

**NEW EAST RIVER BRIDGE.**

Another Great Link Between New York and Brooklyn.

The proposed new East river bridge from New York city to Williamsburg, a section of Brooklyn, in general appearance, it will be 1,470 feet high, or 5 feet taller than the Brooklyn bridge, and 6,975 feet long, which is 76 feet in excess of the length of the present East river bridge. The picture of the contemplated bridge is taken from Harper's Weekly.

The height of the piers of the new bridge above mean high water will be 282 feet. The piers differ from those of the Brooklyn bridge. They will be constructed of solid masonry to a point 40 feet above the railroad way, and then there will be steel towers 110 feet in height. These will be built up with 35 upright columns, with horizontal and diagonal bracing. The bridge is to have a width of 88 feet; or 3 feet, more than the present one. The length of the cables will be 3,230 feet. Their diameter is to be 23 inches, or 6 1/4 more than those of the old bridge.

The wire used has an initial strength of 180,000 pounds to the square inch. For each of the four cables 17,000 single wires will be used. These will be made up into 19 smaller cables, which when bound with wire will form the perfect cable. The dead weight these cables will stand is 136,000 tons, the weight of the bridge being only 26,000 tons.

The endless cable system used on the Brooklyn bridge will not be adopted by the builders of the new bridge. The grade will be so low that 40-ton locomotives may be run across the bridge drawing three or four cars. Work on the new bridge will be commenced the coming summer.

The third bridge across the East river will also be constructed within a few years it will be known as the Hudson avenue bridge and will have a clear span over the river of 1,470 feet. The bridge will extend from East Broadway and Grand street, New York, to Myrtle avenue and Audson street, Brooklyn.

**IT'S QUITE A STEP** from the great, gripping, dreadful pills to Doctor Fiero's Pleasant Pills. See what an advance there is:

These little Pellets, scarcely larger than mustard seeds, are the smallest and the easiest to take—tiny, sugar-coated granules that every child is ready for.

They act in the mildest, easiest, most natural way. No violence, no reaction afterward, and their help lasts. They permanently cure Constipation, Indigestion, Bilious Attacks, Sick or Bilious Headaches, and all derangements of the liver, stomach and bowels.

They're put up in sealed vials. This keeps them always fresh and reliable, unlike the ordinary pills in wooden and pasteboard boxes.

They're the cheapest, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.

No matter what you've tried and found wanting, you can be cured with Dr. Segre's Catarrh Remedy.

Whereas, a libel hath been filed in the District Court of the United States for the District of Pennsylvania, on the 24th day of May, 1893, by the S. O. Packing Co. vs the Str. Nellie B. Ley, and praying the usual process and motion of the court, that all persons interested in the said steamer, her tackle, apparel and furniture, may be cited to answer the promissory and all due proceedings being had, that the same may be decreed to be sold and the proceeds thereof be distributed according to law.  
Therefore, in pursuance of the said motion under the seal of said court to me directed and delivered, I do hereby give notice generally unto all persons having or pretending to have any right, title or interest therein, and to the crew of said steamer, to appear before the aforesaid court at the city of New Bern, on the 14th day of June, 1893, at 10 o'clock, a. m., then and there to answer the said libel and to make their allegations in that behalf.  
Dated at New Bern, this 24th day of June, 1893.
