**ONE OF** the most satisfactory things about a Columbia Bicycle is the price. Owners of this wheel know they own a bicycle worth the price. \$150, because Columbia are never at any price 60¢ for less. Heavy disc wheels are given on many other wheels, but at \$150, because they are not worth the price. The discount varies as does the patience and persistence of the prospective purchaser. Moral: Buy a Columbia and know that you stand beyond the shadow of a doubt in the best on Earth. 100,000 wheelmen ride Columbia. W. T. Hill & Co., Sole Agts.

**DUFFY'S** (Doughnut) Bread—A preparation which has been in use for many years, and is a satisfaction to all who have used it. Composed of Vegetable Aromatic, Astringent, Carminative and Antiseptic. Pleasant, Harmless and Effective. For Dyspepsia, Indigestion, Stomach Complaints, Cholera, Cramps and Pain in the Stomach. This medicinal bread is sold by J. W. Hill & Co., Mr. W. H. Beecher, Mr. John B. Young, and a number of other citizens of this and surrounding counties. For sale by dealers in the adjoining counties. F. S. Duffy.

**News from Washington** is to effect, that Silver men are more confident.

**Louisiana** claims a boy ten years old who performs astonishing feats as a mind reader.

**The census** in Georgia ought always to be taken at the height of the watermelon season in order to show the best results.

**President Cleveland** is not so sick as has been reported. Joe Jefferson has visited him and says it is on a slight attack of rheumatism.

**A farmer** living in West Virginia claims to have three letters in the original handwriting of George Washington, but says they are not for sale.

**Wednesday** the 5th was the hottest day that we have seen reported. The hottest place in the United States was Dodge City, Kan., where the thermometer registered 103.

**The King of Portugal** receives a salary of \$400,000 a year, the Queen \$33,000, the Queen dowager \$20,000, the Prince Royal \$20,000, and the Duke of Oporto, the King's brother, \$20,000.

**The Washington Post** says: The admirers of David Bennett Hill revert with pleasure to the fact that he never took a vacation when there was a Republican officeholder to be beheaded.

**The death of Justice Samuel Blatchford** makes a vacancy on the United States Supreme Court bench. Secretary Gresham is mentioned for the place, but no one can forecast one of President Cleveland's appointments.

**Five entire families** were blown away by the cyclone in the neighborhood of Fondas, Ia., Thursday night. The town of Pomeroy was almost devastated by the same storm. Between fifty and one hundred persons were killed and 200 wounded.

**President Cleveland** is known to believe that the covenant between the people and the democratic party involves an early and thorough revision of the tariff. He has been impatient to get the silver question out of the way; not only for the restoration of business confidence, but to make the path clear for tariff reform. It is believed that the leaders of the party in both houses are of the same mind, and that a new tariff law, framed in accordance with democratic principles, will be enacted early next spring.

The delegates in attendance upon the International Christian Endeavor Convention, which is being held in Montreal, were hospitably welcomed to that city by the Catholic Mayor. Such an event may well cause bigotry on both sides of the border to rub its eyes in amazement. Yet nothing could more happily illustrate the trend and spirit of religion, sentiment in these latter days, nor better attest the progress which the world is making, intellectually and morally in this Columbian epoch. Record.

Although it is admitted that Admiral Tryon was to blame for the Victoria disaster, Admiral Markham is in an unpleasant predicament. It is a law of the British navy that a subordinate need not obey the order of a superior, if he knows that the order is wrong and certain to involve an accident. That Admiral Markham believed this of Admiral Tryon's fatal order he confesses; but if he had refused to obey, and the other ships had successfully carried out the order, he would have been court-martialed, and as he did obey, he will also be court-martialed. So he is peculiarly unfortunate.—Richmond Times.

## LOCAL NEWS.

**NEW ADVERTISEMENTS.**  
Howard, Nunn & McSorley—Refresh yourself.  
A. & N. C. R. R.—Double train schedule.  
Wilson Collegiate Institute—No superior.

Regular meeting of the Naval Reserve tonight.

Delightful crop growing weather and the farmers are taking advantage of it.

Mr. L. D. Gaskill of New Berne, N. C. was married in Washington City July 5th 1893, to Miss Mary Irene S. Hill, of Dickinson Md.

Owing to slight sickness of the Pastor, Rev. D. H. Petree, Rev. Edward Bull very kindly filled the engagement at the Church of Christ Sunday night.

All the Congregations follow the example of Dr. Nevils and demand space-rates for their views. Congressional "views" will soon be mighty scarce in the newspapers.

Great Surgeon General Wyman of the Marine Hospital service! Extract what happiness you can out of his latest official utterance—"We have an even chance of escaping the cholera." Just suppose the chance was odd.

Secretary Morton says "the stamp of the Government is merely a certification of the weight and fineness of the coin, and not an enhancement of its value." Why then does the 53-cent silver dollar buy a hundred cents worth of merchandise?

The new railroad is moving forward well in the city. It has now been extended to near the Frog Pond—big pardon—Taylor's junction, we mean. The frog pond is buried now.

The ladies of the Missionary Society, of Centenary M. E. church will serve ice and cake on the Academy Green tomorrow, Wednesday evening from 8 to 11 children served from 6 to 8. The proceeds for the benefit of their work. A cordial invitation is extended to all.

Mr. D. F. Jarvis received a telegram announcing the death in Wilson of his friend, Mr. G. T. Davenport, a traveling man who has made frequent trips to our city. The deceased was a brother-in-law of Mr. L. F. Tillery who a few years ago had charge of the telegraph office in New Berne.

The Kingston Free Press is urging the establishment of canneries and pickling establishments. There is no good reason why they should not abound in this section. An outfit for either would cost but little. Truck products for the use of such industries grow to perfection and the work can be done as cheaply here as anywhere.

Further details from the Iowa cyclone show it to be one of the most severe that has ever been known in this country. The little town of Pomeroy is no more. Two hundred and eight residences including seven churches were swept completely off the face of the earth, not a board being left. Besides the loss of life in that town alone, property was destroyed to the amount of \$300,000.

**Doubtless Infanticide.**  
A newly-born white infant floated by the A. & N. C. R. R. wharf at Morehead City Sunday afternoon between two and three o'clock, drifting from South to North. A portion of one cheek had been eaten off, also a place on the body.

Judging from appearances it had either been cast overboard or towards the sea or had drifted out that way and then drifted back. Before a boat could be procured the little one was out of sight and search failed to discover it. It was seen by Henry Willis, of Morehead, watchman for the A. & N. C. R. R., by Jas. Foreman, of New Berne and by some colored men.

## THE DOUBLE DAILY.

**How the Additional Train Works and What May be Expected From it.**

We have yet to find the individual anywhere along the line of the A. & N. C. Railroad who does not express his or her strong gratification at the good service the officials are now giving us in running the double daily train.

One of the passengers on the train told us that it left Goldsboro with about ten o'clock, the number was increased on the way. Several got out at New Berne and the third of New Berne for Morehead which at the moment passengers among them a pretty fair number of New Berne, that is, in the neighborhood of New Berne.

We consider that this patronage for the double train is very good especially as the number of the trains are not yet fixed in the public mind owing to the short time that has elapsed since the announcement was made that the train would be put on. A small amount of advertising has led some of the announcement was made. This is the first time this morning.

Mr. Lovitt Hines, of Dover, who recently boarded the double daily train, and who afterwards putting up a saw mill line one town with it was one of the passengers yesterday both to and from New Berne. He expressed his delight at the new arrangement. "Why," said he, "I can run down every day now."

Those on the side of the city but bear it in mind because they can come here, transport their families and get back to their homes the same day.

There is a possibility of being pleased because if they wish to make a first visit to Morehead they can do so, or if they are called back to the office of Goldsboro, they can do so without waiting for the afternoon train, and transact any business they wish to before starting.

We believe that the double daily will be a great success. As the convenience becomes known patronage will increase. It will not simply divide the former business of the one passenger train between the two but will make more business for the railroad, attracting patronage and will not only benefit the road but also every place along the line and will by better developing the country cause the patronage to continue to increase.

The double daily is the right thing for New Berne, the right thing for the road and the right thing for the whole country the road passes through.

Owing to a falling of the weather, Dr. C. J. Hinton, of Newton Grove, Johnston county, who has been visiting his father, Dr. J. H. Hinton, left yesterday morning retaining home.

Miss Lottie Roberts, of Beaufort, accompanied by her cousin, Miss Theresa Roberts as far as Morehead, left returning home.

Mr. James A. Bryan, Mr. and Mrs. P. H. Pellitter and Miss R. C. Brookfield, came up from Morehead on the afternoon train.

Mr. Chas. W. Roberts, left for a short vacation at Morehead and Beaufort.

Presiding Elder Swindell was among those who passed through on the additional train yesterday from Goldsboro to Morehead City. He was en route to Beaufort. The following New Bernians took the round trip on this train: Messrs. L. H. Cutler, T. C. Daniels, J. J. Wolfenden, Dr. R. S. Farnose, Prof. G. T. Adams and Mrs. J. A. Meadows and children. This shows the appreciation of the convenience afforded by the train.

Mr. W. J. Ramsey, of South Boston came up on the same train to visit Mr. T. W. Dewey. Mr. Ramsey will be remembered as the singer who assisted Evangelist W. P. Fife in his last meeting in New Berne.

Mrs. H. J. Lovick, Miss Mollie Heath and Miss Margaret Bryan left for Pittsburgh.

Miss Lizzie Murphy, of Raleigh, arrived to visit Miss Annie Sanders.

Mr. A. M. Baker representing the Trade Review left on the steamer Neuse on a business trip.

The following parties who have been spending a week or so at Morehead came up yesterday morning: Mr. E. K. Bishop, Miss Lillian Roberts, Miss Ada B. Schenck and Mrs. N. M. Gaskill and her daughter, Miss Vidie.

Mr. Wm. A. Faison and family are visiting his mother, Mrs. Martha Morris.

Rev. C. G. Vardell went upon the afternoon train to prepare for the Sunday School Convention which meets in Goldsboro this week.

**Obstructions to the Sidewalk.**  
There is a feeling of quiet approval among our citizens in reference to the action of the city council against allowing front gates that are to be built in the future from opening outward on the street. Many a time a half open gate means considerable annoyance to passers especially in the night time. The same is true of cellar doors, steps, etc., which take a portion of the sidewalk.

And yet a radical change abolishing them all at one fell sweep might not be wise. The gradual course of letting those in existence serve their allotted time and then preventing their being replaced by any having the objectionable features is conservative and no doubt the proper and best thing to do. Let the good work be carefully continued.

## THE ENCAMPMENT.

**Great Preparations and Bright Outlook—Thursday It Commences—Military Ball.**

The preparations for the encampment are about complete. White tents of which there are now nearly 400, pitched—each of which is to be occupied by two soldiers, now meet the eye of the passengers on the A. & N. C. R. R. who look toward the sound as Morehead City is being approached.

The cook and mess houses are all ready as are also the pavilions.

The rifle range will be 500 yards long, 12 feet high and 15 feet thick. This will stop all balls so that there can be no danger.

At a proper distance in front of this will be a four foot embankment, behind which the judges will be.

The target will be between the two embankments spoken of.

Two members from each company that is to attend passed through last night en route to the grounds. These are detailed to see that everything is in proper shape for the company each represents. The body of the troops will pass through Thursday, some are expected to be on each train that day.

The first and second regiments will be in the encampment. They embrace the companies of Wilson, Rocky Mount, Tarboro, Washington, Greenville, Louisburg, Raleigh, Clinton, Goldsboro, Wilmington, Lumber Bridge, Maxton, Elizabethtown and Charlotte.

They go down as we said on Thursday, and on Friday night everything will be made lively by a grand military ball at the Atlantic Hotel.

A very cheap ticket will be put on from Goldsboro and the other stations on the line of the A. & N. C. R. R. for either the morning or afternoon train of that day. This is to accommodate the large crowd who wish to go to Morehead to attend the ball.

We are informed that quite a number of our young people are getting ready to go down.

The encampment will no doubt be a great success. A grand point to be remembered, is that the site selected is a young grove with such surroundings that there are no sand flies, mosquitoes, dust or deep sand to contend with.

The soldier boys will appreciate every one of these advantages.

## The Boy-Shooter and House-Breaker.

John Henry Wells, the seemingly confirmed ten-year old thief and star robber who has been giving so much annoyance recently and who was out of jail under bond and who capped his climax of meanness by shooting a boy in the arm without provocation, was gotten on the track of by Policeman Elliott Sunday, who was searching for him for the last offence. On finding himself getting hard pressed he took refuge in an ice box of Emanuel Fisher col; and was there captured.

After examination before Mayor Ellis yesterday, he was re-committed to jail, not being able to give bond.

Upon being taken to jail he was searched and the discovery was made that he had actually been stealing while he was in the police station under guard and with leg irons on. There is kept in a drawer at the station meat tickets meant principally to be used when a prisoner has to be fed which there is an understanding with certain cheap restaurants that it is all right to furnish meals on. Wells had in some way got to the drawer and stolen thirteen of the tickets without being detected until the search of his clothing was made. He is not quite ten years old and is no doubt the toughest fellow of his age this city has ever produced.

## Experimenting With Potatoes.

Mr. Asa Arthur, of Emul exhibits at our office samples of some very fine Irish potatoes that he raised this year. Two of this variety formerly dug weighed three pounds. Mr. Arthur has been experimenting a number of years to the extent of the potato and informs us that he has harvested from a small plot of ground that yielded at the rate of two hundred barrels to the acre.

Accepting this to be true, and we have no reason to doubt it, it means from five to six hundred dollars to the acre, and with the prices that were obtained in 1891 it would double these figures.

The potato is most often a valuable crop, but when prices are not sufficiently remunerative to justify shipping it can be carefully preserved for home consumption, and there is a growing demand for the potato in the manufacture of starch and for other purposes.

"He is richest who is content with the least."—SOCRATES.

It is a great thing to be content, but you will never be so if you do not try Howard before you buy your clothing, hats or shoes. Now while our clothing stock is somewhat broken is the time to get a bargain in a suit, bring your money along and see how well you can do. Just in by mail a new assortment of shirt studs. They are not only cheap, but durable. See our Black Half Hose at 15 cts per pair.

## ERRORS IN SCHOOL BOOKS.

To all Persons Interested in the Advancement of Learning.

It is a well known fact that the most common error in school books is the omission of the word "and" between two nouns or adjectives.

For example, "The boy and girl" should be "The boy and girl." "The man and woman" should be "The man and woman."

Another common error is the omission of the word "the" before a noun.

For example, "The king of France" should be "The king of France." "The president of the United States" should be "The president of the United States."

Another common error is the omission of the word "of" before a prepositional phrase.

For example, "The king of France" should be "The king of France." "The president of the United States" should be "The president of the United States."

Another common error is the omission of the word "in" before a prepositional phrase.

For example, "The king of France" should be "The king of France." "The president of the United States" should be "The president of the United States."

Another common error is the omission of the word "on" before a prepositional phrase.
