

THE DAILY JOURNAL.

VOL. XII--NO 125,

NEW BERNE, N. C., FRIDAY, AUGUST 25, 1893

PRICE 5 CENTS.

BUSINESS LOCALS.

MISS Ola Ferbee will resume her Music Class Sept. 4th.
The gentleman having L. J. Moore's Book of Houses will please return same to him at once.

There are riots occasioned by the unemployed. Thy number 300,000 in New York, 150,000 in Chicago, 50,000 in San Francisco, and a vast end almost innumerable multitude scattered throughout the country.

Professor E. E. Barnard, of the Lick Observatory, after six months sojourn among the observatories of Europe, finds that the vaulted Italian skies can not compare with those of California for clearness.

The average yield per acre of potatoes in the United States annually is about eighty bushels, and in Germany 121 bushels. The United States stands sixth on the potato list of the world.

LOCAL NEWS.

REMOVAL--A. E. Hubbard, F. M. Chadwick and H. L. Hall have removed into the house with Mr. L. S. Wood on Pollock St. near the Post Office, where they will be pleased to see all of their friends.

NOTICE--SEVENTY ACRES OF OYSTERS FOR SALE situated in New River, Onslow county, N. C. Bottom is white sand and shell. It is good propagating ground.

THE 1893 crop of receivers seems to be entirely out of proportion to the other products of the year.
The typhoid fever which has been troubling the people of Core Creek has nearly stopped. There has been only one new case recently, Miss Pearl Ispock.

A special drill of the Naval Reserve will be held at the armory tonight. Also there will be street parade. A full attendance is desired by the commanding officer, Lieut. Bishop.

The grass is being mown on the Academy Green and repairs to the Collegiate Institute are in progress preparatory to the opening of the school Monday afternoon.

Prof. Certain from Wilmington will be at Hancock street church tonight at 8.30 p. m. to make up a class in vocal or instrumental music. Every body invited to attend.

The Norwegian steamship Simon Dumois was caught in a hurricane off Cape Hatteras Sunday and came near being lost. Water swept into the vessel putting out her fires, and washing coal dust into the bilge and that choked the pumps.

As Mr. J. W. Stewart's little son was riding his velocipede on Middle street yesterday a mule and dray emerged from the alley adjoining the citizens bank just as he reached it and he was knocked over. Fortunately he escaped with scarcely any damage.

Yesterday at noon the work on Hancock street temporarily ceased, Section Master C. S. Smith who was in charge of it being called to work on other portions of the railroad. The work in the city will be resumed in about a week and the street put in fine order throughout its length.

Work has commenced back of the Electric Light plant preparatory to putting in the additional boiler which is to furnish the power for running the street cars. At the recent meeting of the stockholders of the electric railway resolutions were passed which in substance makes Mr. W. C. Clark of Wakefield, R. I., General Manager.

Meadows' marine railways continue to be one of the busiest places in the city. As fast as one boat is launched another is ready to take its place. The schooners Mystery and Regulator are now on the large ways being over hauled and the steamer Laura on the small ones receiving extensive repairs.

The French elections have fully justified the predictions of the friends of the Republic. While every member of the Ministry has been re-elected, nearly all of its enemies who presented themselves before the people have been defeated.

ENCOURAGING WORDS.

In our endeavor to work for the prosperity and upbuilding of New Berne and this section, it is natural for us to feel gratified that some of our citizens evince an appreciation of the effort and express that the JOURNAL has not labored in vain.

It is easy enough for any paper to boom a place and probably work the scheme successfully for a considerable time, but unless there are sufficient grounds on which to base those strained claims, they are almost sure to react with serious injury.

With all that we have said for this section there are ample facts to back it up. Nature has blessed us with a light quick producing soil that is being fast developed into profitable investments.

Again our fishing and lumber interests connected with the various public improvements that have been going on for the last few years are bound to tell. These steady onward moves are the grounds on which our steady business is held up, and the JOURNAL has endeavored to do its part in all possible ways as a stimulant to the move.

COMING AND GOING.

Mr. and Mrs. C. E. Slover, Mrs. E. H. Ellis, Misses Emma Katie Jones and Lizzie Ellis left yesterday morning to spend some time among the mountains of Virginia. From there they will visit the World's Fair.

Mr. A. H. Hamblin returned from Kingston.
Mr. Jas. F. Brinson and family who have been visiting relatives in Pamlico passed through returning to their home in Morehead.

Mrs. S. S. Duffy and Miss Manie Duffy left to spend some time in Beaufort.
Mrs. F. D. Street, of Newport News is visiting at Mr. S. R. Street's.

Mr. and Mrs. Jas. Jones went down to Morehead to visit relatives.
Death of an Excellent Young Man. Mr. B. L. Churchill, who for over five weeks has been down with Typhoid fever succumbed to the disease last night at quarter past nine o'clock.

The Stanley News tells of a negro child being born there without eyes. It has the lids and sockets but no eyes.
The Lexington Dispatch says Mr. W. E. Holt's new cotton mill will be ready for occupancy probably by the first of October. Mr. Holt will work in both mills 450 employees.

The Durham Sun says: "The stamp collections here this week, in the revenue office, amounted to \$27,477.73. This is a big showing for dull times. The Duke branch of the American Tobacco Co., bought \$15,000 worth on Thursday."

The High Point Enterprise tells the following: "Mr. Gus Dorsett left Randolph county about thirteen years ago. He went from his home to Texas and has travelled in the West extensively. Mr. Dorsett is called the 'Texas Giant,' because he is 7 feet 3 inches high and weighs near three hundred pounds."

The Newton Enterprise says that so great has been the demand for glass jars in which to put up the large crop of fruit that their merchants have found it almost impossible to keep enough of them in stock. It says moreover that the prospects with cotton crop are the best ever had; the stalks are large and vigorous and as full of bolls, blooms and squares as they can stick and are still blooming.

A few new cases of yellow fever have appeared at Brunswick, Ga., but the worst trouble now seems to be that the precipitate flight of the employing classes and the consequent closing of factories, stores, etc., has left about 4,000 people in the city destitute--without means or income and totally unable to procure supplies and with starvation, terrible as yellow fever staring them in the face. The Mayor and Relief committee appeal for aid.

"Make hay while the sun shines. In other words take advantage of a bargain when you see it. At this time of year when our clothing stock is broken if you can find a suit that will please you we'll make the price to suit you. Just bring your money along and see how you can do. Do you need any shirts, we have an unsurpassed shirt worth 75c, take them now for 60. All sizes. J. M. HOWARD."

THE TEACHERS' TRIP.

The Charges in Reference to It Again--Mr. Harrell and What is Said on the Other Side.

Considerable stir continues to be made by reason of the controversy which some who went to the World's Fair on the North Carolina Teachers' excursion trip to the effect that the full party of ones did not receive all the agreed upon money for their trip. This charge is made by one of the party who was at Chicago, by reason of the suspension of usual banking rules on account of the panic and the consequent refusal of the banks in Chicago to cash the money checks which he took with him instead of currency.

He claims to have made the best arrangements possible to get the needed money there expeditiously and the lawyer explained the situation to the members of the party, and then told them that he had ahead seeing the Fair, paying their bills when necessary from their own money and he would reimburse them, as fast as his funds came in. The great majority of them, Mr. Harrell says, appreciated the situation and did this willingly though some did not, and as soon as his funds began to arrive he paid as rapidly as possible to each person every cent that he had paid out for service, while the agreement called for.

Mr. Harrell is a second hand says some members of the party, except six or eight persons whom he has not yet heard from who advanced money in settling those which were to have been paid by him, has been reimbursed in full just as fast as he could ascertain the correct amount due them.

We quote from his last letter: "Having stated the facts in the letter referred to [the first one], I feel it only just to the parties who do not understand the situation and desire information should first correspond with me before publicly making a disparaging statement about me. I did the best I could under the circumstances, and there would be no cause for complaint if any person who may feel aggrieved will write me fully on the subject. I know that there would be no trouble anywhere had the usual rules of banking been in effect in Chicago, and the banks of this city are aware that I did all that could have been done to get the currency by telegram in time for my purpose, and I refer to the banks in this city and in New Berne in proof of the fact."

As to how New Berne members of the party feel in reference to the trip we say that those with whom we have conversed on the subject do not ground any grudge whatever. They say they paid Mr. Harrell the price agreed upon and he carried out his part of the contract satisfactorily doing everything in his power to make the trip both while traveling and while at Chicago a most delightful one and scarcely had they reached home before some of them who had been obliged to pay out some of their own money as spoken of received from Mr. Harrell the sums due them.

As so many members of the Teachers' party are strong and outspoken in their praises of Mr. Harrell's true and faithful performance of every obligation it is hoped that he will vindicate himself fully in everything that has been said derogatory to his character.

The Atlantic Hotel Closes. The Morehead season is over. The Atlantic Hotel closed yesterday and Mr. B. L. Perry, the proprietor, passed through en route to Raleigh on business connected therewith.

The season just closed ranks among the pleasantest in the history of the hotel. There have been more of our people there than ever before and many from farther away, though distant visitors have not equalled in numbers the attendance of some former seasons; beyond doubt, the World's Fair turning many Northward had much to do with this.

Mr. Perry, his estimable wife and all connected with the hotel have vied with each other in making the stay of those who sojourned there during the summer, delightful and how well they succeeded is fully attested by the praises sounded by them from the first day the hotel opened till its close. The great success in this direction is a harbinger of a brilliant season for 1894.

New Berne is Hard to Beat. Mr. J. W. Timberlake who is just back from Danville, Va., says New Berne is good enough for him. There is the cry of hard times everywhere but New Berne is holding her own splendidly, in fact this is true of nearly every coast city.

Some of our young men pull up to try elsewhere but about as often return. If any one wants to strike a booming town and speculate in the desire of making money almost without effort New Berne is not the place, but if a young man wishes to get right down to sound business and build on a solid foundation by rightly directed energies New Berne offers splendid opportunities. We have numerous resources which are on the verge of great development and those who take advantage of them as they come along will reap an abundant reward.

FACTORS BLEEDING THE FISH.

The fish buyers read the articles appearing in the newspapers in relation to the catching of fish in New Berne and they are somewhat surprised with the statement that the fish are being sold at a profit to the buyers. It is stated that the fish are being sold at a profit to the buyers.

The Fortunate South. The North Carolina contingent at a convention held in New Berne, N. C., last night.

The Naval Reserve Trip. The Naval Reserve, Assistant General, who is in the Secretary of the Naval Reserve of North Carolina.

Which is the Best to Try. If you are looking for a remedy that will cure your hair, you should try the one which costs you nothing unless it does help!

These other things can only help your hair. The regular weekly run of the Century Cycle Club will take place this afternoon at 6.30 o'clock.

Card of Thanks. To the many friends who so quickly rendered their prompt assistance yesterday to my boy when knocked down by the mule and dray. I wish to return my many thanks.
