000.

There was partial insurance.

The Progressive Farmer notes that the the latter part of his life, not having been says that statistics show that there is not near so much of this disease found in Mussrs. Geo. N. Ives & Sou got off the North Carolina as in States north and biggest individual shipment of fish- west of us. The increased death rate North and South Carolina and Virginia. They are huddled in the suburbs of every town, often in unwholesome shanties. They do not pay any attention to sanitary or other laws in many places.

The death rate for consumption during 1891 92 shows that 2 1 per cent. of whites died in each thousand, while 5 8 per cent, of the negroes died from the same disease. It is believed that one reason for the great deathrate among negroes is the fact that most of them sleep with their heads under the bed covering, especially during cold weather, breathing impure and devitalized air a considerable part of the time.

During the past two years sporadic cholera was reported from three counties; one case in each county in 1881 and one the danger from Asiatic cholera is not entirely over. However, the past cold winter ought to something of a safeguard City News. as the germs of disease ought to be killed for the time being. In proof of this is the fact that there is but little sickness in the State at this time and there has been but little in three months.

Rev. J. L. Rumley.

The Littleton Courier says: "Rev. J. L. Rumley preached to large congregations on Sunday last, morning and evening, at the M. E. Church. The sermons are spoken of as being very fine. This young man has a future before him."

Mr. Rumley just begun his pastoral work last year. Beaufort was his former home and he is pretty well known in this neighborhood as a promising young man. His friends here will be glad to hear of

Building on Treat River.

Messra Watson & Daniels are receiving material with which to begin the work of preparation for the stores and fish houses that they intend to put up at the foot of Middle street. They will build about half a dozen over what is now the dock between the fish houses they occupy and the brick store at the end of the dock. They will also build a whart around the buildings they now in the river still further. These improve ents will be a virtual extension of Middlo street into the river as it has already

Mr. Josephus Daniels having accepted a position in the Interior Department in Loan of Helr loom Denied for the Washington, the Wilson Mirror makes the About midnight Widnesday night the following reference to the future editor
