Colonel William R. Morrison thinks it will take a very long time to repeal the Sherman silver law.

The reported abdication of King George of Greece is unfounded. The story seemed to us to be preposterous.

Butler is canvassing North Carolina, and Watson is stamping Georgia. Two populists masquerading as Alliance men.

The Duke of York and Princess May of Teck were married in the Chapel Royal, St. James' palace, last Thursday morning July 6th.

Minister Blount is anxious to get away from Hawaii. Blount is right. They are talking about shooting him out there, and the thing don't set well on his stomach.

Everybody knows that the Atlanta Constitution is a great newspaper. Well, the Constitution says: "No Southern daily has sounder and more thoughtful democratic editorials than those which appear in the columns of the Wilmington Messenger." True, oh king!

Some folks are criticizing Cleveland's letter to Tammany. They say it is not English. Who expected the President to write English to Tammany? Bravos with their war paint on! Why Paul Falsion tried that on the Obachaws and it didn't work. Cleveland's no fool.

The cause of woman's education receives new stimulus in the South by the action of the trustees of the University of Alabama at Tuscaloosa, and of the Tennessee State University in Knoxville, in voting to throw open their doors to the daughters as well as the sons of the two States. In the former they must be at least eighteen years old; in Tennessee it will be sufficient for them to have reached the age of seventeen. The women of Knoxville are raising a fund to build a dormitory for the girls.

One Col. Lee Randall, the editor of a concern called The Voice, published in Washington, and a member of the executive committee of the Br. Metallic League, declares that President Cleveland is the "paid attorney of European money interests." This is now and the record will have to be revised. It has been taught and is largely believed down here that he is "the tool of Wall street." It appears, however, from Col. Randall's statement, that he is owed abroad.

The burglar's tools which he left seem to be a complete set.

### The Sherman Law.

ED. JOURNAL.—As the exact status of the Sherman Law from a political standpoint, seems to be not understood by many, I offer the following as throwing some light on the subject.

First I give you an extract from Senator D. B. Hill's letter to the Tammany people on the 4th inst., as follows:

"The unconditional repeal of the Sherman act, against the enactment of which, to their credit be it said, every Democrat in Congress voted, is the first and essential step in the right direction. Such repeal is necessary to lay the foundation for enactment of that legislation which shall lead us to the goal of that free domestic coinage to which a lot of the great political parties are already committed."

"With an honorable peace with all nations abroad and harmonious relations prevailing at home, with commercial confidence restored and true elections guaranteed, our country will enter upon a new course of unexampled prosperity and recovery. The full benefits of such a course will be realized only when our free American institutions are firmly established."

"Your fellow-citizen,"

Then an extract from the Democratic platform promulgated at Chicago in 1892 upon which the party entered the Campaign and won such a remarkable victory:

"We denounce the republican legislation known as the Sherman act of 1890 as a cowardly make-shift, brought into existence in the face of the possibilities of danger in the future, which should make all of its supporters, as well as its author, anxious for its speedy repeal. We hold to the use of both gold and silver as the standard money of the country, and to the coinage of both gold and silver without discriminating against either metal or charge for mintage, but the dollar unit of coinage of both metals, must be of equal intrinsic and exchangeable value, or be adjusted through international agreement, or by such safeguards of legislation as shall insure the maintenance of the purity of the two metals, and the equal power of every dollar at all times in the markets, and in payment of debt; and we demand that all paper currency shall be kept at par with and redeemable in such coin. We insist upon this policy as especially necessary for the protection of the farmers and laboring classes, the first and most defenseless victims of unstable money and a fluctuating currency."

Comment is unnecessary. All Democrats must see where to stand.

**BIG IKES ANSWER TO IDA BELL.**

My dear little Ida Bell I hardly know what to say.

As I was much surprised when I heard from you today.

I am at a loss for words to suit you best.

But trusting all the same that they will stand the test.

I am receiving letters from far and from near.

And it seems to me that some one seems to dear.

While such is the case and I must take the time.

To answer your kind letter (if I can) to make it rhyme.

My wealth I acknowledge: has come to my hands.

And with the "sweat of the brow" I have toiled with the hands.

I appreciate good luck no misfortune has me befell.

I am proud to inform you of my sweet Ida Bell.

My history that you've read I will say it is true.

I'm a man of great renown every one will say to you.

That Big Ike is a man of a friend he'll remember well.

And especially of you my girl my sweet Ida Bell.

Your affections are ahead of mine and everybody know.

That the love of a fairer sex doth on man bestow.

Good qualities at all times and a big heart in him swell.

And cause a love for a maid so fair old sweet Ida Bell.

I will not keep you waiting for an answer to you.

I will send at once at your request with a welcome howdy do.

And will hope in the future by good dealings to do well.
