against a schooler sustaining considera. From the constitution drill, every man in 1 so in a taking another and while rehad the schooner hoore run into it. After Pealing a set of rules by rote going this she was made rest to the schooner through all the notions of reviving home but later she caps and and is now beying supposing that he was either drowned an exposed on a shoal near the Congdon trozen. Saturday is cleaning up day The beach drills are omitted after the first month, the other drills are kept up throughout the eight mouths season. These life saving stations are impor-

tant and commendable institution of our Government and whenever action is taken in reference to them it should be in th direction of more fully equipping then and multiplying their numbers. From Cape Hatteras Northward seem

a be pretty well provided for but from there to Wilmington (in which part sea going men inform als there is as much need for them as anywhere; they are few and far between.

We are in the sixth district. It ex ends from Cape Henry, Va., to Wilmingon N. C. It contains twenty-eight or wenty-nine stations and all but four of them are in the northern balf of the district. The four in the Southern half atc. the Cape Hatter's or Ocracoke station, at

the point which its name in heates, the Cape Lookout station sixty-miles farther South and the Oak Island stations, near Wilmington, close together which are eighty miles from the station at Cape district the stations are only six or seven miles from each other. Notice the vast

difference. There should by all means be life saying stations established at Portsmouth and Hunting Quarter and one between Lookout and New river, (Bogue Inlet will most probably prove the proper place for this one) and one at Beaufort Bar If there had been one at the latter place when the Cruiser Wright, of Philadelphia, was lost there some half dozen years ago not one of the crew need have perished while as it was none were

saved. Six, we think was the number, freze t death on the boat and the seventh man died after being taken off. The men were on the disabled vessel three days in otherwise might still further neglect sight of the people ashore and were only 200 yards from them and yet could not from the department in sending out these seek or two in the western part of the be reached-no boat could be got to seed are as follows: them, but a station with its special equip-Mr. Geo. Henderson and family ments could have got the entire number

Under present arrangements the men as should come into quite general use. It shown above have a vacation from active is an annual and consequently must be duty for four mouths, May, June, July re-seeded for each crop, which makes it and August. The vacation is all right; important to grow seed at home. Seed we have naught to say against it, but may be sown from July to October, but wrecks are liable to occur during those the land should always be well prepared months. We believe the month of Au- for it, or, it not, it should be well shaded, gust to lack but little of being as danger- as under a growth of cow-pea vines, or in ous a month as any in the twelve. It a corn or cotton crop, when the seed was during this month that the old should be sown the crop is laid by, Atlantic Hotel, at Beaufort was destroyed Grown in this way it may be of great by a storm, and the terrible storm of last service in enriching and holding the week in which hundreds of boats were land from washing. Its growth is made sunk, scores of lives lost and hundreds of in the cool wet part of the year, and it is thousands of dollars of property at sea ready to be made into hay at a season and along the coast destroyed affords when planters are waiting for cotton to further and ample and present proof of vegotato for first working. This is often the fact, and if it is a fact, the need is a dry time, and the hay can be quickly the year round.

And yet at such isolated and trying ley, and cut all for hay in April or May. work as the life saving station duties call for we do not believe it well to hold the moderate condition, but like some other same men there the year round without forage plants, will pay best where given relaxation. We believe that they can a rich soil. The composition of crimson and will do all the better service for clover hay shows it to be a highly nutribeing off for awhile. But how is this to tious food. It is so rich that for any use be managed f

presents itself to us and which we throw to twelve and thenglet them take turns in their vacation in sets of four, which ill give them the same time off and yet p the full number at the station con-

ment could be made in the efficiency of the service, that is by baying a portion of

of the lack of this provision he had to ROYAL HARING POWDER Co., 106 Wall The Galveston cotton Exchange moved over to us. Boats in the clocks first day of May and ends the fast day of take a long trip to New Berne before he and this entaited a delay of two ser, three day would that much more suffering which by provision in ght maye been availed.
