

# THE DAILY JOURNAL.

VOL. XII.-NO. 66

NEW BERNE, N. C., FRIDAY, JUNE 16, 1893.

PRICE 5 CENTS.

## BUSINESS LOCALS.

MANY bicycles are priced at \$150; but there is not a case on record where they were sold for \$150. Why? Because they are not worth more than \$100. Yet persons who own such goods flatter themselves that they are owners of first class wheels. Evidence of insanity! The "Columbian" model 32 is priced at \$150; and we will give \$500 to the person who can legitimately buy them for less. Why? Because they are worth it, every cent! Columbus sell for from \$110 to \$150. Waverleys are worth \$100.

W. T. HILL & Co., Sole Agents.

GARRETT'S Cognac Brandy used very much in the sick room. For sale by JAS. REDMOND.

Cardinal Gibbons strongly favors the opening of the big show on Sunday.

The President has appointed Holmes Conrad, of Virginia, to be Assistant Attorney General.

There is one good thing about Lt. Peary's next attempt to reach the north pole; he will spend \$15,000 of his own money.

Under a ruling of the federal court the Government will have to refund to tobacco importers about \$2,000,000 custom duties.

Carl Schurz isn't the first man who prepared a speech and was then denied an opportunity to deliver it.

The proper function of a government is to make it easy for the people to do good, and difficult for them to do evil.—Gladstone.

A Jersey farmer has produced a radish with a knot tied in its centre. The ordinary radish only ties a knot in some one else's centre.

Mrs. Frank Leslie has recently issued a book entitled "Are Men Gay Deceivers?" Her numerous matrimonial ventures might answer the question.

A New York journal gives a startling account of the stupendous efforts of Russia to consolidate the whole Slavonic race in order to hurl it upon Germany and Austria.

Edward W. Valentine, of Richmond, Va., is making a statue of Thomas Jefferson, to be placed in a new hotel in the Capital of Virginia, which will bear that President's name.

It is reported that Secretary Charles wishes himself back in the Senate. It is not surprising. To have to keep a bankrupt Government going is a hard task.

The financial condition of the country is improving; gold shipments for the present have ceased; Europe is purchasing more grain and the gold reserve of the treasury is on the increase.

It is believed that the worst of the money stringency is over and with the exception of here and there a stray failure resulting from over-speculation, booming or kindred sport, the commercial community is in a fair way of holding its perpendicular. Still there is vital need of sound legislation.

It is learned that there is hardly any probability that the collectorship, postmastership or any of the other offices for this section will be filled with Democratic appointees at any early day.

Warner Miller now says that \$65,000,000 will complete the Nicaragua Canal. Who then is to get the remainder of the proceeds of the \$100,000,000 worth of bonds which the company proposes to issue.

Speaking of the contested election case from the fifth district of this State, the Washington correspondent of the Richmond Times says that Maj. J. W. Graham is "counsel for Settle, the colored man who holds the certificate of election." That drives the iron to the soul.

## LOCAL NEWS.

### NEW ADVERTISEMENTS.

Howard.  
W. M. Watson—Notice.  
A. & N. C. R. R.—Change of schedule.  
Dr. J. W. Duguid—Professional services offered.

The water works are progressing rapidly and they add another important public enterprise. The next to follow should be electric cars.

The latest cholera advices indicate that cholera is spreading considerably in Southern France, while there does not seem to be material increase in Germany.

Mr. Charles Hall brought in a mammoth bunch of croakers yesterday as the result of his hook and line fishing. We have not heard Charlie say how many there were but those who saw them think he had about a hundred.

About 200 colored people came in on the excursion from Raleigh yesterday and a few white people. The car reserved for white people was only about half full.

We notice that Mr. Shepard Bryan, one of New Berne's most promising young men who recently commenced the practice of law in Atlanta is the treasurer of the new Atlanta organization, "The Society of Atlanta," which is composed of "tar heels" residing in that city.

The Naval Reserves were out drilling on the streets last night in uniform. They presented a very creditable appearance. The uniform is the regular naval white duck, with black scarf, brown leggings and black felt cap.

It has been announced repeatedly that George Pierce Howell of Goldsboro, had received the distinction of graduating with first honors at West Point Military School. On the 13th dispatches placed him second on the list. The latest advices put it right by showing the latter erroneous, and stating as at first that Mr. Howell won the first place.

The Kinston Free Press commends the wisdom and justice of the joint board of magistrates and commissioners of Lenoir county in levying a road tax of 10 cents on property and 80 cents on the poll and says this places the burden of keeping up the roads equally upon all, and will undoubtedly result in better roads.

The State Superintendent of Public Instruction requests the statement that eleven free scholarships in the Peabody Normal School at Nashville, Tenn., are to be awarded to North Carolinians this summer, who pass a satisfactory examination. Names of the males or the females who desire one of these scholarships should be sent to John C. Scarborough, State Superintendent, and he will then arrange for the examinations in the counties where the applicants reside.

The Goldsboro Argus says: The question of "license" was voted upon in Fremont, this county, on Monday, and the town which has been "dry" for a number of years, went "wet." That town and section used to figure largely on the criminal docket during its former "wet" days, but since it has been "dry" there have been few, if any cases—and none of far serious nature brought up from that section. Will "history repeat itself" now that the town has gone "wet" again? We shall see what we shall see.

Deep Sea Fishing.  
The Southport Leader says Southport is to have another seafood company added to the enterprises of that city. The Crammers, E. H. Sr., and Jr., who bought the Blanche Creamer a few months ago for the purpose of deep sea fishing.

On Monday, the Wilmington brought down nine hundred 15, 50 and 100 pound fish barrels for the use of the Crammers, and in a few days the Creamer will leave for a deep sea fishing trip.

There is every reason to believe that this enterprise will prove profitable. There is no better fishing than in the waters along this coast almost throughout the entire year.

Eastern Carolina Dispatch.  
On and after Monday June 19th, 1893, the steamer Garrett will be withdrawn and this line will resume its former schedule. The steamer Neuse sailing on Mondays, Wednesdays and Fridays.  
Geo. H. HARRISON, Agent.  
New Berne, N. C., June 14th, '93.

## OUR PUBLIC BUILDING.

Why the Delay—Other Buildings Being Commenced—Cannot Congressman Grady Push Ours to the Front?

Announcement has been made that the sketch of plans for the new post-office building at Savannah has been commenced. Congressman Lester had a Conference Saturday night with the Supervising Architect and matters will now be pushed.

Not a move for the erection of the Berne building has been made so far as we know since the appropriation of the money and the selection and purchase of the site.

The Washington Post gives a list of over thirty Government buildings authorized by Congress for which no plans had been procured up to February 3d, 1893. New Berne is one of them, but the sketch of her building, thanks to her congressman it seems, is being made with the intention of pushing the work. Cannot Congressman Grady do similarly for us?

Coming and Going.  
Mrs. Philomena Holland, who has been visiting relatives at Morehead City returned home yesterday morning.

Rev. H. W. Battle, D. D., of Petersburg, Va., who has been making a short visit to relatives in the city left for his home.

Rev. N. M. Jurney who has been spending a few days at Beaufort passed through returning to his home near Wilmington, N. C.

Mr. D. F. Jarvis left for a month's pleasure tour. He will first go to Washington city and join his friend Lieut. John B. Hull, of that place and together they will proceed to Macomb, Ill., where Lieut. Hull is to be married; then in company with the bride party Mr. Jarvis will proceed to Chicago to visit the World's Fair.

Dr. H. Snell, dentist of Washington, N. C., came in last night en route to Morehead city where he will remain a couple of weeks. He went down on last night's train.

Rev. W. E. Edmondson, of Morehead, who has been spending a day or two in the city returned home last night.

Mr. Ace Harris, of Raleigh who is to be connected with the Atlantic Hotel through the season went down last night.

Mr. A. Cohn went down to Morehead to look after getting the musical instruments which he supplied and which preceded him in shape for the Teachers' Assembly which commences its meeting next Tuesday.

Mrs. John H. Bell, of Washington, D. C. who has been visiting her father Prof. Geo. W. Neal left in company with her little daughter Miss Lizette to spend a month at the Arendell House, Morehead City.

Mr. Chas. Swager, foreman of the tower erection department in the construction of water works, Mr. Wm. Raines and Mr. Harry Murray of Pittsburgh, Pa., arrived last night from Fayetteville where they have just finished the erection of a similar tower. They, as well as Messrs. Stanton and Wynne who preceded them are stopping at Hancock's Boarding House.

Mrs. Annie Anger and children left by rail vessel for Hatteras to spend a month with relatives.

Cabbage and Potatoes.  
Shipments of cabbage which have been going on for several months are now over, but our markets are still supplied with very fine ones in abundance and at low prices.

From the 70 acres which Merars, Hackburn & Willett had in cabbages, they have shipped 12,000 barrels, an average of 170 barrels per acre. The average net returns (that is the return after freight and commission charges have been paid) is \$1.20 per box, an average of a little over \$200 per acre. The gentleman has not yet accurately figured the cost of growing the crop but they know that they have made between \$5,000 and \$7,000 clear money on it. Magnificent profits.

They are now shipping potatoes—have been doing so since the 4th of June and this crop is only about half dug.

Their last three days shipments of potatoes footed up 2,300 barrels. The biggest of these three days was Tuesday when they sent off a thousand barrels. Their potatoes that arrived in the North-east markets Thursday sold \$3.75 per barrel. These figures show well.

The early crops being off these fields will next give a fine crop of hay which will end the yield from them for this season.

A Cool Burglar.  
On Saturday night a burglar entered Dr. Pritchard's residence at Wrightsville Sound and boldly entered a room where two young gentlemen were sleeping, robbing one of a valise containing some valuable clothing. He, however, left the wearing suits of the young gentlemen, containing over \$300 in cash. After taking the valise the burglar went into the dining room, lighted a lamp and colly took out what the mdeboard contained and helped himself to a substantial supper, even putting the butter on the table. When he left he wrapped a large roast of beef in a newspaper and carried that along with his valise.—Wilmington Messenger.

## BILLS ALLOWED

Bell furnishing material and building across Long Creek \$374.50

Teachers' Assembly Notes.  
The teachers of music in the schools throughout the State will meet at Morehead City next week to organize a Music Teachers' Association in connection with Assembly work. The programmes in future sessions of the Assembly will set apart a special Music Day, all the exercises of which will be in charge of the Music Association and will include a vocal concert in which every selection, grand or instrumental, will be rendered by a professional teacher.

Members of the Assembly are already gathering at the Atlantic Hotel and there are now more guests than ever before so early in the season.

A great many rooms have been engaged for members of the Assembly, and Mr. Perry is faithfully reserving the best of accommodations for all who apply in advance. A good number of the World's Fair party will be at Morehead City so as to get acquainted with one another and talk over the anticipated pleasures of the trip.

The Assembly programme is just from press today and it is replete with new and valuable features of educational work, and the scope and variety of important subjects discussed have never been excelled. All the school and college contents are full of entries and those occasions will bring together many hundred friends of each institution represented.

The work in Physical Culture, by Miss Corinne Harrison will be of the greatest possible value to the teachers. Miss Harrison is a North Carolina girl, from New Berne, who by hard work and careful study has become one of the most expert teachers in the Swedish system of physical culture that is to be found in our country. The instruction imparted by Miss Harrison will alone amply repay any ambitious teacher for the expenses of the trip to Morehead City.

The Association has, by the courtesy of the railroads, the lowest rates of fare that are given to any organization in America, and the Atlantic Hotel furnish the best of board and other accommodations to all who attend the Assembly for only \$1.00 a day.—Cor. News & Observer.

Musical Instruments for the Assembly.  
Mr. A. Cohn, Proprietor of the New Berne Music House who supplied the Teachers' Assembly with the highest grade musical instruments will do likewise this year. In fact they have already gone down. There is a Melhio Royal R. and a Newby & Evans piano and an Edna six octave piano-organ. These instruments were obtained specially for the Assembly's use, and New York critics examined them carefully before they were shipped and pronounced that there was no superior to them.

Mr. Cohn will also send down a few instruments direct from his music house.

Will There be Summer Rates?  
ED. JOURNAL: What has become of the summer rates for travel to the western part of the State? Tickets good for return up to October 31st have heretofore been on sale by the first of June, and an advertisement of them is a great aid to persons in laying out plans for the summer recreation. If the companies have yet it would be a favor to let it be known, and conditions as to lay over permits etc.

The State Normal and Industrial School For Girls.

Rev. T. H. Pritchard, D. D., of Charlotte, who participated in the recent commencement exercises of the State Normal and Industrial School at Greensboro, writes in the Charlotte Observer of the training given girls there as follows:

They say in Greensboro that there are three ways in which you may know a Normal girl: she doesn't flirt with the boys; she walks erect and throws her shoulders back well; and she has a large waist. Dr. Biting, one of the most superior and interesting women I have known, the professor of physiology and hygiene, has taught the girls that it is their business to be strong and healthy to make a fine animal of themselves and that lacing is not conducive to health and comfort, and she has induced two-thirds of the girls to discard the corset.

The wasp like figures, so conspicuous at such schools, was not to be seen here. I can't say that I think the female figure so symmetrical or graceful without the corset, but I have no question that as regards the matter of health, this innovation is a wise one. And we would soon become accustomed to the change and think our loved ones as fair and beautiful without the spider waist as with it.

I have no question but that the Greeks and Romans admired their lovely women as much as we do ours, and they wore no corsets. If the ladies won't think me guilty of high treason I will say that in my poor opinion the costumes of those ancient people were far more comfortable, especially in summer, and healthier, too than the style in which our women dress. Indeed lacing has been carried to such disastrous extremes that our women can hardly, with a good grace, ridicule the Chinese: women for punishing themselves by lacing their feet until they are deformed. But I had better stop, for I am on dangerous ground, and might get myself into trouble.

"Economy is Wealth."  
We have just received a new lot of silk umbrellas. Among the lot is a 26 inch Gloria silk one. We will sell them to you for \$1.25. That's economy in an umbrella. They will wear well. Do not split and will make a good sunshade.

New lot of scarfs and 4 in hands in neat effects of summer silk and crepe de chine.

New lot Kangaroo Bicycle Shoes at \$2.50 and \$3.00. See us for what you need.

J. M. HOWARD.

Sir Knights, Attention!  
The regular convocation of St. John's Commandery Knights Templar will be held at the asylum this Friday evening at 8 o'clock. Business of great importance to be transacted. All Sir Knights are earnestly requested to be present.

By order Eminent Commander.  
E. B. HARRISON, Recorder.
