**The cholera** has appeared in Berlin in a colony of Polish workmen.

**Bimetallism** is all right in our great sister republic, France.—**Recorder.**

**The bank of England** has not as much gold as the Treasury of the United States.

**Why does not Congress** obey the Chicago platform and repeal the tax on State bank issue.

**The tariff question** is undoubtedly destined to become the dark water of the financial situation.

**The indications** are that O'Fera will sweep everything before him in the Virginia Democratic State convention.

**We were informed** that the Ohio campaign was to be a high-toned affair, but Larry Neal is this early in the game being accused of having written a poem.

**The Providence Journal, Ind.** says this and its fellow exactly: "Mr. Thomas B. Reed seems to be fully as sharp, and sarcastic as ever and not a bit nearer the level of an honorable and patriotic statesman."

**Hyde county** has perhaps the finest corn crop that it has had for years. It has been said of it that it raises corn enough to supply the State, and while we think this is an over estimate, yet it raises a very large amount.—**Washington Progress.**

**One of our exchanges** recently reported a farmer as selling over 400 pounds of tobacco for a little more than he would have made from it. It is clear that he ought to quit making tobacco and give his time to hog raising. It was either very poor tobacco or very lean prices for good tobacco. Raising something to eat first is much better than making all tobacco or all cotton. That farmer's hams "saved his bacon."

A London letter states the financial outlook in that part of the world is exceedingly black, never more so within the memory of the oldest inhabitant. Business is completely at a standstill. There is nothing doing and no money to be got hold at any price

**D. L. Moody**, the evangelist, in replying to a memorial from London ministers asking him to conduct a great mission this winter, in conjunction with Mr. Sankey, says that his home work has more claim upon his attention at present, but that probably he will comply if the request should be renewed in 1894

England is feeling it now. In a week its great bank has been relieved of much of its gold, to balance exchanges and supply the demand for shipments to the United States. In seven days the Bank of England was relieved of \$7,581,880 in gold. Since 1892, the Imperial Bank of Germany has lost \$34,057,000, in gold, while by way of contrast the Bank of France has on hand \$11,402,382 more metallic reserves than it had in 1892. France uses silver freely.

### LOCAL NEWS.

**NEW ADVERTISEMENTS.**  
Howard,  
Geo. W. Gaskill—Reduction.  
S. Cohn & Son—Fine beef and lamb.  
R. W. Williamson—Notice of summons for relief.

In Thursday's races Mr. M. H. Sultan's horse, Prince Leon, won second money. The weather bureau predicted occasional light local showers yesterday. They came.

Weather to-day: cooler. Fair except occasional light showers on the coast Saturday afternoon.

The Bureau of Labor Statistics at Raleigh is compiling a directory of the industries and manufacturers of the entire State. This will make a valuable addition to our statistical literature.

The Fall trade is close at hand. Those who are wise will advertise well what they have to offer before the rush of the busy season comes. Get your fall trade started right and hold it.

The Colored Fair closed yesterday. Three bands kept the Fair musically lively during its holding. The New Berne Cornet Band, and the Golden Rule Band of James City were on hand all the time and the Snow Hill band a portion of the time.

The rain fall in New Berne Friday was 2.30 inches, the heaviest this year, and yet there was very little rain eight or ten miles from New Berne—either down Neuse river or in the direction of Pollocksville and further up the A. & N. C. R. R., it was much below what it was here.

The Baptists of North Carolina are expecting a great time at their Sunday-school Chautauq, to be held at Mt. Vernon Springs, Chatham county, August 22d to 27th. Sunday-schools and their relations to the church, methods of teaching, &c., are to be considered by leading workers.

**Goldsboro News:** "There is a man on Brushy Mountains who secured two Bibles from the Rev. Thad. L. Troy, who is representing the American Bible Society in this country, and went to Wilkesboro and pawned them to a barkeeper for whiskey. Mr. Troy is doing a good work, but such as the above is rather discouraging."

Rev. Levi Branson has commenced work preparatory to his fourth volume of North Carolina Sermons. The last volume contains thirty first class sermons by thirty ministers from various denominations in our State. One of them "The Rich Fool" is by our townsman, Rev. J. F. Butt. The work contains over 800 pages and sells in cloth binding for \$1.00 and paper binding for 50 cents

There are still places on our streets where the water stands in such quantity during a hard rain that they need remedying even if the annoyance is only temporary. One of the worst of these is the sidewalk of the square on Hancock street, east side, between Queen and Johnson streets, the one most used in going to and coming from the depot. During heavy rains the use of this sidewalk has to be abandoned, and the middle of the street used. Drain the water to the aqueduct.

Winston-Salem would go up the scale of progress rapidly, says the Sentinel, if the following observations from an exchange were closely adhered to by every citizen, and it bears equally with New Berne: "A perfect town is that in which you see the farmers patronizing the home merchants, the merchants patronizing the home printers, the laborers spending the money they earn with their own tradesmen and they buying their things at home instead of going abroad. The spirit of reciprocity between business men and mechanics, tradesmen and laborers, the farmers and manufacturers, results every time in making the town a good one for business."

### EXTRACTS FROM GOV. CARR'S ADDRESS

Proposed at the Richmond Convention for the Chicago Exposition

**FISHERIES.**  
The waters of the Eastern section are quite as fruitful as the land, yielding always an abundant and fruitful harvest where judiciously worked. From the one port of New Berne alone there were shipped last year 63,000 packages of reliable fish, consisting of seventy varieties. Probably the largest fishing plants in the world are the shad and herring fisheries of the Albemarle section, notable among which are those of Edenton and Avoca. Scines 2,400 yard long, taking at a single haul 350,000 herring, or 6,500 shad, the "shootings" and hauling all done by steam, the "catch" being disposed of fresh in the Northern markets to which they are accessible.

Oyster culture in North Carolina may be said to have its infancy. The State, viewing with alarm the deterioration of the oyster waters to the north of the James river, has taken prompt action, lest her beds also suffer depletion, enacting wise laws to protect the interest and to promote the growth of an industry which, if wisely managed, will eventually yield an immense revenue to the State and individual.

In quality and quantity where cultivated the North Carolina oyster cannot be excelled.

**LUMBER.**  
Here, too, in the Eastern section, is the home of the lumberman. The many penetrating like a net-work the entire section, and more lately the introduction of well equipped lumber roads, has developed this interest to a point beyond belief, and yet it continues to expand, the timber seeming to be inexhaustible. Lands that were denuded of timber forty years ago are again yielding a second crop. But this lumber interest is by no means confined to this eastern section, but extends to every part of the State. The whole area of the State was originally timber covered, except a few tracts of "swampy" lands in the east and a portion of Mecklenburg county, and from one-half to two-thirds of it is still in this condition.

The great variety of soils, together with the wide range of climate, give rise to a remarkably rich and varied flora, while the highest mountain section of the west is covered with forests of spruce, fir and other trees common to the lake States and Canada, the middle and seaboard section luxuriate in the pine and cypress of a more southern latitude.

There are three well marked and broadly distinguished forest regions in the State, corresponding almost identically with the three geographical divisions. Pine and cypress on the seaboard; long-straw pine in the middle, and almost exclusively hard wood in the mountain section. The total number of trees being found is about 115, and twice as many of shrubs, which together give our forests an aspect of wonderful richness and variety.

**Coming and Going.**  
Mr. A. H. Hamblin who has been in New Berne a few weeks went up to Kinston to spend a week. He will then return to New Berne.

Miss R. C. Brookfield returned from Kinston where she has been visiting friends.

The steamer Newberne of the N. W. N. line took out the following passengers: Mrs. Sarah K. Hollister and Misses Nettie and Sadie Hollister, Mary Slover and Mary Guion leaves to take an extended pleasure tour in northern States. General and Mrs. Chapin leaving to spend a winter at the north, and Mrs. Jos. Mullen, of Baltimore, and son who have been summering at Morehead City returning home.

Col. A. W. Shaffer, Raleigh post master is in the city stopping at Hotel Albert.

Mrs. R. A. Willis returned from Chapel Hill where she has been visiting relatives. She was accompanied home for a visit by Mrs. J. E. White and Mrs. Sallie Mosely, relatives from Mississippi.

Mr. John R. Thomas who has been visiting relatives at Charlotte returned home with his family.

Mr. Fred Leo, who with his brother was engaged in selling Indian medicine here a few months returned to the city on the steamer New Berne.

Mrs. Bettie Hussey who has been visiting relatives in the city and at Adams creek, left on the steamer Plymouth of the E. C. D. line for her home in Elizabeth City.

Mrs. B. B. Davenport returned from Seven Springs.

Miss Mamie Simmons returned from Goldsboro where she has been visiting relatives.

**Crank Pin Broke.**

The forward crank pin of the regular mail and passenger train broke yesterday morning three miles from Newport. The engine could still run but it was disabled so it could not pull the train. The freight train was only a few miles behind and learning of the accident the engineer dropped his train and brought the mail train on to New Berne.

The injured engine came up afterwards and another engine went down after the freight train.

**Virginia Convention.**  
At the State Democratic convention in Virginia O'Ferral was nominated for Governor on the first ballot receiving 1,146 votes. Tyler received 800; Buford 158. R. C. Kent was nominated for Lieutenant Governor.

The money and tariff plank of the National platform were endorsed.  
**Died.**  
At his residence in this city Friday morning, August 18th, at 7:30 o'clock, Charles C. Green, aged 46 years. The funeral will take place from Christ church, Sunday August 20th, at 9:30 o'clock.

**Turtle's Tenacity of Life.**  
Sheriff W. B. Lane by way of variety in connection with the snake stories so often told gives us the following two turtle incidents:

Mr. Aleck Riggs who lives near Fort Barwell is considered authority on loggerhead turtles. He holds that the proper way to kill one is to cut off its head just back of the eyes. This penetrates the brain and causes quick death.

Mr. Riggs's brother, Mr. J. Wm. Henry Riggs was preparing to cook one one day and started according to this approved plan to dispatch his turtleship but instead of going straight through the knife cut a diagonal course and one of the turtles eyes was left on his body. Nothing was thought of this and preparations for the cooking went forward. But when Mr. Riggs started to pick the supposed dead turtle up from where he had been placed in order to cut him up and throw him in the pot of boiling water made ready he was found to have vanished and search failed to bring him to light.

It was not known what became of him until a full year afterwards. Then while repairs to the farm fence were in progress he was found in a lock of the fence alive and lively. He had subsisted all that time without a mouth and with only a piece of his head.

Mr. Riggs tells of another turtle that he found some years ago near the South Eastern Canal wedged between two gum stumps. He had been there so long that the portion of his body touching the stumps had become thinner than beyond it and the turtle had likewise assumed the whitish color of the dead stumps.

**Will Attend the world's S. S. Convention.**

Prof. G. T. Adams has fully decided to attend the International and World's Sunday School Convention which will be held in St. Louis, August 31 to (September 6, to which he was appointed a delegate by the State Executive Committee, and the action ratified by the recent Sunday School Convention.

This meeting will be the seventh International and second World's Sunday School Convention.

**IT'S DANGEROUS** ground that you stand on— with a cough or cold, and your blood impure. Out of just these conditions comes Consumption. You must do something. In the earlier stages of Consumption, and in all the conditions that lead to it, Doctor Pierce's Golden Medical Discovery is a certain remedy. This scrupulous attention of the lungs, like every other form of beriberi, can be cured by it. In severe, lingering Coughs, all Bronchitis, Throat and Lung Affections, and every disease that can be reached through the blood, it is the only medicine so effective that it can be guaranteed. If it does not benefit or cure, you have your money back. Nervous prostration and debility are compared by it.

Even with the worst cases of Catarrh, after you've tried everything else, the proprietors of Dr. Sage's Catarrh Remedy will agree to pay you \$500 if they can't cure you.

### The Encampment at Charlotte

The Third and Fourth Regiments of the State Guard are holding an encampment at Charlotte at Camp Cameron, so called in honor of our esteemed townsman, the Adjutant General. This encampment is not held by the State but is a volunteer proceeding, which speaks highly for the esprit du corps of these regiments, they preferring not to let the year go by without experiencing the discipline and enjoying the pleasures of such a reunion.

Col. J. F. Arnsfield, of the Fourth Regiment being in command, and Lt. Col. Geo. F. Rutzler is the Adjutant. The attendance is very good, there being besides several companies from South Carolina present.

We are glad to observe that the encampment has proved a success in every way, and we wish for the State Guard present not only much pleasure and enjoyment, but also much benefit from the exercises.

The following companies are in camp: Reidsville Rifles, Hendersons Light Infantry, Gaston Rifles, Vance Guards, Cleveland Guards, Calabrus Black Boys, Queen City Guards and the fourth Regiment Drum Corps of Concord.—**News Observer Chronicle.**

With the beginning of the college year, August 31st, 1893, the Trinity College Normal school for teachers will be opened for the instruction of applicants. The college expense ranges from \$91 to \$105 for full scholastic year. This includes room rent, &c. Living expenses, board, &c., are stated to cost from \$117 to \$217. A comprehensive schedule of courses has been arranged for 1893-4.

"Words of others tell the story."  
One of our prominent business men said to us a few days ago that he had bought only two pair of shoes in the last two years. The two pair had lasted him that length of time. It is only fair to say that they wear the old reliable Stacy Adams & Co's. We have just received a new lot. If you need a pair of shoes that are wear resisters do not fail us.
