Edwin Booth is now reported as "rapidly recovering."

The Prince of Wales has invented a hat. Now if he could only invent something to put in it.

Representative Grady is making strong efforts to remove the postmasters at Jacksonville and Orlenton as well as at other places.

There is now, and there will always be, a constant necessity for the maintenance of well disciplined State troops in the South.

The Mississippi river, having broken the levees, is now spreading its baleful waters over the lowland of Arkansas, Mississippi and Louisiana.

In Germany, as we expected to hear, the recent speech of the Emperor is regarded generally as very ominous of a disposition to resign absolutely. He is treading on the thinnest ice if he only knew it.

The American Baptist Educational society, the Southern Baptist Educational conference and the Southern Baptist convention are in session in Nashville, Tenn. Dr. Hays, of our State University, was re-elected secretary of the second named body.

None of the twelve Consuls to the Congo Free State has ever returned alive, and yet Mr. Clifford Wallace is an applicant for the place. We object to giving it to him. There is one man in this country whom the people, irrespectively of party, have singled out for that honor. That man is the Hon. Fannin, Governor of Oregon.

Ought not the people of North Carolina to see to it that the next Legislature grants pensions to all members of the State Guard who shall die in service, whether by disease or by accident or by suppressing outrages and defiant mobs or otherwise? It would be a proper, a grateful thing to do to grant a pension to the wife and children of Lieut. Col. Bogart who died while in service of the State at New Bern. It looks to us that men who give voluntary service to the State should be remembered by the people if they perish while serving them.—Wilmington Messenger.

The Wilmington Messenger's Washington correspondent says: Mr. Simmons' visit to the President was entirely satisfactory. The Chief Magistrate impressed our chairman with the evident desire of the administration to do the square thing by North Carolina. Mr. Simmons is sure that the President is too magnanimous to recall with the slightest animosity North Carolina's attitude toward him in the national convention. He thinks that the State will get her quota of offices—more, in fact, than before. Mr. Cleveland struck Mr. Simmons as being anxious to serve the party's interest in serving the public's interest. In reply to the question, Chairman Simmons said that it was not so difficult to get the President's ear, nor in his judgment, was it so difficult to obtain action in respect to removals as has been generally thought. As this is news, I send it just as I have it from Mr. Simmons himself. Its significance is plain.

We acknowledge the receipt of a special invitation from the committee to attend the annual picnic of Riverdale M. E. An examination of the Bankers Directory shows that there was an improper classification of the suspended North-western banks as to their being National or otherwise. Out of the entire number of about a dozen there were involved in the troubles only three National Banks and steps are being taken to reorganize one of these.

The fire at Union Point was a strong case in evidence of where an efficient hook and ladder company could have been used advantageously. The Rough and Ready Co. was on hand and did good service but it would have been much more effective had proper appliances been at their command.

The schedule of the mail route from New Bern to Pamlico has been changed so that the mail leaves New Bern every morning at 6 o'clock instead of 7 o'clock. This makes it so that the mail for that route closes at 8 p. m. Those who have mail for Pamlico, need therefore to see that it is in the postoffice early enough at night to insure its going off the next morning.

The General Assembly of the Southern Presbyterian church assembled in Macon, this week. Rev. F. D. Thomas, of Rocky Mount a native of New Bern is the delegate to it from this (Albemarle) Presbytery. It is quite a distinction for so young a man to be selected for this position, the highest court of the church and a meeting where he will come in contact with many of the ablest Presbyterians of the entire South.

Precaution Should be Used.

In consequence of reduced rates from Europe there will be a large attendance of foreigners at the World's Fair the present year. It is very probable that among them will be numerous representative agents for prospective emigrants to the United States. In fact it is almost assured that our country will witness a great tide from the East, greater than any previous year and it is a matter of deep interest that every precaution should be taken at the various ports in seeing that we are not infested with the scum and scum-like element of Europe.

We do not object to the arrival of any honorable and intelligent class of people, for we have in greatest abundance resources that are waiting only for development, and good citizens are welcomed.

While a large per centage of this foreign population is extremely objectionable there are others, principally the German, Swiss and Dutch that make good citizens. They come to America to better their condition and enjoy the liberty and privileges of a free government. Our doors are always open to these industrious and liberty-loving people.

Craven county alone has room for hundreds of them to build up her waste places. Her climate and soil are admirably suited for new comers, and the outlook for the future prosperity of this entire section is such as to amply guarantee it as one of the finest fields in the union for prospectors.

Picnic.

Next Tuesday Hancock Street M. E. Sabbath School will have their picnic. They intend to go down Neuse river by steamer and land at Danenburg's farm about fifteen miles from the city and take dinner there.

The picnic of the Presbyterian Sunday school which was to have taken place last week but was unavoidably postponed will come off next Friday. The steamer Greenville from Washington has been secured for the day. The school will go up Trent river. It is planned to take dinner at Foy's mill and then re-embark, go on to Pollockville and after spending a short time then start back for home.

The start for the picnic is to be made from the N. N. & W. wharf at 9 a. m., and it is requested that all baskets be there a little ahead of time.

The teachers and children of the school are to assemble at the Sunday School room so as to start for the boat about 8:30 o'clock.

The Baptist Sunday school will picnic at Morehead on Wednesday the 31st. A limited number of tickets will be sold at \$1 each. They can be procured from W. E. Patterson, Edward Clark or Jos. Lucas.

Centenary M. E. Sunday School have appointed a committee to arrange for a picnic but the time and place, &c., have not yet been decided upon.

TURTLE PILLS adapted to old and young.

Mare Killed and Several People Shocked by Lightning.

Yesterday afternoon lightning struck the livery stables of M. Hahn & Co., and tore a hole through the roof, and broke up one side of a feed box, killed a horse, knocked a young negro man over stunned his father and slightly shocked Messrs. Benj. Hahn and Herbert Tisdale.

The animal killed was a valuable black mare—a recent importation—she staggered and struggled two or three minutes before dying.

The colored man, George Cochran, who came so near being killed was killed in two or three feet of the mare killed and his father was standing by him. They were from the country and were looking at a mule with the intention of purchasing when the flash came. Mr. Hahn and Master Tisdale were standing just a few feet off.

Messrs. Hahn & Co's stables have a large enclosed space in which stock are allowed together and this was pretty well filled at the time with them and it was in this space that the four parties spoken of were standing and it was a still blowing upon that was struck.

Those present say that the wind seemed to be darting all around the stables, one of the prangles seemed to take Mr. Hahn by the hand and to run down his person to the ground and the many horses on mules around seemed almost wild as if they were in a building on fire. That no more injury was done was due they were so thickly congregated so remarkably.

The boy after being picked up was taken to Dr. Leister Duffy's office for medical attention. He soon came around to his understanding but seemed dazed and complained considerably of numbness. However a little time will soon put him all right.

The Woman Open-Air Preacher.

Madame Ella Clark, the famous "woman preacher" proved to be a good Adventist in faith and a fair and able impostor or jangling under another denomination.

She claimed that she had received a message direct from God while awake and calling her by name and directing her to go out and warn the people. She claimed also that the miracles were not passed and possessed the effect cures by prayer and the laying on of hands.

Announcement was made that she would preach again but she has not yet had her mind and intends to leave for the day.

Missed the Rain.

With all the rain we had yesterday afternoon—stopping about five miles before the arrival of the train—the roads were dry. The rain missed the train—though they had rain earlier in the day at Goldsboro.

A similar occurrence happened a few weeks ago. The train was in a heavy hard rain from Goldsboro and it rained with a few miles of New Bern but none of the rain fell here at all. Clouds fell north and west was all the sign of it. We had.

New Doctors.

It is not Mr. but Dr. J. W. Danforth and Dr. Jos. L. Rhen this morning. Two young men were among the applicants before the State Medical Society to practice as physicians, and were successful—standing their examinations with flying colors. There were seventy-nine applicants, and out of the entire number only forty-seven passed.

Appointment of Public School Committees.

The State Committee has sent out notice all over the State that Public school committees will be appointed on the first Monday of June next, instead of September as heretofore. It will be well to make a note of this.

Fancy Prices for Dressed Poultry.

The most successful chicken raiser in this county is undoubtedly Mr. A. A. Isler, of Saulston township. He has his chickens already dressed to order at markets and receives from 35 to 50 cents per pound. He says it beats trucking and cotton raising, and keeps him all the year around—God bless his headlight.

WILSON MIRROR.

Dr. John S. Long, master of the toasts at a most elegant and tastefully introduced the various speakers.

ROSELINGTON HERALD.

The trucking business of which New Bern is the center, has grown from a small beginning to become one of the most extensive industries of the State.

The toasts were all happily responded to and Dr. John S. Long as a toast-master was a decided success.

HENDERSON'S GOLD LEAF.

One noticeable feature of the banquet, in one that pleased the editors was the absence of wine.

SOUTHLAND STEAK DEMOCRAT.

The editors were taken on the evening of the "banquet." It was something in a banquet of the editors. It left us as a new pin and looks like a preparation for a picnic.

DURHAM SEN.

It was our pleasure to attend the Durham Sunday morning of which Rev. M. N. George, so much beloved by us, presided. This is the first time that the Durham Sen. and the Durham Church of the New Bern and Durham have been united in a service.

The preaching was attended by the Mark Church with friends Rev. Mr. M. N. George presiding. The service was a most interesting and profitable one. The Durham Sen. and the Durham Church of the New Bern and Durham have been united in a service.
